

POPE ELECTED

Cardinal Della Chiesa, Archbishop of Bologna, New Head of Catholic Church--Will Assume the Name of Benedict XV

CARDINALS O'CONNELL AND GIBBONS NOT AT ELECTION

ROME, Sept. 3.—Cardinal Della Chiesa has been elected pope and will assume the name Benedict XV.

Cardinal Giacomo Della Chiesa, who was today elected pope by the sacred college, in succession to Pius X, who died Aug. 20, was created a cardinal May 25, 1914. He is the archbishop of Bologna, Italy.

He was born at Pegli in the diocese of Genes, Nov. 21, 1854, and was ordained a priest December 21, 1878. He served as secretary of Nunciature in Spain from 1883 to 1887 in which year he was appointed secretary to the late Cardinal Rampolla.

He was appointed substitute secretary of state in 1901 and in 1907 he was elected to the post of adviser to the Holy office.

In 1907 he was appointed papal nuncio of Madrid in succession to Mgr. Rinaldini but this appointment was cancelled three days later. This incident had occurred just before he was made archbishop of Bologna. When Mgr. Della Chiesa was given this post it was declared in Rome that it was mainly with the object of combatting modern religious ideas, Bologna being the headquarters of the National democratic league, of socialistic tendencies, whose members advocated what is known as "modernism" in religion.

It has been 174 years since the last Pope Benedict held the chair of Peter. On his election to the papacy in 1740 Cardinal Prospero Lambertini assumed that title.

It is an interesting fact that the new pope was Archbishop of Bologna while Pope Benedict XIV was born in Bologna.

According to a despatch from Rome at 2.50 yesterday afternoon and received here early today, the White Star liner Canopic bearing Cardinals Gibbons and O'Connell to Rome was not due at Naples until tomorrow. Therefore, it is probable that neither of these two American cardinals participated in the election of the new pope.

First Edition 3,000,000 ARE UNDER ARMS TO DEFEND PARIS

French Capital Removed to Bordeaux as the Germans Advance on Paris—Fighting Continues all Along Line—Battle of Airships Over Paris—Russians Capture Lemberg—The British Defeat German Cavalry in Forest of Compiègne

LONDON, Sept. 3.—The battle whose issue is destined to decide whether history will repeat itself in a second siege of Paris is still raging, according to the latest official announcement here.

Future military historians may write hundreds of volumes about the details of this battle but all the British public knows is that the struggle is the most momentous one that British soldiers have fought since Waterloo.

The official announcement was that continuous fighting has been in progress among almost the whole line of battle. To this generally, the French official communication adds the fact that the allied forces have fallen back toward the southwest to avoid an action which might have been engaged under unfavorable conditions. How far and to what line the allies have gone is unknown. There is no revelation of British secrets, nothing which a patriotic censorship could object to in stating these facts because the German army which is engaging the allies knows precisely where their first line is drawn and the purpose of the center.

BOY BATHER LOSES LIFE

IN CHARLES RIVER BASIN—HE JUMPED IN WHERE BATHING IS FORBIDDEN

The drownings in New England yesterday were:

Edward J. Foley, 19, of 56 Cabot street, Roxbury, in Charles River basin.

James P. Moore, 50, of 20 Ellis avenue, Lynn, at Revere beach.

Hasan Mustafa, 31, of Manchester, N. H., in Merrimac river, near Manchester.

John Walsh, 9, of Adams, in pond at Zylonic, near Adams.

Joseph Mitchell of Newburyport, in mill pond at Newbury.

Gordon Hartley, 13, in Pranker's pond, Saugus.

A dip into the waters of the Charles River basin at a spot where bathing is prohibited cost the life yesterday afternoon of Edward W. Foley, 19, of 56 Cabot street, Roxbury. The boy drowned in seven feet of water.

The accident occurred on the Cambridge side of the river, just below the Harvard bridge. Foley sank so quickly that the efforts of Giovanni Haslan of Derry, N. H., who jumped into the water from the float of the Number Six club, were unavailing.

Made No Effort For Self

The beach at this point elopes rapidly and for this reason the Metropolitan police had issued an order to policemen not to allow any bathers there. Foley was accompanied by Galen Farnham, 18, of 19 Newbern street, Roxbury. Both boys are able to swim a little, but Farnham said, after the accident, that he believed his chum had become confused when he suddenly from himself in deep water.

Foley made no effort to save himself, but after a cry for help sank below the surface. His cry was heard at the Number Six club, a boathouse used by students at the Massachusetts Institute of Technology, and Haslan plunged to the rescue.

Foley failed to reappear, and after diving for 15 minutes in the vicinity of the place where he had sunk, Haslan recovered his body.

BOYS SAVED FROM DROWNING

WHISTLER, Sept. 3.—Two boys were saved from drowning last night when they went in swimming in High pond. They were Louis Kozloski, 8, of West Main street, and Joseph Bashard, Jr., 11, of Green street.

The boys were sinking when James Templeman reached them in a boat. They were revived with difficulty.

DEATHS

LALLY—Michael Lally died last evening at his home, 88 Third street, aged 65 years.

ROURKE—Mrs. Bridget Rourke died yesterday at her home, 7 Chase street, aged 55 years. She leaves two sisters, Mrs. Catherine Murphy of Chicago and Mrs. Mary McNamara of England; one brother, John of Chicago; two daughters, Anna and Mrs. Austin Rourke; also one son, John, and four grandchildren.

THE ROCKINGHAM FAIR

Governor's Day Brings a Record
Breaking Crowd—Over 40,000
in Attendance Yesterday

All roads lead to Salem, N. H., today for this is governor's day, and it is expected that the attendance will reach the 75,000 mark.

The racing card for today is made up of a 3-year-old trot, 2:15 pace, 2:35 trot, a match race between the Charles River Speedway rivals, Demarest, 2:06 1-4, and Major Wellington, 2:05 1-4, and a running race.

Events of Yesterday

Yesterday, the second day of the Rockingham fair, drew over 40,000 people. Automobiles passed in an endless stream into the auto enclosure while trolley cars and trains brought thousands more.

The mecca of the fair patrons was, as always, the race track. An attractive program had been arranged by the management for the followers of the "sport of kings" and early in the day the grand stand filled with a large crowd that clamored for the starter to ring the bell.

The winners of the day's races were: Paces, 2:10 class, for a purse of \$500—Katy Patch, first money; Billy Patten, second money; Trone, third money. Time—2:11 1-2. Katy Patch came in fifth in the first heat, but cleaned up the next three straight.

Cochato trot, heats of 1912, purse \$1000—Won by Cochato Brave in two straight heats. Time—First heat, 2:27 1-4; second heat, 2:23 3-4. Matinee race, 2:15 class, purse, cup—The Councillor winner in two straight heats. Time—First heat, 2:20 1-4; second heat, 2:11 1-4.

Running race, three-quarter mile, all ages, purse \$100—Charles Hargrave winner. Time—2:18 1-2. Trotting purse, 2:14 class, purse \$500—Lady Watts winner of first money; Jonah Man, second money; Morine, third money. Peter Sims, fourth money. Time—2:18 3-4. Lady Watts was first in four heats and second in one.

Pacing, 2:21 class, purse \$500—Othello winner; Ethel Direct, second money; Miss Whitford, third money. Time—2:19 1-2.

The space devoted to the exhibit of cattle was the centre of interest to thousands. Scores of thoroughbreds were quartered in the enclosure, the recipients of continual complimentary remarks from lovers of blooded stock.

Prizes in the Hereford special class, American Hereford Breeders' association, were awarded as follows—Bull, 3 years or over, E. E. Gile, Fayette, Me.; second prize, H. E. Morrison, Oxford, N. H. Bull, 2 years old, first prize, E. E. Gile; second prize, H. E. Morrison, Bull, 1 year old, first prize, H. E. Morrison. Junior yearling bull, first prize, H. E. Morrison. Senior bull calf, first prize, E. E. Gile; second prize, H. E. Morrison.

son, Cov, 3 years old, first prize, H. E. Morrison; second prize, E. E. Gile. Heifer, 2 years old, first prize, H. E. Morrison; second prize, E. E. Gile. And Morrison also took first and second awards, respectively, for heifers 1 year old and junior heifer yearlings. For senior heifer calves Gile took the first and second prizes. Morrison took the third and Gile the fourth. For junior heifer calves Morrison took first prize and Gile second. Gile and Morrison competed evenly for the remaining prizes in the Hereford class, no other entries receiving prizes.

In the Dutch belt breed, O. A. Leonard of Tolland, Ct., captured every award. A. P. Pierce of Winchester, Vt., was awarded every prize for Jersey cattle.

Billerica Man Wins
In the swine department, Charles Wright of Billerica, took first money for Berkshires, and John Todd of Lawrence, second for Chester whites. Edward C. Marshall of Nashua, N. H. Hills of Pelham, and C. L. and F. M. Patterson of Rea, Penn., took first premiums in different divisions. Patterson Bros. took first premium for Red Tanworth.

Although attracting less notice than some other departments, the machinery exhibit was large and new.

The special feature yesterday was the parade of 500 women under the suffragette banner through the throng on the lawn before the grandstand. All hazardous feats of Tuesday were repeated. The aerobaut made his triple parachute drop and Rodman Law came down from his sister's biplane by parachute. He landed in the center of the race track. "The girl in red" mounted on her diving station climbed to the top of the structure that towers over the diving tank and again startled the crowd by her drive into the tank.

Following the dive came the triple parachute drop event that brought the crowd to its feet, breathless. Rodman Law in his leap from an aeroplane driven by his sister was the feature event of the day. Law, seated in the plane beside his sister who dives, mounted high into the clouds, then climbed nearly under the spreading planes and leaped into space. All eyes were on him as he fell and a gasp of relief went up when his parachute opened.

After the aviation events were concluded, the enclosure devoted to the horse show held the attention of the crowd. Prancing four and eights driven by crack whips circled the en-

closure while riders competed at hurdling. Looney Lane had a multitude of patrons. This feature made a favorable impression, being free from objectionable devices and producing much mirth for the crowd.

The free automobile show is an innovation. The show covers a large tract of ground, the cars being parked uncanvassed.

STABBED WHILE ASLEEP

MURDEROUS ASSAULT ON MAN-CHESTER MAN AS HE LAY SLEEPING ON HIS VERANDA

MANCHESTER, N. H., Sept. 3.—Paul Porok, 30 years old, is dying at the Sacred Heart hospital as a result of a murderous assault by an unknown man, who stabbed him as he lay sleeping on his veranda on the second story of 49 Amherst street yesterday. The hospital authorities say there is no hope for Porok.

Later the police arrested a man suspected of the crime. He was taken to hospital to be identified by the dying man.

TO STEADY WORLD'S STAPLES
Through the international institute of agriculture, having its headquarters at Rome, and at which the United States and fifty-three other nations are represented, this country will invite the powers, among them all the belligerents, to participate in an international assembly with a view to devising ways and means "to steady the world's price of staples."

Such an invitation will be extended by authority of a resolution passed by the house and which is expected shortly to be concurred in by the senate. The resolution has the approval of President Wilson.

The purpose sought in this resolution is to steady prices by effecting an international agreement governing freight rates. In the report on the resolution, which was prepared by the house committee on foreign affairs, the statement is made that while seven-ninths of ocean freight consists of bulk traffic, the rates on such business is changed without notice and frequently fluctuates.

The argument is made that the world's price of the staples of agriculture cannot be steadily until a fixed rate can be established on bulk traffic. David Lubin, the American delegate to the international institute at Rome, is instructed by the resolution to bring the matter to the attention of the general committee with the suggestion that the conference as proposed be held.

FRENCH RELIEF FUND
WASHINGTON, Sept. 3.—A French relief fund is being formed for the purpose of assisting sick and wounded refugees, not only French but also Belgian, English and other nationalities, now swimming in Paris and other French centres. An organization will shortly be perfected among the many people interested in Franco-American activities throughout the country. Meantime individual subscriptions are being received by the French embassy in Washington.

REV. DANIEL STEELE DEAD
MILTON, Sept. 3.—Rev. Daniel Steele, first president of Syracuse university, died at his home last night. He had been ill several months. Rev. Mr. Steele was 59 years old.

Court Procedure
The section dealing with court procedure provides that no injunction shall issue between employers and employees in labor disputes unless necessary to prevent injury to property or property rights, and no such order shall prohibit the right of employees to strike or peacefully persuade others to do so; disobedience of writs subjects offenders to contempt proceedings, accused in indirect cases being granted trial by jury.

President Wilson will delay his selection of the members of the new trade commission until after the measure has been harmonized with the Clayton bill by the conference committee. He has not considered any names as yet.

ANTI-TRUST BILL

Is Passed by Senate—Completes Trust Legislation For Session

WASHINGTON, Sept. 3.—The Clayton Anti-trust bill to supplement the Sherman law, which will complete the administration trust legislation for this session of congress, passed the senate yesterday by 46 to 15.

Seven republican senators, Brady, Clapp, Cummins, Kenyon, Jones, Norris and Perkins, and Senator Poinsett, progressive, voted for the bill.

The bill was amended by the senate in many particulars and will be sent to conference, where the federal trade commission bill—first of the anti-trust measures—still is under consideration. Reports on both measures are hoped for within two weeks.

Some of the Provisions

The bill provides fines and imprisonment for officers of corporations convicted of offenses against the trust laws; prohibits exclusive and tying contracts which restrict independence of purchasers; prohibits holding companies where their effect is to lessen competition or create monopoly, and makes illegal, two years after the passage of the act, interlocking directorates in competing corporations, any one of which has capital of more than \$1,000,000.

It also forbids the interlocking of railroad directors with corporations dealing in securities, railroad supplies or contracts, and legalizing procedure in injunction and contempt cases.

Sections of the house bill relating to price discrimination and unfair competition were stricken out in the senate.

Labor, agricultural and horticultural organizations not conducted for profit are exempted from the provisions relating to monopoly.

The maximum penalty fixed for violations of the provision preventing exclusive contracts is \$5000, or one year imprisonment, or both. The provision against holding companies would not prevent common carriers from acquiring branch lines where there is no substantial competition.

Interlocking Directorates

Sections relating to interlocking directorates are made effective two years after the passage of the act. Directors of railroads, under the terms of the bill, cannot be interlocked with corporations dealing in securities, railroad supplies or other articles of commerce or contracts for construction, maintenance, etc., to an amount or value than \$50,000 in any one year, unless purchases are made after competitive bidding, under regulations of the Interstate Commerce commission.

A penalty of two years imprisonment and \$25,000 fine is prescribed for violation.

Another provision makes it a felony for officers of common carrier corporations wilfully to misapply or to permit misapplication of funds of the corporation, the penalty being not less than \$500 fine or imprisonment for not less than one or more than 10 years, or both.

MERRIMACK SQUARE THEATRE

Despite the many counter attractions which have prevailed this week, the crowds at the Merrimack Sq. theatre have increased at each performance.

The week's bill, "What Happened to Mary" which is by the way one of the best if not the very best in which the new stock company has yet appeared has certainly caught the popular fancy. It's lines are clever, the plot is original, the staging is picturesque and take it all in all, one couldn't ask for a better performance. Next week America's laughing success, "Officer" will be the attraction. Seats including those for Labor Day are now on sale and those contemplating a visit to the theatre this week or next had best secure their tickets as soon as possible, as they are going at a rapid rate and are liable to be all taken if one waits too long before getting them.

lins Oppenheim's great detective story turned out to be one of the very best attractions ever offered at this popular theatre. The rest of the program was fully appreciated, each and every picture being shown for the first time in Lowell. "The Messenger of Danger," in two parts and a Keystone comedy, are especially good. Songs daily.

CANOE LAKE

The final week of musical comedy at Canoe Lake park is rapidly drawing to a close, the ninth edition of the Homan's Musical Revue being presented this week, closing the summer season of this popular resort.

The performances of Labor Day, the company being held over for the holiday on account of the big demand of the public that they retained longer.

This city particularly has given the Canoe Lake theatre splendid support, the entire town of Canoe Lake, with the lake and the big majority of those who enter the park inevitably enter the theatre before the rise of the curtains.

It was a new company offered the patrons this week but in spite of the fact that the company were strangers the show has developed an enthusiasm that knows no bounds and each and every one of the big acts received the most hearty applause.

In addition to the big musical show there is being offered the motion picture taken at Canoe Lake park two weeks ago when enormous crowds flocked in all parts of the park, about the many attractions while the camera man took in the views. The pictures have turned out splendidly and the result is that many thousands of people are able to watch themselves such as they were at the time as well as hosts of their friends.

Fun at the swimming pool where the camera man caught the bathers in the water, the frolics of the swimmers and all the excitement among the spectators are shown in clear steady pictures that make the patrons almost imagine they can feel the splash of the water.

The flying horses, circle swing, roller coast, the merry-go-round, the lake and all other attractions were visited and splendid views were taken.

ACADEMY OF MUSIC

Another class aggregation of vaudeville stars will make its debut at the Academy of Music today, and continue there until Saturday night when it will give way to an entirely new bill of vaudeville and pictures for the special "Pop" Sunday matinee.

Not a star and every picture a gem. Add to this the prices of admission, 5, 10 and 15 cents, and you will have the reason for the success of vaudeville at the Academy. Martin & Perkins, "those two musical boys," have a clever little novelty act that defies imitation. Ward & Webster, "songsters supreme," have a lot of healthy surprises in store you to today. Pike & Culane, "nifty terpsichoreans," have a toppy dancing and singing act that is bound to please even the most fastidious.

The management of the Academy of Music makes an interesting announcement in this newspaper. According to this announcement the good old rip-roarious, amateur nights will again become an institution at this theatre. The good old side-splitting amateur nights with a hundred little novelties and refinements to make it funnier than ever before. Friday is amateur night.

Announcement was made today that the Opera House, the lease of which was taken over by the Great Eastern Amusement company, will open on the coming Monday, Labor Day, with a program of vaudeville and high class pictures. In the vaudeville portion of the program the headliners for the first three days will be Clem DeVilus and company in a comedy rural playlet entitled, "Daddy." The story is built on entirely new lines, the situations causing no end of genuine merriment. It is what you seldom see but often hear about a genuine novelty. The Juggling Bannons, a startling sensational act, and John Gardner and Renette, who have a sparkling wit and humor, will find a prominent place on the program. Bert Molloy is a high class singing comedian and comedian, a well balanced and complete vaudeville act. The balancing of the above acts with the

latest release of the Famous Players Film company, "The Ring and the Man," with Mr. Bruce McKee in the leading role attests to the efforts of the management to provide the best there is in the picture and vaudeville line for local theatre-goers.

Performances will be given continuously every afternoon from 2 o'clock until 5, and two complete shows will be given every evening, commencing at 6:30 and 8:30. Popular prices will prevail and tickets can be reserved by ordering at the office, which will open for the advance sale Saturday at 9 o'clock.

The house has been renovated from top to bottom and many new improvements installed. The new entrance on Gorham street will be thrown open for the first time on Monday and is to be used for admission to the orchestra and balcony, while the old entrance is to be retained for the gallery.

H. K. KIPP'S THEATRE
Patrons of the Keith theatre, which opens its season on Labor day—Monday next—will be treated to something entirely new in the production of motion pictures. A radium gold film screen, recently purchased, will be used for the first time locally. Its reflective power is so great that it is wholly possible to produce motion pictures on the theatre in the lighted from top to bottom. Not only does it in this way insure a greater measure of safety and comfort than heretofore, but the eyes of the watcher are not strained by the constant strain as with the older method, and the pictures are brought out in a soft yet life-like manner. The demand for these screens is very great, for managers have come to know that they are superior to any other screen in use, and this naturally brings big audiences.

In the vaudeville list for the first three days of the week are those droll comedians, Welsh, Meeley and Montrose. These three men have been quite the comedy stars since they dropped in on audiences at the Keith Boston theatre, a few weeks ago, and served up the laughing success of the season. Absolutely original, and with the knack of making fun all of the time, they will prove the top-notchers of the bill. In what they do and in their way of doing it they are like no other performers. Grant & Delmar, a man and a woman, also have a real, high class vaudeville offering. Miss Grant is especially attractive and exceedingly versatile. Her impersonations are in a class by themselves. The Moulton Trio, two women and a man, are singers par excellence, who give only the higher class of vocal numbers. The Musical Vynus are also interesting, and will make a good opening act. These acts and the four pictures will be given three times a day, for the first three days of the week, following which there will be a complete change in the bill. Reserved seats are 10 and 20 cents for afternoon performance, and 10, 15 and 25 cents for evenings. The box office will open Friday at 10 a. m.

For Sallow, Blotchy, Rough or Greasy Skins

Some skins require constant grooming to keep them from becoming oily, muddy, blotchy, or rough, or if such condition is not removed, it is particularly inadvisable to keep piling on cosmetics which clog the pores, collect dust and dirt, making the complexion worse than ever. It's a lot more sensible to use ordinary mottled wax, which literally absorbs the bad complexion. Apply the wax like cold cream, before retiring, next morning, in washing it off, you'll wash away fine, flour-like particles of the unsightly outcrop. Repeat for a week or two, and you'll have an entirely new skin—soft, satiny, spotless and beautiful as a child's. One ounce of mottled wax, procurable at any drug store, will save you here's the best possible remedy: Mix 1-2 pint with hazel and 1 ounce powder, and use as a face bath. It works like a miracle, yet is entirely harmless.

EXCUSE ME

MARTIAL LAW

All Quiet at Butte, Mont.
—Big Mine Reopened Today.

BUTTE, Mont., Sept. 2.—With a mild form of martial law prevailing here all was quiet in the city and at the mines today. The Andover mine, which employs 700 men and which shut down a week ago because of factional troubles among the miners resumed operations today with a full force. All men who appeared for work were sent into the shaft regardless of union affiliations. Placards posted by the miners' committee warning miners not to go to work unless they wore the new union's button were torn down.

BELGIAN WAS GAME

AGED PATRIOT WANTED TO FIGHT FOR HIS COUNTRY—WAS HEAVILY BROKEN UPON BEING REFUSED.

BOSTON, Sept. 2.—"There's patriotism for you," said E. S. Mansfield, Belgian consul for New England, as the door of his office closed behind a white-haired, bent-shouldered man yesterday afternoon.

"There goes an old fellow who is heart-broken because I have refused to accept him for army service with the Belgians," remarked Mr. Mansfield. "Although 85 years of age he is eager to take part in the active fighting against the Germans. But his disappointment at being turned down did not prevent his making of one of the greatest personal sacrifices that has come to my attention."

"That man has pledged himself to give \$5 every week from his wage as his share towards the support of the wives and children left in this country by the Belgians who have gone home to fight. He is not overburdened with wealth, therefore the sacrifice is the greater."

Down at the Tremont street entrance of the Tremont building, a reporter found the silver-haired patriot. "That's what old age does to a man," sighed the patriot. "I have seen years of service in the artillery at home, and I am as good in that better today than I was at sighting the guns. Simply because I have passed a certain age-mark, the chance to serve my country in the field is denied me."

"Well I shall do the next best thing, as should all true sons of the homeland. My wages as a clerk-maker are by no means large, but I shall deny myself to the extent of scraping \$5 weekly from my pay. And I shall subscribe that amount during the entire time of the war towards the support of those left in this country by the patriots who have gone to the front."

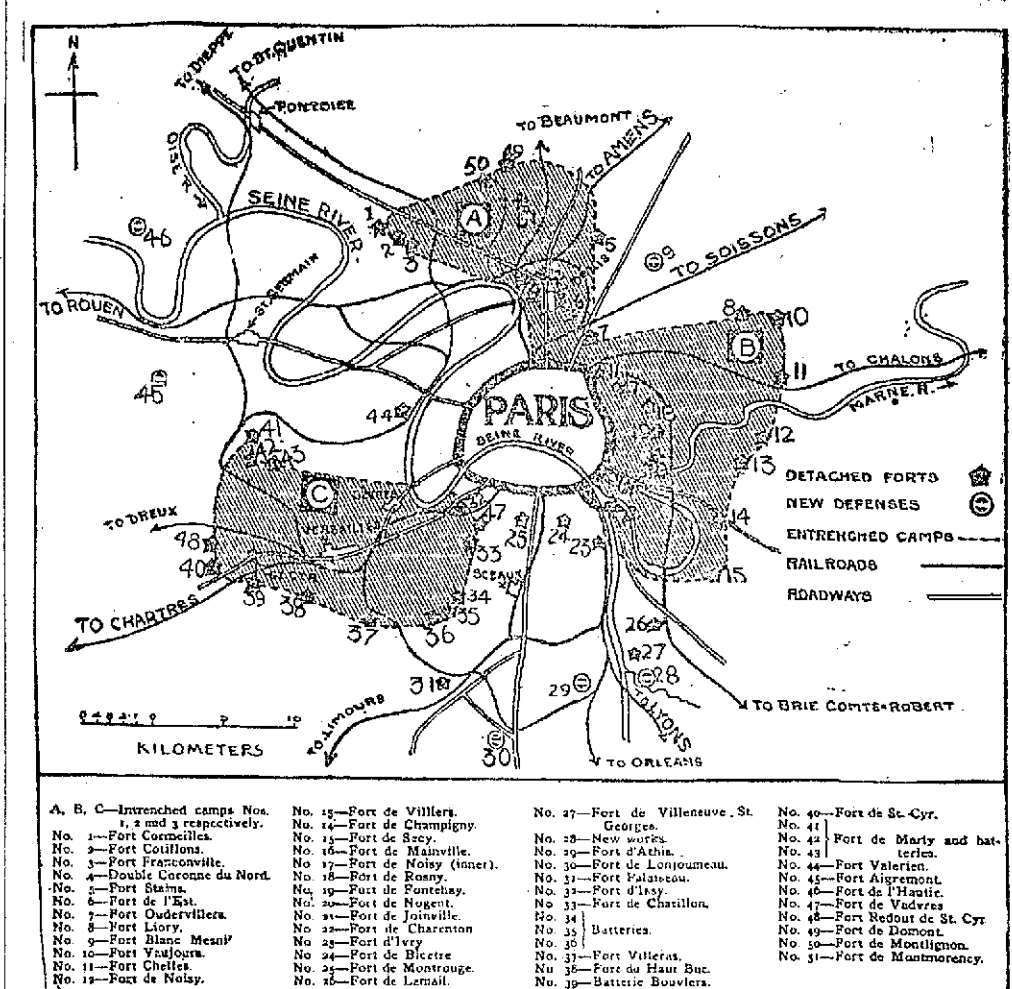

The old man made a pitiful attempt to straighten his stooped shoulders when the reporter requested his name. "I'm not looking for any glory," said the old man. "The knowledge that I have done all in my power to help the cause is my satisfaction. Never mind my name."

Then he made his way with faltering step into the street throngs, and was soon lost to sight.

TO BUY MOUNT WASHINGTON
LAKEPORT, N. H., Sept. 2.—It was stated here today that the government authorities and the numerous owners of Mt. Washington had reached an agreement upon the purchase price of the property as a part of the White Mountain forest reservation. The government already controls the summits of Mount Adams and Mount Madison, as well as tracts on their northern slopes. It is understood that the purchase of Mount Washington also includes five other peaks of the Presidential range, Clay, Jefferson, Monroe, Franklin and Pleasant.

The reservation now covers an area of 35,000 acres.

CIRCLE OF STEEL AROUND PARIS READY FOR PROTRACTED SIEGE BY THE GERMANS

This map shows the positions of the wall of masonry surrounding the city of Paris proper and of the ring of forts—fifty-one forts and batteries—defending the city and its environs. This circle of defenses covers a sweep of eighty-five miles, and 600 miles of territory are protected. The forts have been modernized or are new. Since the Germans captured Paris in 1870 France has spent nearly \$800,000,000 on its fortifications for just such an emergency as it now faces as the German army sweeps nearer.

GERMANS WERE KIND

WIDOW OF PRESIDENT HARRISON HAS WAIVED PRAISE FOR THEM—CONTRADICTS FALSE RUMORS

NEW YORK, Sept. 2.—The friendship of the German people for Americans is deep-seated and took concrete form in many acts of kindness during the early days of the great European conflict, according to Mrs. Benjamin Harrison, widow of President Harrison, who reached New York aboard the steamer Ryndam from Rotterdam. Mrs. Harrison and 24 other American refugees who were in Germany at the outbreak of hostilities drew up a statement embodying their views before the Ryndam reached port. Among the signatures to this statement are those of Prof. Harry H. Love of Cornell university, and Prof. Carl D. Fehr of Lafayette college.

"As Americans returning from Germany," the statement says, "we feel it our duty as citizens of a friendly country to set forth the truth concerning our treatment in Germany and to contradict any false impressions that may now be current."

"While the German people always treat the Americans with great courtesy and kindness in times of peace, this was especially emphasized in time of war. From the time of the declaration of war until the time of departure nothing but kind treatment was accorded us, no matter whether we were in the shops, on the streets or in other public places."

"This spirit was especially well shown, even in the midst of their great sorrow, by a public meeting for Americans in the Rathaus in Berlin, at which time the best wishes of the German nation were expressed to the American people as well as sorrow that the requirements of war were such that thousands of Americans must be detained in various parts of the empire."

"Again the kindly spirit of the nation was shown by providing special trains, even though these trains were needed for the transfer of soldiers and munitions of war, to convey the Americans from various parts of Germany to ports where passage home could be secured. These special trains were carefully handled and made as comfortable as the condition of the times would permit. At the place of departure and at every station the trains were met with cheers for Americans and best wishes for a safe journey home. Although the German people were bowed with grief, they cast it aside and provided lunches and other comforts for their American friends who were departing. Many offered financial aid."

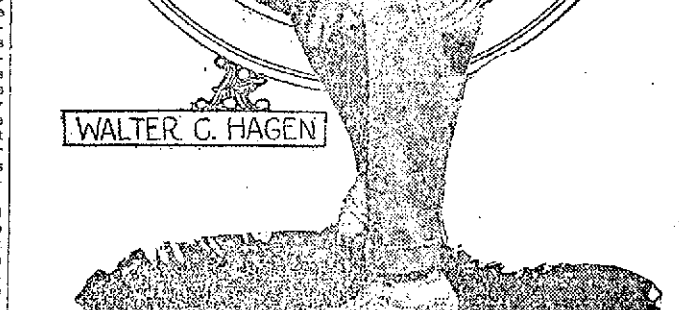

"It is not possible to enumerate all the various kindnesses accorded to Americans. It is enough to say that it would not be possible for any nation to be kinder to a foreign people in times of war than was Germany. We

wish to state that any one who has believed that Americans have been mistreated in Germany have not known or understood the facts.

"We can only state that without dissenting voice we desire to thank the German people for this treatment. Such treatment can only serve to strengthen the bonds of friendship that exist between our United States and many other countries whose stock has furnished so many noble Americans."

Attached to the statement was a clipping from a German newspaper headed "The Americans are our friends," and urging that every assistance be extended to American tourists. A similar statement it was said, was printed in every newspaper in Germany.

ANOTHER FORMER CADDY IS OPEN GOLF CHAMPION OF UNITED STATES

ROCHESTER, N. Y., Sept. 2.—Once again an American caddy has routed a distinguished brigade of the greatest Scottish, English and home bred professionals known to the perverse game of St. Andrews and won the highest golfing honors of the nation. Young Walter C. Hagen of Rochester, N. Y., who began his links career toting clubs at the age of six, captured the national open championship at the Midlothian by the narrow margin of a single stroke. He had a total of 290 for the four-eighteen hole rounds. Hagen won the title in a memorable race with Charles Evans, Jr., the Chicago amateur record smasher. Chick was eight strokes behind his eastern rival at the start of the final round. He shot at 71 in the morning and cut Hagen's lead to four strokes, the Rochester star taking 75. In the afternoon Evans went out in 36, while Hagen needed 38, and only one stroke stood between the title contenders. Hagen has a fine golfing disposition and is popular with his fellow professionals. He weighs about 160 pounds and has a powerful physique. One of the strongest points of his play is his putting. He was a pupil of H. A. Christie, who formerly was professional at the Homestead Country club. This year's tournament was the second national event in which Hagen competed. Last year at Brookline he tied with J. M. Barnes, MacDonald Smith and Louis Tellier for fourth, fifth, sixth and seventh prizes, their scores being 307.

NOMINATED BY WALSH DETAINED IN EUROPE

FORMER MAYOR HIGGINS OF FALL RIVER NAMED AS CHAIRMAN OF BOARD OF POLICE

BOSTON, Sept. 2.—Former T. F. Higgins of Fall River was nominated chairman of the board of police of that city by Governor Walsh today. Mr. Higgins succeeds T. F. Lawler.

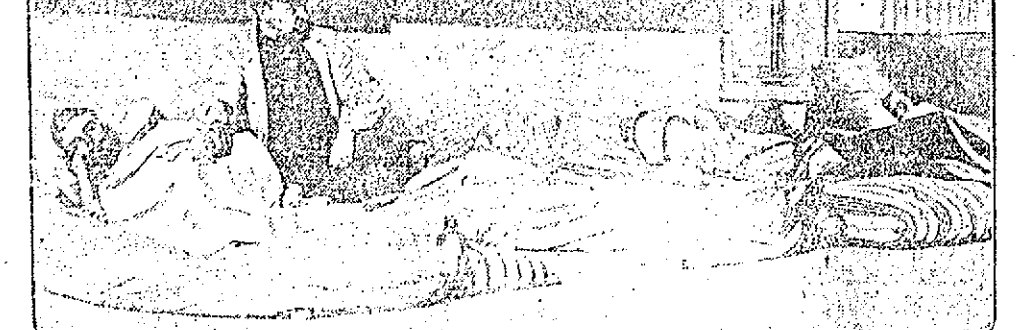

BACK FROM GOLDEN SLOPE
Miss Rose Lacouture of Butterfield street has just returned from a pleasant five weeks' trip to Portland, Ore., and Los Angeles, Cal. In the latter place Miss Lacouture was the guest of Mr. and Mrs. Phillips Davis, formerly of this city.

Mr. Davis was at one time choir-master at St. Joseph's church and conducted a painting establishment in this city. A few years ago he went west for the benefit of his health and Miss Lacouture says that he is now enjoying the best of health. Mr. Davis is conducting a painting establishment in Los Angeles and he is doing a very successful business. He said he would never think of returning to Lowell for the western climate is just too good to leave.

PARIS PAPER OPTIMISTIC
PARIS, Sept. 2.—Commenting on the war situation today the Temps says: "It is not the few troops that the Germans can put ahead that can besiege Paris. The important point is the centre, where we perceive a hesitation. The German troops are out of breath and one of their army corps has been transferred toward their eastern frontier. It is probable that we have in front of us on the centre forces diminished by fatigue, by our fire and by withdrawal to reinforce the east Prussian army."

"In any case our contingents have had their vacancies filled and their ammunition replenished, while the enemy is encountering great difficulty in getting supplies."

WOUNDED GERMAN SOLDIERS IN BELGIAN SCHOOL, HELD AS PRISONERS OF WAR

WOUNDED GERMAN PRISONERS AT HAELEN, BELGIUM. Photo © 1914 WALTER RESS ASSOCIATION.

This picture was taken in a schoolhouse at Haelen, Belgium. It shows wounded German prisoners being cared for by Red Cross villagers. All Belgium schoolhouses, as well as other institutions, have been turned into hospitals.

MATRIMONIAL

At 1 o'clock yesterday Mr. Paul Murray and Miss Ozoline M. V. Plouffe were married. The ceremony being performed at St. Joseph's rectory by Rev. C. A. Paquette, O. M. I. The bride was Miss Florida Plouffe, a sister of the bride, while the best man was Leander Conley. At the close of the ceremony the happy couple left on a honeymoon trip to parts unknown.

MAHONEY-BURKE
Dr. Matthew Mahoney and Miss Julia Burke, two prominent young residents of this city, were united in marriage at St. Patrick's rectory at 430 Broadway, yesterday, by Rev. Timothy Callahan. Thomas Mahoney, Jr., acted as best man and Miss Gertrude Harvey as maid of honor. Following the ceremony a reception to the immediate relatives was held at the home of the bride, 23 Eleventh street. Later in the afternoon the happy couple left on a honeymoon trip and upon their return will reside at 23 Eleventh street.

BERLIN GUARDED
LONDON, Sept. 2, 5:20 p. m.—A despatch to the Central News from Amsterdam declares that telegrams received there from Berlin set forth that the German capital is being guarded by several army corps.

CONTRIBUTE TO WAR FUND
OTTAWA, Ont., Sept. 2.—Word was received here today that the Canadian Club of America had decided to cancel its annual dinner and to donate to a patriotic fund the amount it would have thus expended.

HEADS SPANISH WAR VETS
LOUISVILLE, Ky., Sept. 2.—Major C. F. Cramer of Columbus, O., today was elected commander-in-chief and Sergeant, Pa., was chosen for the next meeting place at the convention of the United Spanish American War veterans.

AMERICANS STRANDED
LONDON, Sept. 2.—2:25 p. m.—The American embassy was advised today that there are at the present time 200 Americans stranded at Ostend and unable to get their checks cashed.

SUN FASHION HINTS

Style features of this afternoon gown of green and white pussy willow tulle are the kimono sleeves and surplice front showing a vest of cream colored shadow lace. The sash of black satin tied fashionably in the front is fastened by a jet ornament.

A Trip to California Has Been Placed Within Your Reach

Why not make a reservation on one of the Burlington Route "Personally Conducted Parties to California?" If you would like to make this trip under unusually attractive conditions and at an especially low cost, I would like to hear from you right away.

You can travel with a select party and with all the comforts of a Pullman Touring Sleeping Car throughout—and at minimum cost.

A carefully trained man will accompany the party all the way. You will find a well-informed, courteous, and good-natured and kindly man as your guide. He will be especially selected because of his knack for making people comfortable, as well as because of his long experience.

You will be especially interested in learning that the total cost of this trip is well within your reach. Just call or write and I will gladly explain all the details.

Alex. Stocks, New England Passenger Agent, C. & N. E. R., 264 Washington St., Boston.

CITY HALL NEWS

Is On the Wane—Lack of Activity, Not Censorship, the Cause

George L. Hubbard, of 332 Varnum avenue received notice from the office of Commissioner Donnelly to either tear down or repair a barn and carriage sheds which he owns in Fifth street, or the law would take its course.

The notice sent to Mr. Hubbard is as follows:
George L. Hubbard,
332 Varnum Avenue.

Sir: As owner of the property numbered 332 Fifth street in the city of Lowell, you are hereby notified pursuant to an ordinance of the city of Lowell made and enacted, that the barn and carriage sheds on the premises are in such a dilapidated condition, that they have become a menace to public safety and so endanger the public. The walls of the barn are out of plumb from six to eight inches and the floors are all sagging. The roofs of the carriage sheds are all rotten and have fallen in places, while the walls are also in very bad condition.

You are ordered, therefore, to either make the buildings safe and secure or cause the same to be taken down and removed within one week after the receipt by you of this notice, otherwise you shall hold yourself amenable to the ordinance made and provided in such case.

Respectfully,
Francis A. Connor,
Inspector of Public Buildings.

Approved, James E. Donnelly, commissioner of public property and licenses.

Looking For Work
Shortly before noon today no less than 20 men were waiting at the door of the water department office at city hall for an opportunity to confer with Commissioner Carmichael in reference to work. During the entire forenoon the corridor leading to the commissioner's office was filled with men anxious to be given work and the commissioner stated he could do any more hiring for the department, and has all the men needed for the present at least. Commissioner Morse is another party who is being trailed from morning till night by men who are out of employment. Monday morning, according to the commissioner there were at least 700 men at the city yard, and all desired a personal interview with the commissioner.

Mr. Morse has now about 300 men on

his payroll and he says this is his limit. He said pretty soon he will have to curtail the street department in order to get along within his appropriation. The boulevard job is being finished up and work will be started soon on the macadamizing of Alken avenue from Lohay avenue to Essex street. Lawrence street is also in line for a macadam surface and as soon as convenient this job will be started.

Hids For Pipes
The purchasing agent will receive bids for a lot of sewer pipes, the bids to be opened Friday, Sept. 4 at 11 a. m. The lots called for are as follows:

Twisted glass sewer pipe, 1132 feet of 24 inch, 182 feet of 12 inch, 1821 feet of 8 inch, 525 feet of 6 inch and 435 feet of 3 inch. Two hundred pieces of two-inch straight round tubes are also needed and a lot of specials and bends.

Marriage Intentions
The following marriage intentions have been filed at the city clerk's office since the last were published:

Leander Johnson, Lynn, Mass., 26, mechanic; Emma J. Johnson, 21 Belmont, 28, housework.

Stanislav Lelezyk, 35 Third, 22, weaver; Marya Boruta, 1 Sullivan's court, 18, weaver.

Jose da Cunha Silva, 512 Central, 20, operative; Carmela A. da Cunha, 512 Central, 19, operative.

Elisabete Eliakides, 486 Merrimack, 27, operative; Ewald Pleroulidou, Penbody, 27, operative.

Jonas Zanka, 12 Winter, 23, operative; Ursula Greska, 72 South, 15, operative.

Geo. Kesmetis, 57 Tremont, 22, operative; Maria Paparelos, 164 Colburn, 20, operative.

Antônio dos Santos (widow), 276 Central, 23, operative; Rosa Espinola, 100 Charles, 22, operative.

Geraiinos Mikalatos, 278 Adams, 21, tailor; Thomas Dimitrakoulakan, 21 Cabot, 22, operative.

Aleksander Kutinski, 21 Lakeview avenue, 21, operative; Maria Kaskack, 3 rear 87 Sumner, 18, operative.

Nazaire Ethier, 601 Merrimack, 24, section hand; Elizabeth Arnault, 324 Alken, 19, hostess.

Spiros D. Alimessis, 259 Adams, 22, operative; Maria R. Rassias, 114 Common, 22, operative.

Lucia Lemay, Watertown, Conn., 23, machinist; Angelina Pintal, 64 Ward, 19, at home.

Funeral Notices
McCAFFERTY—Anna McCafferty died aged 9 years. She leaves her father, Francis E. and two brothers, Francis E. Jr. and John; also two sisters, Bessie and Cassie. The funeral will be held from her late home, 39 Andover street, at 2 p. m. Friday and mass will be celebrated at 9 o'clock at the Immaculate Conception church. Undertaker T. J. McDermott will be in charge.

RIGELOW CARPET CURTAINS
The Brussels and Wilton weaving departments of the Rigelow Carpet corporation which have been running on a four days' schedule for some time past have curtailed to three days per week. This curtailment which is only temporary will also affect the woolen and worsted yarn mills. The new schedule went into effect today. These departments will therefore suspend operations tonight and owing to Monday being a holiday they will not resume work until Tuesday morning.

Miss Elizabeth Proctor is visiting friends in Holyoke, Mass.

OUTFIELDER CONNOLLY, SLUGGER FOR THE BRAVES, HITS 'EM HARD

BOSTON, Sept. 2.—Outfielder Joseph Connolly is one of the factors in the success of the Braves. He is hitting above .300, and many of his blows are for extra bases, his record for home runs being well up toward the top. He is always enthusiastic and never knows that his team is beaten. His admirers insist that he will have the title of "Home Run" prefixed to his name before he is much older. Connolly is twenty-seven years old and was born in Woonsocket, R. I.

RUBE BROWN IN TOWN
Rube Brown has struck town followed by his game rooster. He used to go about the country as an advertising faker accompanied by a goat. The goat is dead and he has a game rooster instead fully as active and as ready for a fight. When he turns to the bird his satchel falls open to reveal his business in town.

Miss Annie C. Wall of St. John's hospital and Miss Macjorie Curran of 31 Albion street, have returned from a pleasant visit to their friend, Virginia L. Murray, Petersham, Mass.

Arthur Thener of Springfield is the guest of George Foley of Cabot street.

WILSON TO RUN AGAIN
WASHINGTON, Sept. 2.—Vice President Marshall authorized a published statement today that President Wilson would be a candidate for renomination. Secretary Tumulty said that the White House knew nothing of the statement and would not comment on it.

DEATHS
BELANGER—Clara Belanger, aged 29 years, 1 month and 1 day, died today at the Chestnut street hospital. She is survived by her parents, Mr. and Mrs. Alexander Belanger; a brother, Edward; four sisters, Mrs. Joseph Roy of Amesbury, Mrs. Leon Gagne, Mrs. Dave Laverie and Miss Sadie Belanger, all of this city. The body was removed to the home of the parents, 40 Ward street.

FUNERALS
McCAFFERTY—The funeral of the late James J. McCafferty took place this morning at 10 o'clock from the home of his parents, No. 74 Fourth street and was very largely attended. There were many beautiful floral offerings. Among them were a wreath inscribed "Our Jimmie" from the family and pieces from Grandma McCafferty; Mr. and Mrs. M. F. McCafferty; Engine Five, the Keel McCafferty Engine Five, the Keel family; Sadie Bowers and neighbors, Annie and Mary Doherty.

COMMUNICATIONS
Lowell, Mass., Sept. 2.
Mr. Charles J. Morse, Commissioner of Streets for the City of Lowell:
Dear Sir: In view of the facts as understood that the city of Lowell will require several hundred thousand additional paving blocks for the Westford street work which have not as yet been contracted for, would it not have been the proper course to have ordered these blocks soon after the order to pave that street was passed. This would have allowed time for fair, free and open competition. Westford street work is now in the hands of the city and I am led to understand the blocks

needed are to be purchased in a hurry, at a high price and without allowing the time necessary to procure such material. As an emergency order for paving blocks can be filled only by one concern it is plain that the city is likely to be the loser on any contract so awarded. In it not, as I am informed, probable that the city will have to pay from 25 to 50 per thousand more than if the blocks were purchased early in the season?
Yours,
E. G. Baker.

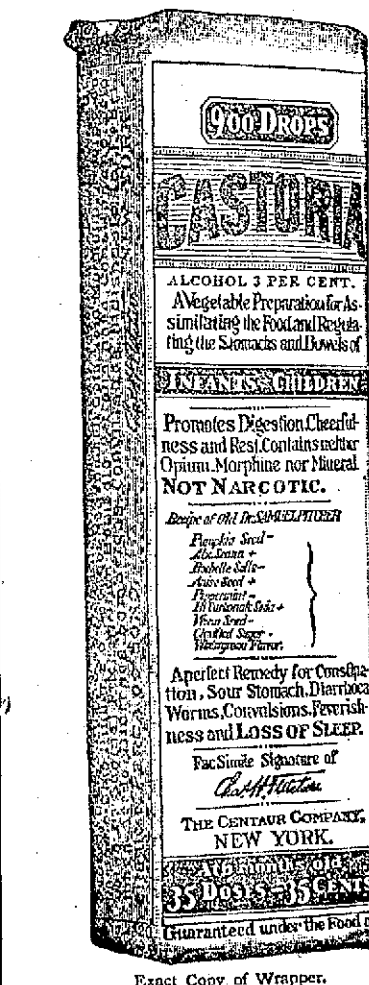

CARD OF THANKS
We, the undersigned, take this means of expressing our sincere thanks to our relatives, neighbors and kind friends, who by words of consolation or by financial offerings, helped to lighten the burden of sorrow in our recent bereavement. To all we are very grateful and will ever remember their sympathetic kindness. Signed,
Mr. and Mrs. James J. McCafferty and family.

DELAY RED CROSS SHIP
WASHINGTON, Sept. 2.—Because of the time for painting, coating and provisioning the Red Cross ship Red Cross, the date of sailing for Europe has been postponed from Saturday, Sept. 5 to Monday the 7th.

A Practically Perfect Preparation.

YEARS of experience have enabled Mr. Fletcher to make Castoria a practically perfect preparation. These years of labor: the amount of money required to introduce its merits to the public; the investment in its manufacture, including the most modern machinery, mean a vast amount of invested capital. It follows that the greatest care is exercised in the selection of each ingredient, and the greatest attention is paid to every detail of its preparation. The result is the practically perfect preparation in the finished product; Fletcher's Castoria.

Herein lies the guarantee of the absolute safety in the use of Fletcher's Castoria for the baby, and the warning against irresponsible makers of imitations and counterfeits. The signature of Chas. H. Fletcher that is printed in black on the wrapper and red on the bottle is the mother's safeguard.

Children Cry For

Fletcher's
CASTORIA

Extracts from Letters by Grateful Parents to Chas. H. Fletcher.

Mrs. John W. Derrick, of Lexington, S. C., says: "My children cry for Castoria, I could not do without it."

Mr. and Mrs. J. A. Gaines, of Ripley, Tenn., say: "We enclose our baby's picture hoping it will induce some poor tired mothers to give your Castoria a trial. We have used it since baby was two weeks old."

Mrs. J. G. Parman, of Nashville, Tenn., says: "The perfect health of my baby is due to your Castoria—the first and only medicine he has taken. He is never satisfied with one dose, he always cries for more."

Mr. and Mrs. A. L. Johnson, of Stevens Point, Wis., say: "When our baby was two weeks old he cried so much we did everything for him, then got some Castoria and he is now strong and fat. We would not be without it, and are very thankful to you."

FAMOUS LOUVRE TREASURES GUARDED FROM SHELLS AS GERMANS PRESS ON TO PARIS

These views of Paris are of timely interest just at this moment, when it appears more than likely that the German army will invest the city. An interesting panoramic view of the city, showing the Seine, and the character of the buildings, is given. The famous Louvre, where many of the greatest art treasures of the world are kept, is also shown. The windows of this great museum have been barred with thick wire, and many of the treasures have been taken to the basement, in case the building is damaged by bombs or shells. If the Germans take Paris it is sure that the Louvre would be raided of its priceless objects.

removed to the home of the parents, 40 Ward street.

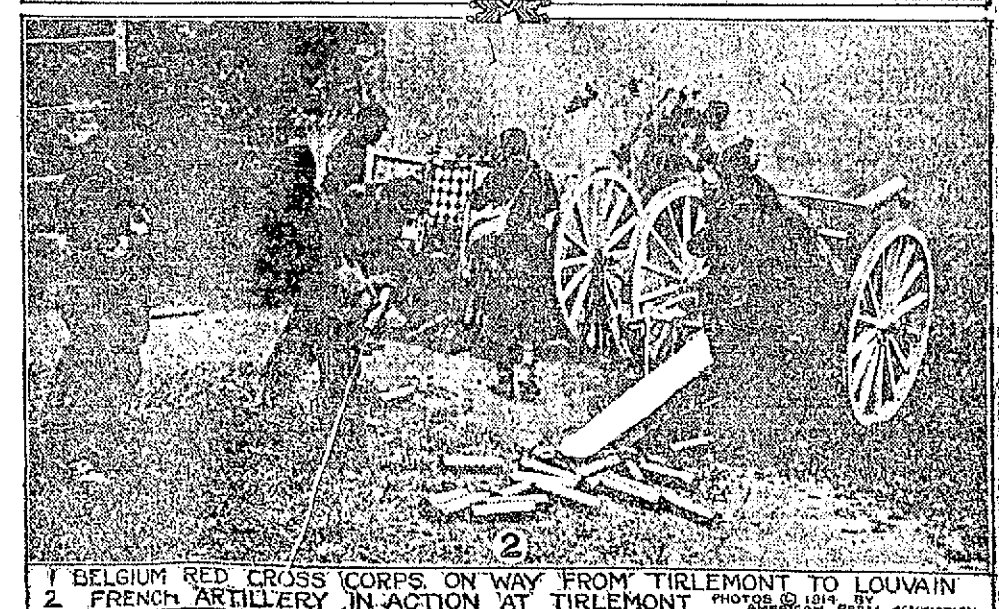

ROURKE—Died in this city at her late home, 7 Chase street, Bridget Rourke, aged 55 years. She leaves two sisters, Mrs. Catherine Murphy of Chicago and Mrs. Mary McNamara of England; one brother, John of Chicago; two daughters, Mrs. Austin Rourke and Anna, and one son, John, and four grandchildren.

EMOND—Antoinette, aged 4 years and 6 months, died today at the home of the parents, Desre and Angeline Emond, 207 West Sixth street.

Mr. and Mrs. Thomas Callahan; sprays from John and Lizzie McKenna, P. K. Mahoney and family; Mr. and Mrs. John J. Flynn, Mr. and Mrs. Charles Alaire, Mr. and Mrs. Thomas Campbell, Mr. and Mrs. Mae Kenney, Mr. and Mrs. A. G. Spicer and Joseph Stowell and Charles Gallagher. The bearers were Messrs. Willie Deering, Joseph Deering, Arthur Monahan, Gus McKenna, Joseph Bowell and Frank Conroy. Interment was in the family lot in St. Patrick's cemetery, where Rev. Fr. Murphy read the committal prayers at the grave. Funeral Director James W. McKenna in charge.

Mr. Charles J. Morse, Commissioner of Streets for the City of Lowell:
Dear Sir: In view of the facts as understood that the city of Lowell will require several hundred thousand additional paving blocks for the Westford street work which have not as yet been contracted for, would it not have been the proper course to have ordered these blocks soon after the order to pave that street was passed. THREE DOLLARS PER YEAR. TWENTY-FIVE CENTS PER MONTH

OUR NATIONAL OPPORTUNITY

It would appear that too many of our people are giving way to pessimism. This is wrong, an injury to everybody and to the country at large. Why should this country show any tendency to go to smash just because our export trade is in part cut off? If the export trade is gone the import has gone with it and this is a compensating item that seems to be overlooked.

Besides the trade that formerly went to Europe from South America will now come to this country and this should compensate in a very large degree for the loss of the export business. Of course it is true that some lines of business will be hit harder than others as a result of the war; but there will soon be a revival and a boom that will compensate for the dull period. One regrettable feature at the present time is the stringency of the money market; but that too will soon be remedied by the new currency measure.

So far as the war is concerned it may and probably will terminate much sooner than most people expect. The statement of the German ambassador at Washington to the effect "that the war is won" and that his country is ready for peace is not without significance. Germany would doubtless make peace at this very hour if the other powers were ready to acknowledge defeat. This statement indicates that Germany does not intend to continue the war until her resources are exhausted in a struggle of endurance. That leaves the door open to a settlement perhaps in the very near future.

The closing of the stock exchanges stopped the flow of money to Europe so that although capital is resting for a time it is still on hand to finance home enterprises.

In pursuance of our policy of neutrality, we may refuse to sell food stuffs directly to belligerent powers but we cannot refuse to sell to Holland or to Italy and these countries may if they will, sell to the powers at war. Hence the trade of Europe is not entirely cut off and it is unwise for our manufacturers to assume that there is trouble ahead. The vacation season has been dull, more so perhaps than for several years past, but the tide is turning and there will soon be a general resumption of business activity.

The fall of securities in Europe has produced a like fall here and hence the slump in the price of bonds and the rise in the rate of interest. But we are a self-supporting nation and nothing but unwarranted pessimism can cause prostration anywhere. Our foreign trade has been of slight significance compared with our internal commerce. Hence there is no reason to assume that business will lag in this country because of the war. There will be a cessation of the flow of immigration to this country and this will insure better wages for the laborers and domestics, the mill operatives and other industrial workers now here.

In certain republican quarters there is criticism of the democratic administration on account of dull times; but this period in which all imports are cut off would seem to have realized the dream of high protectionists. If business does not boom now then the theory of high protection and the cultivation of the home market must be an absurd fallacy.

There is a splendid opportunity for inventors and manufacturers to branch out into new lines, of manufacture that will supply the demand for the myriad toys and other articles that have been imported in the past with the label "Made in Germany." There is a suggestion that the people of this country have not taken seriously although its effect in spreading abroad the fame of our factories would be highly beneficial. Germany has made the most of that slogan and so the United States might increase its commercial prestige first by extending its lines of manufacture and second by labeling the products "Made in the U. S. A."

To be brief for the "U. S. A." is the national designation of this country abroad as appears on all letters addressed to any particular city or state.

The opening of the Panama canal is another incentive to trade with South America. The government at Washington is doing its utmost to restore business to a normal basis. The valorization of cotton will prevent many a crash and the decision to provide insurance for war risks is a step to encourage shipping. One of the very best tributes to the stability of business in this country and to our self-sustaining resources is the fact that we escaped a business panic as a result of the collapse in securities, the dislocation of business and the upheaval in the stock markets due to the war. The worst has been passed, the tide is turning and soon we shall see not only normal business but as a result of past curtailment and the bumper crops a period of great business prosperity.

FOR CIVILIZED WAR

If nations are to disregard treaty agreements as of no binding power then the league convention is the merest farce. Some of the agreements to which the great powers of the world subscribed in that convention were supposed to prescribe rules for civilized warfare, to prevent weak nations from being overrun, devastated or annihilated by the strong and to protect non-combatants against attack; but in the present war these provisions seem to be to a great extent ignored by some of the belligerents.

If the league tribunal is to be made effective in promoting justice between nations and in defending the weak against the mighty, its laws must be made more binding by imposing a penalty for violation, to be exacted by all the other signatory powers.

If civilization is to be progressive and to be protected against the might of triumphant militarism, there must be some code of international law covering every offense and providing a suitable penalty to be decreed on proof of violation by any nation. At present, it appears that some of the belligerent powers can argue justification for almost any outrage under the plea of "the necessities of war" regardless of any restrictive provisions in the league convention.

There must be some provision under which non-combatants in war will be protected against the explosives hurled from airplanes to destroy whole cities and murder outright all those who happen to be within range of their death dealing force.

What is this system of warfare but the application of the torch and the

dynamite bomb by agencies against which there is practically no defense.

If Germany sent a wagon load of dynamite bombs into Paris to be cast where they should do the most harm, it would not be as bad as the work of the Zeppelin airship in throwing bombs from an unreachably elevation in the air. The fiend with the torch and the bomb can be shot down or driven off; but not so with the aviator 4000 feet in the air with the bomb distributor let down 2,000 feet in a bullet proof cage.

That is a mode of warfare that should be condemned by the whole civilized world as a species of refined barbarism, a device for the cruel destruction of human life and property for which there is no parallel in the annals of war.

BOASTING OVER A SCOOP

The Washington Times is boasting over a great feat on its contemporaries in having published the news of the pope's death as much as twelve hours ahead of some of its less venturesome neighbors. Here is what it says about the matter:

"The Times yesterday added another to a long list of notable news achievements by printing twelve hours in advance of any Washington newspaper and twenty-four hours ahead of any other Washington evening newspaper the important news of the death of Pope Pius X."

The Times is unbecomingly egotistical over such a trifling journalistic achievement. A Boston paper having the same press service as the Times published the account of the pope's death three years ago and never felt

called upon to ridicule other papers upon their sleepiness.

The receipts of the Panama canal have fallen off as a result of the war just as the earnings have been reduced in various other lines of business. But the canal is in no danger of going into the hands of a receiver. The revival of our merchant marine, the resumption of business on normal lines and our increased trade with the South American countries, will soon help swell the canal receipts and save Uncle Sam any possible worry over the now apparent fact that the canal commercially speaking may not be a paying proposition. Anyhow the canal has not been open long enough, nor under normal conditions to justify any conclusions as to the revenue to be derived from it when the warring nations regain their senses.

The docking of absentee congressmen is proving quite effective in holding their attention to duty in Washington. In the past often when business of the utmost importance was under consideration, many congressmen remained absent without attention being called to the fact in any public way. It is right to compel them to attend to the business of the session even though prolonged through unforeseen events. The situation brought forward by the war is practically unprecedented and of course makes it imperative for congress to remain in session so as to be ready to act upon any international question that may demand its attention.

Commissioner Carmichael has now an opportunity to do a double quick job in excavating for the filtration plant and advancing the work at every stage. The city needs relief from bad water which the filtration plant alone, we are told, will remedy; and a whole lot of old men need the employment the job will offer. The citizens will watch the progress of this job with a great deal of interest.

General Villa is watching the European war with a view to finding some more barbarous method than he has yet adopted for overcoming or annihilating his real or fancied enemies. Doubtless the destruction of Louvain, the levy of a \$10,000,000 tax on Brussels and the work of the Zeppelin airships are the features which appeal to him most strongly as worthy of his limitation in Mexico.

The Grand Army encampment at Detroit shows a wonderful representation of the men who fought to save the Union fifty years ago. Nevertheless, each year makes vast inroads upon their numbers with the melancholy reminder that in the natural order of things the time is not far distant when there will not be enough of them left to hold an encampment.

Now that Great Britain has captured Aida, the main city of German Samoa, will prevent Japan from gobbling it up and thus becoming a territorial neighbor to our possessions there. After the war it will be parcelled out among the spoils to the victors whether Germany or the allies.

Let us hope Commissioner Morse will push the smooth paving jobs so that they will not be dragging into cold weather as in past years often for political effect.

There is some discussion as to what would be the most appropriate name for the present war. We would suggest the "Old World War."

WOMEN FROM 45 to 55 TESTIFY

To the Merit of Lydia E. Pinkham's Vegetable Compound during Change of Life.

Westbrook, Me. — "I was passing through the Change of Life and had pains in my back and side and was so weak I could hardly do my housework. I have taken Lydia E. Pinkham's Vegetable Compound and it has done me a lot of good. I will recommend your medicine to my friends and give you permission to publish my testimonial."

— Mrs. LAWRENCE MARTIN, 12 King St., Westbrook, Maine.

Manston, Wis. — "At the Change of Life I suffered with pains in my back and loins until I could not stand. I also had night-sweats so that the sheets would be wet. I tried other medicine but got no relief. After taking one bottle of Lydia E. Pinkham's Vegetable Compound I began to improve and I continued its use for six months. The pains left me, the night-sweats and hot flashes grew less, and in one year I was a different woman. I know I have to thank you for my continued good health ever since."

— Mrs. M. J. BROWNELL, Manston, Wis.

The success of Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, is unparalleled in such cases. All our testimonials are guaranteed genuine and truthful. They came to us entirely unolicited and are sincere expressions of gratitude for actual benefits received from the medicine.

SEEN AND HEARD

The United States May Fever association met in Bethlehem, N. H. yesterday and Mr. Seearheard should have attended the meeting. He has the flu, but he says it costs like the flu to sneeze in Bethlehem and he's a poor man.

Louis Pritzkow of Pritzkow and Blanchard, who appeared at the Academy of Music last week while in this city, introduced a new song of his own composition, entitled, "California, the Paradise of Good Old Mother Earth," with which he is making a big hit. The music is quite catchy while the words are a fine boom for the coming Panama Exposition. Mr. Pritzkow is the composer of "Take Back Your Gold" and a number of popular songs. Mr. Pritzkow appeared here several years ago as the tenor soloist with Primrose and West and since has been heard at the Hathaway and at Keith's.

SAYS WE'RE BEHIND

The following is from the Homeopathic Envy for September:

"Keep Out of Jail—Among the health regulations of Lowell, Mass., as published in Public Health Reports is the following:

"Rule 2. Incorporated manufacturing companies, superintendents of almshouses, lunatic hospitals, and other places where the poor and sick are received, and jailors and keepers of prisons shall, at the expense of their respective establishments or institutions, cause all inmates thereof to be vaccinated immediately upon their entrance thereto, unless they produce sufficient evidence of previous successful vaccination within five years."

That is a big reason for keeping out of jails and almshouses in Massachusetts. But what puzzles us is to know why the medical authorities of Massachusetts are so far behind the advances in scientific medicine. Presumably the "evidence" of vaccination is the "marks," but did not their official journal but a few weeks ago say that these marks were evidence of the vaccinator's ignorance or carelessness? To be sure the marks have been orthodox for a century, but we have advanced! What was orthodox medicine yesterday—bleeding, for instance—is anathema today."

DON'T GET EXCITED

The average American who starts in to discuss the various tactical deployments of the different armies now trying to commit wholesale murder in a legitimate manner should not grow excited over the apparent density displayed by the commanders who do not follow out the plan which he believes should be followed.

Perhaps the poor generals who have spent a lifetime studying military tactics may not know anything at all about their special vocation. Perhaps they need the assistance of the various amateur military experts that have sprung up over night all over the world.

But then again perhaps they do not. Perhaps the generals in command of the various armies see the openings their opponents have left open just as quick as any of us on the side lines see them. Perhaps they have not the troops to do so or perhaps the enemy is hiding in reserve great forces which we know nothing of.

Then again what good does it do us to grow excited over the folly or the seeming folly of the general in command of the various armies? We can never get our views to them in time to be of any service even if we were modern Napoleons. They will never know about our ideas. Their soldiers will never know. The nations as a whole will never know.

The thing to do is to read all we can about the war if we like that kind of reading and then keep as cool as we can. War is never conducted as humanely as even a football game. This above all we should do, keep the United States out of the war.—Lawrence Telegram.

LUKE McLAKE SAYS:

"When anything happens to a man he can't cuss without making the air blue. But when a Perfect Lady gets mad she can swear with her eyes."

Most of us would die from neglect if we loved ourselves as much as we love our neighbors.

We are all liars. A whole lot of prospective millionaires who married alleged heiresses are now working hard to support them.

The ground isn't a very lovely guy, but the son-of-a-gun isn't always hunting for sympathy.

Every now and then you meet a man who believes that he has a monopoly on all the trouble in the world.

You can't get a young man to believe the time will come when girls will seem less important than business.

What has become of the old-fashioned hearse that was all dolled up with plumes like a circus wagon?

Lots of girls are not beautiful. But they are all better looking than their boyfriends.

THE TROUBLE BORROWER There was a man whose life had followed quiet, happy lines.

It was a song of light and joyous tone. His fortune was sufficient for his tastes and his needs.

And he hadn't any trouble of his own.

Though 'mongst his neighbors sounds of strife were flying thick and involving complications of the future and the past.

The sky of his existence by no cloud was overcast.

For he hadn't any troubles of his own.

Tranquility annoyed him and he yearned for repose.

Such cases very often have been known. He hunted for the thorn instead of valuing the rose.

He jumped into the business of folks who disagreed.

He volunteered as umpire and like-wise as referee.

He has insomnia now and from distress is never free.

For everybody's trouble is his own. —Washington Star.

EDITORIAL COMMENT

TO ORGANIZE CREDIT BUREAUS

One of the big chances for business betterment under the new banking and currency law is being improved in steps to organize credit bureaus for the regional institutions. Some of the great banks already have such for their own use, but obviously they cannot be as efficient or gather such wide information about borrowers as can these 12 great institutions, co-operating with each other, that wouldn't be dependent in so large degree on the statements of the bor-

rowers themselves. Under the new system it would be most improbable that such a failure could occur as that of the China company, with its flotation of nearly \$40,000,000 of notes, nearly all of them one-name paper and of accommodation nature.—Worcester Post.

FAMINE IN DYE STUFFS

It is probable that these predictions of a famine in certain chemicals and dye stuffs for which consumers in the United States have been largely dependent upon Germany for their supply, have exaggerated the situation somewhat. Shipments of these commodities are being received in considerable quantities from Rotterdam, Holland, to which port they have been sent from Germany for export, and while, later on, should this war be protracted, the output at the source supply is likely to be greatly curtailed, for the present there would seem to be little cause for concern over an embarrassing shortage. In the meantime it is to be presumed that arrangements will be made for the production of many of these goods elsewhere, or satisfactory substitutes found for them.—Johnstown Democrat.

EUROPEAN ABSOLUTISM

Why should Germans who have sought homes in this republic resent American criticism of European militarism and European absolutism? Why is it that we have in this country more than 3,000,000 persons of the German stock, of whom 2,500,000 were German born? We know many Germans who came to this country immediately after 1848. Germans who won great distinction in this country, to escape the oppressions of Prussia. Can it be disputed that many of them have come since that time, that many who are now living have come to America to escape the dreadful burden of German military service? Surely they did not come here because they thought our form of government was more than that of Germany. They came, we assume, to seek their welfare and their happiness in this land of liberty and boundless possibilities. Then why should so many of them now cry out against the Americans and their newspapers for denouncing the things they fled from, the imperial system, the laws that take every man from his toil and his family for years for military drill, the government that in a palace council may summon all the stoutest and bravest of the people to play and be slain without consulting their will or permitting any expression of it upon a question of peace or war?—New York Times.

"AMERICAN EUGENICS"

Eugenics as a fad has pretty well had its day, at least so far as America is concerned. The remedies proposed in America, to which Prof. William Bateson refers in his presidential address before the British Association for the Advancement of Science, never are proposed by any considerable group of balanced thinkers, and it is scarcely necessary to add—never will be put to the test as a community regulation. Prof. Bateson is entirely right when he condemns the cattle-like breeding of a race from an ideally untainted stock, as "devoted without regard to the needs either of individuals or of a modern state."

"Undoubtedly," he argues, "if they decide to breed their population in one uniform, uniformity, they can do it in a few generations; but I doubt if this respectability will make a nation happy, and I am sure that qualities of a different sort are needed if it is to compete with more vigorous and more varied communities." This is, after all, the very crux of the matter. The perfection in the physical condition of a race, as in art, morals, or anything else in this mortal world—almost certainly the perfection of the human race, and will always exist in a perfect language, where every word, construction and usage can be explained in a mechanically perfect code of laws; a code which all the days are fine; a landscape with no mountains.—Philadelphia Press.

LOOK FOR ARMY WORMS

WITH ONE ARTIFICIALLY COLORED WING, AND REPORT TO WASHINGTON, D. C.

WASHINGTON, Aug. 27.—Everyone interested in the destruction of the army-worm pest is being requested by the United States department of agriculture to look out for army worm moths with one artificially-colored wing. The department's entomologists are catching army worm moths where they are plentiful, coloring one wing of each, and then liberating them in the same territory, so that they may determine whether these moths fly directly west or north, and how quickly and far they will spread. A better knowledge of the habits of this pest should enable the department to control its spread. No moths are to be let loose where their liberation could possibly add to the natural damage.

The moths are already showing themselves in Virginia and in Maryland, and the department's agents are catching specimens at Portsmouth and Charlottesville in Virginia, and Hagerstown in Maryland. The agents at Portsmouth are applying a red stain to one wing of each specimen caught; those at Charlottesville a black or yellow stain; and those at Hagerstown a violet color. Then the moths are left to follow the natural course they would have pursued.

"Look for the army worm moth with a colored wing during the coming month," the department's bureau of entomology is advising its agents east of the Mississippi. Any one observing a marked specimen will aid in the campaign by reporting the fact to the bureau of entomology, Washington, D. C. When its presence has been noted, the moth should be destroyed.

How to Recognize the Moth

The wings of the army-worm moth, when outspread, measure about 1 1/2 inches from tip to tip. The body is

AVOID IMPURE MILK for Infants and Invalids

Weak Heart

Many people suffer from weak hearts. They may experience shortness of breath on exertion, pain over the heart, or dizzy feelings, oppressed breathing after meals or their eyes become blurred, the heart is not sufficiently strong to pump blood to the extremities, and they have cold hands and feet, or poor appetite because of weakened blood supply to the stomach. A heart tonic and alterative should be taken which has no bad after-effect. Such is

Dr. Pierce's Golden Medical Discovery

which contains no dangerous narcotics or alcohol. It helps the human system in the constant manufacture of rich, red blood. It helps the stomach to assimilate or take up the proper elements from the food, thereby helping digestion and curing dyspepsia, heart-burn and many uncomfortable symptoms, stops excessive tissue waste in convalescence from fevers; for the run-down, anemic, thin-blooded people, the "Discovery" is refreshing and vitalizing.

In liquid or tablet form at most drug stores or send 50 cent stamps for free trial box to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y.

BIRTH OF "STAR SPANGLED BANNER" TO BE OBSERVED AT BALTIMORE

ORIGINAL "STAR SPANGLED BANNER"—FRANCIS SCOTT KEY

While other nations are fighting in the world's greatest war the United States, in commemoration of the events that surrounded the birth of "The Star Spangled Banner," the national anthem, will hold a great patriotic celebration at Baltimore Sept. 6 to 13, inclusive. Baltimore will entertain thousands of visitors during the centennial week. President Wilson and former Presidents Taft and Roosevelt will head the list of distinguished guests. All the governors and the mayors of every city of 5000 or more inhabitants have been invited by Mayor Preston, president of the national star spangled banner centennial commission. Sept. 8, Francis Scott Key day, will be marked by a floral automobile parade, the Maryland tourament, a great street carnival and other attractions. On Sept. 12 the original star spangled banner, which is now in the National museum, Washington, will be borne through the streets of Baltimore to Fort McHenry, the escort consisting of the president, many governors and mayors and a picked guard of 100 men from each of the states in the Union in 1814. Fort McHenry will be dedicated as a public park, with an address by President Wilson, and 6600 children will sing the national anthem.

about half this length. The general shape of the moth with its wings outspread is triangular. The moths will hover about the lights in the evening. On farms, they will be found on the outside of screens and doors at night. They will probably not be observed in the daytime. On dark, hot, close nights, such as precede thunder storms, they will probably be especially noticeable. The army-worm pest has caused considerable damage to the crops and lawns this summer throughout the northern United States east of the Mississippi. The worms are only now disappearing in northern Maine and Michigan, which were probably hatched from the eggs of moths migrating from more southern portions of the country. With the additional knowledge that this experiment will give, the department hopes to control the spread of the pest more completely in coming years.

GEN. PAUL PAU, HERO

FAMOUS ARMY LEADER WHO LOST AND IN FRANCO-PRUSSIAN WAR AGAIN CONSPICUOUS

General Paul Mary Casimir Germain Pau, one of the most famous of French army leaders in the war, is popularly known as "the hero of Froeschwiller" on account of his gallantry in that battle in the Franco-Prussian war, when he lost an arm. He is sixty-six years old. He was trained at St. Cyr, the West Point of France, graduating in 1867. Pau was made a division commander in 1904. He retired from active service in 1911. That same year the French people demanded that he be made commander-in-chief of the army, but a change in ministry ended this. He has so far played a conspicuous part in this war.

NO TROUBLE AT BUTTE, MONT.
BUTTE, Mont., Sept. 3.—Butte's first day of martial law with the Montana National Guard occupying the court house and city hall, passed without disturbance.

Four arrests of leaders of the Butte Mine Workers' union were made late yesterday afternoon, one of the men being James Chapman, chairman of the jurisdiction committee.

Provost Marshal Frank Conley searched the city for "Muckie" MacDonald, president of the union, but he could not be found. He is wanted on charges of inciting riots.

For the first time in three days the jurisdiction committee of the union did not appear at the mines and enforce its order, that prohibited non-members from working.

For several blocks around the court house, the streets were patrolled by militiamen who prohibited persons from passing through the guarded district. On two sides of the court house building, machine guns were placed on the roof of the courthouse. The state troops will sleep in the court house for the present.

INDIANS ATTACKED IN WAR ZONE
LONDON, Sept. 3.—William Arthur of Lander, Wyoming, accompanied by nine Sioux Indians who were attached to a circus which was performing in Trieste when the war broke out, reached London yesterday after many exciting adventures.

Arthur said that the extent of the forenoon sessions was the annual address of the commander-in-chief, Washington Gardner of Albion. The meetings of the Grand Army and the Women's Relief Corps promised to last until late in the afternoon.

G. A. B. CONVENTION
DETROIT, Sept. 3.—The Grand Army of the Republic and the several organizations affiliated with it, held their annual convention today.

The principal event of the forenoon sessions was the annual address of the commander-in-chief, Washington Gardner of Albion. The meetings of the Grand Army and the Women's Relief Corps promised to last until late in the afternoon.

AMONG THE TOILERS

Chester Craig of the Northern Waste Co., has returned from a few days visit to friends in Lawrence.

There will be no celebration by labor bodies in this city Labor day. Many of the members will undoubtedly journey to Boston and witness the big labor parade which will be held in that city.

Fred Howland and Richard Tobin of the Lowell Bleachery will be heard to advantage in the latest song hits tomorrow night at the entertainment to be held under the auspices of the Buckhorn club, in South Whipple street.

James Bodkin of the Merrimack Manufacturing Co., is spending his vacation at Lynn beach.

Dave Manning will lead the quartet singing at the outing of the Hine Electric Co. employees to Revere beach Saturday.

John Rogers of the Lowell Peat Co., has been signed by the Hillside A. C. and will play with the team for the first time Saturday at Shedd park.

Joseph Lawson of the U. S. Bunting Co. will spend Saturday, Sunday and Labor day with friends in Worcester, Mass.

William Holland of the Saco-Lowell shoe is spending his vacation today at his camp at Crystal lake. William is of the opinion that Crystal lake cannot be improved upon as a fishing place.

New Selling House
The Parker Wilder Co., of Boston, has succeeded Wellington, Sears & Co. of Boston as selling agents for the Mount Mills of Lowell. The reason for the change is not stated.

Carpenters Held Meeting
Carpenters' union local 1610, held its regular weekly session in Carpenters' hall in the People's building last evening and it was largely attended. Business of an important nature was transacted, and two members were admitted. Several applications were received and were held on the table for one week. The business agent made a comprehensive report on the condition of the local and the secretary's report showed the union to be on a firm financial basis.

Homestead Machinists Met
The Homestead Machinists, affiliated with the I. A. M., held a meeting last evening in the People's building. The meeting was largely attended and business was transacted. After the meeting, a social hour and refreshments were served. The members of this union, for the most part came from the Boston and Maine shops in Concord and Laconia, N. H., and are at present employed in the Elliptical shops.

Lowell Textile Co.
Word was received yesterday afternoon at the Lowell Textile Co. in North Chelmsford, which manufactures towels of all descriptions, that a boat, loaded with linen consigned to the plant had arrived at Boston. The boat has been between 15 and 20 days late in arriving, and has set back the work somewhat, but it is expected that within two weeks, night operations will commence, which will necessitate the employment of several more hands.

Muskegon Mills Busy
The Muskegon Mills, which manufacture worsted goods are quite busy these days. The fact that the past few months have usually the dull months of the year for manufacturing in this line, Supt. Laycock informed the reporter that as far as he could see there will be no let-up. The motor trouble which has caused some difficulties at the plant the past few weeks have been remedied, and a new engine is being installed.

Sanitary Conditions in Factories
The state board of labor and industries has adopted a new plan of putting into execution the labor laws which have been recently put on the statute books.

As an example of the work they are doing, on Wednesday, Aug. 26, they sent notices to 15 of the shoe manufacturers in the different parts of Massachusetts and called them together for a conference in the board room at 1, Beacon street, Boston, Mass.

The chairman of the board, Alfred Pongman, who is a shoe manufacturer himself, then advised the parties present that under chapter 726 of the laws of 1914 that the said state board of labor and industries is obliged to see that suitable, adequate and convenient water closets and washing facilities, separate for each sex, are maintained in all industrial establishments, and he asked for an opinion from the different manufacturers as to whether they thought their present equipment was sufficient to meet the needs of their employees.

There were 15 different representatives who spoke on this question, and they all agreed that there was a great opportunity for improvement in sanitary conditions, and admitted that there was need of just such a law as this, and, as a result of the conference, a committee of the shoe manufacturers, consisting of Edwin M. Perry, Ellis Perry Co., Newburyport; F. E. Field, Jr., F. E. Field & Co.,

Brookton; Mr. Russ, Russ & Page, Haverhill; J. O. Walker, J. L. Walker & Co., Lynn, and Edwin Mulready, commissioner of labor, Boston, were appointed to submit to the board for consideration such rules and regulations as they thought would be necessary as a standard for the state.

The result of this conference was that all the manufacturers were in a much better frame of mind when leaving, and individually agreed to see that as far as they were concerned every effort would be made to have Massachusetts rank among the leading states, with reference to the conditions under which employees labor.

The board has not adopted any rules, but will wait until the committee submit their report, and will then adopt such rules as in their opinion will be sufficient to meet the necessary needs.

This is simply an example of the way that the state board of labor and industries is ably handling one of the many problems which are under its supervision.

Some of the prominent shoe manufacturers present were: Mr. Perry, Bliss Perry Co., Newburyport; Mr. Field, F. E. Field & Co., Lynn; C. E. Hastings, J. Winchester & Co., Haverhill; E. P. Daniels, L. S. Dudley company, Haverhill; H. E. Chase, W. S. Chase & Sons, Haverhill; W. W. Russ, Russ & Page, Haverhill; G. H. Richardson, Lynn; P. E. Field, P. E. Field & Co., Brookton; J. H. Grover, J. H. Grover's Sons, Lynn; F. O. Walker, J. L. Walker & Co., Lynn; L. P. Baker & Co., Beverly; Lewis Hartman, Hartman Shoe company, Haverhill; Mr. Bray, Bray & Stanley, Beverly; and H. Corbett, E. Little company, Lynn-Lynn item.

WHAT AND WHERE CHILE BUYS

The longest way round is not the shortest way home when it comes to transporting merchandise. To get there quickest with the best goods, other things being equal, means commercial success, and that's what the Panama canal will enable the manufacturers and other commercial interests of the United States to do along the 5,000 miles of Pacific coast line of South America. Of that coast line nearly 3,000 miles are taken up by the Republic of Chile. Therefore Chile is in the commercial line of sight just now, and bids fair to remain there for a good many years to come, for her importance in the business world is increasing and her future prospects are remarkably bright.

Complete details of Chile's foreign trade for 1913 are not yet available, but from some advance figures just received from the Pan American Union, Washington, D. C., some interesting facts may be gleaned, which should claim the attention of those interests in the United States seeking to enter the Latin American field. In the first place, Chile's foreign trade in 1913 exceeded all previous records notwithstanding a general and almost worldwide financial depression. The total amounted to \$265,000,000, of which the imports were valued at \$130,000,000 and the exports at nearly \$135,000,000.

In this connection it is interesting to note that the United States has made very perceptible gains on her two chief rivals, the United Kingdom and Germany, in the total Chilean trade since 1909. Of Chilean imports in 1913 the United States supplied nearly 17 per cent, against only 10 per cent in 1909; the United Kingdom 30 per cent, against 33 per cent in 1909; and Germany just held her own with 24 per cent. The United States gained 7 per cent in 5 years without the Panama canal. How much should the gain be during the next five years with the canal open for business?

New what does Chile buy? According to values the five leading classifications for 1913 were: Textiles (including cotton, wool, other fibres and silk), over \$28,000,000 worth; mineral products (including iron and steel manufactures, earthen and stone, precious metals and jewelry), \$22,250,000; coal, oils, etc., nearly \$20,000,000; machinery, \$15,000,000; vegetable products (including food products, fruits and grains, woods and manufactures, etc.), nearly \$14,000,000; and animal products, nearly \$8,000,000.

Under the above classification, the line of textiles the United States made a very poor showing. The United Kingdom sold the Chileans over \$11,000,000 worth; Germany, nearly \$8,552,000; France, \$2,500,000; Belgium, over \$1,000,000; and the United States only \$811,000 worth. With the European war engrossing the attention of the four countries enumerated, and with the Panama canal doing business, surely the manufacturers of cotton and wool textiles in the United States will get busy and make a better showing henceforth.

Under mineral products are found such manufactures of steel and iron as wire; granite cooking utensils; pipes, tubing and connections; nails, railway spikes, asphalt, steel rails, car wheels, structural steel, etc., and of the total Germany sold \$3,120,000 worth; the United Kingdom, \$6,146,000 worth; United States, \$1,428,000; Belgium, \$2,500,000.

Under coal, oils, etc., the details of the 1913 imports are not yet available, but we find that the United Kingdom sold Chile over \$7,500,000 worth while the United States came second with about \$6,000,000 worth. In 1913, the United Kingdom sold the Chileans \$7,146,000 worth of coal alone, Aus-

tralia sold nearly \$3,000,000 worth, and the United States but \$1,000,000. Under machinery (which included railway cars, automobiles, hardware, etc.), Germany sold nearly \$5,500,000 worth, the United Kingdom, over \$4,540,000, and the United States, \$3,241,000. From all of which it may be inferred that it is time for the manufacturers of the United States to get in the game in earnest.

RIVERS AND HARBORS BILL
WASHINGTON, Sept. 3.—The senate voted yesterday to begin consideration of the rivers and harbors appropriation bill today and continue until it is disposed of.

Several republican senators propose to fight the bill, which carries appropriations aggregating \$53,000,000.

SIGN NEW PANAMA TREATY
PANAMA, Sept. 3.—An important treaty by the terms of which the United States gains control of the waters of the harbors of Colon and Ancon, together with certain other valuable rights, was signed yesterday by William Jennings Bryan, the American minister, and Ernesto T. Lefevre, Panama secretary of foreign relations.

The United States acquires absolute control over all the waters of Colon and Ancon harbors and, in addition, two small islands lying in Ancon harbor which are to be used for observation and light stations by the coast artillery. One of these islands will be fortified. The site of Battery Hancock is given to the United States as is also the control of all the piers at the north entrance of the canal costing approximately \$2,500,000.

TO REORGANIZE CLAFIN CO.
NEW YORK, Sept. 2.—At a meeting of the General Mercantile Creditors committee of the H. B. Clafin Co. yesterday, tentative suggestions were received from the noteholder's committee which embodied the basic principles of which a plan for the reorganization of the company may be worked out.

It was said after the meeting that the general mercantile creditors committee has virtually consented to the plan as proposed by the noteholders. It is understood that the plan provides in general way for the paying of 15 per cent, in cash and the issuing of bonds of a new corporation.

FARMERS APPEAL TO CONGRESS
FORT WORTH, Tex., Sept. 3.—An appeal to congress to finance the marketing of the cotton crop of 1914 was authorized today by the Farmers' Educational and Co-operative union of America. Details of the plan to relieve the marketing situation caused by the war in Europe were left to the judgment of a committee which will go to Washington immediately to present the appeal.

WAR SPIRIT IN CANADA
OTTAWA, Ont., Sept. 3.—The war spirit is growing in Canada. The officials are being overwhelmed by men eager to go to the front. The first call was for 25,000 volunteers.

LEGAL NOTICES

COMMONWEALTH OF MASSACHUSETTS, Middlesex ss. Probate Court.
To the heirs-at-law, next of kin and all other persons, interested in the estate of Clara J. Pierce, late of Lowell, in said County, deceased, notice is hereby given.

Whereas a petition has been presented to said Court to grant a letter of administration on the estate of said deceased to Marcus T. Pierce, of Lowell, in the County of Middlesex, without giving a surety on his bond.

You are hereby cited to appear at a Probate Court to be held at Lowell, in said County of Middlesex, on the fifteenth day of September, A. D. 1914, at nine o'clock in the forenoon, to show cause if any you have, why the same should not be granted.

The petitioner is hereby directed to give public notice thereof, by publishing this citation once in each week, for three successive weeks, in The Lowell Sun, a newspaper published in Lowell, in said County, to be one day, at least, before said Court.

Witness, Charles J. McIntire, Esquire, First Judge of said Court, this twenty-fifth day of August, in the year one thousand nine hundred and fourteen.

COMMONWEALTH OF MASSACHUSETTS, Middlesex ss. Probate Court.
To the heirs-at-law, next of kin and all other persons interested in the estate of Deane Halloran, late of Lowell, in said County, deceased, notice is hereby given.

Whereas, a certain instrument purporting to be the last will and testament of said deceased has been presented to said Court for Probate, and Daniel C. Halloran, who prays that letters testamentary may be issued to him, the executor therein named, without giving a surety on his official bond.

You are hereby cited to appear at a Probate Court to be held at Lowell, in said County of Middlesex, on the fifteenth day of September, A. D. 1914, at nine o'clock in the forenoon, to show cause if any you have why the same should not be granted.

The petitioner is hereby directed to give public notice thereof, by publishing this citation once in each week, for three successive weeks, in The Lowell Sun, a newspaper published in Lowell, the last publication to be one day, at least, before said Court, and by mailing postpaid, or delivering a copy of this citation to all known persons interested in the estate, seven days at least before said Court.

Witness, Charles J. McIntire, Esquire, First Judge of said Court, this second day of September, in the year one thousand nine hundred and fourteen.

WANTED
WANTED TO BUY FARM ON CO-OPERATIVE plan. Must be bargain. Address S95, Sun Office.

tralia sold nearly \$3,000,000 worth, and the United States but \$1,000,000. Under machinery (which included railway cars, automobiles, hardware, etc.), Germany sold nearly \$5,500,000 worth, the United Kingdom, over \$4,540,000, and the United States, \$3,241,000. From all of which it may be inferred that it is time for the manufacturers of the United States to get in the game in earnest.

NEW POPE ELECTED

Cardinal Della Chiesa, Archbishop of Bologna, New Head of Catholic Church---Will Assume the Name of Benedict XV

CARDINALS O'CONNELL AND GIBBONS NOT AT CONCLAVE

ROME, Sept. 3.—Cardinal Della Chiesa has been elected pope and will assume the name Benedict XV.

Cardinal Giacomo Della Chiesa, who was today elected pope by the sacred college, in succession to Pius X, who died Aug. 20, was created a cardinal May 25, 1914. He is the archbishop of Bologna, Italy.

He was born at Pegli in the diocese of Genes, Nov. 21, 1854, and was ordained a priest December 21, 1878. He served as secretary of Nunciature in Spain from 1883 to 1887 in which year he was appointed secretary to the late Cardinal Rampolla.

He was appointed substitute secretary of state in 1901 and in 1907 he was elected to the post of adviser to the Holy office.

In 1907 he was appointed papal nuncio of Madrid in succession to Mgr. Rinaldini but this appointment was cancelled three days later. This incident had occurred just before he was made archbishop of Bologna. When Mgr. Della Chiesa was given this post it was declared in Rome that it was mainly with the object of combatting modern religious ideas, Bologna being the headquarters of the National democratic league, of socialistic tendencies, whose members advocated what is known as "modernism" in religion.

It has been 174 years since the last Pope Benedict held the chair of Peter. On his election to the papacy in 1740 Cardinal Prospero Lambertini assumed that title.

It is an interesting fact that the new pope was Archbishop of Bologna while Pope Benedict XIV was born in Bologna.

According to a despatch from Rome at 2.50 yesterday afternoon and received here early today, the White Star liner Canopic bearing Cardinals Gibbons and O'Connell to Rome was not due at Naples until tomorrow. Therefore, neither of these two American cardinals participated in the election of the new pope.

SECOND EDITION

Assessors' Appropriation is Petering Out—Working Overtime

The appropriation of the assessors' department is nearly exhausted and in order to keep within the appropriation a number of regular clerks are working overtime without extra compensation. The appropriation asked for at the beginning of the year was \$14,625 and that given was \$14,500, a difference of \$125 which is much needed at this time when a lot of work is being done.

Chief Clerk Reardon in conversation with The Sun reporter this morning said that before the budget of the assessors' department was sent to the municipal council every item was figured down to the cent. "We knew," he said, "that we could not get along with a cent less than was asked for. \$14,625, but despite that fact the council cut us down \$125 and now the clerks have to make up the difference by working overtime without compensation."

Reardon said there was an increase this year in the printing of poll books. Last year the printer charged 74 cents a page for the work and this year he increased it to 83 cents per page. The assistant assessors cost department more this year for three inexperienced clerks had to be hired, on account of the civil service not being able to supply the department with experienced clerks, and then again there was an extra expense incurred on account of the large number of assessors were through with the work of assessing poll and personal taxes, they had to go out and do house to house canvassing in order to get the names of the female voters.

The extra clerks who were hired some time ago were discharged last Monday for there was no money left to pay them for their services and the regular clerks had to double up and work overtime and this will be kept up all week.

GERMANS 30 MILES FROM PARIS

Government of France is Now Established at Bordeaux—Russians Victorious in Sanguinary Battles With Austrians—Russians are Pressing Forward in Galicia—Germans Admittedly Victorious in East Prussia—Germans Pressing Right Wing Near Paris While Centre and Left are Held by French—Japan Occupies Seven Islands Near Kiao Chow

The absence of official announcements from the capitals of the belligerents today is the surest indication that the fighting in the east and west continues without decisive results.

Such news despatches as escaped the censors tend to confirm earlier official claims and admissions. The Germans are pushing their right wing nearer Paris while their center and left appear to be held by the French. Russia is pressing forward in the Austrian province of Galicia after having taken the strongly fortified capital, Lemberg. The Germans are admittedly victorious in East Prussia.

The Japanese are said to have occupied seven islands near Kiao Chow and to have landed additional troops within marching distance of that German stronghold in the face of protests by China.

King Nicholas of Montenegro is reported as determined to occupy Scutari. The governor and other German officials of Samoa have been made prisoner by the British and sent to the Fiji islands.

The government of France is now established at Bordeaux. The foreign embassies and legations with the exception of those of the United States and Switzerland have also been removed from Paris to Bordeaux.

A GENERAL BLOW-OUT

AT EXPENSE OF WATER DEPARTMENT ON SUNDAY AFTERNOON BETWEEN HOURS OF 1 AND 5

The water department will hold a big blow-out next Sunday afternoon between the hours of 1 and 5 o'clock. While it is a blow-out it cannot be called a junket and if it has the desired effect the public will feel like having a junket in celebration of the fact.

Commissioner Carmichael announces that on Sunday afternoon the water will be drawn from all city mains and the pipes given a thorough blowing-out for the purpose of improving water conditions generally if possible. It is hoped that the sediment, and the different insects and reptiles that are reported to be quartered in the city mains will be discovered and eliminated. It will be impossible, therefore, for the public to get water through their faucets between the hours of 1 and 5 on Sunday afternoon and those who are in the habit of using it between those hours, should govern themselves accordingly.

The price of sandwiches at the hotels will remain unchanged.

To Draw Jurors

Mayor Murphy returned from a three-weeks vacation spent at Kennebunk, Me. this morning, and he called a special meeting of the council for tomorrow morning at 11 o'clock for the purpose of drawing jurors for the October session of the superior criminal court.

The mayor stated this morning that the Putnam matter will not be taken up tomorrow but he believes the matter will be disposed of at the regular meeting which will be held next Tuesday.

Visitor at City Hall

Russell T. Priest, assistant city engineer for Boston, was in Lowell today, the guest of Supt. J. W. Kernan of the park department. The visitor was taken around the city in the department automobile and was shown the parks and places of interest in Lowell.

Supt. Kernan is another who is doing his very best to live within his appropriation. He said he can manage it all right but he will have to figure closely and probably curtail in the latter part of the year.

Big Contract

Purchasing Agent Foye this morning awarded a \$11,000 contract for pipes and castings for the water department. The sum of \$15,000 had been voted for the purchase of the material and the lot was bought for \$4,000 less than the amount appropriated. The contract calls for 235 tons of straight pipe and 86 tons of special castings, \$71.50 a ton; U. S. Cast Iron Pipe & Foundry company—Straight Pipe, \$22.50; castings, \$74. This material will be used in connection with the building of the new filtration plant.

Permit Granted

Fred J. Guyette was this morning granted a permit for the erection of a work shop at 95 Billings street at a cost of about \$200.

MILKMEN HAVE DAY IN POLICE COURT

Not as Voluntary Delegates But Invited Guests—Daniel Leary Identifies Dyehouse Clothing Worn by Prisoner

Police court today looked like a milkmen's convention, due to the activities of Milk Inspector Masters and Collector Coughlin. Needless to say the milk dealers who answered to the dockets roll call this morning were not voluntary delegates.

Of the five sellers of the white fluid who appeared today three of them were found guilty of watering their milk while another was convicted of removing the cream from the top of his milk bottles. The case of Herman F. Passut, charged with removing the cream from his milk, was continued until October 1. John J. Harvey appeared as counsel in this case.

Kaarkos Nickseal, Arakeli Arakillian, Jeremiah Sheerin and Robert P. Carson were all found guilty of unlawfully confusing milk with water and turned over \$50 each as a reminder of the fact that a state law is, rather, against his practice.

The lawyer in one case made a plea to Judge Enright, asking that his client's case be put on file and laying the blame on the driver of the milk vehicle. Judge Enright couldn't see this explanation at all. "We must protect the public," stated the court emphatically, "especially the infants to whom a great deal of this watered milk is being served."

Held For Grand Jury

Armand Guenard, the young man arrested for the break in the Bay State Dye Co.'s Prescott street store, still claimed that he was innocent this morning. Mr. Daniel M. Leary, the proprietor of the store, identified the clothing which the defendant was accused of stealing and which he wore when arrested.

The young man pleaded guilty to another break. The store of James H. Collins was broken into the fifth of last July and had remained a mystery until Guenard was arrested. The youth pleaded guilty to this break but maintained that he bought the suit of clothes belonging to Mr. Leary. Judge Enright found probable cause in the

case and ordered the defendant held for the grand jury's next session.

Sent to State Farm

The police have been trying to break up a crowd of young men who persist in hanging around street corners in lower Centralville and yesterday arrested Andrew Brunella. He was charged with vagrancy, was found guilty and sentenced to the state farm.

Women Sent Away

Mary Lessard and Mary Brennan were the only female defendants, in court today. Both Marys were accorded sentences. The Lessard woman was charged with being a disorderly person as well as with being in her cups last night. She was sent to Sherborn. The Brennan woman was sentenced to serve two months in jail on a drunkenness complaint.

A Delinquent Husband

A non-support case concluded this morning's court affairs. Wilfred J. Pelletier was accused by his wife of not providing the necessary wherewith for his better half to subsist upon and upon the conclusion of the evidence at hand Judge Enright ordered the husband to produce \$1 per week for his wife's support.

HOTTEST IN 36 YEARS

One Killed and Seven Overcome by Heat in Boston—Maximum Temperature Ninety

BOSTON, Sept. 3.—Hot and muggy weather often prevails in Boston during the first days of September, but not for many years has it been as uncomfortable as yesterday. A record of one death and seven prostrations in the city tells the story in one way, and the manner in which people generally complained of discomfort tells it in another.

The dead:
Daniel Kerrigan, 52 years old, living on the top floor of the house 3 Hampshire street, South End, found dead on the floor of his home last evening. Death is believed to have been due to natural causes superinduced by the heat. He had complained of exhaustion earlier in the day.

Overcome by Heat
Anthony Perry, aged 40, 4 Greenwood street, Dorchester, overcome at State street and Atlantic avenue. Relieved at hospital.

Mrs. Anne Bascom, aged 52, 69 Bay View avenue, Winthrop, overcome in public garden. Relief hospital.
Mrs. Wesley Joyce, 783 Huntington avenue, overcome on Tremont street, opposite common. Relief hospital.
Frank Anderson, aged 27, 95 Beach and avenue, Revere, overcome at Fenway park. City hospital.

Mrs. Ellen Cushman, aged 55, 20 Waltham street, Forest Hills, collapsed corner Washington and Brattle streets. Relief hospital.
Michael G. Chillum, address not known, found unconscious on street in Boston common. Relief hospital, serious condition.

John J. Judge, aged 21, 21 Mystic street, Everett, overcome while at work in South End hotel. Relief hospital.

Official Temperatures

1 a.m.	72	1 p.m.	87
2 a.m.	72	2 p.m.	88
3 a.m.	72	3 p.m.	88
4 a.m.	72	4 p.m.	88
5 a.m.	72	5 p.m.	88
6 a.m.	72	6 p.m.	88
7 a.m.	72	7 p.m.	88
8 a.m.	72	8 p.m.	88
9 a.m.	72	9 p.m.	88
10 a.m.	72	10 p.m.	88
11 a.m.	72	11 p.m.	88
12 noon	72	12 mid.	88

It was the hottest Sept. 2nd in 36 years. The maximum temperature was 90 at 2 p. m. Not since 1878, when the maximum temperature was 91, has Sept. 2 been so warm. This only partially explains the discomfort.

Not only was the temperature above 70 from the early hours of morning until midnight, but after 5 a. m. it was 70 or below 70, and at midnight it was just 50. It was the combination of the continued high temperature with an abnormal humidity of 81 per cent, nearly all day which affected people. The humidity at 11 p. m. was 76.

Examination of the weather reports shows that only once in August was a maximum temperature of 90 recorded. This was Aug. 10, which also had a humidity of 100 per cent at 8 a. m.

Closer examination shows that Aug. 10 was not as uncomfortable a day as yesterday, in spite of these figures. On Aug. 10, early in the day, when the humidity was highest, the temperature was only 66. Then, about noon, when the wind changed from east to southwest, the humidity dropped to 78 and the temperature gradually rose to the 90 mark. Thus, at no time was there the combination of hot and sticky weather like that of yesterday.

On July 18 the maximum temperature was 90, while on May 27 and June 25 Boston had maximums of 95 and 94, respectively. On none of these days, however, was the humidity above normal.

In some places yesterday the southwest breeze did bring slight relief. It was not felt, however, anywhere in the downtown section of the city. It was this southwest breeze, blowing at 14 miles an hour late last night, upon which the forecasters based their prediction of cooler weather today. At midnight there was even a prospect of the long delayed showers before daylight. The forecast for today is fair and cooler, with continued fair weather tomorrow.

Although there was no general storm area in the United States last night, there were local showers in a number of places, including parts of northern New England. A temperature of 80

degrees in Duluth, Minn., was the lowest minimum recorded, while Eastport, Me., showed 65. In parts of Arizona the maximum was 100.

DEATH IN SOMERVILLE

John H. McNeil Victim of Heart Trouble Supposed to Have Been Aggravated by Weather

John H. McNeil, 50 years of age, died suddenly yesterday afternoon at 1161 Broadway, Somerville, where he was employed. He had been suffering from heart trouble for some time and it is supposed that the heat aggravated the trouble. He was married and lived at 27 Quincy street, Somerville. Medical Examiner McCaffery viewed the body and allowed it to be taken home.

TRADE WITH PANAMA

WASHINGTON, Aug. 28.—Trade of the United States with other American countries in the fiscal year ended June 30, 1914, aggregated 1,833 million dollars, and constituted 36 per cent of the entire commerce handled by domestic ports. Of this large New World commerce, 956 million was with North America and 347 million with South America.

Our imports from North American countries valued at \$27 million dollars in the fiscal year, were chiefly from Canada, Cuba, Mexico, the Central American States, and the British West Indies. Our exports to North American countries, 583 million dollars in value, were chiefly to Canada, 216 million; Cuba, 68 million; and Central America and Mexico, each about 23 million. The United States supplies a larger proportion of the leading countries of North America than any other nation, and in the case of Canada, Central America, and Cuba, more than all other parts of the world combined.

Of our 225 million dollars' worth of imports from South America, nearly one-half were from Brazil, about 20 per cent from Argentina, and the remainder chiefly from Chile, Colombia, Venezuela, and Peru. Nearly one-fourth of our total exports of 125 million dollars' value to South America went to Brazil and over one-third to Argentina. In sharp contrast with the high position of the United States in the North American markets is its low rank among the nations selling goods in South America where, in the case of such important countries as Argentina, Brazil, and Chile, only about 15 per cent of the imports were from this country. South America as a whole imported in 1912 over 965 million dollars' worth of foreign goods, our share being about 14 per cent.

The relatively small contributions of American manufacturers and exporters to the requirements of the South American markets draws attention to a recent publication of the Bureau of Foreign and Domestic Commerce, Department of Commerce, entitled "South America as an Export Field," Special Agents Series No. 81, and sold by the public printer at the nominal price of 25 cents. In that publication Commercial Agent Otto Wilson outlines the conditions necessary for the successful sale of goods, the lines of manufactures required in South America, and the standing of the leading nations as contributors to those requirements. It is pointed out, for example, that Argentina imports large quantities of manufactures of the class produced in the United States, but that the United Kingdom and Germany supply more of them, as a whole, than this country; while France sells there five times as many automobiles, Germany 20 times as many iron boxes, three times as many cotton goods, and England 25 times as much coal and twice as much machinery in that market as the United States. This disparity in favor of European countries extends to many other articles and practically all countries of South America, each of which is interestingly discussed in the monograph named.

A mere enumeration of a few of the principal articles imported by Brazil will serve to illustrate the opportunities which await American exporters in that and other South American fields: Arms and ammunition, cars, automobiles, cotton goods, pharmaceutical preparations, electrical apparatus, cutlery, machinery, leather, printing paper, perfumery, tin plate, soap, and wearing apparel, all of which are bought in large quantities, and in practically every case are obtained more largely from England, Germany and France than from the United States. The government's "Daily Consular and Trade Reports" are also presenting cable dispatches from South America which indicate the special needs of these markets owing to the supplies from Europe being cut off.

Uneeda Biscuit

Tempt the appetite, please the taste and nourish the body. Crisp, clean and fresh. 5 cents.

Baronet Biscuit

Round, thin, tender—with a delightful flavor—appropriate for luncheon, tea and dinner. 10 cents.

GRAHAM CRACKERS

Made of the finest ingredients. Baked to perfection. The national strength food. 10 cents.

Buy biscuit baked by NATIONAL BISCUIT COMPANY Always look for that Name.

SOCIAL AND FRATERNAL

Industry Council, Royal Arcanum, held its regular meeting last evening in Odd Fellows hall. Regent A. E. Rountree presiding. Proofs of death were read on the late Brothers Jeremiah McGlinchey and Edward McGinn for payment. During the meeting the members stood in silence for three minutes while the organ played "Nearer, My God, to Thee" in respect to the late brothers.

The orator of the council is planning for some interesting entertainments to be given at the different meetings this fall.

Under the good and welfare of the order, interesting remarks were offered by Trustees James W. McKenna, Neil Clark and Treasurer Charles H. O'Donnell. After the meeting a social hour was enjoyed.

MAIL CARRIER ARRESTED

ALEXANDER MOIR, CHARGED WITH STEALING MAIL—EMPLOYED AT POST OFFICE FOR 15 YEARS

At the request of Post Office Inspector Jennings, a local mail carrier, Alexander Moir was arrested yesterday on a charge of stealing mail. The prisoner was taken to Boston yesterday afternoon and was held in the sum of \$1000 to appear before the federal commissioner in Boston today.

Moir resides at 77 Hampshire street. He was appointed sub-carrier in 1899 and six years later was promoted to a regular carrier since that time. For many years some of the local carriers have been complaining of missing mail from their respective boxes.

Inspector Jennings was detailed on the job and after due investigation the inspector ordered the arrest of Moir.

CITIZENS-AMERICANS CLUB

An interesting meeting of the members of the Citizens-American club was held last night in the new quarters in Middle street. President Maxime Lepine occupied the chair and considerable business was transacted.

Thirty new members were initiated and 21 applications for membership were received. All the members are deeply interested in the welfare of the organization and a good proof of this is the hundred or more recruits during the past few weeks. It is the intention of the officers and members to make the membership of the club one of the largest in the city and their efforts are being well repaid for the list of names now totals over 300.

The committee in charge of the arrangements for the official dedication of the new quarters, which took place last night and the chairman stated that he held this evening. The affair will find meeting of the committee will take place Monday evening and will consist of a concert and social reunion. A light luncheon will be served and dancing will be enjoyed in the large assembly hall on the top floor. The reunion will be for members and their wives.

CONGRESSMAN ROGERS

ISSUES CIRCULAR IN CONNECTION WITH APPOINTMENT TO MILITARY ACADEMY

The following circular which Congressman John Jacob Rogers has had printed in connection with his contemplated selection of a young man to represent the fifth congressional district in the United States Military Academy at West Point, New York, such candidate to enter the academy the fourteenth of June 1915. I am also entitled to designate two alternates who are numbered respectively first, second and third, and who are appointed if at all, in the same order—i. e., if the principal passes, he is admitted to the academy; but if the principal fails and the first alternate qualifies, the first alternate is admitted; in case the principal and the first alternate fail, the second alternate qualifies, the second alternate is admitted.

Although my course is not required by law, I have deemed it more consonant with a wholesome spirit of equal opportunity that the young men whom I shall designate, both as principal and alternates, to enter the official examination for admission to the United States military academy shall be selected as the result of a district-wide competitive examination.

This examination, which is entirely unofficial, I have requested the United States civil service commission to hold. The commission will, without my intervention, prepare the questions, hold the examination, correct the papers and certify to me the ranks and relative standing of the competitors. I shall designate, both as principal and alternates, to enter the official examination for admission to the United States military academy shall be selected as the result of a district-wide competitive examination.

I have requested the civil service commission to give an examination of substantially the same degree of difficulty and in the same subjects as those which comprise the examination for admission to the academy. Six hours will be allowed for this examination—three in the morning and three in the afternoon, with an intermission of one hour at noon. The examination will consist of algebra, geometry, grammar, geography and general and United States history—the first three subjects to be given in the morning and the last three in the afternoon.

The first three young men in rank at the mental examination of October 21, 1914, I shall cause to be examined by the official medical examiner of the United States civil service commission, on a date to be set later, but subject to October 21, 1914. This physical examination will probably occur in Boston some time in November, 1914. If all three pass the physical test—which I shall request the examiner to make almost, but not quite, as rigorous as the official examination.

GERMANS INTRENCHED TO PROTECT TROOPS CROSSING A STREAM FROM FIRE OF ENEMY

This picture shows how the Germans guard their troops in fording a stream when they fear an attack from the enemy. The infantrymen are intrenched on a hillside, with guns leveled at the opposite shore, ready to hurl a broadside of bullets in case those in the river are fired on.

3,000,000 DEFEND PARIS BARNES STILL AN ISSUE

Frenchmen Still Have Confidence in Ultimate Result—War Office Reports Germans Checked

LONDON, Sept. 3, 1.40 a. m.—The British people continue to accept with stoicism the lack of news concerning the operations of the British army on the continent. The government has repeatedly assured the public that all news consistent with the nation's interest would be given out and the people are accepting that assurance. The French official reports say the action on the right of the northern wing has resulted in checking the Germans for a time. The inference is that the Germans are employing all their force in an enveloping movement against the allies' left wing. That part of the allied army

in retreating to the south and west indicates that the Germans have not yet outflanked them. Apparently the Germans have not yet abandoned the west of Belgium to pour all their forces on the road to Paris. Reports that they are preparing to attack. Antwerp are not believed here because there seems to be no dominating strategic reason for such a move. Military experts agree that the Germans are unlikely to waste more than a screening body to prevent a serious Belgian sortie against their line of communication. The occupation of Brussels probably was a demonstration for its moral effect upon the main plan of campaign; it would be a useless expenditure of men and energy. There may be a strong method in the allies' policy of gradual retreat and compelling the Germans to make repeated costly attacks while the allies keep a compact front, before their last line of defenses.

Three million Frenchmen are under arms to defend Paris. They still have confidence in the ultimate result of the war. The list of killed, wounded and missing British officers from the crack regiments which were engaged in the four days' battle of last week brings mourning to many noble and aristocratic homes. The Prince of Wales' fund for the relief of suffering is now over \$10,000,000. Recruiting in Great Britain has risen and impetus from the events of the past fortnight.

The official examination, both mental and physical, for admission to the Academy will be held on March 18, 1915, at Fort Banks, Massachusetts. Alternates report for examination at the same time and place. The first in order of the three (as above explained) who passes such official examination will be appointed to the Academy. Under the law the principal and the two alternates must, on June 14, 1915, be bona fide residents of the fifth district, and must have reached their seventeenth, but not their twenty-second, birthday.

Although I expect to designate applicants in order of qualification as above indicated, I reserve the right to reject any applicant who in character, temperament or other respect may seem to me to be unqualified to make a successful officer in the army. I also reserve the right to modify, as may seem necessary, any or all of the foregoing conditions prescribed by me. Copies of this circular, and official pamphlets, giving in detail the physical, mental and other requirements of the government, will gladly be sent free on request.

Any man desiring to take the official examination of October 21, 1914, should furnish me with his name, address and date of birth, as soon as possible, but in no event later than October 15th, so that I may be able to forward him a card of authorization to take the examination.

John Jacob Rogers.

MATRIMONIAL

Mr. Peter F. Penlon of Worcester and Miss May E. Duffy of North Chelmsford were married today at St. John's parochial residence in North Chelmsford. The bride was Miss Catherine E. Penlon, a sister of the groom, and the groom was attended by the bride's brother, Mr. Henry Duffy. After the ceremony a reception was held at the home of the bride's aunt, Mrs. Michael McPhillips on Highland avenue. The happy couple will spend their honeymoon in and about New York and will return after October 1. They will make their home in Worcester. They were the recipients of many beautiful wedding gifts. Guests were present from Worcester, Boston and Lowell.

If you want help at home or in your business, try The Sun "want" column.

"VIVE LA FRANCE! VIVE L'ARMEE!" SHOUTED PARIS AS FRENCH TROOPS MARCHED AWAY

This picture was snapped in Paris when the French soldiers went off to war in the first week of the conflict. The people in the streets cheered and sang and waved their hats and arms as the men with rifles on their shoulders tramped merrily away to the front, most of them never to return.

THE ROCKINGHAM FAIR

Governor's Day Brings a Record
Breaking Crowd—Over 40,000
in Attendance Yesterday

All roads lead to Salem, N. H., today for this is governor's day, and it is expected that the attendance will reach the 75,000 mark.

The racing card for today is made up of a 2-year-old trot, 2:15 pace, 2:35 trot, a match race between the Charles River Speedway rivals, Demarest, 2:05 1-4, and Major Wellington, 2:08 1-4, and a running race.

Events of Yesterday

Yesterday, the second day of the Rockingham fair, drew over 40,000 people. Automobiles passed in an endless stream into the auto enclosure while trolley cars and trains brought thousands more.

The mecca of the fair patrons was, as always, the race track. An attractive program had been arranged by the management for the followers of the "sport of kings" and early in the day the grand stand was filled with a crowd that jammed for the start to ring the bell.

The winners of the day's races were: Pacing, 2:10 class, for a purse of \$500—Katy Patch, first money; Billy Patten, second money; Troas, third money. Time—2:11 1-2. Katy Patch came in fifth in the first heat, but cleaned up the next three straight.

Cochato trot, foals of 1912, purse \$1000—Won by Cochato Brave in two straight heats. Time—First heat, 2:27 1-4; second heat, 2:28 3-4.

Matinee race, 2:15 class, purse, cup—The Councillor winner in two straight heats. Time—First heat, 2:20 1-4; second heat, 2:11 1-4.

Running race, three-quarter mile, all ages, purse \$100—Charles Hargrave winner. Time—2:18 1-2.

Trotting purse, 2:14 class, purse \$500—Lady Watts winner of first money; Jonah Man, second money; Morine, third money; Peter Sims, fourth money. Time—2:13 3-4. Lady Watts was first in four heats and second in one.

Pacing, 2:21 class, purse \$500—Orchelo winner. Ethel Direct, second money; Miss Winnifred, third money. Time—2:19 1-2.

The space devoted to the exhibit of cattle was the centre of interest to thousands. Scores of thousands were quartered in the enclosures, the recipients of continual complimentary remarks from lovers of blooded stock.

Prizes in the Hereford special class, American Hereford Breeders' association, were awarded as follows—Bull, 3 years or over, E. E. Gile, Fayette, N. H.; second prize, H. E. Morrison, Oxford, N. H.; Bull, 2 years old, first prize, E. E. Gile; second prize, H. E. Morrison, Bull, 1 year old, first prize, H. E. Morrison.

Junior yearling bull, first prize, H. E. Morrison. Senior bull calf, first prize, E. E. Gile; second prize, H. E. Morrison.

son, Cow, 3 years old, first prize, H. E. Morrison; second prize, E. E. Gile. Heifer, 2 years old, first prize, H. E. Morrison; second prize, E. E. Gile, and Morrison also took first and second awards, respectively, for heifers 1 year old and junior heifer yearlings. For senior heifer calves Gile took the first and second prizes. Morrison took the third and Gile the fourth. For junior heifer calves Morrison took first prize and Gile second. Gile and Morrison competed evenly for the remaining prizes in the Hereford class, no other entries receiving prizes.

In the Dutch belted breed, O. A. Leonard of Tolland, Ct. captured every award. A. F. Pierce of Winchester, Vt., was awarded every prize for Jersey cattle.

Billerica Man Wins

In the swine department, Charles Wright of Billerica, took first money for Berkshire, and John Todd of Lawrence, second for Chester whites. Edward C. Marshall of Nashua, N. H. Hills of Pelham, and C. L. and F. M. Patterson of Rea, Penn., took first premiums in different divisions. Patterson Bros. took first premium for Red Tamworth.

Although attracting less notice than some other departments, the machinery exhibit was large and new. The special feature yesterday was the parade of 500 women under the suffrage banner through the throng on the lawn before the grandstand. All hazardous feats of Tuesday were repeated. The aeronaut made his triple parachute drop and Rodman Law came down from his sister's biplane by parachute. He landed in the center of the oval. The biplane flight was the closing event of the afternoon.

Thrills followed each other in rapid succession as the day progressed. During the intervals between races carousal stunts of hair raising nature were performed on the great oval within the race track. "The girl in red" mounted on her diving station climbed to the top of the structure that towers over the diving tank and again startled the crowd by her drive into the tank.

Following the dive came the triple parachute drop event that brought the crowd to its feet, breathless. Rodman Law in his leap from an aeroplane driven by his sister was the feature event of the day. Law, seated in the plane beside his sister who drives, mounted high into the clouds, then climbed nearly under the spreading planes and leaped into space. All eyes were on him as he fell and a gasp of relief went up when his parachute opened.

After the aviation events were concluded, the enclosure devoted to the horse show held the attention of the crowd. Prancing four and eight driven by crack whips circled the en-

closure while riders competed at hurdling. Looney Lane had a multitude of patrons. This feature made a favorable impression, being free from objectionable devices and producing much mirth for the crowd.

ANTI-TRUST BILL

Is Passed by Senate—
Completes Trust Legislation For Session

WASHINGTON, Sept. 3.—The Clayton Anti-trust bill to supplement the Sherman law, which will complete the administration trust legislation for this session of congress, passed, the senate yesterday by 46 to 16.

Seven republican senators, Brady, Clapp, Cummins, Kenyon, Jones, Norris and Perkins, and Senator Poinsett, progressive, voted for the bill.

The bill was amended by the senate in many particulars and will be sent to conference, where the federal trade commission bill—first of the anti-trust measures—still is under consideration. Reports on both measures are hoped for within two weeks.

Some of the Prohibitions

The bill provides fines and imprisonment for officers of corporations convicted of offenses against the trust laws; prohibits exclusive and tying contracts which restrict independence of purchasers; prohibits holding companies where their effect is to lessen competition or create monopoly, and makes illegal, two years after the passage of the act, interlocking directorates in competing corporations, any one of which has capital of more than \$1,000,000.

It also forbids the interlocking of railroad directors with corporations dealing in securities, railroad supplies or contracts, and legalizing procedure in injunction and contempt cases.

Sections of the house bill relating to price discrimination and unfair competition were stricken out in the senate.

Labor, agricultural and horticultural organizations not conducted for profit are exempted from the provisions relating to monopoly.

The maximum penalty fixed for violations of the provision preventing exclusive contracts is \$5000, or one year imprisonment, or both. The provision against holding companies would prevent common carriers from acquiring branch lines where there is no substantial competition.

Interlocking Directorates
Sections relating to interlocking directorates were made effective two years after the passage of the act. Directors of railroads, under the terms of the bill, cannot be interlocked with corporations dealing in securities, railroad supplies or other articles of commerce or contracts for construction, maintenance, etc., to an amount of more than \$50,000 in any one year, unless purchases are made after competitive bidding under regulations of the Interstate Commerce commission.

A penalty of two years' imprisonment and \$25,000 fine is prescribed for violation.

Another provision makes it a felony for officers of common carrier corporations wilfully to misapply or to permit misapplication of funds of the corporation. The penalty being not less than \$500 fine or imprisonment for not less than one or more than 10 years, or both.

Court Procedure
The section dealing with court procedure provides that no injunction shall issue between employers and employees in labor disputes unless necessary to prevent injury to property or property rights, and no such order shall prohibit the right of employees to strike or peacefully persuade others to do so; disobedience of writs subjects offenders to contempt proceedings, assessed in indirect cases being granted trial by jury.

President Wilson will delay his selection of the members of the new trade commission until after the measure has been harmonized with the Clayton bill by the conference reports. He has not considered any names as yet.

SCENECTADY, N. Y., Sept. 3.—Five girls and one boy were killed here yesterday by the caving in of a sand bank. The dead are Mary Holup, 7; Anna May Holup, 10; Tassie Smolke, 10; Ruth Smolke, 5; William Edwin Robinson, 8; Frances Elizabeth Robinson, 8.

AMUSEMENT NOTES
NEW JEWEL THEATRE
The New Jewel theatre at the corner of Merrimack and Tremont streets, a house noted for the comfort and cool fresh air afforded its patrons, continues to provide all Saturday performances. Tomorrow and Saturday will be shown the ninth episode of the popular "Million Dollar Mystery." This episode is a wonder photoplay and alone would be worth the price of admission. "The Coast Guard's Bride," "Rescued by Wireless," and others make up the balance of the bill. A fine special program has been arranged for Sunday. Monday and Tuesday will be shown "Faithful Unto Death," a powerful four part drama of the Franco-German war, together with others as advertised today, including "The Dervish and the Slave," a strong dramatic production in two parts. "The Treason of O'Hara," another masterpiece, is the main feature for next Wednesday and Thursday, showing another episode of the remarkable serial. There are also several other good pictures, including comedies and dramas.

LAKEVIEW DANCING PAVILION
Yes, we certainly did enjoy last night's return to the old time dancing steps. We enjoyed it, however, because it was only for one night. Tonight, tomorrow night and all the rest of the nights as well as afternoons from now until the close of the summer resort season we are not going to be old-fashioned any more. The new dances are again in vogue at the Lakeview dancing pavilion in spite of the huge crowd which attended this delightful dancing surface last night for the old timers' celebration. A change always is refreshing, you can't beat the new dances for steady diet, especially with such a setting as is given them at this beautiful summer resort's most popular attraction.

MERRIMACK SQUARE THEATRE
Despite the many counter attractions which have prevailed this week, the crowds at the Merrimack Sq. theatre have increased at each performance. The week's bill, "What Happened to Mary" which is by the way one of the best if not the very best in which the new stock company has yet appeared has certainly caught the popular fancy. It's lines are clever, the plot is original the staging is picturesque and take it all in all, one couldn't ask for a better performance. Next week America's laughing success, "Officer 666" will be the attraction. Seats including those for Labor Day are now on sale and those contemplating a visit to the theatre this week or next had best secure their tickets as soon as possible, as they are going at a rapid rate and are liable to be all taken, if one waits too long before getting them.

THE OWL THEATRE
The Owl continues its successful season and yesterday's program pleased every one. "The Floor Above" E. Phillips.

Five Girls and One Boy
Lost Their Lives at
Schenectady

SCENECTADY, N. Y., Sept. 3.—Five girls and one boy were killed here yesterday by the caving in of a sand bank. The dead are Mary Holup, 7; Anna May Holup, 10; Tassie Smolke, 10; Ruth Smolke, 5; William Edwin Robinson, 8; Frances Elizabeth Robinson, 8.

AMUSEMENT NOTES
NEW JEWEL THEATRE
The New Jewel theatre at the corner of Merrimack and Tremont streets, a house noted for the comfort and cool fresh air afforded its patrons, continues to provide all Saturday performances. Tomorrow and Saturday will be shown the ninth episode of the popular "Million Dollar Mystery." This episode is a wonder photoplay and alone would be worth the price of admission. "The Coast Guard's Bride," "Rescued by Wireless," and others make up the balance of the bill. A fine special program has been arranged for Sunday. Monday and Tuesday will be shown "Faithful Unto Death," a powerful four part drama of the Franco-German war, together with others as advertised today, including "The Dervish and the Slave," a strong dramatic production in two parts. "The Treason of O'Hara," another masterpiece, is the main feature for next Wednesday and Thursday, showing another episode of the remarkable serial. There are also several other good pictures, including comedies and dramas.

LAKEVIEW DANCING PAVILION
Yes, we certainly did enjoy last night's return to the old time dancing steps. We enjoyed it, however, because it was only for one night. Tonight, tomorrow night and all the rest of the nights as well as afternoons from now until the close of the summer resort season we are not going to be old-fashioned any more. The new dances are again in vogue at the Lakeview dancing pavilion in spite of the huge crowd which attended this delightful dancing surface last night for the old timers' celebration. A change always is refreshing, you can't beat the new dances for steady diet, especially with such a setting as is given them at this beautiful summer resort's most popular attraction.

MERRIMACK SQUARE THEATRE
Despite the many counter attractions which have prevailed this week, the crowds at the Merrimack Sq. theatre have increased at each performance. The week's bill, "What Happened to Mary" which is by the way one of the best if not the very best in which the new stock company has yet appeared has certainly caught the popular fancy. It's lines are clever, the plot is original the staging is picturesque and take it all in all, one couldn't ask for a better performance. Next week America's laughing success, "Officer 666" will be the attraction. Seats including those for Labor Day are now on sale and those contemplating a visit to the theatre this week or next had best secure their tickets as soon as possible, as they are going at a rapid rate and are liable to be all taken, if one waits too long before getting them.

THE OWL THEATRE
The Owl continues its successful season and yesterday's program pleased every one. "The Floor Above" E. Phillips.

CAVE-IN KILLS 6

EXCUSE ME

MARTIAL LAW

All Quiet at Butte, Mont.
—Big Mine Reopened Today

BUTTE, Mont., Sept. 2.—With a mild form of martial law prevailing here all was quiet in the city and at the mine today. The ancenda mine, which employs 730 men and which shut down a week ago because of factional troubles among the miners resumed operations today with a full force. All men who appeared for work were sent into the shaft regardless of union affiliations. Picketers posted by the miners' committee warning miners not to go to work unless they wore the new union's button were torn down. Full crews worked all night at the Cagnon and Original mines which were closed yesterday.

BELGIAN WAS GAME

AGED PATRIOT WANTED TO FIGHT FOR HIS COUNTRY—WAS HEART-BROKEN UPON BEING REFUSED

BOSTON, Sept. 2.—"There's patriotism for you," said E. S. Mansfield, Belgian consul for New England, as the door of his office closed behind a white-haired, bent-shouldered man yesterday afternoon. "There goes an old fellow who is heart-broken because I have refused to accept him for army service with the Belgians," remarked Mr. Mansfield. "Although 65 years of age he is eager to take part in the active fighting against the Germans. But his disappointment at being turned down did not prevent his making of one of the greatest personal sacrifices that has come to my attention. "That man has pledged himself to give \$5 every week from his wage as his share towards the support of the wives and children left in this country by the Belgians who have gone home to fight. He is not overburdened with wealth, therefore the sacrifice is the greater."

Down at the Tremont street entrance of the silver building, a reporter found the silver-haired patriot. "That's what old age does to a man," sighed the patriot. "I have 40 years of service in the artillery at home, and I am as good, in fact better today than I was at fighting the guns. Simply because I have passed a certain age mark, the chance to serve my country in the field is denied me. "Well I shall do the next best thing, as should all true sons of the homeland. My wages as a cigar-maker are by no means large, but I shall deny myself to the extent of scraping \$5 weekly from my pay. And I shall subscribe that amount during the entire time of the war towards the support of those left in this country by the reservists who have gone to the front." The old man made a pitiful attempt to straighten his stooped shoulders when the reporter requested his name. "I'm not looking for any glory," said the old man. "The knowledge that I have done all in my power to help the cause is my satisfaction. Never mind my name."

Then he made his way with faltering step into the street throng, and was soon lost to sight.

TO BUY MOUNT WASHINGTON
LAKEPORT, N. H., Sept. 2.—It was stated here today that the government authorities and the numerous owners of Mt. Washington had reached an agreement upon the purchase price of the property as a part of the White Mountain forestry reservation. The government already controls the summits of Mount Adams and Mount Madison, as well as tracts on their northern slopes. It is understood that the purchase of Mount Washington also includes five other peaks of the Presidential range, Clay, Jefferson, Monroe, Franklin and Pleasant.

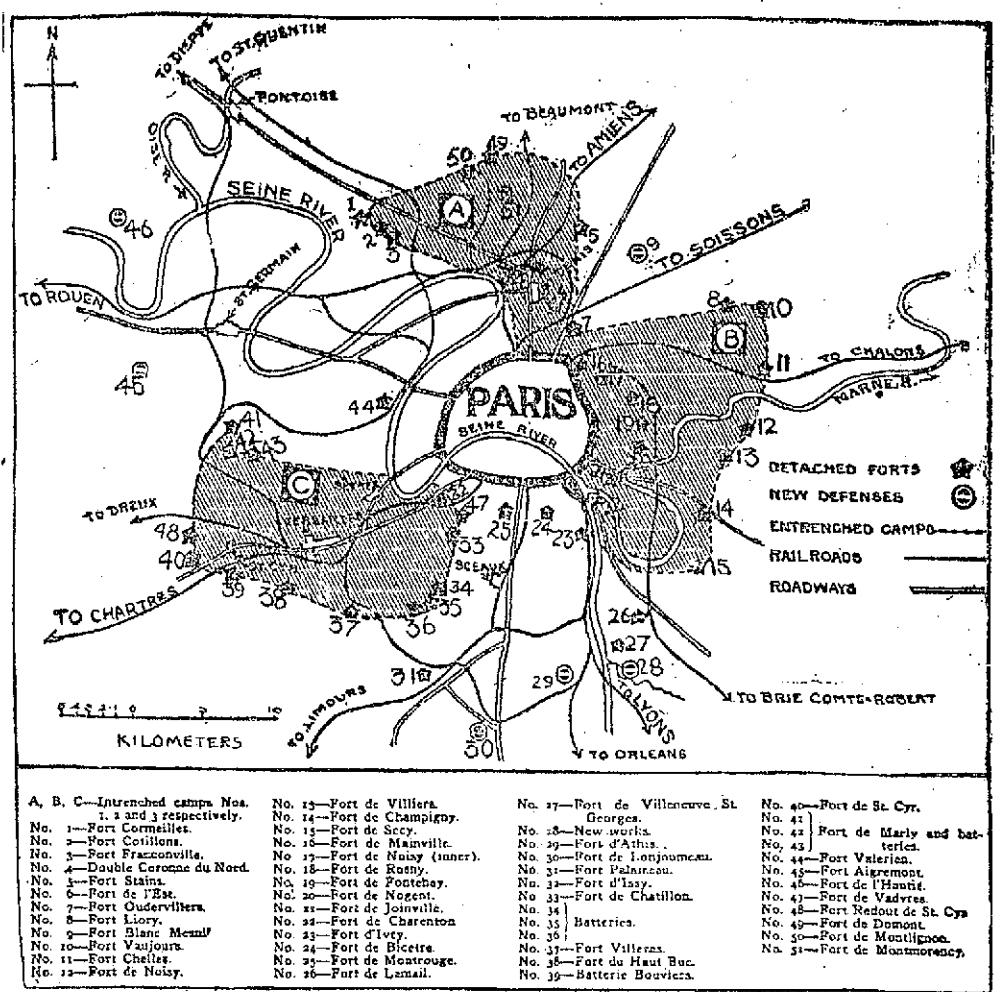

The reservation now covers an area of 35,000 acres.

SUN FASHION HINTS

Style features of this afternoon gown of green and white willow tulle are the kimono skirt and surplice front showing a vest of cream colored shadow lace. The sash of black satin tied fashionably in the front is fastened by a jet ornament. If you want help at home or in your business, try 'The Sun' want' column.

CIRCLE OF STEEL AROUND PARIS READY FOR PROTRACTED SIEGE BY THE GERMANS

This map shows the positions of the wall of masonry surrounding the city of Paris proper and of the ring of forts—fifty-one forts and batteries—defending the city and its environs. This circle of defenses covers a sweep of eighty-five miles, and 600 miles of territory are protected. The forts have been modernized or are new. Since the Germans captured Paris in 1870 France has spent nearly \$800,000,000 on its fortifications for just such an emergency as it now faces as the German army sweeps nearer.

GERMANS WERE KIND

WIDOW OF PRESIDENT HARRISON HAS WARM PRAISE FOR THEM—CONTRADICTS FALSE RUMORS

NEW YORK, Sept. 2.—The friendship of the German people for Americans is deep-seated and took concrete form in many acts of kindness during the early days of the great European conflict, according to Mrs. Benjamin Harrison, widow of President Harrison, who reached New York aboard the steamer Ryndam from Rotterdam. Mrs. Harrison and 24 other American refugees who were in Germany at the outbreak of hostilities drew up a statement embodying their views before the Ryndam reached port. Among the signatures to this statement are those of Prof. Harry H. Love of Cornell university, and Prof. Carl D. Fehr of Lafayette college.

"As Americans returning from Germany," the statement says, "we feel it our duty as citizens of a friendly country to set forth the truth concerning our treatment in Germany and to contradict any false impressions that may now be current."

"While the German people always treat the Americans with great courtesy and kindness in times of peace, this was especially emphasized in time of war. From the time of the declaration of war until the time of departure nothing but kind treatment was accorded us, no matter whether we were in the shops, on the streets or in other public places. "This spirit was especially well shown, even in the midst of their great sorrow, by a public meeting for Americans in the Rathaus in Berlin, at which time the best wishes of the German nation were expressed to the American people, as well as sorrow that the requirements of war were such that thousands of Americans must be detained in various parts of the empire. "Again the kindly spirit of the nation was shown by providing special trains, even though these trains were needed for the transfer of soldiers and munitions of war, to convey the Americans from various parts of Germany to ports where passage home could be secured. These special trains were carefully handled and made as comfortable as the condition of the times would permit. At the place of departure and at every station the trains were met with cheers for Americans and best wishes for a safe journey home. Although the German people were bowed with grief, they cast it aside and provided lunches and other comforts for their American friends who were departing. Many offered financial aid.

"It is not possible to enumerate all the various kindnesses accorded to Americans. It is enough to say that it would not be possible for any nation to be kinder to a foreign people in times of war than was Germany. We

wish to state that any one who has believed that Americans have been mistreated in Germany have not known or understood the facts.

"We can only state that without a dissenting voice we desire to thank the German people for this treatment. Such treatment can only serve to strengthen the bonds of friendship that exist between our United States and Germany."

ANOTHER FORMER CADDY IS OPEN GOLF CHAMPION OF UNITED STATES

ROCHESTER, N. Y., Sept. 2.—Once again an American caddy has routed a distinguished brigade of the greatest Scottish, English and home bred professionals known to the perverse game of St. Andrews and won the highest golfing honors of the nation. Young Walter C. Hagen of Rochester, N. Y., who began his links career totting clubs at the age of six, captured the national open championship at the Midlothian by the narrow margin of a single stroke. He had a total of 290 for the four eighteen hole rounds. Hagen won the title in a memorable race with Charles Evans, Jr., the Chicago amateur record smasher. Chick was eight strokes behind his eastern rival at the start of the final round. He shot at 71 in the morning and cut Hagen's lead to four strokes, the Rochester star taking 75. In the afternoon Evans went out in 35, while Hagen needed 38, and only one stroke stood between the title contenders. Hagen has a fine golfing disposition and is popular with his fellow professionals. He weighs about 160 pounds and has a powerful physique. One of the strongest points of his play is his putting. He was a pupil of H. A. Christie, who formerly was professional at the Homestead Country club. This year's tournament was the second national event in which Hagen has competed. Last year at Brookline he tied with J. M. Barnes, MacDonaid Smith and Louis Teller for fourth, fifth, sixth and seventh prizes, their scores being 307.

NOMINATED BY WALSH DETAINED IN EUROPE

FORMER MAYOR HIGGINS OF FALL RIVER NAMED AS CHAIRMAN OF BOARD OF POLICE

BOSTON, Sept. 2.—Former T. F. Higgins of Fall River was nominated chairman of the board of police of that city by Governor Walsh today. Mr. Higgins succeeds T. F. Lawler.

BACK FROM GOLDEN SLOPE
Miss Rose Lacouture of Butterfield street has just returned from a pleasant five weeks' trip to Portland, Ore., and Los Angeles, Cal. In the latter place Miss Lacouture was the guest of Mr. and Mrs. Philip David, formerly of this city.

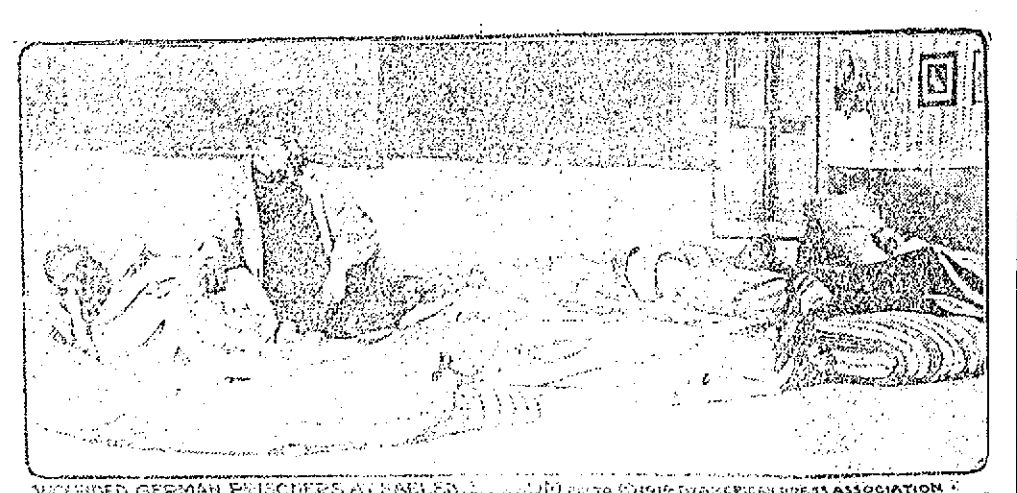

Mr. David was at one time choir-master at St. Joseph's church and conducted a painting establishment in this city. A few years ago he went west for the benefit of his health and Miss Lacouture says that he is now enjoying the best of health. Mr. David is conducting a painting establishment in Los Angeles and he is doing very successful business. He said he would never think of returning to Lowell for the western climate is just too good to leave.

Miss Lacouture during her stay in the western states met several former Lowell people who are prospering and she was glad to hear that for they all claim it seems good to meet Lowellites so far away from the good old Spalding City.

PARIS PAPER OPTIMISTIC
PARIS, Sept. 2.—Commenting on the war situation today the Temps says: "It is not the few troops that the Germans can put ahead that can be decisive. The important point is the centre, where we perceive a hesitation. The German troops are out of breath and one of their army corps has been transferred toward their eastern frontier. It is probable that we have in front of us on the centre forces diminished by fatigue, by our fire and by withdrawals to reinforce the east Prussian army."

"In any case our contingents have had their vacancies filled and their ammunition replenished, while the enemy is encountering great difficulty in getting supplies."

WOUNDED GERMAN SOLDIERS IN BELGIAN SCHOOL, HELD AS PRISONERS OF WAR

This picture was taken in a schoolhouse at Haelen, Belgium. It shows wounded German prisoners being cared for by Red Cross villagers. All Belgian schoolhouses, as well as other institutions, have been turned into hospitals.

PROBLEM VETERANS IN PARADE

To be Solved - Nation
Will Install Free Em-
ployment Bureau

BOSTON, Sept. 3.—Boston's unem-
ployed immigrant problem, which has
puzzled every immigration head, will
be solved, it is believed, by the estab-
lishment of a federal free employment
bureau in the city, according to an an-
nouncement made yesterday by the
Washington officials.

Harry J. Skellington, the new com-
missioner of immigration in this city,
received word yesterday to "get busy."
In establishing the bureau, which will
be the second one in existence, New
York has had one since 1907.

Aid to Farmers
The bureau will solve Boston's long
standing servant girl problem, will
place immigrants that reach this coast
in positions for which they are fitted,
and also aid the farmer by placing
state by sending them farm hands who
otherwise would in all probability be-
come street diggers.

The hundreds of foreign sailors now
in Boston, roaming the streets without
employment, will be sent to positions
as soon as the bureau can be estab-
lished.

Commissioner Skellington declared
yesterday that Boston needs a new
building for the bureau when the plans
are completed for its establishment. He
said that his assistants in the forma-
tion of the new free employment bu-
reau will be named within a few days
by Federal Immigration Commissioner
Anthony Caminetti and Secretary Wil-
son of Washington.

1000 SNEEZERS CONVE- NIENT

MEETING OF HAY FEVER ASSO-
CIATION—RED BANDANNA IS WAVED
AT BETHLEHEM, N. H.

BETHLEHEM, N. H., Sept. 3.—Wav-
ing the red bandanna emblem of the
sneeze, 1000 sufferers of the season's
most prominent ailment arrived here
yesterday for the 41st annual con-
vention of the United States Hay Fe-
ver association.

The public demonstration began in
the forenoon in the presence of a bat-
tery of motion picture cameras. Then
came the organization of a side as-
sociation composed of 25-year sufferers.
The association gave club songs and
the officers rode in the Sinclair and
Turner coaches, each 100 years old.

At the experience meeting yesterday
afternoon it was said that no more is
known of the disease than was known
25 years ago. More than 1000 remedies
have been tried and found wanting. A
committee of members will visit the
country to test a medicine extracted
from the pollen of the rag-weed, the
vital germ of the disease.

Dr. Charles E. Barker, for four
years medical adviser to ex-President
Taft, lectured yesterday on "How to
Live to Be 100 Years Old."

Sec. Percy F. Jerome of New York
criticized the agricultural committee of
the Massachusetts legislature for its
failure to report on the bill to compel
farmers to destroy rag-weed, golden-
rod and other plants noxious to the
hay-fever sufferer.

It is estimated that there are 200,
000 hay-fever sufferers in the United
States and the membership of the as-
sociation has increased 100 per cent.

COP'S MIDDLE NAME

IS VERSATILITY—ACTS AS NURSE-
MAID AND GODFATHER TO CHIL-
DREN AND ARRESTS MOTHER

BOSTON, Sept. 3.—Nursemaid, god-
father and arresting officer, William
J. Trainor, 31, of the East Boston
street police station.

Trainor arrested a woman giving
her name as Mrs. Mary Moulton, in
her home at 18 Chestnut street, and
after sending her to the station house,
found two small children in the ten-
ement, one of them 11 weeks old and the
other 4 years.

The baby was taken to the Cathed-
ral of the Holy Cross and baptized by
Rev. Michael J. Henry. At the
train Moulton, before being sent to the
Charter street home with his sister
Alice. Trainor acted as godfather and
also as nursemaid.

Yesterday the charge of intoxica-
tion against the mother was dropped at
the court house, after she said that
she would never leave the children in
that condition again.

PRINCE KILLED HIMSELF

LADY CHURCHILL SAYS FREDERICK
WILLIAM OF LIPPE TOOK HIS
OWN LIFE

LONDON, Sept. 2, 11 a. m. (Delayed
in transmission).—Prince Frederick
William of Lippe took his own life
following a mistake of his relatives,
according to Lady Randolph Church-
ill, formerly Jenny Jerome of New
York, who has just arrived from Ger-
many, coming by way of Holland.

"The true story of the death of
Prince Frederick William of Lippe,"
she said, "is that he committed sui-
cide. He was commanding a German
cavalry regiment before Liege on Aug.
4, when his regiment in the dark-
ness of evening nearly annihilated a
German infantry regiment which it
had mistaken for Belgians. The prince
shot himself, fearing to face the an-
ger of Emperor William. His wife
was informed of his death on Aug.
14."

MATRIMONIAL

Mr. Avery Marshall, Jr., and Miss
Lillian Richardson were married Wed-
nesday evening at the Sacred Heart
rectory by Rev. Fr. Flynn. The bride-
maid was Mrs. Mae L. Butters; Mr.
Andrew Goggin, Jr., was best man. At
the conclusion of the ceremony a re-
ception was held at the home of the
groom, 74 Grand street, and was at-
tended by immediately attended in white
silk, and carried a bouquet of
bridal roses. The bride and groom
were both in pink and carried pink
roses. A dainty buffet lunch was
served. Mr. and Mrs. Marshall left
last evening on a short wedding trip
and after October first will be at home
to their friends at 74 Grand street.

VETERANS IN PARADE

LARGE NEW ENGLAND FORCE IN
DETROIT PROCESSION—N. H.
VETS IN DUCK TROUSERS

DETROIT, Sept. 3.—Commander
John M. Woods of the department of
Massachusetts was at the head of that
state's division yesterday in the G. A.
R. parade. Not more than 100 veter-
ans were in the Massachusetts con-
tingent. Connecticut was represented
by only 50. There were about 40
from Maine.

One of the best uniformed sections
was from New Hampshire. Every
man wore white duck trousers and im-
maculate blue coats. J. H. Green of
Boston carried the Massachusetts state
banner. David M. Boston, the Union
Jack, and W. H. Brown of Marblehead
the department flag.

Rain threatened as the parade start-
ed, but not a drop fell and the sun
shone during the two and a half hours
it took the veterans to pass a given
point, a perfect day for the big march.
More than a quarter of a million per-
sons applauded the veterans.

A distinguished looking marcher
minus one arm, is Alvin H. Parker of
Co. G, 2d Massachusetts Infantry,
who says he was the first soldier at-
tended by Clara Barton.

He was wounded in a charge of 8000 men
against 28,000 at Cedar Point, Va.
Behind a bristling line of veterans
the sportsman section of a Boston news-
paper in his hand, Private C. G. Pratt
of Lawrence, Mass., was today the
happiest man in Detroit—and all be-
cause the Boston Nationals took two
games from Philadelphia, which gave
them the place of honor in the per-
centage table.

Mr. Pratt, aged 71, is more interest-
ed in sports than in war tales. He
stopped talking of the national sport
long enough to admit that he had a
heel shot off at Fort Hudson and that
it was "some parade." Then he
made a search of the hotel corridors
for somebody who could talk sport.

A tribute to the memory of the work
of three national organizations of the
Women's Relief Corps who died dur-
ing the past year has been made in
the badges worn by the 32d national
convention, in session here. The
women were Mrs. Sarah E. Fuller of
Massachusetts, Mrs. Charity Rusk
Craig of Wisconsin and Mrs. Kate B.
Sherwood of Ohio.

Mrs. Ida S. Wride, national presi-
dent, reported some statistics of W.
R. C. work for the year, as follows:

"The 2759 corps of our order have
expended this year \$111,000 for relief,
\$11,321.03 for Memorial day and \$30,
555.07 turned over to posts. In ad-
dition to this the Grand Army of the
Republic has given \$140.25 for the
Southern memorial fund."

"I recommend that there be taken
from the permanent fund an amount
sufficient to make—in addition to the
contribution from the national aid—
the sum of \$1000, to be presented to
G. A. R. for such use as is deemed
advisable."

Mrs. Abbie Lynch, national treasurer,
reported a balance in the general fund
of \$4351.53, and a total in all funds of
\$5342.11. "The reports of other na-
tional officers show the organization
to be in an excellent condition."

WEDDED FIFTY YEARS AGO

Attorney and Mrs. George W. Norris
Observe Golden Anniversary With
Family Reunion at Woburn

WOBURN, Sept. 3.—Fifty years ago
George W. Norris and Miss Sarah E.
Williams of Chelsea were married in
that city, and yesterday the couple ob-
served its golden anniversary at their
home, 60 Bow street. It was strictly a
family gathering.

Mr. and Mrs. Norris have been resi-
dents of Woburn 35 years.

Half a century ago, Mr. Norris, who
was born in New Hampshire, was ad-
mitted to the bar and practised law
continuously since with the exception
of 1886 to 1890, when he served as
United States Indian agent with the
Nez Perce Tribe in Idaho under an ap-
pointment of President Cleveland.

In Woburn Mr. Norris has served
three years as water commissioner,
six years on the school committee and
three years as city solicitor. Seven
children have been born to Mr. and
Mrs. Norris, all of whom participate
in the observance. They are: Mr. R.
T. Atkins and Mrs. Sidney Cowles of
Boston; Mr. George W. Norris of
Chelsea; Mrs. William C. Forsyth of
Nahant; Mrs. Francis W. Estey of
Malden; Miss Grace L. Norris of Woburn
and Daniel Norris of Winchester.

DEMOCRATIC TICKET

SUPPORT URGED AT WORCESTER
OUTING—PRESIDENT AND WALSH
PRAISED—SUCCESS PREDICTED

WORCESTER, Sept. 3.—The annual
outing of Worcester County democrats
was held at Edgemoor, Lake Quinsigamond,
yesterday, with an attendance of
200. Gov. Walsh was expected, but at
5.50 announcement was made that he
could not be present.

Thomas L. Walsh, brother of the gov-
ernor, made apology for the inability
of the chief executive to meet the party,
and spoke of the policy he said Gov.
Walsh has sought to follow in office.
State Trans. Frederick W. Mansfield,
Asst. Atty. Gen. Arthur E. Seagrave,
Michael A. O'Leary, chairman of the
democratic state committee; David B.
Shaw of Boston, Ex-Congressman
John R. Thayer, and Senator Hugh
O'Brien of Worcester, the latter a
candidate for congress from the 4th
district, were the speakers.

Representative Michael A. Heneberry,
chairman of the city committee, was
in charge. A dinner preceded the
speeching.

Michael O'Leary said that Presi-
dent Wilson, in the nation and Gov.
Walsh, in the state, have well vindi-
cated the democratic party and have
established records that will be
hard to equal. But he said the party
must be organized, persistent
and work on the part of each party man
can insure continuance of party suc-
cesses. He urged everyone to give
support to the entire ticket and work
for its complete success.

State Trans. Mansfield said he took a
leaf from the book of republican ex-
perience when he assumed office in 1913
perilous when he assumed office. In
1913, and he has appointed only demo-
crats to office in his department. He
called attention to the bond issue that
has been open to popular subscription.
He said that if every socialist, anar-
chist and other opponent of govern-
ment could be made the investor in
one bond even, of the state, he would
thereby be converted to his state.
The speaker advocated greater pub-
licity and more careful scrutiny of the
list of holders of taxable bonds, with
a view of making the rich man, who is
able to invest in such bonds, less able
to conceal his taxable property, there-
by equalizing his burden of taxation
with that of the man who is unable to
conceal his property.

Asst. Atty. Gen. Seagrave reviewed
the investigations that have been made
by Atty. Gen. Boynton as to the sudden
rise in the prices of necessities of life
and announced as the fixed policy of
the Attorney General the prompt and
vigorous prosecution of any persons
guilty of causing artificial advances in
prices. He said that a few weeks ago
Mr. McCall, the republican candidate,
sneered at the "watchful waiting" Mex-
ican policy of the present administra-
tion, but now in the light of the march
of recent events, the republican candi-
date is saying nothing about the Mex-
ican policy. The speaker said that Mc-
Call advocated the protective tariff as
desirable to keep out cheap foreign
goods, until the prices of articles went
soaring because the European war shut
off supply. Now, Mr. Seagrave said,
the republican candidate is silent on
the tariff.

Attorney Walsh said it has been the
aim of the governor to avoid factional
entanglements and to name to appoin-
tments the men best fitted for them,
irrespective of affiliations. This, the
speaker said, will be the future policy
of Gov. Walsh if reelected.

Senator O'Rourke outlined the issues
on which he will stand in his fight for
the congressional seat.

Ex-Congressman Thayer counseled
harmony and predicted party success.

MRS. GOETHALS ARRESTED

Wife of Panama Canal Builder Taken
for German Spy in France, but
Released
WASHINGTON, September 3.—With
the return to Washington of
the American naval officers who
were in France at the outbreak of
the war, it became known yesterday
that Mrs. George W. Goethals, wife of
Gov. Goethals of the canal zone, was
arrested at Pilefranche as a German
spy after the war began.
Mrs. Goethals is of German descent

and speaks the language fluently. She
had some difficulty proving her identi-
ty, but finally produced her marriage
certificate. When the French officers
learned she was the wife of the builder
of the Panama canal they apologized
profusely and her release was ordered
immediately.
Mr. and Mrs. Bennett Silverblatt
have gone in their machine to the
White Mountains where they will spend
their vacation.

THREE DOLLARS PER YEAR TWENTY-FIVE CENTS PER MONTH

OUR NATIONAL OPPORTUNITY

It would appear that too many of our people are giving way to pessimism. This is wrong, an injury to everybody and to the country at large. Why should this country show any tendency to go to smash just because our export trade is in part cut off? If the export trade is gone the import has gone with it and this is a compensating item that seems to be overlooked.

Besides the trade that formerly went to Europe from South America will now come to this country and this should compensate in a very large degree for the loss of the export business. Of course it is true that some lines of business will be hit harder than others as a result of the war; but there will soon be a revival and a boom that will compensate for the dull period. One regrettable feature at the present time is the stringency of the money market; but that too will soon be remedied by the new currency measure.

So far as the war is concerned it may and probably will terminate much sooner than most people expect. The statement of the German ambassador at Washington to the effect "that the war is won" and that his country is ready for peace is not without significance. Germany would doubtless make peace at this very hour if the other powers were ready to acknowledge defeat. This statement indicates that Germany does not intend to continue the war until her resources are exhausted in a struggle of endurance. That leaves the door open to a settlement perhaps in the very near future.

The closing of the stock exchanges stopped the flow of money to Europe so that although capital is resting for a time it is still on hand to finance home enterprises.

In pursuance of our policy of neutrality, we may refuse to sell food stuffs directly to belligerent powers but we cannot refuse to sell to Holland or to Italy and these countries may if they will, sell to the powers at war. Hence the trade of Europe is not entirely cut off and it is unwise for our manufacturers to assume that there is trouble ahead. The vacation season has been dull, more so perhaps than for several years past, but the tide is turning and there will soon be a general resumption of business activity.

The fall of securities in Europe has produced a like fall here and hence the slump in the price of bonds and the rise in the rate of interest. But we are a self-supporting nation and nothing but unwarranted pessimism can cause prostration anywhere. Our foreign trade has been of slight significance compared with our internal commerce. Hence there is no reason to assume that business will lag in this country because of the war. There will be a cessation of the flow of immigration to this country and this will insure better wages for the laborers and domestics, the mill operatives and other industrial workers now here.

In certain republican quarters there is criticism of the democratic administration on account of dull times; but this period in which all imports are cut off would seem to have realized the dream of high protectionists. If business does not boom now then the theory of high protection and the cultivation of the home market must be an absurd fallacy.

There is a splendid opportunity for inventors and manufacturers to branch out into new lines, of manufacture that will supply the demand for the myriad toys and other articles that have been imported in the past with the label "Made in Germany." There is a suggestion that the people of this country have not taken seriously although its effect in spreading abroad the fame of our factories would be highly beneficial. Germany has made the most of that slogan and so the United States might increase its commercial prestige first by extending its lines of manufacture and second by labeling the products "Made in the U. S. A." to be brief for the "U. S. A." is the national designation of this country abroad as appears on all letters addressed to any particular city or state.

The opening of the Panama canal is another incentive to trade with South America. The government at Washington is doing its utmost to restore business to a normal basis. The valorization of cotton will prevent many a crash and the decision to provide insurance for war risks is a step to encourage shipping. One of the very best tributes to the stability of business in this country and to our self-sustaining resources is the fact that we escaped a business panic as a result of the collapse in securities, the dislocation of business and the upheaval in the stock markets due to the war. The worst has been passed, the tide is turning and soon we shall see not only normal business but as a result of past curtailment and the bumper crops a period of great business prosperity.

FOR CIVILIZED WAR

If nations are to disregard treaty agreements as of no binding power then the Hague convention is the nearest farce. Some of the agreements to which the great powers of the world subscribed in that convention were supposed to prescribe rules for civilized warfare, to prevent weak nations from being overrun, devastated or annihilated by the strong and to protect non-combatants against attack; but in the present war these provisions seem to be to a great extent ignored by some of the belligerents.

If the Hague tribunal is to be made effective in promoting justice between nations and in defending the weak against the mighty, its laws must be made more binding by imposing a penalty for violation, to be exacted by all the other signatory powers.

If civilization is to be progressive and to be protected against the might of triumphant militarism, there must be some code of international law covering every offence and providing a suitable penalty to be decreed on proof of violation by any nation. At present, it appears that some of the belligerent powers can argue justification for almost any outrage under the plea of "the necessities of war" regardless of any restrictive provisions in the Hague convention.

There must be some provision under which non-combatants in war will be protected against the explosives hurled from airplanes to destroy whole cities and murder outright all those who happen to be within range of their death dealing force.

What is this system of warfare but the application of the torch and the

dynamite bomb by agencies against which there is practically no defence.

If Germany sent a wagon load of dynamite bombs into Paris to be cast where they should do the most harm, it would not be as bad as the work of the Zeppelin airship in throwing bombs from an unreachable elevation in the air. The fiend with the torch and the bomb can be shot down or driven off; but not so with the aviator 4000 feet in the air with the bomb distributor let down 2000 feet in a bullet proof cage.

That is a mode of warfare that should be condemned by the whole civilized world as a species of refined barbarism, a device for the cruel destruction of human life and property for which there is no parallel in the annals of war.

BOASTING OVER A SCOOP

The Washington Times is boasting over a great feat on its contemporaries in having published the news of the people's death as much as twelve hours ahead of some of its less venturesome neighbors. Here is what it says about the matter:

"The Times yesterday added another to a long list of notable news achievements by printing twelve hours in advance of any Washington newspaper and twenty-four hours ahead of any other Washington evening newspaper the important news of the death of Pope Pius X."

The Times is unbecomingly egotistical over such a trifling journalistic achievement. A Boston paper having the same press service as the Times published the account of the pope's death three years ago and never felt

called upon to ridicule other papers upon their sleepiness.

The receipts of the Panama canal have fallen off as a result of the war just as the earnings have been reduced in various other lines of business. But the canal is in no danger of going into the hands of a receiver. The revival of our merchant marine, the resumption of business on normal lines and our increased trade with the South American countries, will soon help swell the canal receipts and save Uncle Sam any possible worry over the new apparent fact that the canal commercially speaking may not be a paying proposition. Anyhow the canal has not been open long enough, nor under normal conditions to justify any conclusions as to the revenue to be derived from it when the warring nations regain their senses.

The docking of absentee congressmen is proving quite effective in holding their attention to duty in Washington. In the past often when business of the utmost importance was under consideration, many congressmen remained absent without attention being called to the fact in any public way. It is right to compel them to attend to the business of the session even though prolonged through unforeseen events. The situation brought forward by the war is practically unprecedented and of course makes it imperative for congress to remain in session so as to be ready to act upon any international question that may demand its attention.

Commissioner Carmichael has now an opportunity to do a double quick job in excavating for the filtration plant and advancing the work at every stage. The city needs relief from bad water which the filtration plant alone, we are told, will remedy; and a whole lot of idle men need the employment the job will offer. The citizens will watch the progress of this job with a great deal of interest.

General Villa is watching the European war with a view to finding some more barbarous method than he has yet adopted for overcoming or annihilating his real or fancied enemies. Doubtless the destruction of Louvain, the levy of a \$40,000,000 tax on Brussels and the work of the Zeppelin airships are the features which appeal to him most strongly as worthy of his imitation in Mexico.

The Grand Army encampment at Detroit shows a wonderful representation of the men who fought to save the Union fifty years ago. Nevertheless, each year makes vast inroads upon their numbers with the melancholy reminder that in the natural order of things the time is not far distant when there will not be enough of them left to hold an encampment.

Now that Great Britain has captured Alpha, the main city of German Samoa, will prevent Japan from gobbling it up and thus becoming a territorial neighbor to our possessions there. After the war it will be parcelled out among the spoils to the victors whether Germany or the allies.

Let us hope Commissioner Morse will push the smooth paving jobs so that they will not be dragging into cold weather as in past years often for political effect.

There is some discussion as to what would be the most appropriate name for the present war. We would suggest the "Old World War."

WOMEN FROM 45 to 55 TESTIFY

To the Merit of Lydia E. Pinkham's Vegetable Compound during Change of Life.

Westbrook, Me. — "I was passing through the Change of Life and had pains in my back and side and was so weak I could hardly do my housework. I have taken Lydia E. Pinkham's Vegetable Compound and it has done me a lot of good. I will recommend your medicine to my friends and give you permission to publish my testimonial." — Mrs. LAWRENCE MARTIN, 12 King St., Westbrook, Maine.

Manston, Wis. — "At the Change of Life I suffered with pains in my back and loins until I could not stand. I also had night sweats so that the sheets would be wet. I tried other medicine but got no relief. After taking one bottle of Lydia E. Pinkham's Vegetable Compound I began to improve and I continued its use for six months. The pains left me, the night sweats and hot flashes grew less, and in one year I was a different woman. I know I have to thank you for my continued good health ever since." — Mrs. M. J. BROWNELL, Manston, Wis.

The success of Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, is unparalleled in such cases. All our testimonials are guaranteed genuine and truthful. They came to us entirely unsolicited and are sincere expressions of gratitude for actual benefits received from the medicine.

SEEN AND HEARD

The United States Navy never associated with Mr. Seaboard, N. H. yesterday and Mr. Seaboard should have attended the meeting. He has the fever all right, but he says it costs like the dickens to sneeze in Bethlehem and he's a poor man.

Louis Pritzkow of Pritzkow and Blanchard, who appeared at the Academy of Music last week, while in this city, introduced a new song of his own composition, entitled: "California, the Paradise of Good Old Mother Earth," with which he is making a big hit. The music is quite catchy while the words are a fine boom for the coming Panama Exposition. Mr. Pritzkow is the composer of "Take Back Your Gold" and a number of popular songs. Mr. Pritzkow appeared here several years ago as the tenor soloist with Primrose and West and since has been heard at the Hathaway and at Kelth's.

SAYS WE'RE BEHIND

The following is from the Homeopathic Envoy for September: Keep Out of Jail—Among the health regulations of Lowell, Mass., as published in Public Health Reports is the following:

"Rule 1. Incorporated manufacturing companies, hospitals, and other places where the poor and sick are received, and jailors and keepers of prisons shall, at the expense of their respective establishments or institutions, cause all inmates thereof to be vaccinated immediately upon their entrance thereto, unless they produce sufficient evidence of previous successful vaccination within five years."

That is a big reason for keeping out of jail and almshouses in Massachusetts. But what puzzles us is to know why the medical authorities of Massachusetts are so far behind the advances in scientific medicine. Presumably the "evidence" of vaccination is the "marks," but did not their official Journal but a few weeks ago say that these marks were also evidence of the vaccinator's ignorance or carelessness? To be sure the vacs have been orthodox for a century, but we have advanced! What was orthodox medicine yesterday—bleeding, for instance—is anathema today.

DON'T GET EXCITED

The average American who starts in to discuss the various tactical deployments of the different armies now trying to commit wholesale murder in a legitimate manner should not grow excited over the apparent density displayed by the commanders who do not follow out the plan which he believes should be followed.

Perhaps the poor generals who have spent a lifetime studying military tactics may not know anything at all about their special vocation. Perhaps they need the assistance of the various amateur military experts that have sprung up over night all over the world.

But then again perhaps they do not. Perhaps the generals in command of the various armies see the openings their opponents have left open just as quick as any of us on the side lines can see them. Perhaps they have not the troops to do so or because the enemy is hiding in reserve great forces which we know nothing of.

Then again what good does it do us to grow excited over the folly or the seeming folly of the generals in command of the various armies? We can never tell our views to them in time to be of any service even if we were modern Napoleons. They will never know about our ideas. Their soldiers will never know. The nations as a whole will never know.

The thing to do is to read all we can about the war if we like that kind of reading and then keep as cool as we can. War is never conducted as humanely as even a football game. This above all we should do. Keep the United States out of the war.—Lawrence Telegram.

Luke McLuke says: When anything happens to a man he can't cuss without making the air blue. But when a Perfect Lady gets mad she can swear with her eyes.

Most of us would die from neglect if we loved ourselves as much as we love our neighbors.

We are all liars. A whole lot of prospective millionaires who married alleged heiresses are now working hard to support them.

The trough isn't a very lovable guy, but the son-of-a-gun isn't always hunting for sympathy.

Every now and then you meet a man who believes that he has a monopoly on all the trouble in the world.

You can't get a young man to believe that the time will come when girls will seem less important than business.

What has become of the old-fashioned hearse that was all dolled up with plumes like a circus wagon?

Lots of girls are not beautiful. But they are all better looking than their elbows.

THE TROUBLE BORROWER There was a man whose life had followed lucky, happy lines.

It was a song of light and joyous tone.

His fortune was sufficient for his tax and his dues.

And he hadn't any trouble of his own.

Though 'mongst his neighbors sounds of strife were flying thick and fast.

Involving complications of the future and the past.

The sky of his existence by no cloud was overcast.

For he hadn't any troubles of his own.

Tranquilly annoyed him and he wearied of repose.

Such cases very often have been known.

He hunted for the thorn instead of valuing the rose.

When he hadn't any trouble of his own.

He jumped into the business of folks who were valuing the rose.

He volunteered as umpire and likewise as referee.

He has insomnia now and from distress is never free.

For everybody's trouble is his own. —Washington Star.

rowers themselves. Under the new system it would be most improbable that such a failure could occur as that of the cotton company, with its flotation of nearly \$400,000 of notes, nearly all practically one-name paper and of accommodation nature.—Worcester Post.

FAMINE IN DYESTUFFS

It is probable that these predictions of a famine in certain chemicals and dyestuffs for which consumers in the United States have been largely dependent upon Germany for their supply, have exaggerated the situation somewhat. Shipments of these commodities are being received in considerable quantities from Rotterdam, Holland, which port they have been sent from Germany for export, and while, later on, should this war be protracted, the output at the source of supply is likely to be greatly curtailed, for the present there would seem to be little cause for concern over an embarrassing shortage. In the event of a famine being announced, arrangements will be made for the production of many of these goods elsewhere, or satisfactory substitutes found for them.—Johnstown Democrat.

EUROPEAN ABSOLUTISM

Why should Germans who have sought homes in this republic resent American criticism of European militarism and European absolutism? Why is it that we have in this country more than 5,000,000 persons of the German stock, of whom 2,500,000 were German born? We know many Germans who came to this country immediately after 1848, Germans who won great distinction in this country, to escape the oppressions of Prussia. Can it be disputed that many of them have come since that time, that many who are now living have come to America to escape the dreadful burden of German military service? Surely they did not come here because they thought our form of government was worse than that of Germany. They came to seek their own welfare and their happiness in this land of liberty and boundless possibilities. Then why should so many of them now cry against the Americans and their newspapers for denouncing the things they fled from, the imperial system, the laws that take every man from his soil and his family for years for military drill, the government that in a palace council may summon all the stoutest and bravest of the people to slay and be slain without consulting their will or permitting any expression of it upon a question of peace or war?—New York Times.

"AMERICAN EUGENICS"

Eugenics as a fad has pretty well had its day, at least so far as American is concerned. "The remedies proposed in America," to which Prof. William Bateson refers in his presidential address before the British Association for the Advancement of Science, never were proposed by any considerable group of balanced thinkers, and it is surely necessary to add—never will be put to the test as a community regulation. Prof. Bateson is entirely right when he condemns the existing breeding of a race from an ideally untainted stock, as "devoted without regard to the needs either of individuals or of a modern state."

"Undoubtedly," he argues, "if they decide to breed their population in one uniform, puritan gray, they can do it in a few generations; but I doubt if it will respectability will make a nation happy, and I am sure that qualities of a different sort are needed. It is to compete with more vigor and more varied communities." This is, after all, the very crux of the matter. Too much perfection in the physical condition of a race—as in a moral or social sense—is a mortal world—almost certainly augurs stupidity. The human race rejects, and will always reject a logically perfect and unchangeable order, word, construction and usage can be planned; a mechanically perfect code of laws; a climate in which all the mountains.—Philadelphia Press.

LOOK FOR ARMY WORMS

WITH ONE ARTIFICIALLY COLORED WING, AND REPORT TO WASHINGTON, D. C.

WASHINGTON, Aug. 27.—Everyone interested in the destruction of the army-worm pest is being requested by the United States department of agriculture to look out for army worm moths with one artificially-colored wing. The department's entomologists are catching army worm moths where they are plentiful, coloring one wing of each, and then liberating them in the same territory, so that they may determine whether these moths fly directly west or north, and how quickly and far they will spread. A better knowledge of the habits of this pest should enable the department to control its spread. No moths are to be let loose where their liberation could possibly aid the natural damage.

The moths are already showing themselves in Virginia and in Maryland, and the department's agents are catching specimens at Portsmouth and Charlottesville in Virginia, and Hagerstown in Maryland. The agents at Portsmouth are applying a red stain to one wing of each specimen caught; those at Charlottesville a black or yellow stain; and those at Hagerstown a violet color. Then the moths are left to follow the natural course they would have pursued.

Look for the army worm moth with a colored wing during the coming month; the department's bureau of entomology is advising its agents east of the Mississippi. Any one observing a marked specimen will aid in the campaign by reporting the fact to the bureau of entomology, Washington, D. C. When its presence has been noted, the moth should be destroyed.

How to Recognize the Moth. The wings of the army-worm moth, when outspread, measure about 1 1/2 inches from tip to tip. The body is

about half this length. The general shape of the moth with its wings outspread is triangular. The moths will hover about the lights in the evening.

On farms, they will be found on the outside of screens and doors at night. They will probably not be observed in the daytime. On dark, hot, close nights, such as precede thunder storms, they will probably be especially noticeable.

The army-worm pest has caused considerable damage to the crops and lawns this summer throughout the northern United States east of the Mississippi. The worms are only now disappearing in northern Maine and Michigan, which were probably hatched from the eggs of moths migrating from more southern portions of the country. With the additional knowledge that this experiment will give, the department hopes to control the spread of the pest more completely in coming years.

Weak Heart

Many people suffer from weak hearts. They may experience shortness of breath on exertion, pain over the heart, or dizzy feelings, oppressed breathing after meals or their eyes become blurred, the heart is not sufficiently strong to pump blood to the extremities, and they have cold hands and feet, or poor appetite because of weakened blood supply to the stomach. A heart tonic and alterative should be taken which has no bad after-effect. Such is

Dr. Pierce's Golden Medical Discovery

which contains no dangerous narcotics or alcohol.

It helps the human system in the constant manufacture of rich, red blood. It helps the stomach to assimilate or take up the proper elements from the food, thereby helping digestion and curing dyspepsia, heart-burn and many uncomfortable symptoms, stops excessive tissue waste in convalescence from fevers; for the run-down, anemic, thin-blooded people, the "Discovery" is refreshing and vitalizing.

In liquid or tablet form at most drug stores or send 50 one-cent stamps for trial box to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y.

Read Chapter VII on Circulatory Organs in the "Medical Advisor"—A French cloth-bound book of 1008 pages sent on receipt of 31 one-cent stamps, address as above.

BIRTH OF "STAR SPANGLED BANNER" TO BE OBSERVED AT BALTIMORE

ORIGINAL STAR SPANGLED BANNER—FRANCIS SCOTT KEY

While other nations are fighting in the world's greatest war the United States, in commemoration of the events that surrounded the birth of "The Star Spangled Banner," the national anthem, will hold a great patriotic celebration at Baltimore Sept. 6 to 13, inclusive. Baltimore will entertain thousands of visitors during the centennial week. President Wilson and former Presidents Taft and Roosevelt will head the list of distinguished guests. All the governors and the mayors of every city of 5000 or more inhabitants have been invited by Mayor Preston, president of the national star spangled banner centennial commission. Sept. 8, Francis Scott Key day, will be marked by a floral automobile parade, the Maryland tournament, a great street carnival and other attractions. On Sept. 12 the original star spangled banner, which is now in the National museum, Washington, will be borne through the streets of Baltimore to Fort McHenry, the escort consisting of the president, many governors and mayors and a picked guard of 100 men from each of the states in the Union in 1814. Fort McHenry will be dedicated as a public park, with an address by President Wilson, and 6600 children will sing the national anthem.

LATE WAR BULLETINS

REPORT GERMAN GOVERNOR OF SAMOA HAS SURRENDERED

LONDON, Sept. 3 (10.25 a. m.).—A despatch received here from Wellington, N. Z., says the governor of New Zealand has received a message stating that the German governor of Samoa has surrendered and that he has been sent with other German prisoners to the Fiji islands.

M. KURZ, ARRESTED AS SPY

LONDON, Sept. 3.—A letter received in London by an American woman from a friend in Monte Carlo contains the following passage: "M. Kurz, one of the four directors of the casino and who has been very much trusted here and also has an estate agency at Beaulieu, has been arrested as a spy. All sorts of plans were found on him and with others he is imprisoned in Nice, waiting trial. "The casino is closed."

AUSTRIANS LOST 100,000 AT LEMBERG

ROME, Sept. 3 (8.40 a. m.).—By way of Paris, 2.45 p. m.—The Russian embassy has been notified that the Austrians were overwhelmingly defeated near Lemberg, losing more than 100,000 men and 57 cannon. The occupation of the city of Lemberg was said to be at hand.

GERMAN CAPTURE AMIENS, FRANCE

LONDON, Sept. 3 (2.55 p. m.).—A despatch from Amiens, France, to the Daily Mail dated Tuesday, Sept. 1 declares that the Germans took possession of Amiens after three days fighting.

AUSTRIANS ROUTED BY SERBIANS

ROME, Sept. 3, 8.30 a. m. (via Paris, Sept. 3, 3.15 p. m.).—A telegram from Nish, Serbia, says that in a battle at Adjudar between 200,000 Austrians and 180,000 Serbians the latter put "140,000 Austrians hors de combat."

BATTLE ON WHICH DEPENDS FUTURE OF PARIS STILL RAGING

LONDON, Sept. 3.—The battle whose issue is destined to decide whether history will repeat itself in a second siege of Paris is still raging, according to the latest official announcement here.

Future military historians may write hundreds of volumes about the details of this battle but all the British public knows is that the struggle is the most momentous one that British soldiers have fought since Waterloo. The official announcement was that continuous fighting has been in progress among almost the whole line of battle. To this generality the French official communication adds the fact that the allied forces have fallen back toward the southwest to avoid an action which might have been engaged under unfavorable conditions. How far and to what line the allies have gone is unknown. There is no revelation of British secrets, nothing which a patriotic censor could object to in stating these facts because the German army which is engaging the allies knows precisely where their first line is drawn and the purpose of the censorship is only to suppress facts which might enlighten the enemy.

The brief official bulletin of last night is the first word the British people have received from their government concerning the present battle. The last previous bulletin was Field Marshal Kitchener's statement issued Sunday night throwing a welcome light on the previous four days' battle which ended Sunday and which reflected the greatest credit on the generalship and discipline of the British army.

German 30 Miles From Paris

In spite of the fact that the French capital has been removed to Bordeaux and that the German army of the west is within 30 miles out of the outer fortifications of Paris, a strange air of confidence prevails today among the allies. The general feeling seems to be that the German attack is wearing itself out in hammering away at the allied lines, which give but do not break.

President Poincaré has issued a proclamation to his people telling them that military necessity alone has led him to remove his government to Bordeaux. Military experts agree that Paris will soon be the pivot of the hostile forces operating in the area of the west. Even the downfall of the French capital is not expected to end the operations. The feeling of confidence was greatly increased in the news of the great victory of the Russians in Galicia. Reports from Petrograd (St. Petersburg) tell of the entry of Russians into Lemberg, the capital of Galicia. These appear credible as one of the defeat of the Austrians in that district has been received from several sources.

Fighting at Lemberg on 7 Days

The battle of Lemberg probably was the greatest ever fought. Evidently it resulted in a decisive and perhaps overwhelming defeat of the Austrians. The battle line extended over 200 miles and it is estimated that 1,500,000 soldiers clashed. According to an official despatch received by Emperor Nicholas from Grand Duke Nicholas, commander-in-chief of the Russian forces, the victory was won after seven days of fighting. The climax came when the Austrians were routed in a final desperate assault on the Russian center, which was held by Gen. Tuzievsky.

The Austrian army in Galicia was acting in close co-operation with two German army corps facing Breslau and seeking to envelope the Russian forces in Poland. Their plans, however, met with a series of disasters ending in a complete rout when an attempt was made to pierce the Russian center.

In the west the line now held by the left flank of the allied armies in the valley of the Oise runs diagonally from a point northeast of Paris to Compiègne and thence through Noyen, 11 miles northeast by north of Compiègne, to La Fere.

La Fere in Hands of Germans

La Fere, one of the weaker of the French fortresses, evidently is in the hands of the Germans. Farther east and north the allied armies apparently hold their own in the neighboring territory of Lorraine. The right of the allies rests on the fortified Franco-German frontier.

The names of the British who fell in the four days' battle last week will not be announced until they have been communicated to relatives. The heavy loss of officers in Lorraine to the men is the story of South Africa over again. It indicates that the officers refused to take cover, as they insist that the men shall.

The west coast of Belgium and the west coast of northern France are free of Germans. Many Americans are crossing the channel to the continent determined to see something of the war at any risk.

AMERICAN MINISTER SENDS LIST OF ALLEGED ATROCITIES IN BELGIUM

PARIS, Sept. 3, 11.30 a. m.—A despatch to the Havas agency from Amsterdam says that the American minister to the Netherlands, Dr. Henry Van Dyke, has sent to Washington a long report about the alleged atrocities in Belgium.

EMPEROR OF RUSSIA NOTIFIED OF GREAT VICTORY OVER AUSTRIANS

LONDON, Sept. 3.—10.30 a. m.—In a despatch from Petrograd, dated yesterday, the correspondent of the Times quotes the message of Grand Duke Nicholas to the emperor on the Russian victory in Galicia as follows: "I am happy to glorify your majesty with news of the victory won by the army of General Ruzsky. After seven days of uninterrupted fighting, the Austrians are retreating in complete disorder. In some cases they are running away and abandoning their guns, rifles, artillery, packs and baggage trains."

"Prior to this decisive battle General Ruzsky's army captured in the course of the seven days 24 guns, a multitude of firearms and a great number of machine guns."

RUSSIANS CONTINUE THE OFFENSIVE INCREASINGLY, SAYS PETERBOURG

LONDON, Sept. 3.—A despatch to the Reuters Telegram company from Petrograd gives the following official announcement: "The battle on the east front in Galicia was participated in by the 12th Austrian corps, which had only been transferred from the Russian frontier on Aug. 25. The Austrian army has been reinforced by numerous bodies of the Landsturm."

"Our troops continue the offensive increasingly and our cavalry division has penetrated far into the interior of east Prussia destroying means of communication. They have also occupied a station in the Koorschen region and Soldau and Sensburg."

"The German forces remain inactive."

GERMAN AMBASSADOR SAYS ALL DESPATCHES GIVEN OUT BY EMBASSY ARE OFFICIAL

WASHINGTON, Sept. 3.—Count Von Bernstorff, the German ambassador said today he desired to reply to a statement which declared the embassy had originated some of the news it gave out merely by saying that nothing was given out at any time but the official reports from Berlin. This had been proved, he said, by the fact that the reports from Berlin had been borne out by the final announcement of results.

The ambassador said he had heard nothing in regard to Turkey's reported declaration of war against Russia.

WITHDRAWAL OF THE LEFT WING OF THE ALLIES TOWARD PARIS

LONDON, Sept. 3.—Advices of the withdrawal of the left wing of the allies toward Paris and the removal of the French capital to Bordeaux was contained in a private despatch today from Paris. The cablegram bears yesterday's date.

FRENCH FLEET BOMBARDED THE PORTS OF CATTARO IN ALBANIA

PARIS, Sept. 3.—A Paris despatch to the Central News says that President Poincaré attended a French cabinet meeting Wednesday night in the Elysée palace when both the diplomatic and military situations were considered.

Victor Augagneur, minister of marine reported that the French fleet under Admiral Augustin La Peyrere had bombarded the ports of Cattaro, Austria, inflicting great damage.

DECISION OF FRENCH GOVERNMENT TO WITHDRAW FROM PARIS A WISE MOVE

LONDON, Sept. 3.—1.10 p. m.—The decision of the French government to withdraw from Paris while a momentary shock to the man in the street is regarded both by politicians and strategists here as being as wise as it is painful.

To retain Paris as a center of the government would, it is held, be incompatible with the supreme necessities of France at the present moment. These are to keep the government free to act and to keep the army an unbroken force which neither can be captured in detail nor shut up in the fortresses.

A proclamation by the French government describes the move as precautionary and sets forth that an attack on Paris in the near future is not considered probable.

No date upon which to base a judgment on the general situation over the wide-dug battle line in France is available. The retirement of the allies without a defeat and fighting every

foot of the way is an expression that has become stereotyped. It is, however, about the only official news that has reached London since Field Marshal Kitchener's story was given out last Sunday.

A LIVE LIZARD

Found in Glass of Water in House on Albion Street

Patrick Touhey of 321-2 Albion street called at The Sun office today with an animal in a glass that he had drawn from the faucet in his house. Nestling in the bottom of a common drinking glass, reposed a spotted lizard, which measured about two inches in length, and about 1-2 in. in thickness. Mr. Touhey said that it had come through the faucet in his house, while his little son was letting the water run, before taking a drink. Mr. Touhey, stated that he is a working man, but that he has not had a drink of water or tea or coffee for two days. He thinks that conditions are now intolerable, especially in the section in which he resides. He was also of the opinion that if the lizard had come down his boy's throat, it would have caused serious illness and perhaps death. After receiving a drink of clear spring water at The Sun office he proceeded on his way to city hall to show his find to the proper officials. It is to be hoped that the incident will lead to some method of improving the water.

FUNERALS

DUGAY—The funeral of Calvin Dugay was held yesterday afternoon from the Edison cemetery chapel. The services were conducted by Rev. Apollonius Grunwald, pastor of St. Anne's Episcopal church. Appropriate selections were sung by Mrs. Eugene C. Russell and Mrs. G. G. Martin. The bearers were Messrs. A. H. Bly, Geo. H. Flanagan, William Bartlett and Nathan F. Flanagan. The casket was in the family lot in the Edison cemetery. The funeral arrangements were in charge of Undertaker George W. Heald.

OWEN—The funeral of George E. Owen was held yesterday afternoon from his home, 221 High street. The services were conducted by Rev. C. C. Wright, pastor of the Ministry-of-Large church. Burial was in the Lowell cemetery. Funeral arrangements were in charge of Undertaker John A. Weinbeck.

MARTIN—The funeral of the late William E. Martin took place this morning at 10 o'clock from the chapel of James P. O'Donnell & Sons and was largely attended. A mass of requiem was sung at St. John's church, North Chelmsford, by the pastor, Rev. Edmund Schofield. Rev. Thos. Walsh of St. Mary's church, Cambridge, officiated at the funeral. There were many beautiful floral tributes including a large wreath inscribed "Good-bye Billy" from Mrs. Edward Campbell and family. Also pieces from Patrick Flynn and Mrs. and Miss Rose Dunn. The bearers were John Tully, Patrick Flynn, James Savane, and William H. Quinlan. The casket was in the family lot in the Edison cemetery. The funeral arrangements were in charge of Undertakers James P. O'Donnell & Sons.

MURPHY—With solemn and impressive services the funeral of Miss Annie L. Murphy, the well known school teacher, was held at the Sacred Heart church yesterday forenoon when a solemn high mass of requiem was celebrated by Rev. John P. Flynn, O. M. L., and Rev. P. M. McGinnis, O. M. L. sub-deacon. Very Rev. T. Wade Ryan, O. M. L., occupied a seat in the sanctuary.

The large attendance which included many of the former pupils of deceased, indicated the esteem in which she was held by all. Miss Murphy was a lady of the most lovable character, deeply devoted to her school work and to worthy charities of various kinds.

The Sisters of St. Mary society were present in a body and the Teachers organization was represented by Miss Della Brady, Miss Katie Kelly, Miss Rose David and Miss Kitty Dantzen. Mr. Donnelly, Mrs. Moorey and Miss Brown sang during the mass. There were many beautiful flowers, among them being: Willow, inserted "Our Annie" family; green and white, "closer" book inscribed "At Rest," Welch family; clematis, offerings from J. Crowley and family, Mr. and Mrs. J. O'Loughlin; Mirex Sparks, Boyle, Crockett, Mrs. Crowley, Mrs. Connors, Mr. and Mrs. Clarence Hartshorn, the Misses Gormley, J. Walker, Edward Costello and William Moorey; Teachers organization; Margaret Fox and sister; Misses John and Nellie Dawson, Mary Devine, Mr. and Mrs. John Gookin, Lizzie Ryan and Elsie Van Steenberg, Clara and Edith Farrington, Mr. and Mrs. Andrew J. Welch. There were spiritual bouquets from Wm. Finley, David Anglin, Katie Buckley, Margaret Hyde, Kate Early, Elizabeth Sullivan, Teresa Warren, the Mulvey family, Mr. and Mrs. Patrick Conroy and Miss Melly McGinnis. The ushers at the house and church were Cornelius O'Neil and Patrick Mahoney. Burial was in the family lot in St. Patrick's cemetery. There final prayers were

read by Mrs. Flynn and Wood. The bearers were John J. Walker, David A. Mahoney, Edward Costello and John O'Loughlin. The funeral was under the direction of Undertaker John F. Rogers.

TO RAISE \$100,000,000

PRES. WILSON WILL APPEAR BEFORE JOINT SESSION TO ASK FOR WAR TAX MEASURE

WASHINGTON, Sept. 3.—President Wilson will appear before a joint session tomorrow afternoon to ask for a war tax to raise \$100,000,000 annually. This announcement was made today following a visit of Democratic Leader Underwood to the White House. In his message the president will not advise means of raising the money. The president finished his address and showed it today to Mr. Underwood.

Mr. Wilson believes the war tax is necessary to keep the treasury in a strong condition and make it necessary to call in funds advanced to banks. He will ask congress to provide for obtaining the \$100,000,000 in a way that will be felt least by the people of the country.

Arrangements were made for joint session of house and senate. Chairman Underwood announced that the ways and means committee would meet Saturday or Monday. Suggestions for taxes are pouring in to the capital and White House from every side.

NOONE LEADS BY 22 VOTES

WITH 46 SMALL TOWNS TO BE HEARD FROM IN NEW HAMPSHIRE CONTEST

MANCHESTER, N. H., Sept. 3.—With 46 small towns still to be heard from in the Hampshire district primary vote for candidates for governor is: Noone, 5266; Hutchins, 5245.

DEATHS

ROURKE—Mrs. Bridget Rourke died yesterday at her home, 7 Chino street, aged 55 years. She leaves two sisters, Mrs. Catherine Murphy of Chicago and Mrs. Mary McGinnis of England; one brother, John of Chicago; two daughters, Anna and Mrs. Austin Rourke; also one son, John, and four grandchildren.

MACKIN—Annie Mackin, aged 63 years, died this morning at St. John's hospital. The body was removed to the parlors of Undertakers C. H. Molloy & Sons, Market street. Deceased was an old resident of St. Patrick's church and survived by three nieces and one nephew.

LALLY—Mr. Michael Lally, aged 63 years, died suddenly Wednesday evening at the home of his daughter, Mrs. P. L. Vance, 88 Third street. He is survived by his wife and two daughters, Mrs. P. L. Vance and Mrs. Della Chier of Framingham. Four sons, Walter and Frank of New York City and Walter and Thomas of Lowell, also several grandchildren and two great-grandchildren.

FUNERAL NOTICE

LEAHY—The funeral of John J. Leahy will take place Friday morning at 8 o'clock from the chapel of J. P. O'Donnell & Sons, at 9 o'clock a high mass will be celebrated at St. Patrick's church. Burial in St. Patrick's cemetery in charge of J. P. O'Donnell & Sons.

LALLY—The funeral of the late Michael Lally will take place Saturday morning at 8 o'clock from the home of his daughter, Mrs. P. L. Vance, 88 Third street. A high mass of requiem at St. Michael's church at 9 o'clock. Interment will be in St. Patrick's cemetery in charge of Funeral Director James W. McKenna.

MACKIN—The funeral of Annie Mackin will take place on Friday morning at 9 o'clock from the funeral chapel of Undertaker Charles H. Molloy, Market street. The funeral high mass will be celebrated at St. Patrick's church at 9 o'clock. Burial will be in St. Patrick's cemetery with Undertaker Charles H. Molloy in charge. Friends are requested to omit flowers.

PLAN TO RESUME EXCHANGE NEW YORK, Sept. 3.—The New York cotton exchange unanimously accepted today the plan evolved by its committee and representatives of the Liverpool Cotton association to liquidate international obligations in cotton. This is regarded as a big step toward the resumption of the exchange.

"PLEASURE OF PRESIDENT" PROVIDENCE, Sept. 3.—Federal Dist. Atty. Walter R. Stines has been asked to resign at the "pleasure of the president." It became known yesterday that Mr. Stines is a republican.

The request was made in a letter sent from Washington Monday by the department of justice.

ATHLETES AND ATHLETICS

The supporters of the Braves are once more wearing a satisfied smile. Stallings' men jumped into the National league once more when they took the Phillies measure twice yesterday while the Braves were losing to the Brooklyn Superbas. And Captain Johnny Evers was not in the lineup of the Boston team at that.

Indications point to a tremendous crowd in Boston on Labor day when the Braves and Giants battle both morning and afternoon. In fact it is expected that the game will be the largest baseball attendance that Boston has ever had may turn out.

Lowell will play two games at Spaulding park on Saturday, a post-season game being on the bill. Manchester will be the attraction here tomorrow afternoon.

Monday afternoon will be Pennant day at Spaulding park. Manager Gray has used good judgment in choosing the winners of the best players in the mill league of the day when the pennant will be launched to the breeze.

The Athletics gave a burlesque performance at Manchester yesterday, when they played an All-Star team composed of the best players in the mill league of that city. Reports of the contest say that Mack's men simply toyed with the millmen, finally winning 7-1.

The Phillies used no less than seven

pitchers in their attempt to head off the Braves' slingers. Boston gathered 26 hits for a total of 36 for the two games. It was an afternoon for batting averages to soar.

Did you ever hear of a two-bass hit being fielded behind the plate? The Brooklyn ball park has long been famous for freak plays in baseball but yesterday's double by Wheat was the best yet. Wheat drove a hard bouncer at Merkle which took a bad hop before it reached the "clean" first baseman. The ball struck him in the foot and bounced behind Chief Meyers, who was catching. When Meyers finally got hold of the ball Wheat was resting at second. The ball was so hard hit that the scorers did not give Merkle a boot, but instead called it a double.

Fred Lake has decided to play off the remainder of his scheduled home games in the cities of his club's opponents. The Athletics and an All-Star team from Manchester drew four thousands people yesterday. It looks as though Manchester was not a dead baseball city by any means.

Branch Rickey is being touted as one of the brainiest men in baseball. The St. Louis manager is handling a major league club for the first time this season and his present standing is not to be wondered at when the calibre of the players he found in the ranks of the Browns is taken into consideration.

SOUTH AMERICAN TRADE

Discussed by John Hays Hammond at Essex County Board of Trade Outing in Lawrence

LAWRENCE, Sept. 3.—John Hays Hammond and President Butterfield of the Massachusetts Agricultural college were the speakers at the outing of the Essex county board of trade at the Merrimack Valley Country club yesterday afternoon. Gov. Walsh and Congressmen Phelan and Rogers were expected, but circumstances prevented.

Congressman Phelan sent a telegram that Congressman Metz was "assured that he would receive fully two months' supply of dyas from Rhine manufacturers via Copenhagen." The congressman wired that he would be glad to co-operate with textile industries in seeking to secure a part of the supply.

Dr. R. S. Bauer of Lynn presided and introduced Mr. Hammond. The Gloucester guest thought President Wilson's advice of neutrality in speech and action wise, yet he made brief reference to the war, characterizing it as "criminal."

It was inclined to regard with less enthusiasm than some advocates the possibilities of trade with South America which the European conflict opened up to the United States, and while he thought that this trade was not to be neglected, he pointed out that this country's exports to Europe were nearly more than the whole foreign trade of South American countries.

President Butterfield spoke on "Why Business Men Should be Interested in Scientific Agricultural Education." About 350 from the various boards of trade and chambers of commerce of the county attended. Arrangements were made by a committee of which J. S. Conlin of this city was chairman.

WON AND LOST

Lowell Took First Contest But Portland Won the Second

PORTLAND, Sept. 2.—Lowell split a double header with the local team here this afternoon, both games being decided by a single run. The visitors took the inaugural contest, 2-1, while the home club captured the second game by a 4-3 score.

Lowell and Williams opposed each other in the first game and although the low southpaw pitched better ball than did the Lowell twirler he was forced to acknowledge defeat on account of poor fielding behind him. Lohman was touched up for nine hits but the majority of them were sent scattered. The local team played mediocre ball on several occasions in this game or the other game would have been chalked up for the Duffies.

Zieser and Watkins found it out from the mound in the second fray of seven innings. Up to the sixth session the Lowell club held a two run lead but Portland managed to slip over four runs in the latter half of this inning. The visitors made a valiant effort to even matters up in the seventh but the best they could do was to squeak over another run, making the final score 4-3. Zieser and Watkins both worked well. The scores:

(First Game)	Lowell	Portland

MEN RUN OVER BY AUTO

MAY DIE—LABORERS' VICTIM OF BAD ACCIDENT IN HAVENHILL—SAY AUTOIST WAS DRUNK

HAVENHILL, Sept. 3.—John Angelo was probably fatally injured, and Samuel Catalanotto may also die as the result of being run over on North Main street yesterday afternoon by an auto owned and driven by Geo. H. L. Moody of Atkinson, N. H.

The injured men were removed to the Hale hospital, where they are on the dangerous list. They were mixing cement for a granolithic sidewalk at the new James V. Smiley school-house when the accident occurred. Both were knocked down and run over, and the machine was stopped on the sidewalk about 20 feet away. Four other men who were working on the sidewalk rushed to the aid of their fellow-workmen, who lay bleeding on the roadway. The police were notified and City Marshal John J. Mack and Associate Medical Examiner W. Anthony drove to the scene. City Marshal Mack, after sending the injured men to the hospital, placed Moody under arrest on a charge of opening an auto while intoxicated. Moody claimed to have been sober, but in Atkinson and showed his badge when arrested. Moody was arrested here about a year ago on a similar charge and paid a fine of \$200. He formerly lived in Watertown, but for the past two years has managed a farm at Atkinson.

When Angelo was taken to the hospital an examination showed that he had sustained a compound fracture of the left leg, a fractured right rib, which it is feared punctured the lung; a fracture at the base of the skull, and numerous deep punctures and lacerations. His condition last night was extremely critical, only slight hopes being entertained at his recovery.

Catalanotto was also placed on the dangerous list at the hospital, as it is feared his right rib is broken and his left shoulder badly fractured. Both men bled profusely after the accident from the nose, ears and mouth, and it is believed they are also injured internally.

REVENUE IS DEMANDED

TO OFFSET COUNTERBALANCE IN CUSTOMS RECEIPTS SINCE THE BEGINNING OF THE WAR

WASHINGTON, Sept. 3.—President Wilson has begun the preparation of a message which he plans to read to congress Friday urging the necessity of emergency revenue legislation to offset curtailment in customs receipts since the beginning of the European war. About \$100,000,000 must be provided.

Millions Needed

It is understood the president will make it clear that sufficient revenues for all purposes are assured, but that the sudden cessation of shipping has reduced customs duties until millions of emergency revenue must be raised to prevent a deficit. Administration leaders in congress already have been studying available sources of special revenue and have been in frequent conference with Secretary McAdoo of the treasury department. Representative Underwood, chairman of the ways and means committee, has asked the president to indicate what course he proposed to recommend in raising the needed revenues.

Suggested revenue have been made that liquor, whiskey, domestic wines, tobacco, railroad and theatre tickets, gasoline, patent medicines, soft drinks and other similar commodities be taxed. No agreement has been reached, however, by the ways and means committee majority.

Treasury department reported yesterday that customs revenues dropped off about \$11,000,000 during August. Total customs receipts for that month were \$19,431,363. Slight increases over August, 1913, were shown in internal revenue and corporation tax returns, but the total receipts for the month were \$10,000,000 less than in August of last year.

BOATS LOOK FOR MINES

THAT ARE DANGEROUS TO NEUTRAL SHIPS—THINK DETONATION WAS CAUSED BY FISH

LONDON, Sept. 3.—Telegraphing from Copenhagen the correspondent of the Daily News says:

"Several private motor boats have left for Cape Skagen, Denmark, to search for mines which are dangerous to neutral ships. Persons arriving here from Revel, Russia, today said that while crossing the Gulf of Finland on board a Russian ship they saw a mine explode about a mile and a quarter away. No ships were visible in the vicinity, and the captain of the Russian vessel suggests that the mine was detonated by some big fish coming in contact with it."

"During the first month of the war food prices in Denmark have risen on the whole, though not uniformly. A crye loaf of bread which an August 1 cost eight pence (16 cents) today costs one shilling (24 cents). English sugars, which were 25 kroner a hundredweight on August 1 today are quoted at 33 kroner. A kroner is equal to 27 cents in American money."

"The Germans recently have been trying to buy foodstuffs from Copenhagen, but apart from butter, bacon and eggs they have always been met with the reply, 'We have nothing to sell'."

"The Danish government has just taken the unprecedented step of expropriating all stores of wheat in Copenhagen—180,000 bushels—which will be taken over by public authority at about 17 shillings 5 pence (\$4.28) per Danish tonne—four bushels."

KITTREDGE'S ALLEYS

NEW BOWLING QUARTERS OPENED THIS AFTERNOON WITH CITY'S PROMINENT BOWLERS

The new alleys just put in by Harry Kittredge at the corner of Market and Central streets were thrown open to the public this afternoon and a surprise was given the patrons of the bowling game when they stepped into the new establishment.

Not only were the alleys new but everything connected with them was in the finest possible shape. The newly polished alleys provided inconceivably rapid turning for the round wooden pellets, speeding on their way toward the pins at the other end of the stretch.

The more prominent bowlers in the city were right on the job this afternoon at the new alleys, attracted by the opportunity for high scores and also by the presence of Paul Pochier, one of the greatest candle and duck pin rollers in the country.

VON HORST ARRESTED

Resident of London, Held as a German Spy

LONDON, Sept. 3.—Baron Lewis von Horst of Coburg, Germany, was arrested in London yesterday on the charge of espionage and placed in the concentration camp at Olympia as a prisoner of war.

Baron von Horst has extensive hop interests in California. He is a brother of Clement von Horst and married a Miss "Catharine" of New York, daughter of D. J. Partullo.

A friend who visited Baron von Horst says he is charged with circulating a manifesto advising the Irish not to enlist in the British army. Baron von Horst denies this.

Clement von Horst and his brother, Paul, were at one time identified with the baron in his hop-growing farms on the Pacific coast.

For several years past the baron has made his home in London, where his business interests have been large. One of his latest enterprises was the establishment of a string of moving picture theatres.

Baron von Horst attained prominence in the suffrage agitation in England by appearing many times as a bondsman for women accused of breaking the peace. He speaks English with an accent, having been taken at the age of 5 years to America, where he was educated.

Today the baron sent a request to Richard Westcott of the American consulate.

BOY BATHER LOSES LIFE

IN CHARLES RIVER BASIN—HE JUMPED IN WHERE BATHING IS FORBIDDEN

The drownings in New England yesterday were:

Edward J. Foley, 19, of 66 Cabot street, Roxbury, in Charles River basin.

James P. Moore, 60, of 20 Ellis avenue, Lynn, at Revere beach.

Hasan Mustafa, 31, of Manchester, N. H., in Merrimack river, near Manchester.

John Walsh, 9, of Adams, in pond at Zylonic, near Adams.

Joseph Mitchell of Newburyport, in mill pond at Newbury.

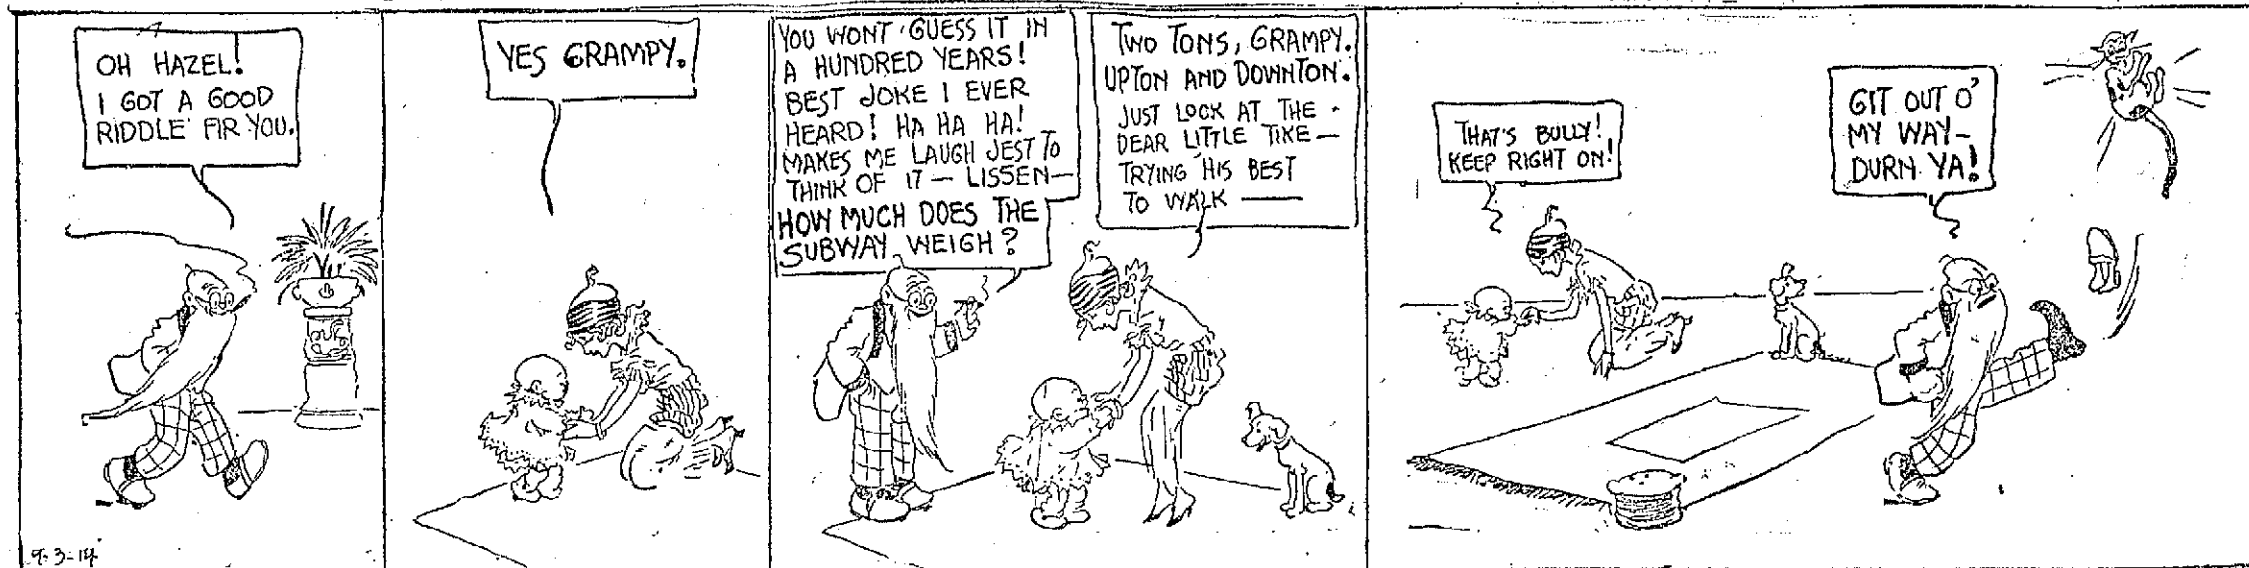

Gordon Hartley, 13, in Frank's pond, Saugus.

A dip into the waters of the Charles River basin at a spot where bathing is prohibited cost the life yesterday afternoon of Edward W. Foley, 19, of 66 Cabot street, Roxbury. The boy drowned in seven feet of water.

The accident occurred on the Cambridge side of the river, just below the Harvard bridge. Foley sank so quickly that the efforts of Gerville Haslam of Watery, N. H., who jumped into the water from the front of the Number Six club, were unavailing.

DAY BY DAY—Pouring Water on a Firecracker is Nothing to This

BY CLARE VICTOR DWIGGINS

GEN. PAUL PAU, HERO

FAMOUS ARMY LEADER WHO LOST ARM IN FRANCO-PRUSSIAN WAR AGAIN CONSPICUOUS

General Paul Mary Caesar Gerald Pau, one of the most famous of French army leaders in the war, is popularly known as "the hero of Froeschville" on account of his gallantry in that battle in the Franco-Prussian war, when he lost an arm. He is sixty-six years old. He was trained at St. Cyr, the West Point of France, graduating in 1887. Pau was made a division commander in 1903. He retired from active service in 1911. That same year the French people demanded that he be made commander-in-chief of the army, but a change in ministry ended this. He has now far played a conspicuous part in this war.

NO TROUBLE AT BUTTE, MONT.
BUTTE, Mont., Sept. 3.—Butte's first day of martial law with the Montana National Guard occupying the court house and city hall passed without disturbance.

Four arrests of leaders of the Butte Mine Workers' union were made late yesterday afternoon, one of the men being James Chapman, chairman of the jurisdiction committee.

Provost Marshal Frank Conley searched the city for "Muckie" MacDonald, president of the union, but he could not be found. He is wanted on charges of inciting riots.

For the first time in three days the jurisdiction committee of the union did not appear at the mines and enforce its order that prohibited non-members from working.

For several blocks around the court house, the streets were patrolled by militiamen who prohibited persons from passing through the guarded district. On two sides of the court house galling guns were placed in the streets. Two machine guns were placed on the roof of the courthouse. The state troops will sleep in the court house for the present.

INDIANS ATTACKED IN WAR ZONE

LONDON, Sept. 3.—William Arthur of Lander, Wyoming, accompanied by nine Sioux Indians who were attached to a circus which was performing in Trieste when the war broke out, reached London yesterday after many exciting adventures. Arthur said that in crossing Austria he had seen many persons suspected of being spies killed by infuriated mobs. Among them were some women. At Munich, he said, a mob of men and women, who were said to be spies, were killed by the Indians.

G. A. R. CONVENTION

DETROIT, Sept. 3.—The Grand Army of the Republic and the several organizations affiliated with it plunged into routine business today. The principal event of the forenoon sessions was the annual address of the commander-in-chief, Washington Gardner of Albion. The meetings of the Grand Army and the Women's Relief Corps promised to last until late in the afternoon.

AMONG THE TOILERS

Chester Craig of the Northern Waste Co., has returned from a few days visit to friends in Lawrence.

There will be no celebration by labor bodies in this city Labor day. Many of the members will undoubtedly journey to Boston and witness the big labor parade which will be held in that city.

Fred Howland and Richard Tobin of the Lowell Bleachery will be heard to advantage in the latest song hits tomorrow night at the entertainment to be held under the auspices of the Hookhorn club, in South Whipple street.

James Bodkin of the Merrimack Manufacturing Co. is spending his vacation at Lynn beach.

Dave Manning will lead the quartet singing at the outing of the Helene Electric Co. employees to Revere beach Saturday.

John Rogers of the Lowell Felt Co. has been signed by the Hillsdale A. C. and will play with the team for the first time Saturday at Shedd park.

Joseph Lawson of the U. S. Bunting Co. will spend Saturday, Sunday and Labor day with friends in Worcester, Mass.

William Holland of the Saco-Lowell shoe store is spending his vacation enjoyably at his camp at Crystal lake. William is of the opinion that Crystal lake cannot be improved upon as a fishing lake.

New Selling House

The Parker Wilder Co. of Boston, has succeeded in selling ten lots for the foot mills of Lowell. The reason for the change is not stated.

Carpenters Held Meeting

Carpenters' union local 1610, held its regular weekly session in Carpenters' hall in the Felt building last evening and it was largely attended. Business of an important nature was transacted, and two members were admitted. Several applications were received and were laid on the table for consideration. The business agent made a progressive report on the standing of the local and the secretary's report showed the union to be on a firm financial basis.

Homestead Machinists Met

The Homestead Machinists, affiliated with the I. A. M., held a meeting last evening in the Felt building. The business routine business was transacted, after which Organizer Frank Ego of Washington, D. C. addressed the body. His talk was mainly on unionism and the benefits to be derived from holding membership in a district union. After the business session, the time was spent enjoyably in a social hour and refreshments were served. The members of this union, for the most part came from the Boston and Maine shops in Concord and Concord, N. H., and are at present employed in the Hillier shops.

Lowell Textile Co.

Word was received yesterday afternoon at the Lowell Textile Co. in North Chelmsford, which manufactures towels of all descriptions, that a boat, loaded with linen consigned to the plant had arrived at Boston. This boat has been between 15 and 20 days in arriving, and has not been in work somewhat, but it is expected that within two weeks, night operations will commence, which will necessitate the employment of several more hands.

Muskeget Mills Busy

The Muskeget mills, which manufacture worsted goods are quite busy regardless of the fact that the past few months are usually the slowest months of the year for manufacturing in this line. Supt. Laycock informed the reporter that as far as he could see there will be no let-up. The motor trouble which has caused some difficulties at the plant the past few weeks has been remedied, and a new engine is being installed.

Sanitary Conditions in Factories

The state board of labor and industries has adopted a new plan of putting into execution the labor laws which have been recently put on the statute books.

As an example of the work they are doing, on Wednesday, Aug. 26, they sent notices to 75 of the shoe manufacturers in the different parts of Massachusetts and called them together for a conference in the board room at 1 Beacon street, Boston, Mass.

The chairman of the board, Alfred Donovan, who is a shoe manufacturer himself, then advised the parties present that under chapter 726 of the acts of 1914 that the said state board of labor and industries is obliged to see that suitable, adequate and convenient water closets and washing facilities separate for each sex are maintained in all industrial establishments, and he asked for an opinion from the different manufacturers as to whether they thought their present equipment was sufficient to meet the needs of their employees.

There were 15 different representatives who spoke on this question, and they all agreed that there was a great opportunity for improvement in the sanitary conditions, and admitted that there was need of just such a law as this, and as a result of the conference, a committee of the shoe manufacturers, consisting of Edwin M. Perry, Miss Perry Co., Newburyport; F. E. Field, Jr., F. E. Field & Co., Brockton; Mr. Russ, Russ & Pape, Haverhill; J. O. Walker, J. O. Walker & Co., Lynn; and Edwin Mulready, commisioner of labor, Boston, were appointed to submit to the board for consideration such rules and regulations as they thought would be necessary as a standard for the state.

The result of this conference was that all the manufacturers were in a much better frame of mind when leaving and individually agreed to see that as far as they were concerned every effort would be made to have Massachusetts rank among the leading states, with reference to the conditions under which employees labor. The board has not adopted any rules, but will wait until the committee submit their report, and will then adopt such rules as in their opinion will be sufficient to meet the necessary needs. This is simply an example of the way that the state board of labor and industries is so ably handling one of the many problems which are under its supervision.

Some of the prominent shoe manufacturers present were: Mr. Perry, Miss Perry Co., Newburyport; Mr. Field, F. E. Field & Co., Lynn; C. E. Hastings, J. W. Hatch & Co., Haverhill; E. F. Daniels, L. E. Dudley company, Haverhill; H. E. Chase, W. S. Chase & Sons, Haverhill; W. W. Russ, Russ & Pape, Haverhill; C. H. Richardson, Lynn; F. E. Field, Jr., F. E. Field & Co., Brockton; J. H. Grover, J. H. Grover & Sons, Lynn; F. O. Walker, J. O. Walker & Co., Lynn; L. E. Daniels, J. E. Baker & Co., Lowell; Lewis Hartman, Hartman Shoe company, Haverhill; Mr. Bray, Bray & Company, Lowell; and H. Corbett, A. E. Little company, Lynn—Lynn item.

WHAT AND WHERE CHILE BUYS

The longest way round is not the shortest way home when it comes to transporting merchandise. To get there quickest with the best goods, other things being equal, means commercial success, and that's what the Panama canal will enable the manufacturers and other commercial interests of the United States to do along the 3,000 miles of Pacific coast line of South America. Of that coast line nearly 3,000 miles are taken up by the Republic of Chile. Wherefore Chile is in the commercial limelight just now, and bids fair to remain there for a good many years to come, for her importance in the business world is increasing, and her future prospects are remarkably bright.

Complete details of Chile's foreign trade for 1913 are not yet available, but from some advance figures just received by the Pan American Union, Washington, D. C., some interesting facts may be gleaned which should claim the attention of those interests in the United States seeking to enter the Latin American field. In the first place, Chile's foreign trade in 1913 exceeded all previous records notwithstanding a general and almost worldwide financial depression. The total amounted to \$265,000,000, of which the imports were valued at \$120,000,000 and the exports at nearly \$145,000,000.

In this connection it is interesting to note that the United States has made a very perceptible gain on her two chief rivals, the United Kingdom and Germany. In the total Chilean trade since 1909, of Chilean imports in 1913 the United States supplied nearly 17 per cent, against only 10 per cent. in 1909; the United Kingdom 30 per cent, against 33 per cent. in 1909; and Germany just held her own with 24 per cent. The United States gained 7 per cent. in 5 years without the Panama canal. How much should the gain be during the next five years with the canal open for business?

Now what does Chile buy? According to values the five leading classifications for 1912 were: Textiles (including cotton, wool, other fibres and silks), over \$28,000,000 worth; mineral products (including iron and steel manufactures, earthen and stones, precious metals and jewelry), \$22,275,000; coal, oils, etc., nearly \$20,000,000; machinery, \$13,000,000; vegetable products (including food products, fruits and grains, woods and manufactures, etc.), nearly \$14,000,000; and animal products, nearly \$8,000,000.

Under the above classification, in the line of textiles the United States made a very poor showing. The United Kingdom sold the Chileans over \$11,765,000 worth; Germany, nearly \$6,552,000; the United States, \$2,500,000; Belgium, over \$1,000,000; and the United States only \$511,000 worth. With the European war encroaching the attention of the four countries enumerated, and with the Panama canal doing business, surely the manufacturers of cotton and wool textiles in the United States will get busy and make a better showing henceforth.

Under mineral products are found such manufactures of steel and iron as wire, granite cooking utensils; pipes, tubing and connections; nails, railway spikes, fishplates, steel rails, car wheels, structural steel, etc., and of the total Germany sold \$3,129,000 worth; the United Kingdom, \$2,145,000; the United States, \$428,000; Belgium, \$200,000.

Under coal, oils, etc., the details of the 1913 imports are not yet available, but we find that the United Kingdom sold Chile over \$7,302,000 worth while the United States came second with about \$5,000,000 worth. In 1912 the United Kingdom sold the Chileans \$7,145,000 worth of coal alone, Aus-

LEGAL NOTICES

COMMONWEALTH OF MASSACHUSETTS. Middlesex, ss. Probate Court. To the heirs-at-law, next of kin, creditors, and all other persons interested in the estate of Clara J. Pierce, late of Lowell, in said County, deceased, Intestate.

F. M. ESTY, Asst. Register.

WANTED

WANTED TO BUY FARM ON CO-OPERATIVE PLAN. Must be bargain. Address S89, Sun Office.

tralia sold nearly \$3,000,000 worth, and the United States but \$500,000. Under machinery (which included railway cars, automobiles, hardware, etc.), Germany sold nearly \$5,500,000 worth, the United Kingdom, \$4,540,000, and the United States, \$3,331,000. From all of which it may be inferred that it is time for the manufacturers of the United States to get in the game in earnest.

RIVERS AND HARBORS BILL

WASHINGTON, Sept. 3.—The senate voted yesterday to begin consideration of the rivers and harbors appropriation bill today and continue until it is disposed.

Several republican senators propose to fight the bill, which carries appropriations aggregating \$53,000,000.

SIGN NEW PANAMA TREATY
PANAMA, Sept. 3.—An important treaty by the terms of which the United States gains control of the waters of the harbors of Colon and Ancon, together with certain other valuable rights, was signed yesterday by William Jennings Bryan, the American minister, and Ernesto T. Lefevre, Panama secretary of foreign relations.

The United States acquires absolute control over all the waters of Colon and Ancon harbors and, in addition, two small islands lying in Ancon harbor which are to be used for observation and light stations by the coast artillery. One of these islands will be fortified. The site of Battery Hancock is given to the United States as is also the control of all the piers at the north entrance of the canal costing approximately \$2,500,000.

TO REORGANIZE CLAFLIN CO.

NEW YORK, Sept. 2.—At a meeting of the General Mercantile Creditors committee of the H. B. Claflin Co. yesterday, tentative suggestions were received from the noteholders' committee which embodied the basic principle of a plan for the reorganization of the company may be worked out.

It was said after the meeting that the general mercantile creditors committee has virtually consented to the plan as proposed by the noteholders. It is understood that the plan provides in a general way for the paying of 15 per cent. in cash and the issuing of bonds of a new corporation.

FARMERS APPEAL TO CONGRESS

FORT WORTH, Tex., Sept. 3.—An appeal to congress to finance the marketing of the cotton crop of 1914 was authorized today by the Farmers' Educational and Co-operative Union of America. Details of the plan to relieve the market situation caused by the war in Europe were left to the judgment of a committee, which will go to Washington immediately to present the appeal.

WAR SPIRIT IN CANADA

OTTAWA, Ont., Sept. 3.—The war spirit is growing in Canada. The officials are being overwhelmed by men eager to go to the front. The first call was for 25,000 volunteers from

CARDINAL DELLA CHIESA ELECTED POPE

ARCHBISHOP OF BOLOGNA, ITALY, SUCCEEDS LATE POPE PIUS X
Third Edition
GERMANS 30 MILES FROM PARIS
AUSTRIANS SUFFER HEAVY LOSS

New Pontiff Will Reign Under the Name of Benedict XV—Cardinals O'Connell and Gibbons are on Board Canopic and Consequently Did Not Participate in Election of New Pope—Reported That Pope Benedict Will Appoint Cardinal Domenico Ferrata His Secretary

ROME, Sept. 3.—Cardinal Della Chiesa has been elected pope and will assume the name Benedict XV.

Cardinal Giacomo Della Chiesa, who was today elected pope by the sacred college, in succession to Pius X, who died Aug. 20, was created a cardinal May 25, 1914. He is the archbishop of Bologna, Italy.

He was born at Pegli in the diocese of Genes, Nov. 21, 1854, and was ordained a priest December 21, 1878. He served as secretary of Nunciature in Spain from 1883 to 1887 in which year he was appointed secretary to the late Cardinal Rampolla.

He was appointed substitute secretary of state in 1901 and in 1907 he was elected to the post of adviser to the Holy office.

In 1907 he was appointed papal nuncio of Madrid in succession to Mgr. Rinaldini but this appointment was cancelled three days later. This incident had occurred just before he was made archbishop of Bologna. When Mgr. Della Chiesa was given this post it was declared in Rome that it was mainly with the object of combatting modern religious ideas, Bologna being the headquarters of the National democratic league, of socialistic tendencies, whose members advocated what is known as "modernism" in religion.

It has been 174 years since the last Pope Benedict held the chair of Peter. On his election to the papacy in 1740 Cardinal Prospero Lambertini assumed that title.

It is an interesting fact that the new pope was Archbishop of Bologna, while Pope Benedict XIV was born in Bologna.

REV. DR. J. H. RACETTE, O. M. I.
TELLS OF HIS EXPERIENCES IN
THE WAR ZONE

Rev. Dr. J. H. Racette, O. M. I., pastor of St. Joseph's parish, returned this afternoon from Europe where he went to attend the general chapter of the Oblate Order, which was to be held

REV. DR. J. H. RACETTE, O. M. I.

In Rome in the early part of September. However, on account of the European trouble the chapter was postponed indefinitely.

Dr. Racette reports a fine voyage across to Europe and he said he was much surprised when he reached Boulogne-Osur Mr. France, when he saw a whole regiment of Scotch soldiers drawn over the French frontier to Belgium. He said it was then that he was informed that war had been declared between France and Germany. The reverend gentleman then repaired to Paris, where he was informed the congress would not be held. Then he made up his mind to go to either England or Ireland, but it took him 12 days before being able to leave the French capital and he was forced to go to the American consul for pas-

ports. Dr. Racette then went to Killarney, Ireland, and from there he proceeded to Cork and Dublin and he says the country is beautiful. He also went to Scotland, stopping at Edinburgh and Glasgow and he visited the beautiful lakes of the country. The tourist went to London and this was just a few days after war had been declared between Germany and England and he says at that time London was very quiet.

The Lowell clergyman sailed from Liverpool, Eng., on Aug. 25 aboard the S. S. Arabic, which was escorted during the voyage by two British cruisers which kept at a distance of about 30 miles. He said the homeward voyage was a most pleasant one. The ship anchored in Boston harbor this noon.

Dr. Racette said during his trip in France, Ireland, Scotland and England he visited several Oblate houses. He said the reception he received was a most cordial one and he will not soon forget his first trip across the continent. The father is enjoying the best of health and he says the trip has been very beneficial to him.

WAR RISK BUREAU

Establishment of Insurance Bureau in Treasury Department Opened Today

WASHINGTON, Sept. 3.—With the establishment of a war risk insurance bureau in the treasury department, the United States today was engaged in a new line of business. W. C. DeLancy, an underwriting insurance expert, has been placed in charge of the enterprise, which will be operated under Assistant Secretary Peters. The plan by which the government will insure American ships and cargoes will supplement arrangements recently authorized by congress for admission to the American registry of foreign built vessels.

Executive orders suspending sections of the old navigation laws under the registry bill are to be issued immediately. That is expected to open the way for several big shipping companies to place their fleets under the American flag.

The war risk bureau will insure American vessels, passengers, and cargoes "whenever it shall appear to the secretary of the treasury that American vessels, shippers or importers in American vessels are unable in any trade to secure adequate war risk insurance on reasonable terms." It will be supplementary to that furnished by private concerns which claim they have not sufficient capital to give complete war risk insurance.

Joseph Boutin and Miss Cecile St. card were married at 7:30 o'clock last evening at St. Louis' rectory, the ceremony being performed by Rev. L. C. Bodard. The witnesses were George Boutin and Joseph Regis.

LOWELL VIOLIN SCHOOL

Government of France is Now Established at Bordeaux—Russians Victorious in Sanguinary Battles With Austrians—Russians are Pressing Forward in Galicia—Germans Admittedly Victorious in East Prussia—Germans Pressing Right Wing Near Paris

The absence of official announcements from the capitals of the belligerents today is the surest indication that the fighting in the east and west continues without decisive results.

Such news despatches as escaped the censors tend to confirm earlier official claims and admissions. The Germans are pushing their right wing nearer Paris while their center and left appear to be held by the French. Russia is pressing forward in the Austrian province of Galicia after having taken the strongly fortified capital, Lemberg. The Germans are admittedly victorious in East Prussia.

The Japanese are said to have occupied seven islands near Kiao Chow and to have landed additional troops within marching distance of that German stronghold in the face of protests by China.

King Nicholas of Montenegro is reported as determined to occupy Scutari. The governor and other German officials of Samoa have been made prisoner by the British and sent to the Fiji islands.

The government of France is now established at Bordeaux. The foreign embassies and legations with the exception of those of the United States and Switzerland have also been removed from Paris to Bordeaux.

RUSHED FROM WAR ZONE
WOMAN OF 70 KILLED

Dr. and Mrs. Van Deursen of Lowell Attended the Chemical Congress in London

Dr. and Mrs. George L. Van Deursen of 1039 Middlesex street, have returned from England after attending the chemical congress of North America, which was held in London. The couple had planned to visit Holland, Belgium and France, but on account of the European war they were forced to confine their visit to England and although they were booked to return from Antwerp, they were unable to proceed to the Belgian city and consequently they sailed from London. They came through to Montreal, Que., without the slightest incident and from the Canadian city the couple came to Lowell by train.

Dr. and Mrs. Van Deursen sailed from New York on the S. S. Arabic on July 11 and arrived at Liverpool on the 20th. They visited several places in England and then proceeded to London, where the congress was held at the Hotel Cecil from July 27 to 31 inclusive. The congress was largely attended and proved of great benefit to the medical profession. The conclusion of the congress the numerous doctors and surgeons were taken through the art galleries of London, despite the fact that all places were closed on account of the suffragettes.

Just as the Lowell people were about to travel to Holland, war between England and Germany was declared and this put a halt to the voyage. Dr. Van Deursen in conversation with the writer stated that soon after Americans coming from all parts of Europe, invaded London and at one time there were as many as 40,000 Americans in the English capital. A committee of Americans was at once organized with quarters at the Hotel Savoy to assist the travelling Americans. Provisions were made to cash drafts and also to supply with money the Americans who were stranded. A weekly paper known as the "American Bulletin" was published and this contained valuable information for the tourists. The American citizens committee consisted of a diplomatic committee, finance committee, transportation committee, hotel and restaurant committee, men's relief committee, women's relief, reference index, baggage, postoffice. The chairman of the general committee was Theodore Hatzler of New York; W. North Duane of New York was secretary and William C. Breed of New York was treasurer. This committee endeavored to keep the tourists informed as to the sailing of ships; they looked after their baggage and also their comfort while in London.

The doctor and his wife returned on the S. S. "Scotian" of the Allan line, which sailed from London Aug. 21. The steamship was equipped with four 6-inch rapid fire guns and it was also escorted by two cruisers, the "Scandinavian" and the "Canada." The

Scotian will be utilized in transporting Canadian troops to Europe. She is now in the port of Montreal and will sail in a few days. The doctor said the ship did not encounter the least trouble en route, but almost collided with two large icebergs. She traveled her regular course and was not molested in the least.

Speaking about London, Dr. Van Deursen said that the large city are converted into drill grounds and they are filled with territorial reserves. The large and beautiful Crystal Palace has been converted into a hospital and many other large buildings of London have been utilized for the same purpose. "Among the 420 cabin passengers on the return trip," said the doctor, "there were many who lost all their valuables and even clothing on their way to England from other countries. He said a number of the passengers were penniless when they struck London, but they were soon taken care of by the committee. The doctor says the English as well as the Canadians in Canada are very enthusiastic over the war and thousands of men report daily to the recruiting station for enlistment as volunteers. The doctor and his wife have enjoyed their trip despite the discomfort and they are pleased to have returned safely to Lowell.

BIG MATCH AT SEA GIRT
SEA GIRT, N. J., Sept. 3.—The national divisional individual match which establishes the championship of the eastern division, including 13 New England and Atlantic states was shot today. The 200, 500, 600 and 800 yard stages were completed this forenoon with a field of 116 competitors.

Sergeant Archie Farquharson of the marines led at the end of the morning's shoot with a total score of 185. Sergeant Frank J. Cunningham of Massachusetts was second with 155.

ELECTRIC CAR JUMPED TRACKS
AND OVERTURNED IN DITCH
NEAR THOMASTON

THOMASTON, Me., Sept. 3.—One person was killed and three others injured, one probably fatally, when an electric car on the Rockland, South Thomaston and St. George railroad jumped the tracks and overturned in a ditch near here today.

The accident is believed to have been due to spreading rails.

CENTRALVILLE BRIDGE FIRE

A telephone alarm at 2:12 this afternoon called the members of Hose 5 to a fire in one of the walks on the Centralville bridge. The fire it is thought was caused by someone carelessly dropping a cigarette or cigar stub.

The other passengers on the car numbering 50 and including a picnic party from Rockland escaped without serious hurts.

AUTO PARTY BACK FROM CANADA

An automobile party consisting of the following Lowell people have returned from a very pleasant trip to Canada: Ephrem, Arthur, George and Miss Claire Pelletier, Stephen Rochette, Adolphe Desjardis, J. A. Proulx and Dr. D. S. Bellemare.

The party left Lowell on August 24 and returned this morning after visiting relatives and friends at La Beauce, Beauharnois, Montreal, Sherbrooke, St. Jean, West Shefford, Magog and Upton. Mr. Ovide Leclerc, formerly of this city and now of Sherbrooke, returned to Lowell with the tourists.

RED SOX WON FIRST GAME

Philadelphia-Boston—First game Plank and Mcavey; Foster and Carrigan.

Philadelphia . . . 0 0 0 0 0 0 1—4 1
Boston . . . 0 0 1 1 0 0 0—3 3
Pennock went into box for Philadelphia in eighth.

New England—(First game) Lynn, 5; Manchester, 3.

TENNESSEE REACHES HAVRE

LONDON, Sept. 3.—2:25 p. m.—The American embassy has been advised of the arrival of the American cruiser or transport at Havre where she will supply funds to hundreds of Americans who are trying to leave France by that port, now that the northern ports have been closed because of the German advance.

LOWELL AND HAVERHILL

The fact that today's game was not a regularly scheduled affair, but transferred at the 11th hour, together with the fact that the Rockingham fair was a strong counter-attraction had the effect of keeping the attendance at this afternoon's game with Haverhill way down and those who arrived late had no difficulty in securing good seats.

The interest taken in the game was evidenced by the following overheard in the pressbox:

"Who's going to pitch today?"
"I dunno; it's Tyler's turn, isn't it?"
"I mean in this game."

"Oh, I dunno; I thought you meant the Braves."

According to the man who sells the peanuts, cakes and candies at the grounds, somebody came early to avoid the rush, gaining an entrance during the night and getting away with cigars and candy. Still, the thieves left enough to go around among the crowd that put in an appearance this afternoon.

The only new thing on the field was a new right fielder from Boston playing for Lowell. His home is in Boston and he doesn't come from the Red Sox or Braves.

Michael Doherty, the decision maker, announced that the lineup was as follows:

LOWELL	HAVERHILL
Sweeney cf	ss Campbell
McCleskey 2b	cf Rieger
Fahy 3b	rf Dugan

CHALIFOUX CORNER

OUR BUSINESS IS THE BUSINESS OF PLEASING OUR CUSTOMERS

What we are striving to do is to learn exactly what our customers want and get it for them and deliver it to them in the simplest and most agreeable way to them.

The business lifts up to our customers' consideration by the dignity of its setting in many forms of excellence.

By reason of its splendid stocks, by reason of its individualities, in order to fit individualities.

Simpson lf
Dee ss
Kelley 1b
Donovan rf
Greenhalge c
Weaver p

First Inning

Campbell started off for Haverhill with a single through the box into center field. After Fahy had taken Rieger's foul fly Campbell stole second. Greenhalge making a very poor throw which went into center field. Campbell went to third while Dugan was being thrown out. Dee to Kelly. Smith contributed an infield hit that scored Campbell. Peplowski was thrown out on a grounder to Dee. One run, two hits, no errors. Sweeney died at first on a grounder to Campbell. McCleskey drew a pass and walked. He was forced out at second when Fahy grounded to Yelle, but the Lowell third sacker continued on to second as Peplowski threw low to Smith, the ball rolling to the bleachers. Simpson singled to short left and Fahy was thrown out at the plate when he attempted to score from second. No runs, one hit, one error.

Score: Haverhill 1, Lowell 0.

Second Inning

Although Haverhill connected for a double and a single in the second no runs were forthcoming. Yelle, the first man up batted the ball to left center for two bases. He was caught sleeping a moment later on Weaver's peg to Dee and put between second and third. Conley singled to Donovan. Gaston then singled to left but Fullerton closed the inning with a fly to McCleskey. No runs, two hits, no errors. Lowell evened up the score in the second half of the inning. Dee began the good work by drawing a pass. Kelly was called out on strikes and Donovan, the new right fielder, contributed a surprise when he singled to left. Greenhalge then singled to center, scoring Dee. The ball went past Rieger and Donovan also crossed the plate but he was called out for not touching third. Weaver was the third out on a hard grounder to Peplowski. One run, two hits and one error.

Score: Lowell 1, Haverhill, 1.

Third Inning

Dee made a wonderful stop to Campbell's hot grounder back of second and got the runner at first. Rieger vaulted the ball over Simpson's head for three bases. Greenhalge took Dugan's foul fly. Smith scored Rieger with a single to left. Smith went out trying to steal second. One run, two hits and no errors. In Lowell's half Sweeney led off with a single to left center, and then stole second. McCleskey singled to

right field, scoring Sweeney. Mac was forced at second on Fahy's grounder to Fullerton. Simpson grounded to Peplowski and the latter chased Fahy out of the base line and ran down to first for a double play. One run, two hits. No error.

Score: Lowell, 2; Haverhill, 2.

HOTTEST IN 36 YEARS

One Killed and Seven Overcome by Heat in Boston—Maximum Temperature, Ninety

BOSTON, Sept. 2.—Hot and muggy weather often prevails in Boston during the first days of September, but not for many years has it been as uncomfortable as yesterday. A record of one death and seven prostrations in the city tells the story in one way, and the manner in which people generally complained of discomfort tells it in another.

The dead: Daniel Kerrigan, 62 years old, living on the top floor of the house 3 Hamburg street, South End, found dead on the floor of his house last evening. Death is believed to have been due to natural causes superinduced by the heat. He had complained of exhaustion earlier in the day.

Overcome by Heat: Anthony Perry, aged 40, 4 Greenwood street, Dorchester; overcome at State street and Atlantic avenue. Relief hospital.

Mrs. Agnes Bassett, aged 52, 59 Bay View avenue, Winthrop; overcome in public garden. Relief hospital.

Mrs. Wesley Jones, 725 Huntington avenue; overcome on Tremont street, opposite common. Relief hospital.

Frank Anderson, aged 27, 95 Beachland avenue, Revere; overcome at Fenway park. City hospital.

Mrs. Ellen Cushman, aged 68, 20 Walbridge street, Forest Hill; collapsed corner Washington and Bristol streets. Relief hospital.

Michael G. Cullinan, address not known; found unconscious on street on Boston common. Relief hospital, serious condition.

John J. Judge, aged 21, 24 Mystic street, Everett; overcome while at work in South End hotel. Relief hospital.

Official Temperatures

1 a.m.	72	1 p.m.	87
2 a.m.	72	2 p.m.	86
3 a.m.	72	3 p.m.	86
4 a.m.	72	4 p.m.	86
5 a.m.	73	5 p.m.	87
6 a.m.	74	6 p.m.	88
7 a.m.	75	7 p.m.	89
8 a.m.	76	8 p.m.	89
9 a.m.	77	9 p.m.	89
10 a.m.	78	10 p.m.	89
11 a.m.	79	11 p.m.	89
12 noon	87	12 m.	89

It was the hottest Sept. 2nd in 36 years. The maximum temperature was 90 at 2 p. m. Not since 1878, when the maximum temperature was 91, has Sept. 2 been so warm. This only partially explains the discomfort.

Not only was the temperature above 70 from the early hours of morning until midnight, but after 9 a. m. it was never below 80, and at midnight it was just 80. It was the combination of this continued high temperature with an abnormal humidity of 84 per cent, nearly all day which affected people.

Closer examination shows that Aug. 16 was not as uncomfortable a day as yesterday, in spite of these figures. On Aug. 16, early in the day, when the humidity was highest, the temperature was only 86. Then, about noon, when the wind changed from east to south-west, the humidity dropped to 75, and the temperature gradually rose to the 90 mark. Thus at no time was there the combination of hot and sticky weather like that of yesterday.

On July 18 the maximum temperature was 90, while on May 27 and June 25 Boston had maximums of 95 and 94, respectively. On none of these days, however, was the humidity above normal.

In some places yesterday the southwest breeze did bring slight relief. It was not felt, however, anywhere in the downtown section of the city. It was this southwest breeze, blowing at 14 miles an hour late last night, upon which the forecasters based their prediction of cooler weather today. At midnight there was even a prospect of the long delayed showers before daylight.

The forecast for today is fair and cooler, with continued fair weather tomorrow.

Although there was no general storm area in the United States last night, there were local showers in a number of places, including parts of northern New England. A temperature of 50

decreased in Duluth, Minn., was the lowest minimum recorded, while Eastport, Me., showed 68. In parts of Arizona the maximum was 100.

DEATH IN SOMERVILLE

John H. McNeil Victim of Heart Trouble Supposed to Have Been Aggravated by Weather

John H. McNeil, 50 years of age, died suddenly yesterday afternoon at 1161 Broadway, Somerville, where he was employed. He had been suffering from heart trouble for some time and it is supposed that the heat aggravated the trouble. He was married and lived at 27 Quincy street, Somerville. Medical Examiner McQuinn viewed the body and allowed it to be taken home.

TRADE WITH PANAMA

WASHINGTON, Aug. 28.—Trade of the United States with other American countries in the fiscal year ended June 30, 1914, aggregated 1,304 million dollars, and constituted 30 per cent. of the entire commerce handled by domestic ports. Of this large sum, World commerce, 566 million with North America and 347 million with South America.

Our imports from North American countries, valued at 427 million dollars in the fiscal year, were chiefly from Canada, Cuba, Mexico, the Central American States, and the British West Indies. Our exports to North American countries, 529 million dollars in value, were chiefly to Canada, 215 million; Cuba, 68 million; and Central America and Mexico, each about 39 million. The United States supplies a larger proportion of the leading countries of North America than any other nation, and in the case of Canada, Central America, and Cuba, more than all other parts of the world combined.

Of our 223 million dollars' worth of imports from South America, nearly one-half were from Brazil, about 20 per cent. from Argentina, and the remainder, chiefly from Chile, Colombia, Venezuela, and Peru. Nearly one-fourth of our total exports of 135 million dollars' value to South America went to Brazil and over one-third to Argentina. In sharp contrast with the high position of the United States in the North American markets is its low rank among the nations selling goods in South America where, in the fiscal year, the United States ranked 15th among the nations, with only 15 per cent. of the imports were from this country. South America as a whole imported in 1912 over 956 million dollars' worth of foreign goods, our share being about 14 per cent.

The relatively small contributions of American manufacturers and exporters to the requirements of the South American markets draws attention to a recent publication of the Bureau of Foreign and Domestic Commerce, Department of Commerce, entitled "South America as an Export Field," Special Agents Series No. 81, and sold by the public printer at the nominal price of 35 cents. In that publication Commercial Agent Otto Wilson outlines the conditions necessary for the successful sale of goods, the lines of manufactures required in South America, and the standing of the leading nations as contributors to these requirements. It is pointed out, for example, that Argentina imports large quantities of manufactures of the class produced in the United States, but that the United Kingdom and Germany supply more of them, as a whole, than this country; while France sells there five times as many automobiles, Germany 20 times as many iron beams, three times as many cotton goods, and England 25 times as much coal and twice as much machinery in that market as the United States. This disparity in favor of European countries extends to many other articles and practically all countries of South America, each of which is interestingly discussed in the monograph named.

A mere enumeration of a few of the principal articles imported by Brazil will serve to illustrate the opportunities which await American exporters in that and other South American fields: Arms and ammunition, cars, automobiles, cotton goods, pharmaceutical preparations, electrical apparatus, cutlery, machinery, leather, printing paper, petroleum, the plate, soap, and wearing apparel, all of which are bought in large quantities, and in practically every case are obtained more largely from England, Germany and France than from the United States. The governments of Brazil, Argentina, Chile, Colombia, Venezuela, and Peru are also presenting cable dispatches from South America which indicate the special needs of these markets owing to the supplies from Europe being cut off.

THE ROCKINGHAM FAIR

Governor's Day Brings a Record Breaking Crowd—Over 40,000 in Attendance Yesterday

All roads lead to Salem, N. H., today for this is governor's day, and it is expected that the attendance will reach the 75,000 mark.

The racing card for today is made up of a 3-year-old trot, 2:18 pace, 2:35 trot, a match race between the Charles River Speedway rivals, Democrat, 2:06 1-4, and Major Wellington, 2:08 1-4, and a running race.

Events of Yesterday

Yesterday, the second day of the Rockingham fair, drew over 40,000 people. Automobiles passed in an endless stream into the auto enclosure while trolley cars and trains brought thousands more.

The mecca of the fair patrons was, as always, the race track. An attractive program had been arranged by the management for the followers of the "report of kings" and early in the day the grand stand was filled with a crowd that clamored for the starter to ring the bell.

The winners of the day's races were: Pacing, 2:18 class, for a purse of \$500—Katy Patch, first money; Billy Patten, second money; Troas, third money. Time—2:11 1-2. Katy Patch came in fifth in the first heat, but cleaned up the next three straight.

Cochato trot, foals of 1912, purse \$1000—Won by Cochato Brave in two straight heats. Time—First heat, 2:27 1-4; second heat, 2:23 3-4.

Matinee race, 2:15 class, purse, cup—The Counsellor winner in two straight heats. Time—First heat, 2:20 1-4; second heat, 2:11 3-4.

Running race, three-quarter mile, all ages, purse \$100—Charley Hargrave winner. Time—2:18 1-2.

Trotting purse, 2:14 class, purse \$500—Lady Watts winner of first money; Jonah Man, second money; Morine, third money; Peter Sims, fourth money. Time—2:13 3-4. Lady Watts was first in four heats and second in one.

Pacing, 2:21 class, purse \$500—Othello winner; Ethel Direct, second money; Miss Winnifred, third money. Time—2:19 1-2.

The space devoted to the exhibit of cattle was the centre of interest to thousands. Scores of thoroughbreds were quartered in the enclosure. The recipients of continual complimentary remarks from lovers of blooded stock.

Prizes in the Hereford special class, American Hereford Breeders' association, were awarded as follows—Bull, 3 years or over, H. E. Gile, Fayette, Me.; second prize, H. E. Morrison, Oxford, N. H. Bull, 2 years old, first prize, E. E. Gile, second prize, H. E. Morrison, Bull, 1 year old, first prize, H. E. Morrison, yearling bull, first prize, H. E. Morrison, Senior bull calf, first prize, E. E. Gile; second prize, H. E. Morrison.

son, Cow, 3 years old, first prize, H. E. Morrison; second prize, E. E. Gile. Heifer, 2 years old, first prize, H. E. Morrison; second prize, E. E. Gile. And Morrison also took first and second awards, respectively, for heifers 1 year old and junior heifer yearlings. For senior heifer calves Gile took the first and second prizes. Morrison the third and Gile the fourth. For junior heifer calves Morrison took first prize and Gile second. Gile and Morrison competed evenly for the remaining prizes in the Hereford class, no other entries receiving prizes.

In the Dutch belted breed, O. A. Leonard of Tolland, Ct., captured every award. A. F. Pierce of Winchester, Vt., was awarded every prize for Jersey cattle.

Billie Lee Nuts Wins
In the nut department, Charles Wright of Billerica, took first money for Berkshires, and John Todd of Lawrence, second for Chester whites. Edward C. Marshall of Nashua, N. M. Hills of Falmouth, and C. L. and F. M. Patterson of Ren, Penn., took first premiums in different divisions. Patterson Bros. took first premium for Red Tamworth.

Although attracting less notice than some other departments, the machinery exhibit was large and new.

The special feature yesterday was the parade of 500 women under the suffrage banner through the throng on the lawn before the grandstand. All hazardous feats of Tuesday were repeated. The aeronaut made his triple parachute drop and Rodman Law came down from his sister's biplane by parachute. He landed in the center of the oval. The biplane flight was the closing event of the afternoon.

Thrills followed each other in rapid succession as the day progressed. During the intervals between races carousels of half-raising nature were performed on the great oval within the race track. "The girl in red," mounted on her diving stallion climbed to the top of the structure that towers over the diving tank and again startled the crowd by her drive into the tank.

Following the dive came the triple parachute drop event that brought the crowd to its feet, breathless.

Rodman Law in his leap from an aeroplane driven by his sister was the feature event of the day. Law, seated in the plane beside his sister who drives, mounted high into the clouds, then climbed nearly into the spreading planes and leaped into space. All eyes were on him as he fell and a gasp of relief went up when his parachute opened.

After the aviation events were concluded, the enclosure devoted to the horse show held the attention of the crowd. Prancing four and eight driven by crack whips circled the en-

closure while riders competed at hurdling. Looney Lane had a multitude of patrons. This feature made a favorable impression, being free from objectionable devices and producing much mirth for the crowd.

The free automobile show is an innovation. The show covers a large tract of ground, the cars being parked uncanvassed.

STABBED WHILE ASLEEP

MURDEROUS ASSAULT ON MAN—CHESTER MAN AS HE LAY SLEEPING ON HIS VERANDA

MANCHESTER, N. H., Sept. 3.—Paul Perok, 30 years old, is dying at the Sacred Heart hospital as a result of a murderous assault by an unknown man, who stabbed him as he lay sleeping on his veranda on the second story of 49 Amherst street yesterday. The hospital authorities say there is no hope for Perok.

Later the police arrested a man suspected of the crime. He was taken to the hospital to be identified by the dying man.

TO STEADY WORLD'S STAPLES

Through the International Institute of Agriculture, having its headquarters at Rome, and at which the United States and fifty-three other nations are represented, this country will invite the powers, among them all the belligerents, to participate in an international assembly with a view to devising ways and means "to steady the world's price of staples."

Such an invitation will be extended by authority of a resolution passed by the house and which is expected shortly to be concurred in by the senate. The resolution has the approval of President Wilson.

The purpose sought in this resolution is to steady prices by effecting an international agreement governing freight rates. In the report on the resolution, which was prepared by the house committee on foreign affairs, the statement is made that while seven-ninths of ocean freight consists of bulk traffic, the rates on such business are changed without notice and frequently fluctuate.

The argument is made that the world's price of the staples of agriculture cannot be steadied until a fixed rate can be established on bulk traffic. David Lubin, the American delegate to the international institute at Rome, is instructed by the resolution to bring the matter to the attention of the general committee with the suggestion that the conference as proposed be held.

FRANCHISE RELIEF FUND
WASHINGTON, Sept. 3.—A French relief fund is being formed for the purpose of assisting sick and wounded refugees, not only French but also Belgian, English and other nationalities, now swarming to Paris and other French centres. An organization will shortly be perfected among the many people interested in Franco-American activities throughout the country. Meantime individual subscriptions are being received by the French embassy in Washington.

REV. DANIEL STEELE DEAD
MILTON, Sept. 3.—Rev. Daniel Steele, first president of Syracuse university, died at his home last night. He had been ill several months. Rev. Mr. Steele was 90 years old.

ANTI-TRUST BILL

Is Passed by Senate—Completes Trust Legislation For Session

WASHINGTON, Sept. 3.—The Clayton Anti-trust bill to supplement the Sherman law, which will complete the administration trust legislation for this session of congress, passed the senate yesterday by 46 to 16.

Seven republican senators, Brady, Clapp, Cummins, Kanyon, Jones, Norris and Perkins, and Senator Poinsett, progressive, voted for the bill.

The bill was amended by the senate in many particulars and will be sent to conference, where the federal trade commission bill—first of the anti-trust measures—still is under consideration. Reports on both measures are hoped for within two weeks.

Some of the Prohibitions
The bill provides fines and imprisonment for officers of corporations convicted of offenses against the trust laws; prohibits exclusive and tying contracts which restrict independence of purchasers; prohibits holding companies where their effect is to lessen competition or create monopoly, and makes illegal, two years after the passage of the act, interlocking directorates in competing corporations, any one of which has capital of more than \$1,000,000.

It also forbids the interlocking of railroad directors with corporations dealing in securities, railroad supplies or contracts, and legalizing procedure in injunction and contempt cases.

Sections of the house bill relating to price discrimination and unfair competition were stricken out in the senate.

Labor, agricultural and horticultural organizations not conducted for profit are exempted from the provisions relating to monopoly.

The maximum penalty fixed for violations of the provision preventing exclusive contracts is \$5000, or one year imprisonment, or both. The provision against holding companies would not prevent common carriers from acquiring branch lines where there is no substantial competition.

Interlocking Directorates
Sections relating to interlocking directorates are made effective two years after the passage of the act. Directors of railroads, under the terms of the bill, cannot be interlocked with corporations dealing in securities, railroad supplies or other articles of commerce or contracts for construction, maintenance, etc., to an amount or more than \$50,000 in any one year, unless purchases are made after competitive bidding under regulations of the Interstate Commerce commission.

A penalty of two years' imprisonment and a \$25,000 fine is prescribed for violation.

Another provision makes it a felony for officials of common carrier corporations wilfully to misapply or to permit misapplication of funds of the corporation, the penalty being not less than \$500 fine or imprisonment for not less than one or more than 10 years, or both.

Court Procedure
The section dealing with court procedure provides that no injunction shall issue between employers and employees in labor disputes unless necessary to prevent injury to property or property rights, and no such order shall prohibit the right of employees to strike or peacefully persuade others to do so; disobedience of writs subjects offenders to contempt proceedings, accused in indirect cases being granted trial by jury.

President Wilson will delay his selection of the members of the new trade commission until after the measure has been harmonized with the Clayton bill by the conference reports. He has not considered any names as yet.

AMUSEMENT NOTES
NEW JEWEL THEATRE
The New Jewel theatre at the corner of Merrimack and Tremont streets, a house noted for the comfort and cool fresh air afforded its patrons, continues to provide all-feature performances. Tomorrow and Saturday will be shown the ninth episode of the popular "Million Dollar Mystery." This episode is a wonder photoplay and alone would be worth the price of admission. "The Coast Guard's Bride," "Rescued by Wireless," and others make up the balance of the bill. A fine special program has been arranged for Sunday. Monday and Tuesday will be shown "Faithful Unto Death," a powerful four part drama of the Franco-German war, together with others as advertised today, including "The Derailed and the Man," a strong drama produced in two parts. "The Troy Captivity," another masterpiece is the main feature for next Wednesday and Thursday, showing another episode in this remarkable series. There are also a number of good pictures, including comedies and dramas.

LAKEVIEW DANCING PAVILION
Yes, we certainly did enjoy last night's return to the old time dancing steps. We enjoyed it, however, because it was only for one night. Tonight, tomorrow night and all the rest of the nights as well as after hours from now until the close of the summer resort season we are not going to be old-fashioned any more. The new dances are again in vogue at the Lakeview dancing pavilion. In spite of the huge crowd which attended this delightful dancing surface last night for the old timers' celebration. A change is always restless but you can't beat the new dances for steady diet, especially with such a setting as is given them at this beautiful summer resort's most popular attraction.

MERRIMACK SQUARE THEATRE
Despite the many counter attractions which have prevailed this week, the crowds at the Merrimack Sq. theatre have increased at each performance. The week's bill, "What Happened to Mary," which is by the way one of the best if not the very best in which the new stock company has yet appeared, has certainly caught the popular fancy. It's lines are clever, the plot is original, the staging is picturesque and take it all in all, one could not ask for a better performance. Next week America's laughing success, "Officer 666" will be the attraction. Seats including those for Labor Day are now on sale and those contemplating a visit to the theatre this week or next had best secure their tickets as soon as possible, as they are going at a rapid rate and are liable to be all taken, if one waits too long before getting them.

THE OWL THEATRE
The Owl continues its successful season, and yesterday's program pleased every one. "The Floor Above" E. Phillips.

Oppenheim's great detective story turned out to be one of the very best attractions ever offered at this popular theatre. The rest of the program was fully appreciated, each and every picture being shown for the first time in Lowell. "The Messenger of Doom," in two parts and a Keystone comedy, are especially good. Shows daily.

CANOE LAKE
The final week of musical comedy at Canoe Lake park is rapidly drawing to a close, the ninth edition of the Homan's Musical Revue being presented this week, closing the summer engagement of this company with the performances of Labor Day. The company being held over for the holiday on account of the big demand of the public that they be retained longer.

This city particularly has given the Canoe Lake theatre a splendid support, the cars being well filled as they leave for the lake and the big majority of those who can't get to the theatre before the rise of the curtain.

It was a new company offered the patrons this week but in spite of the fact that all but one of the company were strangers the show has developed an enthusiasm that knows no bounds and each and every one of the big cast received the most hearty applause.

In addition to the big musical show there is being offered the motion picture taken at Canoe Lake park two weeks ago when enormous crowds flocked in all parts of the park, about the many attractions while the camera man took in the views. The pictures have turned out splendidly and the result is that many thousands of people are able to pick themselves out from among the vast throngs as well as hosts of their friends.

Fun at the swimming pool where the camera man caught many bathers in the water, the frolics of the swimmers and all the excitement among the spectators are shown in clear steady pictures that make the patrons almost imagine they can feel the splash of the water. The flying horses, the sawing roller coaster, bowling alleys, the lake and all other attractions were visited and splendid views were taken.

ACADEMY OF MUSIC
Another class aggregation of vaudeville stars will make its debut at the Academy of Music today and continue there until Saturday night when it will give a complete vaudeville bill of vaudeville and pictures for the special "Pop" Sunday matinee. Every act is a star and every picture a feature. Add to this the fact that the mission, 5, 10 and 15 cents, and you will have the reason for the success of vaudeville at the Academy. Martin & Perkins, "those two musical boys," have a clever little novelty act that defies imitation. Ward & Webster "songsters supreme," have a lot of healthy surprises in store you to today. Pike & Calane, "nifty terpsichoreans," have a tony dancing and singing act that is bound to please even the most fastidious.

The management of the Academy of Music makes an interesting announcement. In this newspaper. According to this announcement the good old rip-roaring, amateur nights will again become an institution at this theatre. The good old side-splitting amateur nights with a hundred little new ideas and refinements to make it funnier than ever before. Friday is amateur night.

OPERA HOUSE
Announcement was made today that the Opera House, the lease of which was taken over by the Great Eastern Amusement company, will open on the coming Monday. Labor day, with a program of vaudeville and high class pictures. In the vaudeville portion of the program the headlines for the first three days will be Clem Bevins and company, in a comedy rural playlet, entitled, "Daddy." The story is built on entirely new lines, the situations causing no end of genuine amusement. It is what you seldom see but often hear about, a genuine novelty. The Juggling Bananos, a starling act, and John Gardner and Jeannette Lawrie, in sparkling wit and humor, will find a prominent place on the program. Bert Stephens, a high class singing comedian and comedian, a well balanced repertoire of leading vaudeville. The balancing of the above acts with the

latest release of the Famous Players Film company, "The Ring and the Maiden," with Mr. Bruce McRae in the leading role attests to the efforts of the new management to provide the best there is in the picture and vaudeville line for local theatre-goers. Performances will be given continuously every afternoon from 2 o'clock until 5, and two complete shows will be given every evening, commencing at 6:30 and 8:30. Popular prices will prevail and tickets can be reserved by ordering at the box office, which will open for the advance sale Saturday at 9 o'clock.

The house has been renovated from top to bottom and many new improvements installed. The new entrance on Gorham street will be thrown open for the first time on Monday and is to be used for admission to the orchestra and balcony, while the old entrance is to be retained for the gallery.

H. K. KEITH'S THEATRE
Patrons of the Keith theatre, which opens its season on Labor day—Monday next—will be treated to something entirely new in the production of motion pictures. A radium gold fibre screen, recently purchased, will be used for the first time locally. Its reflecting power is so great that it is wholly possible to produce motion pictures on it while the theatre is lighted from top to bottom. Not only does it in this way insure a greater measure of safety and comfort than heretofore, but the eyes of the watcher are not under such a constant strain as with the older method, and the pictures are brought out in a soft yet life-like manner. The demand for these screens is very great, for managers have come to know that they are superior to any other screen in use, and this naturally brings big audiences.

In the vaudeville list for the first three days of the week are those droll comedies, Welsh, Mealey and Montrose. These three men have been quite the comedy rage since they dropped in on audiences at the Keith Boston theatre, a few weeks ago, and are the first time in months that they have been seen here. Absolutely original, and with the knack of making fun all the time, they will prove the top-notchers of the bill. In what they do and in their way of doing it they are like no other performers. Grant & Delmar, a man and a woman, also have a real high class vaudeville offering. Miss Grant is especially attractive and exceedingly versatile. Her impersonations are in a class by themselves. The Musical Vynos are also singing, and will make a good opening act. These acts and the four pictures will be given three times a day, for the first three days of the week, following which there will be a complete change in the program. Reserved seats are 10 and 20 cents for afternoon performances, and 10, 15 and 25 cents for evenings. The box office will open Friday at 10 a. m.

For Sallow, Blotchy, Rough or Greasy Skins
Some skins require constant grooming to keep them from becoming oily, muddy, blotchy or rough, or in such condition has developed, to overcome it. In such chronic cases it is particularly inadvisable to keep piling on cosmetics which clog the pores, collect dust and dirt, making the complexion worse than ever. It's a lot more sensible to use ordinary mercurized wash, which literally absorbs the excess of oil, and leaves the face like cold cream, before retiring; next morning, in washing it off you'll wash away dead, flour-like particles of the unsightly cuticle. Repeat for a week or two and you'll have an entirely new skin—soft, satiny, spotless and beautiful as a child's. One of the best possible remedies: Mix 1-2 pint (teaspoon) of face powder, powdered talcum and use as a face wash. It works like a miracle, yet is entirely harmless.

THE NEXT TIME YOU ORDER "CORN FLAKES" YOU SHOULD SPECIFY

Post Toasties

They are perfect flakes—thin as paper—each flake the "sweet meat" of the choicest white corn grown in the Mississippi Valley.

This food comes to you fresh, in sanitary packages, sealed tight, and with an Inside Container to keep contents right.

POST TOASTIES have a dainty, corn flavour—unusual to common corn flakes—this due to skilful cooking and toasting, which imprisons the oven-fresh goodness and saves it for your breakfast or lunch—

TOASTIES are good hot or cold; served with cream and sugar—also fresh fruit in season. To get a special richness of flavour in this distinctively American dish, warm in open oven before serving. Heat unseals this dainty flavour for your appetite. A superb food—always appetizing!

No Advance in the price of Post Toasties
—the Superior Corn Flakes

CAVE-IN KILLS 6

Five Girls and One Boy Lost Their Lives at Schenectady

SCHENECTADY, N. Y., Sept. 3.—Five girls and one boy were killed here yesterday by the caving in of a sand bank. The dead are Mary Holup, 7; Anna May Holup, 10; Tessie Smolke, 10; Ruth Smolke, 8; William Edwin Robinson, 8; Frances Elizabeth Robinson, 9.

AMUSEMENT NOTES
NEW JEWEL THEATRE
The New Jewel theatre at the corner of Merrimack and Tremont streets, a house noted for the comfort and cool fresh air afforded its patrons, continues to provide all-feature performances. Tomorrow and Saturday will be shown the ninth episode of the popular "Million Dollar Mystery." This episode is a wonder photoplay and alone would be worth the price of admission. "The Coast Guard's Bride," "Rescued by Wireless," and others make up the balance of the bill. A fine special program has been arranged for Sunday. Monday and Tuesday will be shown "Faithful Unto Death," a powerful four part drama of the Franco-German war, together with others as advertised today, including "The Derailed and the Man," a strong drama produced in two parts. "The Troy Captivity," another masterpiece is the main feature for next Wednesday and Thursday, showing another episode in this remarkable series. There are also a number of good pictures, including comedies and dramas.

LAKEVIEW DANCING PAVILION
Yes, we certainly did enjoy last night's return to the old time dancing steps. We enjoyed it, however, because it was only for one night. Tonight, tomorrow night and all the rest of the nights as well as after hours from now until the close of the summer resort season we are not going to be old-fashioned any more. The new dances are again in vogue at the Lakeview dancing pavilion. In spite of the huge crowd which attended this delightful dancing surface last night for the old timers' celebration. A change is always restless but you can't beat the new dances for steady diet, especially with such a setting as is given them at this beautiful summer resort's most popular attraction.

MERRIMACK SQUARE THEATRE
Despite the many counter attractions which have prevailed this week, the crowds at the Merrimack Sq. theatre have increased at each performance. The week's bill, "What Happened to Mary," which is by the way one of the best if not the very best in which the new stock company has yet appeared, has certainly caught the popular fancy. It's lines are clever, the plot is original, the staging is picturesque and take it all in all, one could not ask for a better performance. Next week America's laughing success, "Officer 666" will be the attraction. Seats including those for Labor Day are now on sale and those contemplating a visit to the theatre this week or next had best secure their tickets as soon as possible, as they are going at a rapid rate and are liable to be all taken, if one waits too long before getting them.

THE OWL THEATRE
The Owl continues its successful season, and yesterday's program pleased every one. "The Floor Above" E. Phillips.

MR. & MRS. M. M. PEASE

TEACHERS OF VIOLIN AND PIANO
Removed to 35 Gates street, near Westford. Pupils received on and after Sept. 1st.

If you want help at home or in your business, try The Sun "want" column.

Another class aggregation of vaudeville stars will make its debut at the Academy of Music today and continue there until Saturday night when it will give a complete vaudeville bill of vaudeville and pictures for the special "Pop" Sunday matinee. Every act is a star and every picture a feature. Add to this the fact that the mission, 5, 10 and 15 cents, and you will have the reason for the success of vaudeville at the Academy. Martin & Perkins, "those two musical boys," have a clever little novelty act that defies imitation. Ward & Webster "songsters supreme," have a lot of healthy surprises in store you to today. Pike & Calane, "nifty terpsichoreans," have a tony dancing and singing act that is bound to please even the most fastidious.

The management of the Academy of Music makes an interesting announcement. In this newspaper. According to this announcement the good old rip-roaring, amateur nights will again become an institution at this theatre. The good old side-splitting amateur nights with a hundred little new ideas and refinements to make it funnier than ever before. Friday is amateur night.

OPERA HOUSE
Announcement was made today that the Opera House, the lease of which was taken over by the Great Eastern Amusement company, will open on the coming Monday. Labor day, with a program of vaudeville and high class pictures. In the vaudeville portion of the program the headlines for the first three days will be Clem Bevins and company, in a comedy rural playlet, entitled, "Daddy." The story is built on entirely new lines, the situations causing no end of genuine amusement. It is what you seldom see but often hear about, a genuine novelty. The Juggling Bananos, a starling act, and John Gardner and Jeannette Lawrie, in sparkling wit and humor, will find a prominent place on the program. Bert Stephens, a high class singing comedian and comedian, a well balanced repertoire of leading vaudeville. The balancing of the above acts with the

For Sallow, Blotchy, Rough or Greasy Skins
Some skins require constant grooming to keep them from becoming oily, muddy, blotchy or rough, or in such condition has developed, to overcome it. In such chronic cases it is particularly inadvisable to keep piling on cosmetics which clog the pores, collect dust and dirt, making the complexion worse than ever. It's a lot more sensible to use ordinary mercurized wash, which literally absorbs the excess of oil, and leaves the face like cold cream, before retiring; next morning, in washing it off you'll wash away dead, flour-like particles of the unsightly cuticle. Repeat for a week or two and you'll have an entirely new skin—soft, satiny, spotless and beautiful as a child's. One of the best possible remedies: Mix 1-2 pint (teaspoon) of face powder, powdered talcum and use as a face wash. It works like a miracle, yet is entirely harmless.

MILKMEN HAVE DAY IN POLICE COURT

Not as Voluntary Delegates But
Invited Guests—Daniel Leary
Identifies Dyehouse Clothing
Worn by Prisoner

Police court today looked like a milkmen's convention, due to the activities of Milk Inspector Masters and Collector Coughlin. Needless to say the milk dealers who answered to the docket's roll call this morning were not voluntary delegates.

Of the five sets of the white fluid who appeared today three of them were found guilty of watering their milk, while another was convicted of removing the cream from the top of his milk bottles. The case of Herman F. Fassett, charged with removing the cream from his milk, was continued until October 1. John J. Harvey appeared as counsel in this case.

Karckos Nickel, Arakell Arakellian, Jeremiah Sheerin and Robert F. Carson were all found guilty of unlawfully confusing milk with water and turned over \$40 each as a reminder of the fact that a state law is rather against his practice.

The lawyer in one case made a plea to Judge Enright, asking that his client's case be put on file and laying the blame on the driver of the milk vehicle. Judge Enright couldn't see this explanation at all. "We must protect the public," stated the court emphatically, "especially the infants to whom a great deal of this watered milk is being served."

Held For Grand Jury

Armand Guenard, the young man arrested for the break in the Bay State Dye Co.'s Prescott street store, still claimed that he was innocent this morning. Mr. Daniel M. Leary, the proprietor of the store, identified the clothing which the defendant was accused of stealing and which he wore when arrested.

The young man pleaded guilty to another break. The store of James H. Collins was broken into the fifth of last July and had remained a mystery until Thursday was arrested. The youth pleaded guilty to this break but maintained that he bought the suit of clothes belonging to Mr. Leary. Judge

Enright found probable cause in the case and ordered the defendant held for the grand jury's next session.

Sent to State Farm

The police have been trying to break up a crowd of young men who persist in hanging around street corners in lower Centralville and yesterday arrested Andrew Brunelle. He was charged with vagrancy, was found guilty and sentenced to the state farm.

Women Sent Away

Mary Lessard and Mary Brennan were the only female defendants in court today. Both Marys were accorded sentences. The Lessard woman was charged with being a disorderly person as well as with being in her cups last night. She was sent to Sherborn. The Brennan woman was sentenced to serve two months in jail on a drunkenness complaint.

A Delinquent Husband

A non-support case concluded this morning's court affairs. Wilfred J. Pelletier was accused by his wife of not providing the necessary wherewith for his better half to subsist upon and upon the conclusion of the evidence at hand Judge Enright ordered the husband to produce \$4 per week for his wife's support.

AN ADVANCE IN WHEAT

REACHED THE HIGHEST POINT SINCE THE BEGINNING OF THE EUROPEAN WAR

CHICAGO, Sept. 3.—Wheat prices advanced to the highest point since the beginning of the European war. May wheat touched 125 1/4, surpassing by 1/4 cent the level reached on the wild upturn last week.

Increasing belief that Turkey and Italy will be drawn into the conflict was largely responsible for today's rise in the market. Trading was more active than has recently been the case and there was said to have been a notable enlargement of export demands.

TURKEY DECLARES WAR

Reported That Ottoman Empire
Will Send 600,000 to Attack
Russians and British

The New York World today published the following:

WASHINGTON, Sept. 2.—With 600,000 veteran troops mobilized and ready for instant action, Turkey has declared war on the allies. Authentic word to that effect was received here today, it was said, on the highest authority.

The same authority declared the first move of the Turkish campaign would be directed simultaneously against Russia and England. A flying army would be sent into the Caucasus to strike the Russians on their flank and rear. The other army would go directly to Egypt, where it was said the Mohammedan troops of Great Britain would rally to the Turkish cause.

"Turkey has struggled against giving up its neutrality," said a diplomat friendly to the Turkish program tonight, "but she realizes that the present struggle, so far as she is concerned, is only the beginning of a greater and more devastating struggle among the nations of Europe. In the struggle she would have everything to lose, whether the allies won or Germany and Austria were victorious. Therefore, she must defend her own hand."

Would Dismember Turkey

In the case of the allies winning the present struggle, the diplomat declared that Turkey would be dismembered in the apportionment of the spoils, and she would find herself short of much of her power when the second stage of the struggle began, and England, Germany, Austria and France joined hands to curb the Slav people.

"This will be an inevitable consequence of Russian victory," he asserted. "It is written and it is inevitable." The same authority declared that there were many surprises in store for those who regarded Turkey's advent in the war as a mere incident. The intimation was that the sublime Porte, with Germany's assistance, had not been idle in fomenting unrest and discontent among the Mohammedan soldiers of Great Britain and France. The charge has been made that this growing work has been widespread and thorough. Agents of the German and Turkish governments are reported to have worked assiduously to transform the European war into a "holy war" so far as Turkey was concerned, by stirring up the centuries-old feeling between Christian and Mussulman.

To Insure Neutrality

Ambassador Rustom declared that the mobilization of the Turkish army had been commenced when hostilities first broke out. It was undertaken, he said, immediately after Turkey announced her intention to remain neutral and had proceeded rapidly. In the beginning, the massing of the Turkish legions was intended as a precautionary measure and to insure that Turkey's neutrality would be respected, he said.

There have been statements that the Turkish armies will be commanded by German officers," added the Bey, "and that several hundred such officers have taken command of the Turks. This is idle gossip."

Turkey's action is expected to set all southeastern Europe aflame, Greece and Italy are expected to be the next to throw off the mask and enter the European arena, while the attitude of Bulgaria and certain of the other Balkan states hangs in the balance.

BACK FROM WAR ZONE

1400 PASSENGERS, MOSTLY NEW ENGLANDERS, REACH BOSTON ON ARABIC

BOSTON, Sept. 3.—Bringing home from Europe nearly 1400 passengers, most of whom are New Englanders, the White Star steamship Arabic arrived in port today. The majority of those on board had thrilling experiences to relate of the difficulties which confronted them in getting from the continent to England.

The unusually large number of passengers made it necessary to provide temporary quarters in all parts of the ship even in those sections usually devoted to cargo.

In order to avoid possible capture by German warships, the Arabic's lights were blanketed, but the precautions were unnecessary as nothing resembling a hostile vessel was seen throughout the trip, which was made almost on schedule time.

ADRIATIC SAILS FOR LIVERPOOL

NEW YORK, Sept. 3.—The White Star Adriatic sailed for Liverpool this afternoon with her armament of four six-inch rifles. No attempt was made by the custom officials to prevent her departure. The guns were in the same position—two forward and two aft—as when she came into port last Saturday. One hundred and sixty passengers were aboard.

PARIS BOUSSE REMAINS CLOSED

PARIS, Sept. 3.—(3 p. m.)—It was announced today that the Paris bourse, which was closed yesterday, would remain closed indefinitely.

SHORT ON CASH

Assessors' Appropriation is Petering Out—Working Overtime

The appropriation of the assessors' department is nearly exhausted and in order to keep within the appropriation a number of regular clerks are working overtime without extra compensation. The appropriation asked for at the beginning of the year was \$14,600, a difference of \$225 which is much needed at this time when a lot of work is being done.

Chief Clerk Reardon in conversation with The Sun reporter this morning said that before the budget of the assessor's department was sent to the municipal council every item was figured down to the cent. "We knew," he said, "that we could not get along with a cent less than was asked for. \$14,625, but despite that fact the council cut us down \$123 and now the clerks have to make up the difference by working overtime without compensation."

Mr. Reardon said there was an increase this year in the printing of the poll books. Last year the printer charged 74 cents a page for the work and this year he increased it to 83 cents per page. The assessor's department this year has three experienced clerks who had to be hired on account of the civil service not being able to supply the department with experienced clerks, and then again there was an extra expense incurred on account of the large number of female voters. When the assessors were through with their work of assessing poll and personal taxes, they had to go out and do house house canvassing in order to get the names of the female voters.

The extra clerks who were hired some time ago were discharged last Monday for there was no money left to pay them for their services and the regular clerks had to double up and work overtime and this will be kept up all week.

To Draw Jurors

Mayor Murphy returned from a juror's vacation spent at Kennebunk, Me. this morning, and he called at a special meeting of the council for tomorrow morning at 11 o'clock for the purpose of drawing jurors for the October session of the superior criminal court.

Mayor stated this morning that the juror matter will not be taken up tomorrow but he believes the matter will be disposed of at the regular meeting which will be held next Tuesday.

Visitor at City Hall

Russell T. Priest, assistant city engineer for Boston, was in Lowell today, the guest of Supt. J. W. Kernan of the park department. The visitor was taken around the city in the department automobile and was shown the parks and places of interest in Lowell.

Supt. Kernan is another who is doing his very best to live within his appropriation. He said he can manage it all right, but he will have to figure closely and probably curtail in the latter part of the year.

Big Contract

Purchasing Agent Fore this morning awarded a \$10,000 contract for pipes and castings for the water department. The sum of \$15,000 had been voted for the purchase of the material and the lot was bought for \$4,000 less than the amount appropriated. The contract calls for 238 tons of straight pipe and 56 tons of special castings, and was awarded to the Standard Cast Iron Pipe and Foundry company of Bristol, Penn., whose bids were as follows: Straight pipes, \$21.35 per ton; castings, \$69.50 per ton. The other bids received were as follows: R. D. Wood & Co.—Straight pipes, \$22.75 per ton; castings, \$82.50; Donaldson Iron company—Straight pipes, \$22.24; castings, no bids. Fred A. Houette & Son—Straight pipes, \$23 per ton; castings, \$71.50 a ton; U. S. Cast Iron Pipe & Foundry company—Straight Pipes, \$22.90; castings, \$74. This material will be used in connection with the building of the new filtration plant.

Permit Granted

Fred J. Guyette was this morning granted a permit for the erection of a work shop at 95 Billings street at a cost of about \$200.

DOZEN KNIFE WOUNDS

STEPHEN PEROK WHO WAS STABBED IS EXPECTED TO RECOVER

MANCHESTER, N. H., Sept. 3.—While suffering from nearly a dozen knife wounds received last night at the hands of Eken Myor. It is alleged, who is under arrest, Stephen Perok is today expected to recover. The alleged assailant is held for arraignment pending the result of Perok's injuries.

MANCHESTER, N. H., Sept. 3.—While suffering from nearly a dozen knife wounds received last night at the hands of Eken Myor. It is alleged, who is under arrest, Stephen Perok is today expected to recover. The alleged assailant is held for arraignment pending the result of Perok's injuries.

LATE WAR BULLETINS

GERMANS SET FIRE TO FARM BUILDINGS

PARIS, Sept. 3 (3.45 p. m.)—A Havas Agency despatch from Antwerp contains the following announcement by the Belgian government: "The situation remains the same in the provinces of Antwerp and Limburg. The Germans have set fire to several sets of farm buildings. M. Mercklen, attache at the Russian embassy, confirms the report of the destruction of Lamsberg, Cessel and Beschofseim by Russian cavalry and also that they have broken the lines of the enemy between Heilsberg (East Prussia, 40 miles south of Koenigsburg) and Koenigsburg."

800,000 RUSSIANS AND 600,000 AUSTRILIANS IN BATTLE

ROME, via Paris, Sept. 3 (10.47 a. m.)—The Russian embassy here has received an official report from Petrograd setting forth that Russian troops are triumphantly marching on Lemberg, repulsing the Austrians all along the line. The fighting has been on a gigantic scale, 800,000 Russians being engaged against 600,000 Austrians.

If all indications do not fail, the report from the Russian capital continues, the Russians will be completely victorious and the roads to Vienna and Berlin will be opened to the Russian armies.

ALL AMBASSADORS AND MINISTERS EXCEPT AMERICAN HAVE LEFT PARIS

LONDON, Sept. 3.—A despatch to the Exchange Telegraph Co. from Paris says that all the ambassadors and ministers to France with the exception of the American ambassador, Myron T. Herrick, have left Paris accompanying the government to Bordeaux. Mr. Herrick, in accordance with his wishes, announced earlier and with the sanction of the state department at Washington, remains at the capital.

Mr. Herrick's reasons for remaining in substance are that he can better look after the several thousand Americans who stay in Paris. They are principally permanent residents in business or persons of moderate means unable to leave conveniently. He also feels that he can better protect American business interests, among them many American banks and banking agencies with deposits of American money.

The American embassy is now charged with British, Russian, Japanese, Serbian, German and Austrian affairs in Paris and it is probable that the embassy will have its telegrams and mail delivered under the rule of diplomatic exemption.

Mrs. Herrick, who has been ill but is now recovering, also will remain in Paris.

1500 AUSTRILIANS PASS THROUGH COLOGNE ON WAY TO TRIER

ATRIE OF WAR

LONDON, Sept. 3.—The Amsterdam correspondent of the Reuters Telegram company telegraphs that last week 1500 Austrian soldiers belonging to the heavy siege artillery corps of Trieste passed through Cologne on their way to the western theatre of the war.

VICTORY AND DEFEAT OF AUSTRIANS IN STRUGGLES WITH RUSSIANS

MANCHESTER, Mass., Sept. 3.—Victory for Austria over Russia in Poland and reverses for Austrian arms in eastern Galicia are reported in a message from the Austrian foreign office received by wireless today at the Austro-Hungarian summer embassy here.

6000 JAPANESE LANDED AT LUNG KOW AND 24,000 MORE ON WAY

PEKING, Sept. 3.—The exact number of Japanese troops ashore at Lung Kow cannot be definitely determined here. It is believed, however, that no fewer than 6000 men already are on shore and that 24,000 more are coming.

The Chinese officials of Lung Kow politely protested against the landing of Japanese forces. The Japanese accepted the protest with equal politeness and then proceeded to disregard it. There was no hostile incident during the Lung Kow landing.

The foreign office has formally protested to the Japanese and British legations here against the violation of China's neutrality involved in the landing at Lung Kow, which is approximately 70 miles beyond the confines of the German leased territory. Knowing, however, that its protest would be useless the foreign office at the same time requested the British and Japanese authorities to confine their operations to the zone extending on the north from Lung Kow to Lia Chow and on the south to the previously prescribed fighting area. Neither legation, however, accepted these limitations.

PRESIDENT HAS NOT RECEIVED PROTESTS AGAINST BOMB-DROPPING BY GERMANS

WASHINGTON, Sept. 3.—It was said at the White House today that various protests against dropping of bombs by German air craft have not been received yet by the president, and it was indicated that the president will take no action upon them. The president may not receive the Belgian commission which is coming to the White House. The commissioners probably will be received by Secretary Bryan.

DECLARATION OF WAR BY TURKEY ON GREAT BRITAIN EXPECTED AT WASHINGTON

WASHINGTON, Sept. 3.—State department officials admitted their apprehension over the situation in Turkey. For three days there has not been a word from Constantinople.

A Trip to California Has Been Placed Within Your Reach

Why not make a reservation on one of the Burlington Route "Personally Conducted" Excursions to California? If you would like to make the trip under unusually attractive conditions at an especially low cost, I would like to hear from you right away.

You can travel with a select party and with all the comforts of a Pullman Touring Sleeping Car throughout—and at minimum cost.

A carefully trained man will accompany the party all the way. You will find him to be thoroughly competent, good-natured and kindly, as he has been carefully selected because of his knack for making people comfortable, as well as because of his long experience.

You will be especially interested in learning that the total cost of this trip is well within your reach. Just call or write and I will gladly explain all the details.

Alex Stocks, New England Passenger Agent, C. B. & Q. R., 264 Washington St., Boston.

PRESIDENT WILL NOT ATTEND

WASHINGTON, Sept. 3.—President Wilson today declined invitation to attend the Star Spangled Banner celebration in Baltimore late this week.

been a single cablegram from Ambassador Morgenthau. As the situation grew acute a week ago he communicated full details of the diplomatic crisis and kept in constant touch on matters of funds for Americans.

The belief prevailed that cable communication either had been interrupted or restricted on account of the gravity of the political situation. A declaration of war by Turkey on Great Britain is expected in many quarters here, though the Turkish ambassador declares he has been without advice for several days and will not predict what course his country will take.

PRINCE WILLIAM OF WEID QUIT HIS NEW KINGDOM TODAY

DURAZZO, Albania, Sept. 3, via Paris, Sept. 3, 3.37 p. m.—Prince William of Weid quit his new kingdom this morning, taking passage for Venice on the Italian steamer Misurata.

POPE ELECTED

Continued

NEW POPE A MAN OF GREAT SPIRITUAL CHARACTER—HAS HAD WIDE EXPERIENCE

WASHINGTON, Sept. 3.—The apostolic delegation has not yet been officially advised of the selection of the new pope. Word of the choice reached the delegation through press sources and great interest was manifested.

It is pointed out that Cardinal Ciesla has had wide experience both as administrator of the important see of Belgrade and also on the diplomatic side as secretary of the nuncio at Madrid. He is described as a man of great spiritual character and one of the most highly esteemed in the hierarchy. He is about average height, of stocky build and rather quiet and reserved manners.

CARDINALS O'CONNELL AND GIBBONS ON STEAMER CANOPIC DEPART TOMORROW

ROME, Sept. 3.—Cardinal Giacomo della Chiesa, archbishop of Bologna, Italy, was today elected supreme pontiff of the Catholic hierarchy in succession to the late Pope Pius X, who died Aug. 20. He will reign under the name of Benedict XV.

The conclave of the sacred college, whose duty it is to elect the pope, went into session the evening of Monday, Aug. 31. The announcement of the outcome of its deliberations was made this morning, shortly after 11 o'clock.

Cardinal Gibbons of Baltimore and Cardinal O'Connell of Boston are on board the steamer Canopic, which is due at Naples tomorrow. Consequently neither of them participated in the election of the new pope. Cardinal Farley of New York reached here several days ago.

Prince Chigi-Albani, one of the assistants to the throne in the pope's household, was notified at 11.15 that Cardinal Della Chiesa had been elected pope.

At 11.20 Monsignor Misicicelli, sub-prefect of the sacred palaces and governor of the conclave, received a communication from the new pope asking that the gratings of the basilica of St. Peter be opened because he pursued in a short time to issue his proclamation.

At this same hour, 11.20, the master of ceremonies appeared on the central balcony of St. Peter's and spread out the red carpet. The crowd below which had been waiting for hours in the square in the expectation of an announcement as to the outcome of the deliberations of the sacred college understood that a selection had been reached. The people applauded vigorously.

At 11.35 Cardinal della Voipe appeared on the balcony with Monsignor Capostolati bearing the pope's cross on his right and pronounced the ritual announcing the election of Cardinal Della Chiesa. To this he added that the new pope had chosen the name of Benedict XV.

Again the crowd of several thousand persons cheered and at once began to make their way into the basilica to hear the benediction of the new pontiff.

At 11.45 the new pope appeared on an inner balcony of St. Peter's, clad in his pontifical robes. The balcony was hung with red velvets and a heavy golden fringe decorated the railings. The pontiff, surrounded by the apostolic benediction to the kneeling crowd below and immediately afterwards withdrew and entered his apartments.

It is asserted on good authority in Rome today that the new pope will appoint Cardinal Domenico Ferrata his secretary.

BUBONIC PLAGUE

Twenty-fifth Case Discovered at New Orleans—Boy of 20 Years the Victim

NEW ORLEANS, Sept. 3.—Illness of Linna Wilson, 20, today was diagnosed as bubonic plague. This is the 25th case here since the plague developed.

NO PROTEST FROM CHINA

WASHINGTON, Sept. 2.—President Wilson said today that no protest has been received from China against the landing of Japanese troops on China territory. He would not discuss the question of whether the neutrality of China had been violated.

Here's the whole family!

Odd thing about this Prince Albert tobacco—you get on mighty familiar speaking terms with it by the time you've smoked half a pipeful or a joy-roll cigarette. Just kind of built that way! It's so easy to get acquainted with, even tobacco-shy folks go-to-it natural and easy, because it's so gentle-like!

You ought to know that P. A. couldn't bite tongues if it wanted to, because it is made by a patented process that removes the bite and the parch, leaving for you just delightful flavor and fragrance. Now, get all that down right pat! But you'll know it by heart as soon as you get chummy with

PRINCE ALBERT

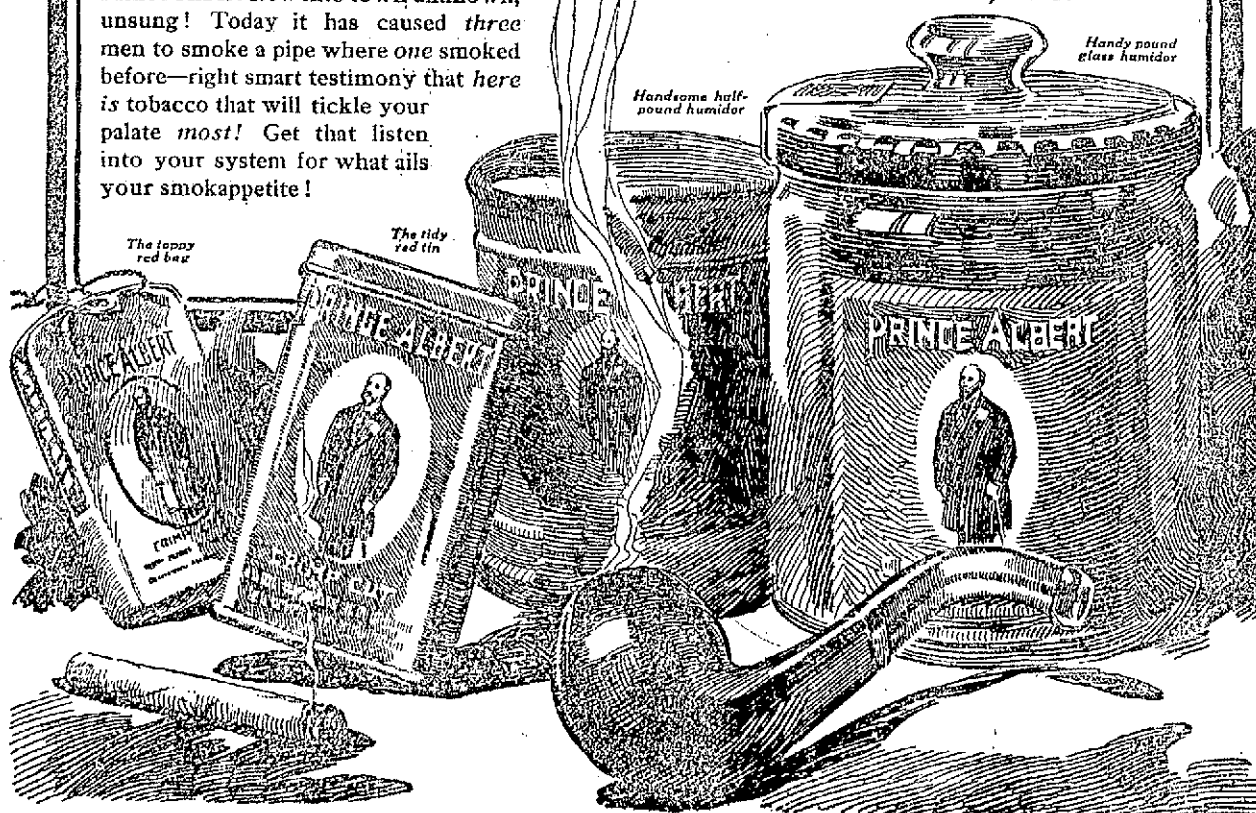

the national joy smoke

Men all over the nation went to P. A. as natural as falling off a log. Because it's a revelation in smokings.

And you get this: Five years ago Prince Albert blew into town unknown, unsung! Today it has caused three men to smoke a pipe where one smoked before—right smart testimony that here is tobacco that will tickle your palate most! Get that listen, into your system for what ails your smokappetite!

Prince Albert is sold in tippy red bags, 5c handy for cigarette smokers; tidy red tins, 10c; also in handsome pound and half-pound humidor.

Winston-Salem, N. C.

PROBLEM

To be Solved - Nation
Will Install Free Em-
ployment Bureau

BOSTON, Sept. 3.—Boston's unem-
ployed immigrant problem, which has
puzzled every immigration head, will
be solved, it is believed, by the estab-
lishment of a federal free employment
bureau in the city, according to an an-
nouncement made yesterday by the
Washington officials.

Harry J. Skeffington, the new com-
missioner of immigration in this city,
received word yesterday to "get busy"
in establishing the bureau, which will
be the second one in existence. New
York has had one since 1907.

Aid to Farmers

The bureau will solve Boston's long
standing servant girl problem, will
place immigrants that reach (this cost
in positions for which they are fitted,
and will also aid the farmers of the
state by sending them farm hands who
otherwise would in all probability be-
come street diggers.

The hundreds of foreign sailors now
in Boston, roaming the streets without
employment, will be sent to positions
as soon as the bureau can be estab-
lished.

1000 SNEEZERS CONVE

MEETING OF HAY FEVER ASSOCIA-
TION—RED BANDANAS WAVED
AT BETHLEHEM, N. H.

BETHLEHEM, N. H., Sept. 3.—Wav-
ing the red bandanna, emblematic of
the sneeze, 1000 sufferers of the sea-
sonal complaint gathered here yester-
day for the 41st annual con-
vention of the United States Hay Fever
association.

The public demonstration began in
the forenoon in the presence of a bat-
tery of motion picture cameras. Then
came the organization of a state as-
sociation composed of 25-year suffer-
ers. The association gleed club sang
and the officers rode in the Sinclair and
Turner coaches, each 1000 years old.

At the experience meeting yesterday
afternoon it was said that as more
known of the disease than was known
25 years ago. More than 1000 remedies
have been tried and found wanting. A
committee of members will visit Mil-
waukee to test an antidote extracted
from the pollen of the rag-weed, the
vital term of the disease.

Dr. Charles E. Barker, for four
years medical adviser to ex-President
Taft, lectured yesterday on "How to
Live to Be 100 Years Old."

Sec. Percy F. Jerome of New York
criticized the agricultural committee of
the Massachusetts legislature for its
failure to report on the bill to compel
farmers to destroy rag-weed, golden-
rod and other plants noxious to the
hay-fever sufferers.

It is estimated that there are 200-
600 hay-fever sufferers in the United
States and the membership of the as-
sociation has increased 100 per cent.

COP'S MIDDLE NAME

IS VERSATILITY—ACTS AS NURSE-
MAID AND GODFATHER TO CHIL-
DREN AND ARRESTS MOTHER

BOSTON, Sept. 3.—Nursemaid, god-
father and arresting officer were roles
played simultaneously yesterday by
Patrolman William J. Trainor, of the
East Dedham street police station.

Trainor arrested a woman giving
her name as Mrs. Mary Moulton, in
her home at 15 Cherry street, and af-
ter sending her to the station house,
found two small children in the ten-
ment, one of them 11 weeks old and the
other 4 years.

The baby was taken to the Catho-
lic of the Holy Cross and baptized by
Rev. Michael J. Scanlon as Henry Ar-
thur Moulton, before being sent to the
Charlton street home with his sister
Alice. Trainor acted as godfather and
also as nursemaid.

Yesterday the charge of intoxica-
tion against the mother was dropped at
the court house by way of a bribe that
she would never leave the children in
that condition again.

PRINCE KILLED HIMSELF

LADY CHURCHILL SAYS FREDERICK
WILLIAM OF LIPPE TOOK HIS
OWN LIFE

LONDON, Sept. 2, 11 a. m. (Delayed
in transmission)—Prince Frederick
William of Lippe took his own life
following a mistake of his regiment,
according to Lady Randolph Church-
ill, formerly Juney Jerome of New
York, who has just arrived from Ger-
many by way of Holland.

"The true story of the death of
Prince Frederick William of Lippe,"
she said, "is that he committed sui-
cide. He was commanding a German
cavalry regiment before Liege on Aug.
4, when his regiment in the dark-
ness of evening nearly annihilated a
German infantry regiment which it
had mistaken for Belgians. The prince
shot himself, fearing to face the an-
ger of Emperor William. His widow
was informed of his death on Aug.
14."

MATRIMONIAL

Mr. Avery Marshall, Jr., and Miss
Lillian Richardson were married Wed-
nesday evening at the Sacred Heart
rectory by Rev. Fr. Flynn. The bride-
maid was Miss. Anne L. Butler. Mr.
Andrew Grogan, Jr., was best man. At
the conclusion of the ceremony a re-
ception was held at the home of the
groom, 74 Grand street, and was at-
tended by immediate relatives. The
bride was becomingly attired in white
elk ballade and carried a bouquet of
bridal roses. The bridesmaid wore
white voile over pink and carried pink
and white daisy bouquet. Lunch was
served. Mr. and Mrs. Marshall left
last evening on a short wedding trip
and after October first will be at home
to their friends at 74 Grand street.

VETERANS IN PARADE

LARGE NEW ENGLAND FORCE IN
DETROIT PROCESSION—N. H.
VETS IN DUCK TROUSERS

DETROIT, Sept. 3.—Commander
John M. Woods of the department of
Massachusetts was at the head of that
state's division yesterday in the G. A.
R. parade. Not more than 100 vet-
erans were in the Massachusetts con-
tingent. Connecticut was represented
by only 50. There were about 40
from Maine.

One of the best uniformed sections
was from New Hampshire. Every
man wore white duck trousers and im-
maculate blue coats. J. H. Green of
Boston carried the Massachusetts state
banner, David Kim, Boston, the Union
Jack, and W. H. Brown of Marblehead
the department flag.

Rain threatened at the parade start-
ed, but not a drop fell and the sun
shone during the two and a half hours
it took the veterans to pass a given
point, a perfect day for the big march.
More than a quarter of a million per-
sons applauded the veterans.

A distinguished looking marcher
minus one arm, in Alvin H. Pease of
Co. C, 2d Massachusetts Infantry,
who says he was the first soldier at-
tended by Clara Barton. He was
wounded in a charge of 8000 men
against 28,000 at Cedar Point, Va.

Behind a brlar pipe, and with the
sporting section of a Boston news-
paper in his hand, Private C. G. Fra-
zier of Lawrence, Mass., was today
happiest man in Detroit—and all be-
cause the Boston Nationals took two
games from Philadelphia, which gave
them the place of honor in the per-
centage table.

Mr. Pratt, aged 71, is more interest-
ed in sports than in war tales. He
stopped talking of the national sport
long enough to admit that he had a
heal shot off at Port Hudson and that
it was "some parade." Then he
made a search of the hotel corridors
for somebody who could talk sport.

A tribute to the memory and work
of three national presidents of the
Woman's Relief Corps who died dur-
ing the past year has been made in
the badges worn by this, the 32d na-
tional convention in session here. The
women were Mrs. Sarah E. Fuller of
Massachusetts, Mrs. Charity Rusk
Craig of Wisconsin and Mrs. Kate B.
Sherwood of Ohio.

Mrs. Ida S. McBride, national pres-
ident, reported some statistics of W.
R. C. work for the year. It was as
follows:

The 275 corps of our order have
expended this year \$111,000 for relief,
\$11,320 for Memorial day and \$30-
650.77 turned over to points. In ad-
dition to this the Grand Army of the
Republic has received from the Wom-
an's Relief Corps \$340.25 for the
Southern memorial fund.

"I recommend that there be taken
from the permanent fund an amount
sufficient to make—in addition to the
contribution from the national aids—
the sum of \$1000, to be presented to
G. A. R. for such use as is deemed
advisable. I also recommend that a
check for \$100 be given the National
Army Nurse association."

Mrs. Abigail Lynch, national treasurer,
reported a balance in the general fund
of \$4961.93, and a total in all funds of
\$3342.11. The reports of other na-
tional officers show the organization
to be in an excellent condition.

WEDDED FIFTY YEARS AGO

Attorney and Mrs. George W. Norris
Observe Golden Anniversary With
Family Reunion at Woburn

WOBURN, Sept. 3.—Fifty years ago
George W. Norris and Miss Sarah E.
Williams of Chelsea were married in
that city, and yesterday the couple ob-
served its golden anniversary at their
home, 60 Bow street. It was strictly a
family gathering.

Mr. and Mrs. Norris have been resi-
dents of Woburn 35 years.

Half a century ago, Mr. Norris, who
was born in New Hampshire, was ad-
mitted to the bar and practised law
continuously since with the exception
of 1886 to 1890, when he served as
United States Indian agent with the
Nez Percé Tribe in Idaho under an ap-
pointment of President Cleveland.

In Woburn, Mr. Norris has served
three years as water commissioner,
six years on the school committee and
three years as city solicitor. Seven
children have been born to Mr. and
Mrs. Norris, all of whom participated
in the observance. They are Mrs. R.
T. Atkins and Mrs. William R. New-
comb of Boston, Mrs. Sidney Cowies of
Reading, Mrs. William C. Forsyth of
Nahant, Mrs. Francis W. Eddy of
Malden, Miss Grace L. Norris of Wo-
burn and Daniel Norris of Winchester.

DEMOCRATIC TICKET

SUPPORT URGED AT WORCESTER
OUTING—PRESIDENT AND WALSH
PRAISED—SUCCESS PREDICTED

WORCESTER, Sept. 3.—The annual
outing of Worcester County democrats
was held at Edgemoor, Lake Quinsigam-
ond, yesterday, with an attendance of
200. Gov. Walsh was expected, but at
5.30 announcement was made that he
could not be present.

Thomas J. Walsh, brother of the gov-
ernor, made apology for the inability
of the chief executive to meet the
party, and spoke of the policy he said Gov.
Walsh has sought to follow in office.
State Treas. Frederick W. Sawyer,
Asst. Atty. Gen. Arthur E. Sawyer,
Michael A. O'Leary, chairman of the
democratic state committee; David B.
Shaw of Boston, Ex-Congressman
John R. Thayer, and Senator Hugh
O'Rourke of Worcester, the latter a
candidate for congress from the 4th
district, were the speakers.

Representative Michael A. Benezerry,
chairman of the city committee, was
in charge. A dinner preceded the
speechmaking.

Chairman O'Leary said that Presi-
dent Wilson, in the nation and Gov.
Walsh, in the state, have well vindi-
cated the democratic party and have
established records that entitle the
party to continuance in office. But, he
said, only hard, organized, persistent
work on the part of every party man
can insure continuance of party suc-
cess.

He urged everyone to give
support to the entire ticket and work
for its complete success.

State Treas. Mansfield said he took a
leaf from the book of republican ex-
perience when he assumed office in
1913, and he has appointed only dem-
ocrats to office in his department. He
called attention to the bond issue that
he threw open to popular subscription.
He said that he overcame the anar-
chical and other opponent of govern-
ment could be made the inventor in
one hour even, of the state, he would
thereby be converted to love his state.
The speaker advocated greater pub-

THREE DOLLARS PER YEAR TWENTY-FIVE CENTS PER MONTH

OUR NATIONAL OPPORTUNITY

It would appear that too many of our people are giving way to pessimism. This is wrong, an injury to everybody and to the country at large. Why should this country show any tendency to go to smash just because our export trade is in part cut off? If the export trade is gone the import has gone with it and this is a compensating item that seems to be overlooked.

Besides the trade that formerly went to Europe from South America will now come to this country and this should compensate in a very large degree for the loss of the export business. Of course it is true that some lines of business will be hit harder than others as a result of the war; but there will soon be a revival and a boom that will compensate for the dull period. One regrettable feature at the present time is the stringency of the money market; but that too will soon be remedied by the new currency measure.

So far as the war is concerned it may and probably will terminate much sooner than most people expect. The statement of the German ambassador at Washington to the effect "that the war is won" and that his country is ready for peace is not without significance. Germany would doubtless make peace at this very hour if the other powers were ready to acknowledge defeat. This statement indicates that Germany does not intend to continue the war until her resources are exhausted in a struggle of endurance. That leaves the door open to a settlement perhaps in the very near future.

The closing of the stock exchanges stopped the flow of money to Europe so that although capital is resting for a time it is still on hand to finance home enterprises.

In pursuance of our policy of neutrality, we may refuse to sell food stuffs directly to belligerent powers but we cannot refuse to sell to Holland or to Italy and these countries may if they will, sell to the powers at war. Hence the trade of Europe is not entirely cut off and it is unwise for our manufacturers to assume that there is trouble ahead. The vacation season has been dull, more so perhaps than for several years past, but the tide is turning and there will soon be a general resumption of business activity.

The fall of securities in Europe has produced a like fall here and hence the slump in the price of bonds and the rise in the rate of interest. But we are a self-supporting nation and nothing but unwarranted pessimism can cause prostration anywhere. Our foreign trade has been of slight significance compared with our internal commerce. Hence there is no reason to assume that business will lag in this country because of the war. There will be a cessation of the flow of immigration to this country and this will insure better wages for the laborers and domestics, the mill operatives and other industrial workers now here.

In certain republican quarters there is criticism of the democratic administration on account of dull times; but this period in which all imports are cut off would seem to have realized the dream of high protectionists. If business does not boom now then the theory of high protection and the cultivation of the home market must be an absurd fallacy.

There is a splendid opportunity for inventors and manufacturers to branch out into new lines, of manufacture that will supply the demand for the myriad toys and other articles that have been imported in the past with the label "Made in Germany." There is a suggestion that the people of this country have not taken seriously although its effect in spreading abroad the fame of our factories would be highly beneficial. Germany has made the most of that slogan and so the United States might increase its commercial prestige first by extending its lines of manufacture and second by labeling the products "Made in the U. S. A." to be brief for the "U. S. A." is the national designation of this country abroad as appears on all letters addressed to any particular city or state.

The opening of the Panama canal is another incentive to trade with South America. The government at Washington is doing its utmost to restore business to a normal basis. The valorization of cotton will prevent many a crash and the decision to provide insurance for war risks is a step to encourage shipping. One of the very best tributes to the stability of business in this country and to our self-sustaining resources is the fact that we escaped a business panic as a result of the collapse in securities, the dislocation of business and the upheaval in the stock markets due to the war. The worst has been passed, the tide is turning and soon we shall see not only normal business but as a result of past curtailment and the bumper crops a period of great business prosperity.

FOR CIVILIZED WAR

If nations are to disregard treaty agreements as of no binding power then the Hague convention is the merest farce. Some of the agreements to which the great powers of the world subscribed in that convention were supposed to prescribe rules for civilized warfare, to prevent weak nations from being overrun, devastated or annihilated by the strong and to protect non-combatants against attack; but in the present war these provisions seem to be to a great extent ignored by some of the belligerents.

If the Hague tribunal is to be made effective in promoting justice between nations and in defending the weak against the mighty, its laws must be made more binding by imposing a penalty for violation, to be exacted by all the other signatory powers.

If civilization is to be progressive and to be protected against the might of triumphant militarism, there must be some code of international law covering every offence and providing a suitable penalty to be decreed on proof of violation by any nation. At present, it appears that some of the belligerent powers can argue justification for almost any outrage under the plea of "the necessities of war" regardless of any restrictive provisions in the Hague convention.

There must be some provision under which non-combatants in war will be protected against the explosives hurled from airplanes to destroy whole cities and murder outright all those who happen to be within range of their death dealing force.

What is this system of warfare but the application of the torch and the

dynamite bomb by agencies against which there is practically no defence.

If Germany sent a wagon load of dynamite bombs into Paris to be cast where they should do the most harm, it would not be as bad as the work of the Zeppelin airship in throwing bombs from an unreachable elevation in the air. The bomb with the torch and the bomb can be shot down or driven off; but not so with the aviator 4000 feet in the air with the bomb distributor let down 2,000 feet in a bullet proof cage.

That is a mode of warfare that should be condemned by the whole civilized world as a species of refined barbarism, a device for the cruel destruction of human life and property for which there is no parallel in the annals of war.

BOASTING OVER A SCOOP

The Washington Times is boasting over a great feat on its contemporaries in having published the news of the pope's death as much as twelve hours ahead of some of its less venturesome neighbors. Here is what it says about the matter:—

"The Times yesterday added another to a long list of notable news achievements by printing twelve hours in advance of any Washington newspaper and twenty-four hours ahead of any other Washington evening newspaper the important news of the death of Pope Pius X."

The Times is unbecomingly egotistical over such a trifling journalistic achievement. A Boston paper having the same press service as the Times published the account of the pope's death three years ago and never felt

called upon to ridicule other papers on their sloppiness.

The receipts of the Panama canal have fallen off as a result of the war just as the earnings have been reduced in various other lines of business. But the canal is in no danger of going into the hands of a receiver. The revival of our merchant marine, the resumption of business on normal lines and our increased trade with the South American countries, will soon help swell the canal receipts and save Uncle Sam any possible worry over the now apparent fact that the canal commercially speaking may not be a paying proposition. Anyhow the canal has not been open long enough, nor under normal conditions to justify any conclusions as to the revenue to be derived from it when the warring nations regain their senses.

The docking of absentee congressmen is proving quite effective in holding their attention to duty in Washington. In the past often when business of the utmost importance was under consideration, many congressmen remained absent without attention being called to the fact in any public way. It is right to compel them to attend to the business of the session even though prolonged through unforeseen events. The situation brought forward by the war is practically unprecedented and of course makes it imperative for congressmen to remain in session so as to be ready to act upon any international question that may demand its attention.

Commissioner Carmichael has now an opportunity to do a double quick job in excavating for the filtration plant and advancing the work at every stage. The city needs relief from bad water which the filtration plant alone, we are told, will remedy; and a whole lot of idle men need the employment the job will offer. The citizens will watch the progress of this job with a great deal of interest.

General Villa is watching the European war with a view to finding some more barbarous method than he has yet adopted for overcoming or annihilating his real or fancied enemies. Doubtless the destruction of Louvain, the levy of a \$40,000,000 tax on Brussels and the work of the Zeppelin airships are the features which appeal to him most strongly as worthy of his imitation in Mexico.

The Grand Army encampment at Detroit shows a wonderful representation of the men who fought to save the Union fifty years ago. Nevertheless, each year makes vast inroads upon their number with the melancholy reminder that in the natural order of things the time is not far distant when there will not be enough of them left to hold an encampment.

Now that Great Britain has captured Aja, the main city of German Samoa, will prevent Japan from gobbling it up and thus becoming a territorial neighbor to our possessions there. After the war it will be parcelled out among the spoils to the victors whether Germany or the allies.

Let us hope Commissioner Morse will push the smooth paving jobs so that they will not be dragging into cold weather as in past years often for political effect.

There is some discussion as to what would be the most appropriate name for the present war. We would suggest the "Old World War."

WOMEN FROM 45 to 55 TESTIFY

To the Merit of Lydia E. Pinkham's Vegetable Compound during Change of Life.

Westbrook, Me.—"I was passing through the Change of Life and had pains in my back and side and was so weak I could hardly do my housework. I have taken Lydia E. Pinkham's Vegetable Compound and it has done me a lot of good. I will recommend your medicine to my friends and give you permission to publish my testimonial."

Mrs. LAWRENCE MARTIN, 12 King St., Westbrook, Maine.

Manston, Wis.—"At the Change of Life I suffered with pains in my back and loins until I could not stand. I also had night-sweats so that the sheets would be wet. I tried other medicine but got no relief. After taking one bottle of Lydia E. Pinkham's Vegetable Compound I began to improve and I continued its use for six months. The pains left me, the night-sweats and hot flashes grew less, and in one year I was a different woman. I know I have to thank you for my continued good health ever since."

Mrs. M. J. BROWNELL, Manston, Wis.

The success of Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, is unparalleled in such cases. All our testimonials are guaranteed genuine and truthful. They came to us entirely unsolicited and are sincere expressions of gratitude for actual benefits received from the medicine.

SEEN AND HEARD

The United States May Fever association met in Bethlehem, N. H., yesterday and Mr. Bonasch, of Concord, has attended the meeting. He has the fever all right, but he says it costs like the dollars to succeed in Bethlehem and he's a poor man.

Louis Pritzkow of Pritzkow and Blanchard, who appeared at the Academy of Music last week, while in this city, introduced a new song of his own composition, entitled: "California, the Paradise of Good Old Mother Earth," with which he is making a big hit. The music is quite catchy while the words are a fine boom for the coming Panama Exposition. Mr. Pritzkow is the composer of "Take Back Your Gold" and a number of popular songs. Mr. Pritzkow appeared here several years ago as the tenor soloist with Fritzsche and West and since he has been heard at the Hallway and at Keith's.

SAYS WE'RE BEHIND

The following is from the Homeopathic Envoy for September: Keep Out of Jail.—Among the health regulations of Lowell, Mass., as published in Public Health Reports is the following: "Rule 2. Incorporated manufacturing companies, superintendents of almshouses, lunatic hospitals, and other places where the poor and sick are received, and jailors and keepers of prisons shall, at the expense of their respective establishments, cause to be vaccinated immediately upon their entrance thereto, unless they produce sufficient evidence of previous successful vaccination within five years."

"That is a big reason for keeping out of jail and almshouses in Massachusetts. But what puzzles us is to know why the medical authorities of Massachusetts are so far behind the advance in scientific medicine. Presumably the 'evidence' of vaccination 'which did not meet their official requirements' was a few weeks ago that those marks were also evidence of the vaccinator's ignorance or carelessness? To be sure the scars have been orthodox for a century, but we have advanced! What was orthodox medicine yesterday—bleeding, for instance—is anathema today.

DON'T GET EXCITED

The average American who starts in to discuss the various tactical deployments of the different armies now trying to commit wholesale murder in a legitimate manner should not become excited over the apparent density displayed by the commanders who do not follow out the plan which he believes should be followed.

Perhaps the poor generals who have spent a lifetime studying military tactics may not know anything at all about their special vocation. Perhaps they need the assistance of the various amateur military experts that have sprung up over night all over the world.

But then again perhaps they do not. Perhaps the generals in command of the various armies are the opening of their opponents have left open just as quick as any of us on the side lines see them. Perhaps they have not the troops to do so or perhaps the enemy is hiding in reserve great forces which we know nothing of.

Then again what good does it do us to grow excited over the folly or the seeming folly of the generals in command of the various armies? We can never get our views to them in time to be of any service even if we were modern Napoleons. They will never listen about our ideas. Their soldiers will never know. The nations as a whole will never know.

The thing to do is to read all we can about the war if we like that kind of reading and then keep as cool as we can. War is never conducted as humanly as even a football game. This is the only way to keep the United States out of the war.—Lawrence Telegram.

Luke McLuke says: When anything happens to a man he can't count without making the air men who are without a fleet lady gets mad and can't see with her eyes.

Most of us would find no neglect if we loved ourselves as much as we love our neighbors.

We are all liars. A whole lot of prospective millionaires who married alleged heiresses are now working hard to support them.

The grouch isn't a very lovable guy, but the son-of-a-gun isn't always hunting for sympathy.

Every now and then you meet a man who believes that he has a monopoly on all the trouble in the world.

You can't get a young man to believe that the time will come when girls will seem less important than business.

What has become of the old-fashioned hearse that was all dolled up with plumes like a circus wagon?

Lots of girls are not beautiful. But they are all better looking than their elbows.

THE TROUBLE BORROWER There was a man whose life had followed quiet, happy lines. It was a song of light and joyous tone. His fortune was sufficient for his tax as was his life. And he hadn't any trouble of his own. Though 'mongst his neighbors sounds of strife were flying thick and fast. Involving complications of the future and the past. The sky of his existence by no cloud was overcast. For he hadn't any troubles of his own. Tranquility annoyed him and he wearied of repose. Such cases very often have been known. He hanted for the thorn instead of the rose. When he hadn't any trouble of his own. He jumped into the business of folks who disagreed. He volunteered as umpire and like-wise as referee. He has insomnia now and from distress is never free. For everybody's trouble is his own. —Washington Star.

EDITORIAL COMMENT

TO ORGANIZE CREDIT BUREAUS One of the big chances for business betterment under the new banking and currency law is being improved in steps to organize credit bureaus for the regional institutions. Some of the great banks already have some for their own use, but obviously they cannot be as efficient or gather such wide information about borrowers as can these 12 great institutions, co-operating with each other, that wouldn't be dependent in so large degree on the statements of the bor-

Weak Heart

Many people suffer from weak hearts. They may experience shortness of breath on exertion, pain over the heart, or dizzy feelings, oppressed breathing after meals or their eyes become blurred, the heart is not sufficiently strong to pump blood to the extremities, and they have cold hands and feet, or poor appetite because of weakened blood supply to the stomach. A heart tonic and alterative should be taken which has no bad after-effect. Such is

Dr. Pierce's Golden Medical Discovery

which contains no dangerous narcotics or alcohol.

It helps the human system in the constant manufacture of rich, red blood. It helps the stomach to assimilate or take up the proper elements from the food, thereby helping digestion and curing dyspepsia, heart-burn and many uncomfortable symptoms, stops excessive tissue waste in convalescence from fever; for the run-down, anemic, thin-blooded people, the "Discovery" is refreshing and vitalizing.

In liquid or tablet form at most drug stores or send 50 one-cent stamps for trial box to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y.

Read Chapter VII on Circulatory Organs in the "Medical Adviser"—A French cloth-bound book of 1008 pages sent on receipt of 31 one-cent stamps, address as above.

BIRTH OF "STAR SPANGLED BANNER" TO BE OBSERVED AT BALTIMORE

ORIGINAL STAR SPANGLED BANNER—FRANCIS SCOTT KEY

While other nations are fighting in the world's greatest war the United States, in commemoration of the events that surrounded the birth of "The Star Spangled Banner," the national anthem, will hold a great patriotic celebration at Baltimore Sept. 6 to 13, inclusive. Baltimore will entertain thousands of visitors during the centennial week. President Wilson and former Presidents Taft and Roosevelt will head the list of distinguished guests. All the governors and the mayors of every city of 5000 or more inhabitants have been invited by Mayor Preston, president of the national star spangled banner centennial commission. Sept. 8, Francis Scott Key day, will be marked by a floral automobile parade, the Maryland tournament, a great street carnival and other attractions. On Sept. 12 the original star spangled banner, which is now in the National museum, Washington, will be borne through the streets of Baltimore to Fort McHenry, the escort consisting of the president, many governors and mayors and a picked guard of 100 men from each of the states in the Union in 1814. Fort McHenry will be dedicated as a public park, with an address by President Wilson, and 6800 children will sing the national anthem.

About half this length. The general shape of the moth with its wings outspread is triangular. The moths will hover about the lights in the evening. On farms, they will be found on the outside of screens and doors at night. They will probably not be observed in the daytime. On dark, hot, close nights, such as precede thunder storms, they will probably be especially noticeable.

The army-worm pest has caused considerable damage to the crops and lawns this summer throughout the northern United States east of the Mississippi. The worms are only now appearing in northern Maine and Michigan, which were probably hatched from the eggs of moths migrating from more southern portions of the country. With the additional knowledge that this experiment will give, the department hopes to control the spread of the pest more completely in coming years.

LATE WAR BULLETINS

REPORT GERMAN GOVERNOR OF SAMOA HAS SURRENDERED

LONDON, Sept. 3 (10.25 a. m.)—A despatch received here from Wellington, N. Z., says the governor of New Zealand has received a message stating that the German governor of Samoa has surrendered and that he has been sent with other German prisoners to the Fiji islands.

M. KURZ ARRESTED AS SPY

LONDON, Sept. 3.—A letter received in London by an American woman from a friend in Monte Carlo contains the following passage: "M. Kurz, one of the four directors of the casino and who has been very much trusted here and also has an estate agency at Beaulieu, has been arrested as a spy. All sorts of plans were found on him and with others he is imprisoned in Nice, waiting trial. "The casino is closed."

AUSTRIANS LOST 100,000 AT LEMBERG

ROME, Sept. 3 (8.40 a. m.)—By way of Paris, 2.45 p. m.—The Russian embassy has been notified that the Austrians were overwhelmingly defeated near Lemberg, losing more than 100,000 men and 57 cannon. The occupation of the city of Lemberg was said to be at hand.

GERMAN CAPTURE AMIENS, FRANCE

LONDON, Sept. 3 (2.55 p. m.)—A despatch from Amiens, France, to the Daily Mail dated Tuesday, Sept. 1 declares that the Germans took possession of Amiens after three days fighting.

AUSTRIANS ROUTED BY SERBIANS

ROME, Sept. 3, 8.30 a. m. (via Paris, Sept. 3, 3.15 p. m.)—A telegram from Nish, Serbia, says that in a battle at Adjudar between 200,000 Austrians and 150,000 Serbians the latter put "140,000 Austrians hors de combat."

BATTLE ON WHICH DEPENDS FUTURE OF PARIS STILL RAGING

LONDON, Sept. 3.—The battle whose issue is destined to decide whether history will repeat itself in a second siege of Paris is still raging, according to the latest official announcement here. Future military historians may write hundreds of volumes about the details of this battle but all the British public knows is that the struggle is the most momentous one that British soldiers have fought since Waterloo.

The official announcement was that continuous fighting has been in progress since the whole line of battle. To this generally the French official communication adds the fact that the allied forces have fallen back toward the southwest to avoid an action which might have been engaged under unfavorable conditions. How far and to what line the allies have gone is unknown. There is no revelation of British secrets, nothing which a patriotic censorship could object to in stating these facts because the German army which is engaging the allies knows precisely where their first line is drawn and the purpose of the censorship is only to suppress facts which might enlighten the enemy.

The brief official bulletin of last night is the first word the British people have received from their government concerning the present battle. The last previous bulletin was Field Marshal Kitchener's statement issued Sunday night throwing a welcome light on the previous four days' battle which ended Sunday and which reflected the greatest credit on the government and discipline of the British army.

German 30 miles from Paris

In spite of the fact that the French capital has been removed to Bordeaux and that the German army of the west is within 30 miles out of the outer fortifications of Paris, a strange air of confidence prevails today among the allies. The general feeling seems to be that the German attack is wearing itself out in hammering away at the allied lines, which give but do not break.

President Poincaré has issued a proclamation to his people telling them that military necessity alone has led him to remove his government to Bordeaux. Military experts agree that Paris is well placed as the pivot of the hostilities operating in the area of the west. Even the downfall of the French capital is not expected to end these operations. The feeling of confidence was greatly increased in the news of the great victory of the Russian army in Galicia. Reports from Petrograd (St. Petersburg) tell of the capture of Russian into Lemberg, the capital of Galicia. These appear creditable as news of the defeat of the Austrians in that district has been received from several sources.

Fighting at Lemberg on 7 days. The battle of Lemberg probably was the greatest ever fought. Evidently it resulted in a decisive and perhaps overwhelming defeat of the Austrians. The battle line extended over 200 miles and it is estimated that 150,000 soldiers clashed. According to an official despatch received by Emperor Nicholas from Grand Duke Nicholas, commander-in-chief of the Russian forces, the victory was won after seven days of fighting. The climax came when the Austrians were routed in a final desperate assault on the Russian center, which was held by Gen. Ruzsky.

The Austrian army in Galicia was acting in close cooperation with two German army corps facing Breslau and seeking to envelope the Russian forces in Poland. Their plans, however, met with a series of disasters ending in a complete rout when an attempt was made to pierce the Russian center.

La Fere in Hands of Germans

La Fere, one of the weaker of the French fortresses, evidently is in the hands of the Germans. Further east and north the allied armies apparently hold their own in the neighboring territory of Laon and Reims (24 miles northeast of Rheims). The right of the allies rests on the fortified Franco-German frontier.

The names of the British who fall in the four days' battle last week will not be announced until they have been communicated to relatives. The heavy loss of officers in proportion to the men is the story of South Africa over again. It indicates that the officers refused to take cover, as they insist that the men should.

The west coast of Belgium and the west coast of northern France are free of Germans. Many Americans are crossing the channel to the continent determined to see something of the war at any risk.

AMERICAN MINISTER SENDS LIST OF ALLEGED ATROCITIES IN BELGIUM

PARIS, Sept. 3, 11.30 a. m.—A despatch to the Havas agency from Amsterdam says that the American minister to the Netherlands, Dr. Henry Van Dyke, has sent to Washington a long report about the alleged atrocities in Belgium.

EMPEROR OF RUSSIA NOTIFIED OF GREAT VICTORY OVER AUSTRIANS

LONDON, Sept. 3.—10.20 a. m.—In a despatch from Petrograd, dated yesterday, the correspondent of the Times quotes the message of Grand Duke Nicholas to the emperor on the Russian victory in Galicia as follows: "I am happy to glorify your majesty with news of the victory won by the army of General Ruzsky. After seven days of uninterrupted fighting, the Austrians are retreating in complete disorder. In some cases they are running away and abandoning their guns, rifles, artillery, packs and baggage trains."

"Prior to this decisive battle General Ruzsky's army captured in the course of the seven days 24 guns, a multitude of firearms and a great number of machine guns."

RUSSIANS CONTINUE THE OFFENSIVE INCREASINGLY, SAYS PETROGRAD

LONDON, Sept. 3.—A despatch to the Reuters Telegram company from Petrograd gives the following official announcement: "The battle on the east front in Galicia was participated in by the 12th Austrian corps, which had only been transferred from the Rumanian frontier on Aug. 25. The Austrian army has

been reinforced by numerous bodies of the Landsturm. "Our troops continue the offensive increasingly and our cavalry division has penetrated far into the interior of east Prussia destroying means of communication. They have also occupied a station in the Koerschen region and Soldau and Somburg. "The German forces remain inactive."

GERMAN AMBASSADOR SAYS ALL DESPATCHES GIVEN OUT BY EMBASSY ARE OFFICIAL

WASHINGTON, Sept. 3.—Count Von Bernstorff, the German ambassador said today he desired to reply to a statement which declared the embassy had originated some of the news it gave out merely by saying that nothing was given out at any time but the official reports from Berlin. This had been proved, he said, by the fact that the reports from Berlin had been borne out by the final announcement of results.

WITHDRAWAL OF THE LEFT WING OF THE ALLIES TOWARD PARIS

LONDON, Sept. 3.—Advices of the withdrawal of the left wing of the allies toward Paris and the removal of the French capital to Bordeaux was contained in a private despatch received at the French embassy today from Paris. The cablegram bears yesterday's date.

FRENCH FLEET HONORED THE PORTS OF CATTARO IN AUSTRIA

PARIS, Sept. 3.—A Paris despatch to the Central News says that President Poincaré attended a French cabinet meeting Wednesday night in the Elysee palace when both the diplomatic and military situations were considered. Victor Augagneur, minister of marine reported that the French fleet under Admiral Augustin La Peyroere had bombarded the forts of Cattaro, Austria, inflicting great damage.

DECISION OF FRENCH GOVERNMENT TO WITHDRAW FROM PARIS A WISE MOVE

LONDON, Sept. 3.—1.10 p. m.—The decision of the French government to withdraw from Paris while a momentary shock to the man in the street is regarded both by politicians and strategists here as being as wise as it is painful. To retain Paris as a center of the government would, it is held, be incompatible with the supreme necessities of France at the present moment. These are to keep the government free to act and to keep the army an unbroken force which neither can be captured in detail nor shut up in the fortresses. A proclamation by the French government describes the move as precautionary and sets forth that an attack on Paris in the near future is not considered probable.

No data upon which to base a judgment on the general situation over the wide-front battle line in France is available. The retirement of the allies without a defeat and fighting every

foot of the way is an expression that has become stereotyped. It is, however, about the only official news that has reached London since Field Marshal Kitchener's story was given out last Sunday.

The Russian occupation of Lemberg, the capital of Austrian Galicia, may have a far reaching effect upon the campaign in eastern Europe apart altogether from the loss of Austrian prestige through the fall of the city. More than three quarters of the population are Poles and the Russians anticipate that their entry to the city will contribute toward the hoped-for Polish uprising against Germany. This uprising Emperor Nicholas contemplated when he promised autonomy to a united Polish kingdom.

The rush of recruits for the British army is phenomenal. No fewer than 50,000 have joined Lord Kitchener's second army in the past few days.

EMPEROR OF JAPAN HAS DIRECTED A SPECIAL SESSION OF THE DIET

TOKIO, Sept. 3.—The emperor has personally directed a special session of the diet to convene on Sept. 3. The majority has decided formally not to oppose the government's war measures.

GEN. GALLINI ORDERED TO DEFEND PARIS AGAINST THE INVADERS

PARIS, Sept. 3.—3.05 p. m.—It is officially announced that General Gallini, commander of the army defending the city, today issued the following proclamation to the inhabitants of Paris. "The members of the government of the republic have left Paris in order to give a new impetus to the defense of the nation. I have been ordered to defend Paris against the invader. This order I will fulfill to the end."

WHAT HAS BECOME OF THE GOOD SPIRIT OF FRIENDSHIP? SAFE, SAYS BRYAN

WASHINGTON, Sept. 3.—Secretary Bryan while discussing the war situation today was asked what had become of the good ship Friendship? "She is safely interned in a neutral harbor," replied the secretary.

STEAMER STOPPED THREE TIMES IN MID-OCEAN AND BOARDED BY NAVAL OFFICERS

BOSTON, Sept. 3.—The steamer Seestdyck of the Holland-American line which arrived today from Rotterdam was stopped three times in mid-ocean and boarded by British and French naval officers. The Seestdyck, although a freighter had 125 passengers aboard. All of whom were compelled to show their passports. Three of the passengers who had been arrested as spies in Europe and later released, were subjected to considerable questioning by the boarding officer, but were allowed to proceed.

IT PAYS TO PATRONIZE THEM

DISTINGUISHED VISITORS

FRENCH COUNT, DEPUTY AND INSPECTOR ARE VISITING IN THIS CITY

Three distinguished visitors from France came to Lowell yesterday as the guests of J. C. Manseau, the well known clothier. The men were Count Caneguy d'Osmoy, a former French deputy and an officer in the French marine; A. Faucompre, inspector of rivers and forests for the French government, and a knight of the Legion of Honour; Clement Soumoulet, officer in the French marine, and Charles Puyat, civil engineer.

The visitors came here from Labrador, Canada, where they had been sent on a special mission by some company from France. They went to Manchester, N. H., where they met an old friend, Oscar Moreau, Esq., and the party then came to Lowell in an automobile as the guests of Mr. Manseau.

The four French gentlemen were in the wilderness of Labrador when they were informed that war had been declared between Germany and France. They had left France several weeks previous and were not aware of the conflict. Upon learning of the conditions they went through Canada and came to Manchester, whence they will sell for France tomorrow.

Count d'Osmoy, who is also an officer in the French army, speaking of the European conflict, said he learned through the newspapers the Germans were making great headway toward Paris, but they have not yet captured the French capital and this will not be an easy task to perform. He said France alone cannot defeat Germany. For the latter country has been preparing for war for years and the armies are well prepared, but France with the assistance of Russia and Great Britain will before this war is over wipe Germany off the map.

The count is in return to his official position in the marine while his companions who are beyond the age limit will offer their services to their country and they feel that the government will accept them.

ELECTRIC CLOCK

Propels Miniature Warship—Toy Vessel Carries Dummy Crew

BOSTON, Sept. 3.—With a trail of smoke coming from her smokestacks, her turret guns firing a broadside, sailors manning along her decks and the band playing the "American Patrol," the superdreadnaught Massachusetts sailed her course on the waters of Spy pond, Arlington, yesterday afternoon.

With her "Jack" snapping in the wind, she moved along at her full speed capacity of 12 miles an hour. On the shores of this expanse of water a moving picture operator trained his camera, and reporters were in evidence. Wild excitement prevailed among the crowd of youngsters who watched the Massachusetts majestically sail her course.

The model ship was not the U. S. S. Massachusetts, but a model 13 ft. long, the product of the brain of a young Boston jeweler, Samuel Orkin, 24 years old, 378 Washington street.

Propelled by electric clock attached to seven electric motors, the triple propellers drive the Massachusetts through the water, fire the full complement of guns, march the dummy crew up and down the decks, raise and lower the anchors and flags and play a phonograph of every part of her. On the shores of this expanse of water a moving picture operator trained his camera, and reporters were in evidence. Wild excitement prevailed among the crowd of youngsters who watched the Massachusetts majestically sail her course.

The inventor has exhibited a smaller similar model to Secretary Josephus Daniels and many other high officials of the government at Washington. Orkin is a graduate of the Washington grammar school and Mechanic Arts high school of Boston. He has exhibited mechanical ability since his early childhood. He intends to build in succession a torpedo boat, a destroyer, a submarine and a scout cruiser.

The submarine he promises to go down in himself for his trials. He has asserted that he is to submit to the navy department at Washington for their consideration. He declares that he can build a large battleship along his plans, and the whole operation of navigation, fighting and batteries and the other necessary duties of such a fighting unit can be performed by a few men without any loss of efficiency.

To Be Shown at Exposition

When one stands on the shore and watches the automatic operation of his model, one believes in the inventor's capacity to make good what he promises. It is intended to ship this model in addition to others which will be constructed to the Panama-Pacific exposition at San Francisco, to sail through the miniature Panama canal which the government will construct at that place.

Orkin wanted to join the navy, but his brothers, knowing his natural mechanical ability, dissuaded him from carrying out this plan. Nothing daunted, Orkin determined to build a battleship. In order to carry out this plan successfully it was necessary for him to learn many things. Today he has a knowledge of mechanical engineering which would be unusual in even the graduate of a scientific school.

He is eager to build models to be installed in the museums of the large cities of the country, so that even the children in the sections of the United States far removed from the sea may become familiarized with the workings of our sea fighters.

His Aeroplane Guns

One of the interesting features of the Massachusetts which is in advance of the regular warships in the installation of the aeroplane guns which can be fired by the automatic arrangement. The Massachusetts is thirteen feet over all and made entirely of steel. The lines of the model are as graceful as those of the speediest boats. She has a wireless outfit and fighting masts, duplicates of those on the American battleships. Orkin has filed eighty claims upon the electric clock propelling system in the United States patent office.

In the shop, when the Massachusetts was nearing completion, an officer of the Argentine dreadnaught, Rivadavia, became so enraptured with the model that it was almost impossible to get him away from the place. It is needless to say that when the Massachusetts is in commission every youngster within a radius of several miles is on hand. The Massachusetts has a full equipment of electric signal and

Sanford's Ginger

Is best for your stomach, bowels and nerves when upset by hot weather. Besides, it's always healthful.

A delicious combination of ginger, aromatics and French brandy for the relief of cramps, pains, colds, chills, weakness, nervousness and indigestion. Look for the Old Brand Black on the wrapper, lest you get a cheap, worthless or dangerous substitute. Forty years the standard of purity, flavor and strength. Sold by all druggists and grocers.

present in a body and the Teachers' organization was represented by Miss Mary Dwyer, Mrs. K. J. O'Donnell, Rose Dowd and Miss Kitty Janter. Mr. Donnelly, Mrs. Mooney and Miss Brown sang during the mass. Thereafter, Rev. Joseph F. O'Sullivan presided over the service. The things which followed were: "Aunt Annie" family; wreath; Aunt Kate's "cousin" book inscribed "At Rest," "The Goodbye" offering; prayer; D. Crowley and family, Mr. and Mrs. O'Loughlin; Misses Sparks, Boyle, Crennan, Crawley, Mrs. Hanora Connors, Mrs. and Mrs. Clarence Horstburgh, Mr. and Mrs. Murphy, Mrs. John Costello and William Moore, Teachers' organization; Margaret Fox and sister; Miss Della and Mrs. Eileen Duggan, Mrs. M. J. McGinnis and Mrs. John Gookin; Lizzie Ryan and Elsie Van Steinberg, Clara and Edith Farrington, Mr. and Mrs. Andrew J. Welch. There were spoken words by Rev. Father O'Sullivan, David Anglin, Katie Hickey, Margaret Hyde, Kate Earley, Elizabeth Sullivan, Theresa Varian, the Mulvey family, Mrs. and Mrs. George McQuinn and Molly McCann. The ushers at the house and church were Cornelius O'Neill and Patrick Mahoney. Burial took place in the Holy Trinity cemetery where all prayers were said.

"PLEASURE OF PRESIDENT"
PROVIDENCE, Sept. 3.—Federal Dist. Atty. Walter R. Stiness has been asked to resign at the "pleasure of the president." It became known yesterday. Mr. Stiness is a republican.
The request was made in a letter sent from Washington Monday by the department of justice.

WASHINGTON, Sept. 3.—Thomas Gregory of Austin, Tex., was sworn in today as attorney general of the United States. The oath was administered by Chief Justice White. Late J. C. McKeynolds, the retiring attorney general, took the oath as an associate justice of the supreme court.

his left shoulder blade fractured. Both men bled profusely after the accident from the nose, ears and mouth, and it is believed they are also injured internally.

Secretary Bryan have expressed
Provisional President Carranza the
satisfaction with the rapid progress
being made in restoring tranquility in the
southern republic.

DAY BY DAY—Pouring Water on a Firecracker is Nothing to This

BY CLARE VICTOR DWIGGINS

GEN. PAUL PAU, HERO

FAMOUS ARMY LEADER WHO LOST
ARM IN FRANCO-PRUSSIAN WAR
AGAIN CONSPICUOUS

General Paul Mary Caesar Gerald Pau, one of the most famous of French army leaders in the war, is popularly known as "the hero of Froeschville" on account of his gallantry in that battle in the Franco-Prussian war, when he lost an arm. He is sixty-six years old. He was trained at St. Cyr, the West Point of France, graduating in 1867. Pau was made a division commander in 1903. He retired from active service in 1911. That same year the French people demanded that he be made commander-in-chief of the army, but a change in ministry ended this. He has so far played a conspicuous part in this war.

NO TROUBLE AT BUTTE, MONT.
BUTTE, Mont., Sept. 3.—Butte's first day of martial law with the Montana National Guard occupying the court house and city hall passed without disturbance.

Four arrests of leaders of the Butte Mine Workers' union were made late yesterday afternoon, one of the men being James Chapman, chairman of the jurisdiction committee.

Provost Marshal Frank Conley searched the city for "Mickie" MacDonald, president of the union, but he could not be found. He is wanted on charges of inciting riots.

For the first time in three days the jurisdiction committee of the union did not appear at the mines and enforce its order that prohibited non-members from working.

For several blocks around the court house, the streets were patrolled by militiamen who prohibited persons from passing through the crowded streets. On two sides of the court house, machine guns were placed in the streets. Two machine guns were placed on the roof of the courthouse. The state troops will sleep in the court house for the present.

AMONG THE TOILERS

Chester Craig of the Northern Waste Co. has returned from a few days visit to friends in Lawrence.

There will be no celebration by labor bodies in this city Labor day. Many of the members will undoubtedly journey to Boston and witness the big Labor parade which will be held in that city.

Fred Howland and Richard Tobin of the Lowell Bleachery will be heard to advantage in the latest song hits to-morrow night at the entertainment to be held under the auspices of the Buckhorn club, in South Whipple street.

James Bodkin of the Merrimack Manufacturing Co. is spending his vacation at Lynn beach.

Dave Manning will lead the quartet singing at the outing of the Helene Electric Co. employees to Revere beach Saturday.

John Rogers of the Lowell Pelt Co. has been signed by the Hillsdale A. C. and will play with the team for the first time Saturday at Shedd park.

Joseph Lawson of the U. S. Bunting Co. will spend Saturday, Sunday and Labor day with friends in Worcester, Mass.

William Holland of the Saco-Lowell shops is spending his vacation enjoyably at his camp at Crystal lake. William is of the opinion that Crystal lake cannot be improved upon as a fishing place.

New Selling House

The Parker Wilder Co. of Boston, has succeeded Wellington, Sears & Co. of Boston as selling agents for the Booth mills of Lowell. The reason for the change is not stated.

Carpenters Held Meeting

Carpenters' union local 1876, held its regular weekly session in Carpenters' hall in the Runkels building last evening and it was largely attended. Business of an important nature was transacted, and two members were admitted. Several applications were received and were laid on the table for one week. The business agent made a progressive report on the standing of the local and the secretary's report showed the union to be on a firm financial basis.

Homebased Machinists Met

The Homebased Machinists, affiliated with the I. A. M., held a meeting last evening in Odd Fellows hall. Considerable routine business was transacted, after which Organizer Frank Ego of Washington, D. C., addressed the body. He said he was mainly an unionist and the benefits to be derived from holding membership in a financially sound union. After the business session, the time was spent enjoyably in a social hour and refreshments were served. The members of this union, for the most part came from the Boston and Maine shops in Concord and Laconia, N. H., and are at present employed in the Billerica shops.

Lowell Textile Co.

Word was received yesterday afternoon at the Lowell Textile Co. in North Chelmsford, which manufactures towels of all descriptions, that a boat, loaded with linen, consigned to the plant had arrived at Boston. This boat has been between 15 and 20 days late in arriving, and has set back the work somewhat, but it is expected that within two weeks, night operations will commence, which will necessitate the employment of several more hands.

Muskegon Mills Busy

The Muskegon mills, which manufacture cotton goods in this busy season, are usually the dull months of the year for manufacturing in this line. Supt. Laycock informed the reporter that as far as he could see there will be no let-up. The most trouble which has caused some difficulties at the plant the past few weeks has been remedied, and a new engine is being installed.

Sanitary Conditions in Factories

The state board of labor and industries has adopted a new plan of putting into execution the labor laws which have been recently put on the statute books.

As an example of the work they are doing, on Wednesday, Aug. 26, they sent notices to 25 of the shoe manufacturers in the different parts of Massachusetts and called them together for a conference in the board room at 1 Beacon street, Boston, Mass.

The chairman of the board, Alfred Donovan, who is a shoe manufacturer himself, then advised the parties present that under chapter 726 of the acts of 1913 that the said state board of labor and industries is obliged to see that suitable, adequate and convenient water closets and washing facilities, separate for each sex, are maintained in all industrial establishments, and he asked for an opinion from the different manufacturers as to whether they thought their present equipment was sufficient to meet the needs of their employees.

FACTS MAY BE GLEANED WHICH SHOULD CLAIM THE ATTENTION OF THOSE INTERESTED IN THE UNITED STATES SEEKING TO ENTER THE LATIN AMERICAN FIELD.

In the first place, Chile's foreign trade in 1913 exceeded all previous records notwithstanding a general and almost worldwide financial depression. The total amounted to \$255,000,000, of which the imports were valued at \$120,000,000 and the exports at nearly \$135,000,000.

In this connection it is interesting to note that the United States has made very perceptible gains on her two chief rivals, the United Kingdom and Germany, in the total Chilean trade since 1909. Of Chilean imports in 1913 the United States supplied nearly 17 per cent, against only 10 per cent in 1909; the United Kingdom 30 per cent, against 33 per cent in 1909; and Germany just held her own with 24 per cent. The United States gained 7 per cent in 5 years without the Panama canal. How much should the gain be during the next five years with the canal open for business?

Now what does Chile buy? According to values the five leading classifications for 1913 were: Textiles (including cotton, wool, other fibres and silk), over \$25,000,000 worth; mineral products (including iron and steel, various metals and alloys, pig iron, coal, oils, etc.), nearly \$20,000,000; machinery, \$15,000,000; vegetable products (including food products, fruits and grains, woods and manufactures, etc.), nearly \$14,000,000; and animal products, nearly \$3,000,000.

Under the above classification, in the line of textiles the United States made a very poor showing. The United Kingdom sold the Chileans over \$11,768,000 worth; Germany, nearly \$1,582,000; France, \$2,500,000; Belgium, over \$1,000,000; and the United States only \$811,000 worth. With the European war engrossing the attention of the four countries enumerated, and with the Panama canal doing business, surely the manufacturers of cotton and wool textiles in the United States will get busy and make a better showing hereafter.

Under mineral products are found such manufactures of steel and iron as wire, granite cooking utensils, pipes, tubing and connections, nails, railway spikes, fishplates, steel rails, car wheels, structural steel, etc., and of the total Germany sold \$8,120,000 worth; the United Kingdom, \$6,148,000; United States, \$4,425,000; Belgium, \$2,500,000.

Under coal, oils, etc., the details of the 1913 imports are not yet available, but we find that the United Kingdom sold Chile over \$7,800,000 worth while the United States came second with about \$6,000,000 worth. In 1912 the United Kingdom sold the Chileans \$7,146,000 worth of coal alone, Australia, \$3,000,000.

MARTY O'TOOLE, \$22,500 PITCHER BOUGHT BY GIANTS FROM PITTSBURGH

NEW YORK, Sept. 3.—John J. McGraw has bought Marty O'Toole from Pittsburgh. While the price was not made public, the amount is believed to be \$1500, the waiver price. Pittsburgh has asked waivers on O'Toole several times this season, a deal having been arranged for his transfer to an American Association club, but McGraw refused to waive. O'Toole was bought three years ago from the St. Paul club of the American association, where he had made a great record. The price was said to be \$22,500. He won his first game with the pirates and since then has been ineffective. So far this year he is credited with winning one game and losing nine. O'Toole uses the spitball, and his trouble has been lack of control. He has plenty of "stuff" on the ball, but he can't make it go where he wants it to. McGraw has many double headers scheduled for the rest of the season, and he needs another pitcher, and he hopes that a change of location will bring O'Toole back to the form he displayed before he was brought into the big league with an amount of advertising that was a severe handicap.

LEGAL NOTICES

COMMONWEALTH OF MASSACHUSETTS, Middlesex, ss. Probate Court.
To the heirs-at-law, next of kin and all other persons interested in the estate of Clara J. Pierce, late of Lowell, in said County, deceased, intestate.

WANTED
WANTED TO BUY FARM ON CO-OPERATIVE PLAN. Must be bargain. Address 558, Sun Office.

trailed sold nearly \$3,000,000 worth, and the United States sold \$500,000. Under machinery (which included railway cars, automobiles, hardware, etc.), Germany sold nearly \$5,500,000 worth, the United Kingdom, over \$1,540,000, and the United States, \$3,334,000. From all of which it may be inferred that it is time for the manufacturers of the United States to get in the game in earnest.

RIVERS AND HARBORS BILL
WASHINGTON, Sept. 3.—The senate voted yesterday to begin consideration of the rivers and harbors appropriation bill today and continue until it is disposed of.

Several republican senators propose to fight the bill, which carries appropriations aggregating \$53,000,000.

SIGN NEW PANAMA TREATY
PANAMA, Sept. 3.—An important treaty by the terms of which the United States gains control of the waters of the harbors of Colon and Ancon, together with certain other valuable rights, was signed yesterday by William Jennings Price, the American minister, and Ernesto T. Lefevre, Panama secretary of foreign relations.

The United States acquires absolute control over all the waters of Colon and Ancon harbors and, in addition, two small islands lying in Ancon harbor which are to be used for observation and light stations by the coast artillery. One of these islands will be fortified. The site of Battery Hancock is given to the United States as is also the control of all the piers at the north entrance of the canal costing approximately \$2,500,000.

Germans Pressing Nearer Paris

LOWELL TRIMS HAVERHILL
IN SLOW GAME, 5 TO 4

INNINGS	1	2	3	4	5	6	7	8	9	R	H	E
Haverhill	1	0	1	0	0	0	0	2	0	4	12	3
Lowell	0	1	1	1	1	0	0	1	x	5	16	3

The fact that today's game was not a regularly scheduled affair, but transferred at the 11th hour, together with the fact that the Rockingham fair, was a strong counter-attraction had the effect of keeping the attendance at this afternoon's game with Haverhill way down and those who arrived late had no difficulty in securing good seats.

The interest taken in the game was evidenced by the following overheard in the pressbox:

"Who's going to pitch today?"
"I dunno; it's Tyler's turn, isn't it?"
"I mean in this game."

"Oh, I dunno; I thought you meant the Braves."

According to the man who sells the peanuts, cakes and candies at the ground somebody came early to avoid the rush, gaining an entrance during the night and getting away with cigars and candy. Still, the thieves left enough to go around among the crowd that put in an appearance this afternoon.

The only new thing on the field was a new right fielder from Boston playing for Lowell. His name is in Boston and he doesn't come from the Red Sox or Braves.

Michael Doherty, the decision maker, announced that the lineup was as follows:

LOWELL	HAVERHILL
Swayne c	as Campbell
McCluskey 2b	cf Rieger
Fahey 3b	1b Duggan
Stimpson 1b	2b Peplowski
Dee ss	3b Yelle
Kelly 1b	cf Conley
Donovan 2b	c Gaston
Greenhalge c	p Fullerton
Weaver p	

First Inning
Campbell started off for Haverhill with a single through the box into center field. After Fahey had taken Rieger's foul fly Campbell stole second. Greenhalge making a very poor throw which went into center field. Campbell went to third while Duggan was being thrown out. Dee to Kelly. Smith contributed an infield hit that scored Campbell. Peplowski was thrown out on a grounder to Dee. One run, two hits, no errors. Swayne died at first on a grounder to Campbell. He was forced out at second when Fahey groundered to Yelle. But the Lowell third sacker continued on to second as Peplowski threw low to Smith, the ball rolling to the bleachers. Stimpson singled to short left and Fahey was thrown out at the plate when he attempted to score from second. No runs, one hit, one error.

Score: Lowell 1, Haverhill 0.

Second Inning
Although Haverhill connected for a double and a single in the second no runs were forthcoming. Yelle, the first man up batted the ball to left center for two bases. He was caught sleeping a moment later on Weaver's peg to Dee and put between second and third. Conley died out to Donovan. Gaston then singled to left but Fullerton closed the inning with a fly to McCluskey. No runs two hits, no errors. Lowell ended up the score in the second half of the inning. Dee began the good work by drawing a pass. Kelly was called out on strikes and Donovan, the new right fielder, contributed a surprise when he singled to left. Greenhalge then singled to center, scoring Dee. The ball went past Rieger and Donovan also crossed the plate but he was called out for not touching third. Weaver was the third out on a hard grounder to Peplowski. One run, two hits and one error.

Score: Lowell 1, Haverhill 1.

Third Inning
Dee made a wonderful stop to Camp-

bell's hot grounder back of second and got the runner at first. Rieger waited the ball over Stimpson's head for three bases. Greenhalge took Duggan's foul fly. Smith scored Rieger with a single to left. Smith went out trying to steal second. One run, two hits and no errors. In Lowell's half Swayne led off with a single to left center, and then stole second. McCluskey singled to right field, scoring Swayne. Mac was forced at second on Fahey's grounder to Fullerton. Stimpson groundered to Peplowski and the latter chased Fahey out of the base line and ran down to first for a double play. One run, two hits. No error.

Score: Lowell 2, Haverhill 2.

Fourth Inning
Peplowski beat out a grounder which Kelly fielded. He attempted to put the runner at first. Rieger waited the ball over Stimpson's head for three bases. Greenhalge took Duggan's foul fly. Smith scored Rieger with a single to left. Smith went out trying to steal second. One run, two hits and no errors. In Lowell's half Swayne led off with a single to left center, and then stole second. McCluskey singled to right field, scoring Swayne. Mac was forced at second on Fahey's grounder to Fullerton. Stimpson groundered to Peplowski and the latter chased Fahey out of the base line and ran down to first for a double play. One run, two hits. No error.

Score: Lowell 4, Haverhill 2.

Fifth Inning
Gaston fled to Swayne in deep center. Fahey dropped Fullerton's fly; it was too easy and hence the drop. Campbell singled to right, sending Fullerton to second. Rieger forced Campbell at second with a grounder.

Score: Lowell 4, Haverhill 2.

Sixth Inning
Smith singled to left and tried to make two bases on it and was thrown out. Stimpson to Dee. Peplowski dropped a single into short right field. Peplowski was thrown out trying to steal second. Swayne took Yelle's line drive to center. No runs, two hits, no errors. In Lowell's half, Donovan, the new gink, made his third hit. A single to left and the fans roared with delight. Greenhalge sent him to second with a sacrifice. Weaver beat out a grounder to Campbell while Donovan was going to third. Donovan was caught at the plate when he tried to score on Swayne's grounder to Fullerton. Weaver went to second. McCluskey beat out a grounder to Smith and filled out the bases. Fahey foul flied to Yelle. No runs, three hits, no errors.

Score: Lowell 4, Haverhill 2.

Seventh Inning
Weaver threw out Conley on the latter's grounder. Swayne was hit by Gaston's fly in left center. Fullerton hit to Dee and died at first. No runs, no hits. Stimpson died at first on a grounder to Dee. Dee was retired on a line drive to Rieger in deep center. Fullerton and Smith did the business on Kelly's grounder. Three ciphers.

Score: Lowell 4, Haverhill 2.

Eighth Inning
Campbell got a life when McCluskey booted his grounder. Fahey juggled Rieger's grounder till Johnnie reached first while Campbell went to second. Duggan sacrificed both base runners along a sack. Smith struck out. Donovan misjudged Peplowski's fly and Haverhill runs crossed the plate. Peplowski turned the hit into a triple. Yelle flied out to Stimpson. Two runs, one hit, two errors.

Donovan sent up a fly to Peplowski. Greenhalge singled to center. Weaver dropped the ball into right center for a single. Greenhalge going to second. Swayne swatted the ball to center for single, scoring Greenhalge and sending Weaver to second. Swayne was forced a second when McCluskey hit to Smith. McCluskey and Weaver attempted a double steal but Weaver was thrown out at the plate. One run, three hits, no errors.

Score: Lowell 5, Haverhill 4.

Ninth Inning
Kelly took Conley's foul fly. Gaston went out on a grounder to Dee.

Wilson batted for Fullerton. Wilson knocked seven fouls and then finally walked.

Campbell walked.

Rieger flied to Dee.

Final score: Lowell 5, Haverhill 4.

CENTRALVILLE BRIDGE FIRE

A telephone alarm at 2:12 this afternoon called the members of Hose 5 to a fire in one of the walks on the Centralville bridge. The fire is thought to have been caused by someone carelessly dropping a cigarette or cigar stub.

FIRE ON SMITH STREET

An alarm from box 5 called the fire department to Booth's market in Smith street about 4:45 this afternoon. Where a slight blaze was in progress.

FOURTH EDITION
RETURNS FROM EUROPE

REV. DR. J. H. RACETTE, O. M. I.
TELLS OF HIS EXPERIENCES IN
THE WAR ZONE

Rev. Dr. J. H. Racette, O. M. I., pastor of St. Joseph's parish, returned this afternoon from Europe where he went to attend the general chapter of the Oblate Order, which was to be held in Rome in the early part of September. However, on account of the European trouble the chapter was postponed indefinitely.

Fr. Racette reports a fine voyage across to Europe and he said he was much surprised when he reached Boulogne-Omer Mer, France, when he saw a whole regiment of Scotch soldiers crossing over the French frontier to Belgium. He said it was then that he was informed that war had been declared between France and Germany. The reverend gentleman then repaired to Paris, where he was informed the congress would not be held. Then he made up his mind to go to either England or Ireland, but it took him 12 days before being able to leave the French capital and he was forced to go to the American consul for passports.

Fr. Racette then went to Killarney, Ireland, and from there he proceeded to Cork and Dublin and he says the country is beautiful. He then went to Scotland, stopping at Edinburgh and Glasgow and he visited the beautiful lakes of the country. The tourist went to London and this was just a few days after war had been declared between Germany and England and he says at that time London was very quiet. The Lowell clergyman sailed from Liverpool, Eng., on Aug. 25 aboard the S. S. Arabic, which was escorted during the voyage by two British cruisers which kept at a distance of about 30 miles. He said the homeward voyage was a most pleasant one. The ship anchored in Boston harbor this noon.

Fr. Racette said during his trip in France, Ireland, Scotland and England he visited several Oblate houses. He said the reception he received was a most cordial one and he will not soon forget his first trip across the continent. The father is enjoying the best of health and he says the trip has been very beneficial to him.

ALLOWED TO SOLICIT FUNDS
WASHINGTON, Sept. 3.—At the request of Vice President Marshall, acting on behalf of American Red Cross, the senate today waived its rule prohibiting solicitation of funds and permitted the dispatch of Red Cross subscription placards for funds for European war relief.

TENNESSEE REACHES HAVRE
LONDON, Sept. 3.—2:29 p. m.—The American embassy has been advised of the arrival of the American cruiser Tennessee at Havre where she will supply funds to hundreds of Americans who are trying to leave France by that port, now that the northern ports have been closed because of the German advance.

AUTO PARTY BACK FROM CANADA

An automobile party consisting of the following Lowell people have returned from a very pleasant trip to Canada: Ephrem, Arthur, George and Miss Claire Pelletier, Stephen Rochette, Adolphe Delisle, J. A. Proulx and Dr. D. S. Belliveau. The party left Lowell on August 21 and returned this morning after visiting relatives and friends at La Beauce, Beaubien, Montreal, Sherbrooke, St. Jean, West Shefford, Magog and Upton. Mr. Ovide Ledoux, formerly of this city and now of Sherbrooke, returned to Lowell with the tourists.

WAR RISK BUREAU

Establishment of Insurance Bureau in Treasury Department Opened Today

WASHINGTON, Sept. 3.—With the establishment of a war risk insurance bureau in the treasury department, the United States today was engaged in a new line of business. W. C. Delaney, an underwriting insurance expert, has been placed in charge of the enterprise, which will be operated under Assistant Secretary Peters. The plan by which the government will insure American ships and cargoes will supplement arrangements recently authorized by congress for admission to the American registry of foreign built vessels.

Executive orders suspending sections of the old navigation laws under the registry bill are to be issued immediately. That is expected to open the way for several big shipping companies to place their fleets under the American flag.

The war risk bureau will insure American vessels, passengers, and cargoes "whenever it shall appear to the secretary of the treasury that American vessels, shippers or importers in American vessels are unable in any trade to secure adequate war risk insurance on reasonable terms. It will be supplementary to that furnished by private concerns which claim they have not sufficient capital to give complete war risk insurance."

Joseph Boutin and Miss Coelle St. card were married at 7:30 o'clock last evening at St. Louis rectory, the ceremony being performed by Rev. L. C. Bédard. The witnesses were George Boutin and Joseph Regis.

ARCHBISHOP OF BOLOGNA, ITALY,
SUCCEEDS LATE POPE PIUS X

ROME, Sept. 3.—Cardinal Della Chiesa has been elected pope and will assume the name Benedict XV.

Cardinal Giacomo Della Chiesa, who was today elected pope by the sacred college, in succession to Pius X, who died Aug. 20, was created a cardinal May 25, 1914. He is the archbishop of Bologna, Italy.

He was born at Pegli in the diocese of Genes, Nov. 21, 1854, and was ordained a priest December 21, 1878. He served as secretary of Nunciature in Spain from 1883 to 1887 in which year he was appointed secretary to the late Cardinal Rampolla.

He was appointed substitute secretary of state in 1901 and in 1907 he was elected to the post of adviser to the Holy office.

In 1907 he was appointed papal nuncio of Madrid in succession to Mgr. Rinaldini but this appointment was cancelled three days later. This incident had occurred just before he was made archbishop of Bologna. When Mgr. Della Chiesa was given this post it was declared in Rome that it was mainly with the object of combatting modern religious ideas, Bologna being the headquarters of the National democratic league, of socialistic tendencies, whose members advocated what is known as "modernism" in religion.

It has been 174 years since the last Pope Benedict held the chair of Peter. On his election to the papacy in 1740 Cardinal Prospero Lambertini assumed that title.

It is an interesting fact that the new pope was Archbishop of Bologna while Pope Benedict XIV was born in Bologna.

GERMANS 30 MILES FROM PARIS
AUSTRIANS SUFFER HEAVY LOSS

The absence of official announcements from the capitals of the belligerents today is the surest indication that the fighting in the east and west continues without decisive results.

Such news despatches as escaped the censors tend to confirm earlier official claims and admissions. The Germans are pushing their right wing nearer Paris while their center and left appear to be held by the French. Russia is pressing forward in the Austrian province of Galicia after having taken the strongly fortified capital, Lemberg. The Germans are admittedly victorious in East Prussia.

The Japanese are said to have occupied seven islands near Kiao Chow and to have landed additional troops within marching distance of that German stronghold in the face of protests by China.

King Nicholas of Montenegro is reported as determined to occupy Scutari. The governor and other German officials of Samou have been made prisoner by the British and sent to the Fiji islands.

The government of France is now established at Bordeaux. The foreign embassies and legations with the exception of those of the United States and Switzerland have also been removed from Paris to Bordeaux.

Other War News on Pages 4, 7 and 10

RUSHED FROM WAR ZONE

Dr. and Mrs. George L. Van Deusen of 1029 Middlesex street, have returned from England after attending the clinical congress of North America, which was held in London. The couple had planned to visit Holland, Belgium and France, but on account of the European war they were forced to confine their visit to England and although they were booked to return from Antwerp, they were unable to proceed to the Belgian city and consequently they sailed from London. They came through to Montreal, Que., without the slightest incident and from the Canadian city the couple came to Lowell by train.

Dr. and Mrs. Van Deusen sailed from New York on the S. S. Arabic on the 14th and arrived at Liverpool on the 20th. They visited several places in England and then proceeded to London, where the congress was held at the Hotel Cecil from July 27 to 31 inclusive. The congress was largely attended and proved of great benefit to all who were present. At the conclusion of the congress the numerous doctors and surgeons were taken through the art galleries of London, despite the fact that all places were closed on account of the suffragettes. Just as the Lowell people were about to travel to Holland, war between England and Germany was declared and this put a halt to the voyage. Dr. Van Deusen in conversation with the writer stated that soon after the Americans coming from all parts of Europe invaded London and at one time there were as many as 40,000 Americans in the English capital. A committee of Americans was at once organized with quarters at the Hotel Savoy to assist the travelling Americans. Provisions were made to cash drafts and also to supply money to the Americans who were stranded.

A weekly paper known as the "American Bulletin" was published and this contained valuable information for the tourists. The American citizens' committee consisted of a diplomatic committee, finance committee, transportation committee, hotel, and recreation committee. Many relief measures, relief, registration, reference index, baggage, postoffice. The chairman of the general committee was Theodore Hetzler of New York; W. North Duane of New York was secretary and William C. Breed of New York was treasurer. This committee endeavored to keep the tourists informed as to the sailing of ships; they looked after their baggage and also their comfort while in London.

The doctor and his wife returned on the S. S. "Scotian" of the Allan line, which sailed from London Aug. 21. The couple was accompanied by four 6-inch rapid fire guns and it was also escorted by two cruisers, the "Scandinavian" and the "Canada." The Scotian will be utilized in transporting Canadian troops to Europe. She is now in the port of Montreal and will sail in a few days. The doctor said the ship did not encounter the least trouble on route, but almost collided with two large icebergs. She traveled her regular course and was not molested in the least.

Speaking about London, Dr. Van Deusen said all parties in the large city are converted into drill grounds and they are filled with territorial reserves. The large and beautiful Crystal Palace has been converted into a hospital and many other large buildings of London have been utilized for the same purpose. Among the 400 passengers on the return trip, said the doctor, "there were many who lost all their valuables and even clothing on their way to England from other countries. He said a number of the passengers were penniless when they struck London, but they were soon taken care of by the committee. The doctor says the English as well as

the Canadians in Canada are very enthusiastic over the war and thousands of men report daily to the recruiting station for enlistment as volunteers. The doctor and his wife have enjoyed their trip despite the discomfort and they are pleased to have returned safely to Lowell.

WOMAN OF 70 KILLED

ELECTRIC CAR JUMPED TRACKS AND OVERTURNED IN DITCH NEAR THOMASTON

THOMASTON, Me., Sept. 3.—One person was killed and three others injured, one probably fatally, when an electric car on the Rockland, South Thomaston and St. George railroad jumped the tracks and overturned in a ditch near here today.

The dead: Miss Alsy Coburn, 70 years old, of Rockland.

Injured: Mrs. Fred Burpee, Rockland, probable fatal internal injuries; Miss Marion Brewster, Rockland, fractured shoulder; Mrs. Clara Leels, New Haven, Conn., badly bruised.

The other passengers on the car, numbering 60 and including a picnic party from Rockland escaped without serious hurts.

The accident is believed to have been due to spreading rails.

HOTTEST IN 36 YEARS

One Killed and Seven Overcome by Heat in Boston—Maximum Temperature Ninety

BOSTON, Sept. 3.—Hot and muggy weather often prevails in Boston during the first days of September, but not for many years has it been as uncomfortable as yesterday. A record of one death and seven prostrations in the city tells the story in one way, and the manner in which people generally complained of discomfort tells it in another.

The dead. Daniel Kerrigan, 62 years old, living on the top floor of the house 3 Hamburg street, South End, found dead on the floor of his home last evening. Death is believed to have been due to natural causes superinduced by the heat. He had complained of exhaustion earlier in the day.

Overcome by Heat. Anthony Perry, aged 40, 4 Greenwood street, Dorchester, overcome at State street and Atlantic avenue. Relief hospital.

Mrs. Agnes Bascom, aged 62, 69 Bay avenue, Whitman, overcome in public garden. Relief hospital.

Mrs. Wesley Joyce, 753 Huntington avenue, overcome on Tremont street, opposite common. Relief hospital.

Frank Anderson, aged 57, 35 Beachland avenue, Revere, overcome at Fenway park. City hospital.

Mrs. Ellen Cushman, aged 56, 29 Walcott street, Forest Hills, collapsed corner Washington and Beale streets. Relief hospital.

Michael G. Cullinan, address not known, found unconscious on street in Boston common. Relief hospital, serious condition.

John J. Jucker, aged 21, 24 Myrtle street, Everett, overcome while at work in South End hotel. Relief hospital.

Official Temperatures

1 a.m. 72° 2 p.m. 82° 3 a.m. 78° 4 p.m. 88° 5 p.m. 90° 6 p.m. 90° 7 p.m. 88° 8 p.m. 85° 9 p.m. 82° 10 p.m. 80° 11 p.m. 78° 12 noon 75° 12 mid. 75°

It was the hottest Sept. 2nd in 36 years. The maximum temperature was 90 at 2 p.m. Not since 1878, when the maximum temperature was 91, has it been so warm. This only partially explains the discomfort.

Not only was the temperature above 75 from the early hours of morning until midnight, but after 9 a.m. it was never below 80, and at midnight it was 75. It was the combination of this continued high temperature with an abnormal humidity of 84 per cent. nearly all day which affected people. The humidity at 11 p.m. was 76.

Examination of the weather reports shows that only once in August was a maximum temperature of 90 recorded. This was Aug. 10, which also had a humidity of 100 per cent. at 5 a.m.

Clear examination shows that Aug. 10 was not as uncomfortable a day as yesterday, in spite of these figures. On Aug. 10, early in the day, when the humidity was highest, the temperature was only 76. Then, about noon, when the wind changed from east to southwest, the humidity dropped to 75 and the temperature gradually rose to the 90 mark. Thus, at no time was there the combination of hot and sticky weather like that of yesterday.

On July 15 the maximum temperature was 90, while on May 27 and June 25 Boston had maximums of 95 and 94, respectively. On none of these days, however, was the humidity above normal.

In some places yesterday the southwest breeze did bring slight relief. It was not felt, however, anywhere in the downtown section of the city. It was this southwest breeze, blowing at 14 miles an hour late last night, upon which the forecasters based their prediction of cooler weather today. At midnight there was even a prospect of the long delayed showers before daylight.

The forecast for today is fair and cooler with continued fair weather tomorrow.

Although there was no general storm area in the United States last night, there were local showers in a number of places, including parts of northern New England. A temperature of 50

degrees in Duluth, Minn., was the lowest minimum recorded, while Eastern Mo., showed 55, in Paris of Arizona the maximum was 100.

DEATH IN SOMERVILLE

John H. McNeil, Victim of Heart Trouble. Supposed to Have Been Aggravated by Weather

John H. McNeil, 50 years of age, died suddenly yesterday afternoon at 1161 Broadway, Somerville, where he was employed. He had been suffering from heart trouble for some time and it is supposed that the heat aggravated the trouble. He was married and lived at 37 Culney street, Somerville. Medical Examiner McLaughlin viewed the body and allowed it to be taken home.

TRADE WITH PANAMA

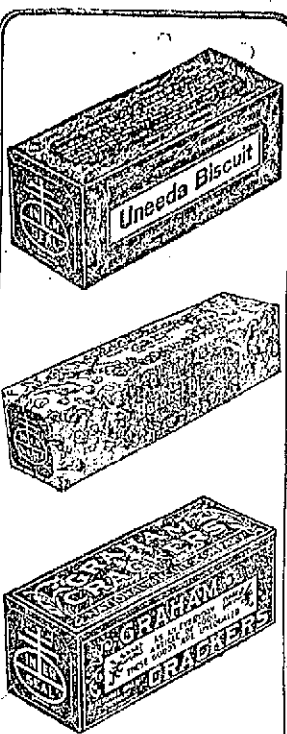

WASHINGTON, Aug. 28.—Trade of the United States with other American countries in the fiscal year ended June 30, 1914, aggregated 1,303 million dollars, and constituted 30 per cent. of the entire commerce handled by domestic ports. Of this huge New World commerce, 566 million was with North America and 347 million with South America.

Our imports from North American countries, valued at 427 million dollars in the fiscal year, were chiefly from Canada, Cuba, Mexico, the Central American States, and the British West Indies. Our exports to North American countries, 529 million dollars in value, were chiefly to Canada, 345 million; Cuba, 68 million; and Central America and Mexico, each about 39 million. The United States supplies a larger proportion of the leading countries of North America than any other nation, and in the case of Canada, Central America, and Cuba, more than all other parts of the world combined.

Of our 223 million dollars' worth of imports from South America, nearly one-half were from Brazil, about 20 per cent. from Argentina, and the remainder chiefly from Chile, Colombia, Venezuela, and Peru. Nearly one-fourth of our total exports of 135 million dollars' value to South America went to Brazil and over one-third to Argentina. In sharp contrast with the high position of the United States in the North American markets is its rank among the nations selling goods in South America where, in the case of such important countries as Argentina, Brazil, and Chile, about 15 per cent. of the imports were from this country. South America as a whole imported in 1912 over 965 million dollars' worth of foreign goods, our share being about 14 per cent.

The relatively small contributions of American manufacturers and exporters to the requirements of the South American markets draws attention to a recent publication of the Bureau of Foreign and Domestic Commerce, Department of Commerce, entitled "South America as an Export Field," Special Agents Series No. 81, and sold by the public printer at the nominal price of 25 cents. In that publication Commercial Agent Otto Wilson outlines the conditions necessary for the successful sale of goods, the lines of manufactures required in South America, and the standing of the leading nations as contributors to those requirements. It is pointed out, for example, that Argentina imports large quantities of manufactures of the class produced in the United States, but that the United Kingdom and Germany supply more of them, as a whole, than this country; while France sells there five times as many automobiles, Germany 20 times as many iron beams, three times as many car goods, and England 25 times as much coal and twice as much machinery in that market as the United States. This disparity in favor of European countries extends to many other articles and practically all countries of South America, each of which is interestingly discussed in the monograph manual.

A mere enumeration of a few of the principal articles imported by Brazil will serve to illustrate the opportunities which await American exporters in that and other South American fields: Arms and ammunition, cars, automobiles, cotton goods, pharmaceutical preparations, electrical apparatus, cutlery, machinery, leather, printing paper, perfumery, tin plate, soap, and wearing apparel, all of which are bought in large quantities, and in practically every case are obtained more largely from England, Germany, and France than from the United States. The government's "Daily Consular and Trade Reports" are also presenting cable dispatches from South America which indicate the special needs of these markets owing to the supplies from Europe being cut off.

SOCIAL AND FRATERNAL

Industry Council, Royal Arcanum, held its regular meeting last evening in Odd Fellows hall, Regent A. E. Rountree presiding. Proofs of death were read on the late Brothers Jeremiah McInchey and Edward McGann for payment. During the meeting the members stood in silence for three minutes while the organist played "Nearer, My God, to Thee," in respect to the late brothers.

The order of the council is planning for some interesting entertainments to be given at the different meetings this fall.

Under the good and welfare of the order, interesting remarks were offered by Trustees James W. McKenna, Neil Clark and Treasurer Charles H. O'Donnell. After the meeting a social hour was enjoyed.

MAIL CARRIER ARRESTED

ALEXANDER MOIR, CHARGED WITH STEALING MAIL—EMPLOYED AT POST OFFICE FOR 15 YEARS

At the request of Post Office Inspector Jennings, a local mail carrier, Alexander Moir was arrested yesterday on a charge of stealing mail. The prisoner was taken to Boston yesterday afternoon and was held in the sum of \$1000 to appear before the federal commissioner in Boston today.

Moir resides at 77 Hampshire street. He was appointed sub-carrier in 1899 and six years later was promoted to the regular force and has served as a regular carrier since that time. For some time past some of the local carriers have been complaining of missing mail from their respective boxes. Inspector Jennings was detailed on the job and after due investigation the inspector ordered the arrest of Moir.

CITIZENS-AMERICANS CLUB

An interesting meeting of the members of the Citizens-Americans club was held last night in the new quarters in Middle street. President Maxine and Leonard occupied the chair and considerable business was transacted. Thirty new members were initiated and 24 applications for membership were received. All the members are deeply interested in the welfare of the organization and a good proof of this is the number of new recruits during the past few weeks. It is the intention of the officers and members to make the membership of the club one of the largest in the city and their efforts are being well repaid for the list of names now totals over 300.

The committee in charge of the arrangements for the official dedication of the new quarters reported progress last night and the chairman stated that he held this evening. The affair will take place Monday evening, Sept. 7, and will consist of a concert and social reunion. A light luncheon will be served and dancing will be enjoyed in the large assembly hall on the top floor. The reunion will be for members and their wives.

CONGRESSMAN ROGERS

ISSUES CIRCULAR IN CONNECTION WITH APPOINTMENT TO MILITARY ACADEMY

The following circular which Congressman John Jacob Rogers has had printed in connection with his contemplated selection of a young man to represent the fifth congressional district in the United States Military Academy at West Point, is self explanatory. The examination will be held in Lowell:

Washington, D. C., Sept. 1. I am entitled to designate from the fifth congressional district of Massachusetts a candidate for cadet in the United States Military Academy at West Point, New York, such cadet to enter the academy the fourteenth of June 1915. I am also entitled to designate two alternates who are numbered respectively first and second and who are appointed, if at all, in the same order. I, as the principal passer, am admitted to the academy; but if the principal fails to do so, the alternate qualifies, the first alternate is admitted; in case the principal and the first alternate fail and the second alternate qualifies, the second alternate is admitted.

Although my course is not required by law, I have deemed it more consonant with a wholesome spirit of equal opportunity that the young men whom I shall designate, both as principal and alternates, to enter the official examination for admission to the United States Military Academy, shall be selected on the basis of a district-wide competitive examination.

This latter examination, which is entirely unofficial, I have requested the United States civil service commission to hold. The commission will, without any interference with the civil service, hold the examination, correct the papers and certify to me the ranks and relative standing of the competitors. This examination will be held at the High School, Kirk st., Lowell, Mass., Lowell being the only place in the United States where civil service examinations are held, on October 21, 1914, an early date being selected to give the successful young men an opportunity for several months' preparation before taking the official examination for admission to the military academy.

I have requested the civil service commission to give an examination of substantially the same degree of difficulty and in the same subjects as those which comprise the examination for admission to the academy. Six hours will be allowed for this examination—three in the morning and three in the afternoon, with an intermission of an hour at noon. The examination will consist of algebra, geometry, grammar, history and general United States history—the first three subjects to be given in the morning and the last three in the afternoon.

The first three young men in rank at the end of the examination of Oct. 21, 1914, I shall cause to be examined by the official medical examiner of the United States civil service commission, on a date to be set later, but subsequent to October 21, 1914. This physical examination will probably occur in Boston some time in November, 1914. If all three pass the physical test, which I shall request the examiner to make almost, but not quite, as rigorous as the military examination.

GERMANS INTRENCHED TO PROTECT TROOPS CROSSING A STREAM FROM FIRE OF ENEMY

GERMAN TROOPS IN TRENCH ©1914 BY AMERICAN PRESS ASSOCIATION

This picture shows how the Germans guard their troops in fording a stream when they fear an attack from the enemy. The infantrymen are intrenched on a hillside, with guns leveled at the opposite shore, ready to hurl a broadside of bullets in case those in the river are fired on.

3,000,000 DEFEND PARIS

Frenchmen Still Have Confidence in Ultimate Result—War Office Reports Germans Checked

LONDON, Sept. 3, 1.40 a. m.—The British people continue to accept with stoicism the lack of news concerning the operations of the British army on the continent. The government has repeatedly assured the public that all news consistent with the nation's interest would be given out and the people are accepting that assurance. The French official reports say the action of the right of the northern wing has resulted in checking the Germans for a time. The inference plainly is that the Germans are employing all their force in an enveloping movement against the allies' left wing. That part of the allied army

in retreating to the south and west indicates that the Germans have not yet outflanked them. Apparently the Germans have not yet abandoned the west of Belgium to pour all their forces on the road to Paris. Reports that they are preparing to attack Antwerp are not believed here because there seems to be no dominating strategic reason for such a move. Military experts agree that the Germans are unlikely to waste more than a screening body to prevent a serious Belgian sortie against their line of communication.

The occupation of Brussels probably was a demonstration for its moral effect but an assault on Antwerp would be a side issue with so little effect upon the main plan of campaign that it would be a useless expenditure of men and energy. There may be a strong method in the allies' policy of gradual retreat and compelling the Germans to make repeated costly attacks while the allies keep a compact front before their last line of defenses.

Three million Frenchmen are under arms to defend Paris. They still have confidence in the ultimate result of the war.

The list of killed, wounded and missing British officers from the crack regiments which were engaged in the four days' battle of last week brings mourning to many noble and aristocratic homes. The Prince of Wales' find for 100,000 of suffering is now over \$100,000. Recruiting in Great Britain has received impetus from the events of the past fortnight.

The official examination, both mental and physical, for admission to the Academy will be held on March 16, 1915, at Fort Banks, Massachusetts. Alternates report for examination at the same time and place. The first in order of the three (as above explained) who passes such official examination will be appointed to the Academy. Under the law the principal and the two alternates must, on June 14, 1915, be bona fide residents of the fifth district, and must have reached their seventeenth, but not their twenty-second, birthday.

Although I expect to designate applicants in order of qualification as above indicated, I reserve the right to reject any applicant who in character, temperament or other respect may seem to me to be unfit to make a successful officer in the army. I also reserve the right to modify, as may seem necessary, any or all of the foregoing conditions prescribed by me.

Copies of this circular, and official pamphlets, giving in detail the physical, mental and other requirements of the government, will gladly be sent free on request.

Any man desiring to take the unofficial examination of October 21, 1914, should furnish me with his name, address and date of birth, as soon as possible, but in no event later than October 15th, so that I may be able to forward him a card of authorization to take the examination.

John Jacob Rogers.

MATRIMONIAL

BARNES STILL AN ISSUE

HIS RETIREMENT FROM STATE CHAIRMANSHIP HAS NOT ELIMINATED HIM, SAYS ROOSEVELT

OYSTER BAY, N. Y., Sept. 3.—Theodore Roosevelt in a statement last night declared that William Barnes by retiring from the state chairmanship of the republican party had not eliminated himself as an issue from the state campaign. The colonel declared his belief that Mr. Barnes meant to retain control of the organization. Col. Roosevelt said that "unquestionably Mr. Barnes' retirement is due to the public sentiment among right-thinking citizens which has been given such tremendous impetus by the action of the progressives during the past two years and a half."

BILE AND BILIOUSNESS

Bile is manufactured in the cells of the liver. It assists digestion and prevents putrefaction in the intestines. Bile is necessary to life but excess of bile is poisonous.

The effects of excessive secretion of bile and failure to eliminate it from the blood, which is also a function of the liver, are "white-coated" or brown-furred tongue, bitter taste in the mouth, indigestion, headache, lack of appetite, constipation and weariness. This is a condition popularly called biliousness and points directly to the need of something to regulate the liver. For this purpose the chain is made that Pinketts, the new laxative, are greatly superior to old-fashioned liver medicines which over-stimulate the liver and, when their use is stopped, leave the liver more torpid than before. That over-stimulation debilitates the liver is as certain as anything known in the science of medicine. Pinketts are tiny, sugar-coated pills, easy to take, easy in action and they do not upset the stomach or cause griping. Given a thorough trial they really correct chronic constipation.

Your druggist sells Pinketts or they will be sent, postpaid, on receipt of price, 25 cents per bottle, by the Dr. Williams' Medicine Co., Schenectady, N. Y. Send today for booklet and free sample.

"VIVE LA FRANCE! VIVE L'ARMEE!" SHOUTED PARIS AS FRENCH TROOPS MARCHED AWAY

FRENCH SOLDIERS CHEERED IN PARIS AS THEY LEAVE FOR THE FRONT ©1914 BY AMERICAN PRESS ASSOCIATION

This picture was snapped in Paris when the French soldiers went off to war in the first week of the conflict. The people in the streets cheered and sang and waved their hats and arms as the men with rifles on their shoulders tramped merrily away to the front, most of them never to return.

THE ROCKINGHAM FAIR

Governor's Day Brings a Record
Breaking Crowd—Over 40,000
in Attendance Yesterday

All roads lead to Salem, N. H., today for this is governor's day, and it is expected that the attendance will reach the 75,000 mark.

The racing card for today is made up of a 3-year-old trot, 2:15 pace, 2:35 trot, a match race between the Charles River Speedway divals, Demarest, 2:04 1-4, and Major Wellington, 2:03 1-4, and a running race.

Events of Yesterday

Yesterday, the second day of the Rockingham fair, drew over 40,000 people. Automobiles passed in an endless stream into the auto enclosure while trolley cars and trains brought thousands more.

The mecca of the fair patrons was, as always, the race track. An attractive program had been arranged by the management for the followers of the "sport of kings" and early in the day the grand stand was filled with a crowd that clamored for the starter to ring the bell.

The winners of the day's races were: Pacing, 2:10 class, for a purse of \$500—Katy Patch, first money; Billy Patten, second money; Frodo, third money. Time—2:11 1-2. Katy Patch came in fifth in the first heat, but cleaned up the next three straight.

Cochato trot, heats of 1912, purse \$1000—Won by Cochato Brave in two straight heats. Time—First heat, 2:27 1-4; second heat, 2:23 3-4.

Matinee race, 2:15 class, purse, cup—The Councillor winner in two straight heats. Time—First heat, 2:20 1-4; second heat, 2:11 1-4.

Running race, three-quarter mile, all ages, purse \$100—Charley Hargrave winner. Time—2:13 1-2.

Trotting purse, 2:14 class, purse \$500—Lady Watts winner of first money; Jonah Man, second money; Morine, third money; Peter Sims, fourth money. Time—2:13 3-4. Lady Watts was first in four heats and second in one.

Pacing, 2:21 class, purse \$500—Othello winner; Ethel Direct, second money; Miss Winnifred, third money. Time—2:19 1-2.

The space devoted to the exhibit of cattle was the centre of interest to thousands. Scores of thoroughbreds were quartered in the enclosure, the recipients of continual complimentary remarks from lovers of blooded stock.

Prizes in the Hereford special class, American Hereford Breeders' association, were awarded as follows—Bull, 3 years or over, E. E. Gile, Fayette, Me., second prize, H. E. Morrison, Oxford, N. H. Bull, 2 years old, first prize, E. E. Gile, second prize, H. E. Morrison, Bull, 1 year old, first prize, H. E. Morrison, Junior yearling bull, first prize, H. E. Morrison, Senior bull calf, first prize, E. E. Gile, second prize, H. E. Morrison.

son, Cow, 3 years old, first prize, H. E. Morrison, second prize, E. E. Gile, Heifer, 2 years old, first prize, H. E. Morrison, second prize, E. E. Gile, and Morrison also took first and second awards, respectively, for heifers 1 year old and junior heifer yearlings. For senior heifer calves Gile took the first and second prizes. Morrison the third and Gile the fourth. For junior heifer calves Morrison took first prize and Gile second. Gile and Morrison competed evenly for the remaining prizes in the Hereford class, no other entries receiving prizes.

In the Dutch belted breed, O. A. Leonard of Tolland, Ct., captured every award. A. F. Pierce of Winchester, Vt., was awarded every prize for Jersey cattle.

Bilateral Man Wins
In the swine department, Charles Wright of Billerica, took first money for Berkshires, and John Todd of Lawrence, second for Chester whites. Edward C. Marshall of Nashua, N. H. Hills of Pelham, and C. L. and F. M. Patterson of Rea, Penn., took first premiums in different divisions. Patterson Bros. took first premium for Red Tamworth.

Although attracting less notice than some other departments, the machinery exhibit was large and new.

The special feature yesterday was the parade of 500 women under the suffragette banner, through the throng on the lawn before the grandstand. All hazardous feats of Tuesday were repeated. The aeronaut made his triple parachute drop and Rodman Law came down from his sister's biplane by parachute. He landed in the center of the oval. The biplane flight was the closing event of the afternoon.

Thrills followed each other in rapid succession as the day progressed. During the intervals between races carousels of stunts of hair raising nature were performed on the great oval within the race track. "The girl in red," mounted on her diving stallion climbed to the top of the structure that towers over the diving tank and again startled the crowd by her drive into the tank.

Following the dive came the triple parachute drop event that brought the crowd to its feet, breathless.

Rodman Law in his leap from an aeroplane driven by his sister was the feature event of the day. Law, seated in the plane beside his sister who drives, mounted high into the clouds, then climbed nearly under the spreading planes and leaped into space. All eyes were on him as he fell and a gasp of relief went up when his parachute opened.

After the aviation events were concluded, the enclosure devoted to the horse show held the attention of the crowd. Prancing four and eights driven by crack whips circled the en-

closure while riders competed at hurdling.

Looney Lane had a multitude of patrons. This feature made a favorable impression, being free from objectionable devices and producing much mirth for the crowd.

The free automobile show is an innovation. The show covers a large tract of ground, the cars being parked uncannily.

STABBED WHILE ASLEEP

MURDEROUS ASSAULT ON MAN—CHESTER MAN AS HE LAY SLEEPING ON HIS VERANDA.

MANCHESTER, N. H., Sept. 3.—Paul Perak, 30 years old, is dying at the Sacred Heart hospital as a result of a murderous assault by an unknown man, who stabbed him as he lay sleeping on his veranda on the second story of 40 Amherst street yesterday. The hospital authorities say there is no hope for Perak.

Later the police arrested a man, suspected of the crime. He was taken to the hospital to be identified by the dying man.

TO STEADY WORLD'S STAPLES
Through the International Institute of Agriculture, having its headquarters at Rome, and at which the United States and fifty-three other nations are represented, this country will invite the powers, among them all the belligerents, to participate in an international assembly with a view to devising ways and means "to steady the world's price of staples."

Such an invitation will be extended by authority of a resolution passed by the house and which is expected shortly to be concurred in by the senate. The resolution has the approval of President Wilson.

The purpose stated in this resolution is to stabilize prices by effecting an international agreement governing freight rates. In the report on the resolution, which was prepared by the house committee on foreign affairs, the statement is made that while seventy-ninths of ocean freight consists of bulk traffic, the rates on such business are changed without notice and frequently fluctuate.

The argument is made that the world's price of the staples of agriculture cannot be stabilized until a fixed rate can be established on bulk traffic. David Lubin, the American delegate to the international institute at Rome, is instructed by the resolution to bring the matter to the attention of the general committee with the suggestion that the conference as proposed be held.

FRANCIS RELIEF FUND
WASHINGTON, Sept. 3.—A French relief fund is being formed for the purpose of assisting sick and wounded refugees, not only French but also Belgian, English and other nationalities, now swarming to Paris and other French centres. An organization will shortly be perfected among the many people interested in Franco-American activities throughout the country. Meantime individual subscriptions are being received by the French embassy in Washington.

REV. DANIEL STEELE DEAD
MILTON, Sept. 3.—Rev. Daniel Steele, first president of Syracuse university, died at his home last night. He had been ill several months. Rev. Mr. Steele was 90 years old.

Court Procedure
The section dealing with court procedure provides that no injunction shall issue between employers and employees in labor disputes unless necessary to prevent injury to property or property rights, and no such order shall prohibit the right of employees to strike or peacefully persuade others to do so; disobedience of writs subjects offenders to contempt proceedings, accused in indirect cases being granted trial by jury.

President Wilson will delay his selection of the members of the new trade commission until after the measure has been harmonized with the Clayton bill by the conference reports. He has not considered any names as yet.

SCHENECTADY, N. Y., Sept. 3.—Five girls and one boy were killed here yesterday by the caving in of a sand bank. The dead are Mary Holup, 7; Anna May Holup, 10; Tessie Smolke, 10; Ruth Smolke, 6; William Edwin Robinson, 8; Frances Elizabeth Robinson, 8.

AMUSEMENT NOTES
NEW JEWEL THEATRE
The New Jewel theatre at the corner of Merrimack and Tremont streets, a house noted for the comfort and cool fresh air afforded its patrons, continues to provide all feature performances. Tomorrow and Saturday will be shown the ninth episode of the popular "Million Dollar Mystery." This episode is a wonder photoplay and alone would be worth the price of admission. "The Coast Guard's Bride," "Rescued by Wireless," and others make up the balance of the bill. A fine special program has been arranged for Sunday. Monday and Tuesday will be shown "Faithful Unto Death," a powerful four part drama of the Franco-German war, together with others as advertised today, including "The Dorelle and the Man," a strong drama, produced in two parts. The Trey O'Leary, another masterpiece, is the main feature for next Wednesday and Thursday, showing another episode in this remarkable serial. There are several other good pictures, including comedies and dramas.

LAKESIDE DANCING PAVILION
For we certainly did enjoy last night's return to the old time dancing. We enjoyed it, however, because it was only for one night. Tonight, tomorrow night and all the rest of the night as well as afternoons from now until the close of the summer resort season we are not going to be old-fashioned any more. The new dances are again in vogue and the Lakeside dancing pavilion in spite of the huge crowd which attended this delightful dancing surface last night for the old times' celebration. A change is always restful but can't break the new dances. For steady diet, especially with such a setting as is given them at this beau-

ANTI-TRUST BILL

Is Passed by Senate—
Completes Trust Legislation For Session

WASHINGTON, Sept. 3.—The Clayton Anti-trust bill to supplement the Sherman law, which will complete the administration trust legislation for this session of congress, passed the senate yesterday by 46 to 16.

Seven republican senators, Brady, Clapp, Cummins, Kenyon, Jones, Norris and Perkins, and Senator Poindexter, progressive, voted for the bill.

The bill was amended by the senate in many particulars and will be sent to conference, where the federal trade commission bill—first of the anti-trust measures—still is under consideration. Reports on both measures are hoped for within two weeks.

Some of the Prohibitions

The bill provides fines and imprisonment for officers of corporations convicted of offenses against the trust laws; prohibits exclusive and tying contracts which restrict independence of purchasers; prohibits holding companies where their effect is to lessen competition or create a monopoly, and makes illegal, two years after the passage of the act, interlocking directorates in competing corporations, any one of which has capital of more than \$1,000,000.

It also forbids the interlocking of railroad directors with corporations dealing in securities, railroad supplies or other articles, and legalizing procedure in injunction and contempt cases. Sections of the house bill relating to price discrimination and unfair competition were stricken out in the senate.

Labor, agricultural and horticultural organizations not conducted for profit are exempted from the provisions relating to interlocking directorates.

The maximum penalty fixed for violations of the provision preventing exclusive contracts is \$5000, or one year imprisonment, or both. The provision against holding companies would not prevent common carriers from acquiring branch lines where there is no substantial competition.

Interlocking Directorates

Sections relating to interlocking directorates are made effective two years after the passage of the act. Directors of railroads, under the terms of the bill, cannot be interlocked with corporations dealing in securities, railroads, or other articles of commerce, or contracts for construction, maintenance, etc., to an amount of more than \$50,000 in any one year, unless purchases are made after competitive bidding, under regulations of the Interstate Commerce commission. A penalty of two years' imprisonment and \$25,000 fine is prescribed for violation.

Another provision makes it a felony for officials of common carrier corporations willfully to misapply or to permit misapplication of funds of the corporation, the penalty being not less than \$500 fine or imprisonment for not less than one or more than 10 years, or both.

Court Procedure

The section dealing with court procedure provides that no injunction shall issue between employers and employees in labor disputes unless necessary to prevent injury to property or property rights, and no such order shall prohibit the right of employees to strike or peacefully persuade others to do so; disobedience of writs subjects offenders to contempt proceedings, accused in indirect cases being granted trial by jury.

President Wilson will delay his selection of the members of the new trade commission until after the measure has been harmonized with the Clayton bill by the conference reports. He has not considered any names as yet.

Formerly O'Donnell's

ful summer resort's most popular attraction.

MERRIMACK SQUARE THEATRE
Despite the many counter attractions which have crowded this week, the crowds at the Merrimack Sq. theatre have increased at each performance. The week's bill, "What Happened to Mary" which is by the way one of the best if not the very best in which the new stock company has yet appeared has certainly caught the popular fancy. It's lines are clever, the plot is original the stunts are picturesque and take it all in all, one couldn't ask for a better performance. Next week America's laughing success, "Officer 666" will be the attraction. Seats including those for Labor Day are now on sale and those contemplating a visit to the theatre this week or next had best secure their tickets as soon as possible as they are going at a rapid rate and are liable to be all taken, if one waits too long before getting them.

It was a new company offered the patrons a new and different show, the fact that all but one of the company were strangers to the show was developed an enthusiasm that knows no bounds and each and every one of the big cast received the most hearty applause. In addition to the big musical show there is being offered the motion picture taken at Canobie Lake park two weeks ago when enormous crowds flocked in all parts of the park, about the many attractions while the camera men took in the views. The pictures have turned out splendidly and the result is that thousands of people are able to pick themselves out from among the vast throngs as well as those of their friends.

Fun at the swimming pool where the camera men caught many bathers in the water, the frolics of the swimmers and all the excitement moving the spectators are shown in clear steady pictures that make the patrons almost imagine they can feel the splash of the water. The roller coaster, horses, circus, swing roller coaster, bowling alley, the lake and all other attractions were visited and splendid views were taken.

THE OWL THEATRE
The Owl continues its successful season, and yesterday's program pleased every one. "The Floor Above" E. Full-

lins Oppenheim's great detective story turned out to be one of the very best attractions ever offered at this popular theatre. The rest of the program was fully appreciated, each and every picture being shown for the first time in Lowell. "The Messenger of Doom" in two parts and a Keystone comedy, are especially good. Songs daily.

CANOBIE LAKE
The final week of musical comedy at Canobie Lake park is rapidly drawing to a close, the ninth edition of the Homan's Musical Revue being presented this week, closing the summer engagement of this company with the performances of Labor Day, the company being held over for the holiday on account of the big demand of the public that they be retained longer.

This old particularly has been a Canobie theatre splendid support, the cars being well filled as they leave for the lake and the big majority of those who enter the theatre moving the curtains before the rise of the curtain.

It was a new company offered the patrons a new and different show, the fact that all but one of the company were strangers to the show was developed an enthusiasm that knows no bounds and each and every one of the big cast received the most hearty applause.

In addition to the big musical show there is being offered the motion picture taken at Canobie Lake park two weeks ago when enormous crowds flocked in all parts of the park, about the many attractions while the camera men took in the views. The roller coaster, horses, circus, swing roller coaster, bowling alley, the lake and all other attractions were visited and splendid views were taken.

ACADEMY OF MUSIC
Another class aggregation of vaudeville stars will make its debut at the Academy of Music today and continue there until Saturday night when it will give way to an entirely new bill of vaudeville and pictures for the special "Pop" Sunday matinee. Every act is a star and every picture a feature. Add to this the prices of admission, 5, 10 and 15 cents, and you will have the reason for the success of vaudeville at the Academy. Martin & Perkins, "Three two musical boys," have a clever little act, and John & John, "Songsters supreme," have a lot of healthy surprises in store you to today. Pike & Calane, "Fifty topical choruses," have a tippy dancing and singing act that is bound to please even the most fastidious.

The management of the Academy of Music makes an interesting announcement in this newspaper. According to this announcement the good old rip-roaring, amateur nights will again become an institution at this theatre. The good old side-splitting amateur nights with a hundred little new ideas and refinements to make it funnier than ever before. Friday is amateur night.

OPERA HOUSE
Announcement was made today that the Opera House, the lease of which was taken over by the Great Eastern Amusement company, will open on the coming Monday, Labor day, with a program of vaudeville and high class pictures. In the vaudeville portion of the program the headliners for the first three days will be Clem Bevins and company, in a comedy rural play, entitled, "Daddy." The story is built up on a new line of vaudeville, causing no end of genuine amusement. It is what you seldom see but often hear about, a genuine novelty. The Juggling Bannons, a wonderful sensational act, and John Gardner and Jeannette Lowrie, in sparkling wit and humor, will find a prominent place on the program. Bert Robinson is a 2 1/2 pint class singing comedian and completes a well balanced repertoire of leading vaudeville. It works like a miracle, yet is entirely balancing of the above acts with the

Bale Up

For Sallow, Blotchy, Rough or Greasy Skins

Some skins require constant grooming to keep them from becoming oily, muddy, blotchy or rough, or if such condition has developed, to overcome it. In such chronic cases it is particularly inadvisable to keep piling on cosmetics which clog the pores, collect dust and dirt, making the complexion worse than ever. It's a lot more sensible to use ordinary mercantile wax, which literally absorbs a bad complexion. Apply the wax like cold cream, before retiring; next morning, in washing it off, you'll wash away the wax, the dirt, the scales of the unsightly outcrop. Repeat for a week or two and you'll have an entirely new skin—soft, satiny, spotless and free from all the little annoyances which cause a child's skin to be so much more beautiful than an adult's. If the skin be wrinkled or flabby, here's the best possible remedy: Mix 1-2 pint with hazel and 1 ounce of dandelion and use as a face bath. It works like a miracle, yet is entirely harmless.

MILKMEN HAVE DAY IN POLICE COURT

Not as Voluntary Delegates But
Invited Guests—Daniel Leary
Identifies Dyehouse Clothing
Worn by Prisoner

Police court today looked like a milkmen's convention, due to the activities of Milk Inspector Masters and Collector Coughlin. Needless to say the milk dealers who answered to the docket's roll called this morning were not voluntary delegates.

Of the five sellers of the white fluid who appeared today three of them were found guilty of watering their milk while another was convicted of removing the cream from the top of his milk bottles. The case of Herman F. Fassut, charged with removing the cream from his milk, was continued until October 1. John J. Harvey appeared as counsel in this case.

Kierkos Nickel, Arakell Arokilian, Jeremiah Sheerin and Robert F. Carson were all found guilty of unlawfully confusing milk with water and turned over \$50 each as a reminder of the fact that a state law is rather against his practice.

The lawyer in one case made a plea to Judge Earhart, asking that his client's case be put on file and laying the blame on the driver of the milk vehicle. Judge Earhart couldn't see this explanation at all. "We must protect the public," stated the court emphatically, "especially the infants to whom a great deal of this watered milk is being served."

Held For Grand Jury

Armand Guenard, the young man arrested for the break in the Day State Dye Co.'s Prescott street store, still claimed that he was innocent this morning. Mr. Daniel M. Leary, the proprietor of the store, identified the clothing which the defendant was accused of stealing and which he wore when arrested.

The young man pleaded guilty to another break. The store of James H. Collins was broken into the fifth of last July and had remained a mystery until Guenard was arrested. The youth pleaded guilty to this break but maintained that he bought the suit of clothes belonging to Mr. Leary. Judge

Earhart found probable cause in the case and ordered the defendant held for the grand jury's next session.

Sent to State Farm

The police have been trying to break up a crowd of young men who persist in hanging around street corners in lower Centralville and yesterday arrested Andrew Brunelle. He was charged with vagrancy, was found guilty and sentenced to the state farm.

Women Sent Away

Mary Lessard and Mary Brennan were the only female defendants in court today. Both Marys were accorded sentences. The Lessard woman was charged with being a disorderly person as well as with being in her cups last night. She was sent to Sherborn. The Brennan woman was sentenced to serve two months in jail on a drunkenness complaint.

A Delinquent Husband

A non-support case concluded this morning's court affairs. Wilfred J. Pelletier was accused by his wife of not providing the necessary wherewith for his better half to subsist upon and upon the conclusion of the evidence at hand Judge Earhart ordered the husband to produce \$4 per week for his wife's support.

AN ADVANCE IN WHEAT

REACHED THE HIGHEST POINT SINCE THE BEGINNING OF THE EUROPEAN WAR

CHICAGO, Sept. 3.—Wheat prices advanced to the highest point since the beginning of the European war. May wheat touched 1.25 1-4, surpassing by 1-4 cent the level reached on the wild upturn last week.

Increasing belief that Turkey and Italy will be drawn into the conflict was largely responsible for today's rise in the market. Trading was more active than has recently been the case and there was said to have been a notable enlargement of export demands.

TURKEY DECLARES WAR

Reported That Ottoman Empire
Will Send 600,000 to Attack
Russians and British

The New York World today published the following:

WASHINGTON, Sept. 2.—With 600,000 veteran troops mobilized and ready for instant action, Turkey has declared war on the allies. Authentic word to that effect was received here today, it was said, on the highest authority.

The same authority declared the first move of the Turkish campaign would be directed simultaneously against Russia and England. A flying army would be sent into the Caucasus to strike the Russians on their flank and rear. The other army would go directly to Egypt, where it was said the Mohammedan troops of Great Britain would rally to the Turkish cause.

"Turkey has struggled against giving up its neutrality," said a diplomat friendly to the Turkish program tonight, "but she realizes that the present struggle, so far as she is concerned, is only the beginning of a greater and more devastating struggle among the nations of Europe. In the struggle she would have everything to lose, whether the allies won or Germany and Austria were victorious. Therefore, she must defend her own hand."

Would Dismember Turkey

In the case of the allies winning the present struggle, the diplomat declared that Turkey would be dismembered in the apportionment of the spoils, and she would find herself shorn of much of her power when the second stage of the struggle began, and England, Germany, Austria and France joined hands to curb the Slav people.

"This will be an inevitable consequence of Russian victory," he asserted. "It is written and it is inevitable." The same authority declared that there were many surprises in store for those who regarded Turkey's advent in the war as a mere incident. The intimation was that the sublime Porte, with Germany's assistance, had not been idle in fomenting unrest and discontent among the Mohammedan soldiers of Great Britain and France. The charge has been made that this proselyting work has been widespread and thorough. Agents of the German and Turkish governments are reported to have worked assiduously to transform the European war into a "holy war," so far as Turkey was concerned, by stirring up the centuries-old feeling between Christian and Mussulman.

To Insure Neutrality

Ambassador Rustem declared that the mobilization of the Turkish army had been commenced when hostilities first broke out. It was undertaken, he said, immediately after Turkey announced her intention to remain neutral and had proceeded rapidly. In the beginning, the mobilizing of the Turkish legions was intended as a precautionary measure, and to insure that Turkey's neutrality would be respected, he said.

"There have been statements that the Turkish armies will be commanded by German officers," the Bey, "and that several hundred such officers have taken command of the Turks. This is idle gossip."

Turkey's action is expected to set all southeastern Europe aflame. Greece and Italy are expected to be the next to throw off the mask and enter the European arena, while the attitude of Bulgaria and certain of the other Balkan states hangs in the balance.

BACK FROM WAR ZONE

1400 PASSENGERS, MOSTLY NEW ENGLANDERS, REACH BOSTON ON ARABIC

BOSTON, Sept. 3.—Bringing home from Europe nearly 1400 passengers, most of whom are New Englanders, the White Star steamship Arabic arrived in port today. The majority of those on board had thrilling experiences to relate of the difficulties which confronted them in getting from the continent to England.

The unusually large number of passengers made it necessary to provide temporary quarters in all parts of the ship even to those sections usually devoted to cargo. In order to avoid possible capture by German warships, the Arabic's lights were blanketed, but the precautions were unnecessary as nothing resembling a hostile vessel was seen throughout the trip, which was made almost on schedule time.

ADRIATIC SAILS FOR LIVERPOOL

NEW YORK, Sept. 3.—The White Star Adriatic sailed for Liverpool this afternoon with her armament of four six-inch rifles. No attempt was made by the custom officials to prevent her departure. The guns were in the same position—two forward and two aft—as when she came into port last Saturday. One hundred and sixty passengers were aboard.

PARIS BOURSE REMAINS CLOSED

PARIS, Sept. 3.—4:38 p. m.—It was announced today that the Paris bourse, which was closed yesterday, would remain closed indefinitely.

SHORT ON CASH

Assessors' Appropriation is Petering Out—Working Overtime

The appropriation of the assessors' department is nearly exhausted and in order to keep within the appropriation a number of regular clerks are working overtime without extra compensation. The appropriation asked for at the beginning of the year was \$14,625 and that given was \$14,600, a difference of \$25 which is much needed at this time when a lot of work is being done.

Chief Clerk Reardon in conversation with The Sun reporter this morning said that before the budget of the assessors' department was sent to the municipal council every item was figured down to the cent. "We knew," he said, "that we could not get along with a cent less than was asked for, \$14,625, but despite that fact the council cut us down \$25 and now the clerks have to make up the difference by working overtime without compensation."

Mr. Reardon said there was an increase this year in the printing of the poll books. Last year the printer charged 74 cents a page for the work and this year he increased it to 83 cents per page. The assistant assessors cost the department more this year for three experienced clerks had to be hired for account of the civil service not being able to supply the department with experienced clerks, and then again there was an extra expense incurred on account of the large number of female voters. When the assistant assessors were through with their work, they had to go and get up at taxes, they had to go and get up at house canvassing in order to get the names of the female voters.

The extra clerks who were hired some time ago were discharged last Monday for there was no money left to pay them for their services and the regular clerks had to double up and work overtime and this will be kept up all week.

To Draw Murph

Mayor Murphy returned from a three-weeks vacation spent at Kananahuk, Me. this morning, and he called a special meeting of the council for tomorrow morning at 11 o'clock for the drawing of jurors for the October session of the superior criminal court.

The mayor stated this morning that the Putnam matter will not be taken up tomorrow but he believes the matter will be disposed of at the regular meeting which will be held next Tuesday.

Visitor at City Hall

Russell T. Priest, assistant city engineer for Boston, was in Lowell today, the guest of Superintendent Keegan of the park department. The visitor was taken around the city in the department automobile and was shown the parks and places of interest in Lowell.

Sept. Kernan is another who is doing his very best to live within his appropriation. He said he can manage it all right but he will have to figure closely and probably curtail in the latter part of the year.

Big Contract

Purchasing Agent Foye this morning awarded a \$11,000 contract for pipes and castings for the water department. The sum of \$15,000 had been voted for the purchase of the material and the lot was bought for \$4,000 less than the amount appropriated. The contract calls for 238 tons of straight pipe and 36 tons of special castings, and was awarded to the Standard Cast Iron Pipe and Foundry company of Bristol, Penn., whose bids were as follows: Straight pipes, \$21.95 per ton; castings, \$48.90 per ton. The other bids received were as follows: R. D. Wood & Co.—Straight pipes, \$22.75 per ton; castings, \$49.00; Donahue Iron company—Straight pipes, \$22.34; castings, no bids. Fred A. Houdette & Son—Straight pipes, \$23 per ton; castings, \$47.50 a ton; U. S. Cast Iron Pipe & Foundry company—Straight pipes, \$22.50; castings, \$47. This material will be used in connection with the building of the new filtration plant.

Permit Granted

Fred J. Guyette was this morning granted a permit for the erection of a work shop at 95 Billings street at a cost of about \$200.

DOZEN KNIFE WOUNDS

STEPHEN PEROK WHO WAS STABBED IS EXPECTED TO RECOVER

MANCHESTER, N. H., Sept. 3.—While suffering from nearly a dozen knife wounds received last night at the hands of Bismarck Myor, it is alleged, who is under arrest, Stephen Perok is today expected to recover. The alleged assailant is held for arraignment pending the result of Perok's injuries.

A GENERAL BLOW-OUT

AT EXPENSE OF WATER DEPARTMENT ON SUNDAY AFTERNOON BETWEEN HOURS OF 1 AND 5

The water department will hold a big blow-out next Sunday afternoon between the hours of 1 and 5 o'clock. While it is a blow-out it cannot be called a junket and if it has the desired effect the public will feel like having a junket in celebration of the fact.

Commissioner Carmichael announces that on Sunday afternoon the water will be drawn from all city mains and the pipes given a thorough blowing-out for the purpose of improving water conditions generally if possible. It is hoped that the sediment, and the different insects and reptiles that are reported to be quartered in the city mains will be discovered and eliminated. It will be impossible, therefore, for the public to get water through their faucets between the hours of 1 and 5 on Sunday afternoon and those who are in the habit of using it between those hours, should govern themselves accordingly.

The price of sandwiches at the hotels will remain unchanged.

PRESIDENT WILL NOT ATTEND

WASHINGTON, Sept. 3.—President Wilson today declined an invitation to attend the Star Spangled Banner celebration in Baltimore late this week.

LATE WAR BULLETINS

GERMANS SET FIRE TO FARM BUILDINGS

PARIS, Sept. 3 (3:45 p. m.)—A Havas Agency despatch from Antwerp contains the following announcement by the Belgian government: "The situation remains the same in the provinces of Antwerp and Limburg. The Germans have set fire to several sets of farm buildings. M. Morehen, attaché at the Russian embassy, confirms the report of the destruction of Lamsberg, Cossel and Beschofheim by Russian cavalry and also that they have broken the lines of the enemy between Heilsberg (East Prussia, 40 miles south of Königsburg) and Königsburg."

800,000 RUSSIANS AND 600,000 AUSTRIANS IN BATTLE

ROME, via Paris, Sept. 3 (10:47 a. m.)—The Russian embassy here has received an official report from Petrograd setting forth that Russian troops are triumphantly marching on Lemberg, repulsing the Austrians all along the line. The fighting has been on a gigantic scale, 800,000 Russians being engaged against 600,000 Austrians.

If all indications do not fail, the report from the Russian capital continues, the Russians will be completely victorious and the roads to Vienna and Berlin will be opened to the Russian armies.

ALL AMBASSADORS AND MINISTERS EXCEPT AMERICAN HAVE LEFT PARIS

LONDON, Sept. 3.—A despatch to the Exchange Telegraph Co. from Paris says that all the ambassadors and ministers in France with the exception of the American ambassador, Mr. Herriot, have left Paris accompanying the government to Bordeaux. Mr. Herriot, in accordance with his wishes announced earlier and with the sanction of the state department at Washington, remains at the capital.

Mr. Herriot's reasons for remaining in substance are that he can better look after the several thousand Americans who stay in Paris. They are principally permanent residents in business or persons of moderate means unable to leave conveniently. He also feels that he can better protect American business interests, among them many American banks and banking agencies with deposits of Americans.

The American embassy is now charged with British, Russian, Japanese, Serbian, German and Austrian affairs in Paris and it is probable that the embassy will have its telegrams and mail delivered under the rule of diplomatic exemptions.

Mrs. Herriot, who has been ill but is now recovering, also will remain in Paris.

1500 AUSTRIANS PASS THROUGH COLOGNE ON WAY TO THE-ATRE OF WAR

LONDON, Sept. 3.—The Amsterdam correspondent of the Reuter Telegraph company telegraphs that last week 1500 Austrian soldiers belonging to the heavy edge artillery corps at Trieste passed through Cologne on their way to the western theatre of the war.

VICTORY AND DEFEAT OF AUSTRIANS IN STRUGGLES WITH RUSSIANS

MANCHESTER, Mass., Sept. 3.—Victory for Austrian arms in Russian Poland and reverses for Austrian arms in eastern Galicia are reported in a despatch from the Austrian foreign office received by wireless today at the Austro-Hungarian summer embassy here.

6000 JAPANESE LANDED AT LUNG KOW AND 24,000 MORE ON WAY

PEKING, Sept. 3.—The exact number of Japanese troops ashore at Lung Kow cannot be definitely determined here. It is believed, however, that no fewer than 6000 men already are on shore and that 24,000 more are coming.

The Chinese officials of Lung Kow politely protested against the landing of Japanese forces. The Japanese action, the protest with equal politeness and then proceeded to disregard it. There was no hostile incident during the Lung Kow landing.

The foreign office has formally protested to the Japanese and British legations here against the violation of China's neutrality involved in the landing at Lung Kow which is approximately 70 miles beyond the confines of the German leased territory. Knowing, however, that its protest would be useless the foreign office at the same time requested the British and Japanese authorities to confine their operations to the zone extending from the north from Lung Kow to Liaohow and on the south to the previously prescribed fighting area. Neither legation, however, accepted these limitations.

PRESIDENT HAS NOT RECEIVED PROTESTS AGAINST BOMB-DROPPING BY GERMANS

WASHINGTON, Sept. 3.—It was said at the White House today that various protests against dropping of bombs by German air craft have not been received yet by the president, and it was indicated that the president will take no action upon them. The president may not receive the Belgian commission which is coming to protest that the commission probably will be received by Secretary Bryan.

DECLARATION OF WAR BY TURKEY ON GREAT BRITAIN EXPECTED AT WASHINGTON

WASHINGTON, Sept. 3.—State department officials admitted their apprehension over the situation in Turkey. For three days there has not been a word from the Turkish government.

A Trip to California Has Been Placed Within Your Reach

Why not make a reservation on one of the Burlington Route "Personally Conducted Parties to California"? If you would like to make this trip under unusually attractive conditions and at an especially low cost, I would like to hear from you right away.

You can travel with a select party and with all the comforts of a Pullman Touring Sleeping Car throughout—and at minimum cost.

A carefully trained man will accompany the party and you will find him to be thoroughly conversant, good-natured and kindly, as he has been especially selected because of his knack for making people comfortable, as well as because of his long experience.

You will be especially interested in learning that the total cost of this trip is well within your reach. Just call or write and I will gladly explain all the details.

Alex Stocks, New England Passenger Agent, C. & Q. R. R., 264 Washington St., Boston.

been a single cablegram from Ambassador Morgenthau. As the situation grew acute a week ago he communicated full details of the diplomatic crisis and kept in constant touch on matters of funds for American.

The belief prevailed that cable communication either had been interrupted or restricted on account of the gravity of the political situation. A declaration of war by Turkey on Great Britain is expected in many quarters here, though the Turkish ambassador declares he has been without advice for several days and will not predict what course his country will take.

PRINCE WILLIAM OF WEID QUIT HIS NEW KINGDOM, TODAY

DURAZZO, Albania, Sept. 3, via Paris, Sept. 3, 3:37 p. m.—Prince William of Weid quit his new kingdom this morning, taking passage by Venice on the Italian steamer Misurala.

POPE ELECTED Continued

NEW POPE A MAN OF GREAT SPIRITUAL CHARACTER—HAS HAD WIDE EXPERIENCE

WASHINGTON, Sept. 3.—The apostolic delegation has not yet been officially advised of the selection of the new pope. Word of the choice reached the delegation through press sources and great interest was manifested. It is pointed out that Cardinal della Chiesa, who has had wide experience both as administrator of the important see of Bologna and also on the diplomatic side as secretary of the nuncio at Madrid. He is described as a man of great spiritual character and one of the most highly esteemed in the hierarchy. He is about average height, of stocky build and rather quiet and reserved manner.

CARDINALS O'CONNELL AND GIBBONS ON STEAMER CANONIC DUE TOMORROW

ROME, Sept. 3.—Cardinal Giacomo della Chiesa, archbishop of Bologna, Italy, was today elected supreme pontiff of the Catholic hierarchy in succession to the late Pope Pius X, who died Aug. 20. He will reign under the name of Benedict XV.

The convocation of the sacred college, whose duty it is to elect the pope, went into session the evening of Monday, Aug. 31. The announcement of the outcome of its deliberations was made this morning, shortly after 11 o'clock.

Cardinal Gibbons of Baltimore and Cardinal O'Connell of Boston are on board the steamer Canonic, which is not due at Naples until tomorrow. Consequently neither of them participated in the election of the new pope. Cardinal Parley of New York reached here several days ago.

Prince Chigi-Albani, one of the assistants to the throne in the pope's household, was notified at 11:15 that Cardinal della Chiesa had been elected pope.

At 11:20 Monsignor Misicellotti, subprefect of the sacred palace and governor of the conclave, received a communication from the new pope asking that the gratings of the basilica of St. Peter be opened because he purposed in a short time to issue his proclamation.

At this same hour, 11:20, the master of ceremonies appeared on the central balcony of St. Peter's and spread out the red carpet. The crowd below which had been waiting for hours in the square in the expectation of an announcement as to the outcome of the deliberations of the sacred college understood that a selection had been reached. The people applauded vigorously.

At 11:55 Cardinal della Voipe appeared on the balcony with Monsignor Capostolli hearing the pope's cross on his right and pronounced the ritual announcing the election of Cardinal della Chiesa. To this he added that the new pope had chosen the name of Benedict XV.

Again the crowd of several thousand persons cheered and at once began to make their way into the basilica, to hear the benediction of the new pontiff.

At 11:45 the new pope appeared on an inner balcony of St. Peter's, clad in his pontifical robes. The balcony was hung with red velours and a heavy golden fringe decorated the railing. The pontiff pronounced the apostolic benediction to the kneeling crowd below and immediately afterwards withdrew and entered his apartments.

It is asserted on good authority in Rome today that the new pope will appoint Cardinal Domenico Ferrata his secretary.

RUBONIC PLAGUE

Twenty-fifth Case Discovered at New Orleans—Boy of 20 Years the Victim

NEW ORLEANS, Sept. 3.—Illness of Lloyd Wilson, 20, today was diagnosed as rubonic plague. This is the 25th case, here since the plague developed.

NO PROTEST FROM CHINA WASHINGTON, Sept. 3.—President Wilson said today that no protest has been received from China against the landing of Japanese troops on China territory. He would not discuss the question of whether the neutrality of China had been violated.

Here's the whole family!

Odd thing about this Prince Albert tobacco—you get on mighty familiar speaking terms with it by the time you've smoked half a pipeful or a joy-roll cigarette. Just kind of built that way! It's so easy to get acquainted with, even tobacco-shy folks go-to-it natural and easy, because it's so gentle-like!

You ought to know that P. A. couldn't bite tongues if it wanted to, because it is made by a patented process that removes the bite and the parch, leaving for you just delightful flavor and fragrance. Now, get all that down right pat! But you'll know it by heart as soon as you get chummy with

PRINCE ALBERT

the national joy smoke

Men all over the nation went to P. A. as natural as falling off a log. Because it's a revelation in smokings.

And you get this: Five years ago Prince Albert blew into town unknown, unsung! Today it has caused three men to smoke a pipe where one smoked before—right smart testimony that here is tobacco that will tickle your palate most! Get that listen into your system for what ails your smokappetite!

R. J. REYNOLDS TOBACCO CO.
Winston-Salem, N. C.

Prince Albert is sold in toppy red bags, 5c (handy for cigarette smokers); tidy red tins, 10c; also in handsome pound and half-pound humidor.

Handsome half-pound humidor

Handy pound glass humidor

PROBLEM VETERANS IN PARADE

To be Solved—Nation Will Install Free Employment Bureau

BOSTON, Sept. 3.—Boston's unemployed immigrant problem, which has puzzled every immigration head, will be solved, it is believed, by the establishment of a federal free employment bureau in the city, according to an announcement made yesterday by the Washington officials.

Harry J. Skiffington, the new commissioner of immigration in this city, received word yesterday to "get busy" in establishing the bureau, which will be the second one in existence. New York has had one since 1907.

Aid to Farmers

The bureau will solve Boston's long standing servant girl problem, will place immigrants that reach this coast in positions for which they are fitted, and will also aid the farmers by sending them farm hands who otherwise would in all probability become street diggers.

The hundreds of foreign sailors now in Boston, roaming the streets without employment, will be sent to positions as soon as the bureau can be established.

Commissioner Skiffington declared yesterday that Boston needs a new building for the bureau when the plans are completed for its establishment. He said that his assistants in the formation of the new free employment bureau will be named within a few days by Federal Immigration Commissioner Anthony Caminetti and Secretary Wilson of Washington.

1000 SNEEZERS CONVE

MEETING OF HAY FEVER ASSOCIATION—RED BANDANNA IS WAVED AT BETHLEHEM, N. H.

BETHLEHEM, N. H., Sept. 3.—Waving the red bandanna, emblematic of the hay fever sufferers of the nation's most prominent annual arrived here yesterday for the 41st annual convention of the United States Hay Fever Association.

The public demonstration began in the forenoon in the presence of a battery of motion picture cameras. Tied came the organization of a side association composed of 25-year sufferers. The association gave club songs and the officers rode in the Sinclair and Turner coaches, each 100 years old.

At the experience meeting yesterday afternoon it was said that no more is known of the disease than was known 25 years ago. More than 1000 remedies have been tried and found wanting. A committee of members will visit Milwaukee to test new articles as extracted from the pollen of the rag-weed, the virtual germ of the disease.

Dr. Charles E. Barker, for four years medical adviser to ex-President Taft, lectured yesterday on "How to Live to Be 100 Years Old."

Perley F. Jerome of New York criticized the agricultural committee of the Massachusetts legislature for its failure to report on the bill to compel farmers to destroy rag-weed, goldenrod and other plants noxious to the hay-fever sufferers.

It is estimated that there are 200,000 hay-fever sufferers in the United States and the membership of the association has increased 100 per cent.

COP'S MIDDLE NAME

IS VERSATILITY—ACTS AS NURSEMAID AND GODFATHER TO CHILDREN AND ARRESTS MOTHER

BOSTON, Sept. 3.—Nursemaid, godfather and arresting officer yesterday Police Patrolman William J. Trainor, of the East Dedham street police station.

Trainor arrested a woman giving her name as Mrs. Mary Moulton, in her home at 15 Cherry street, and after seeing her to the station house, found two small children in the tenement, one of them 11 weeks old and the other 4 years.

The baby was taken to the Cathedral of the Holy Cross and baptized by Rev. Michael J. Connelley, and then returned to the station house, where the charge of intoxication against the mother was dropped at the court house, after she said that she would never leave the children in that condition again.

PRINCE KILLED HIMSELF

LADY CHURCHILL SAYS FREDERIC WILLIAM OF LIPPE TOOK HIS OWN LIFE

LONDON, Sept. 2, 11 a. m. (Delayed in transmission)—Prince Frederick William of Lippe took his own life following a mistake of his regiment, according to Lady Randolph Churchill, formerly Jennie Jerome of New York, who has just arrived from Germany, coming by way of Holland.

"The true story of the death of Prince Frederick William of Lippe," she said, "is that he committed suicide. He was commanding a German cavalry regiment before Liege on Aug. 6, when his regiment in the darkness of evening nearly annihilated a German infantry regiment which it had mistaken for Belgians. The prince shot himself, fearing to face the anger of Emperor William. His widow was informed of his death on Aug. 14."

MATRIMONIAL

Mr. Avery Marshall, Jr., and Miss Lillian Richardson were married Wednesday evening at the Sacred Heart church by Rev. Fr. Flynn. The bride was Mrs. Mae L. Butters, Mr. Andrew Goggin, Jr., was best man. At the conclusion of the ceremony a reception was held at the home of the groom, 74 Grand street, and was attended by immediate relatives. The bride was becomingly attired in white silk, and carried a bouquet of white and pink roses. The bridegroom wore white tulle over pink and carried pink roses. A dainty buffet lunch was served. Mr. and Mrs. Marshall left last evening on a short wedding trip and after October first will be at home to their friends at 74 Grand street.

LARGE NEW ENGLAND FORCE IN DETROIT PROCESSION—N. H. VETS IN DUCK TROUSERS

DETROIT, Sept. 3.—Commander John M. Woods of the department of Massachusetts was at the head of that state's division yesterday in the G. A. R. parade. Not more than 100 veterans were in the Massachusetts contingent. The contingent was represented by only 50. There were about 40 from Maine.

One of the best uniformed sections was from New Hampshire. Every man wore white duck trousers and immaculate blue coats. J. H. Green of Boston carried the Massachusetts state banner, David Kline, Boston, the Union Jack, and W. H. Brown of Marblehead the department flag.

Rain threatened as the parade started, but not a drop fell and the sun shone during the two and a half hours it took the veterans to pass a given point, a perfect day for the big march. More than a quarter of a million persons applauded the marching band, which was led by the 2d Massachusetts Infantry, who says he was the first soldier attended by Clara Barton. He was wounded in a charge of 8000 men against 28,000 at Cedar Point, Va.

Behind a briar pipe, with the sporting section of a Boston newspaper in his hand, Private C. G. Pratt of Lawrence, Mass., was today the happiest man in Detroit—and all because the Boston Nationals took two games from Philadelphia, which gave them the place of honor in the percentage table.

Mr. Pratt, aged 71, is more interested in sports than in war tales. He stopped talking of the national sport long enough to admit that he had a heel shot off at Fort Hudson and that it was "some parade." Then he made a search of the hotel corridors for somebody who could talk sport.

A tribute to the memory and work of three national presidents and the Women's Relief Corps who died during the past year has been made in the badges worn by this, the 32d national convention, in session here. The women were Mrs. Sarah E. Fuller of Massachusetts, Mrs. Charity Ruck Craig of Wisconsin and Mrs. Kate B. Sherwood of Ohio.

Mrs. Ida S. Mide, national president, reports some statistics of W. R. C. work for the year, as follows:

The 2759 corps of our order have expended this year \$111,000 for relief, \$11,321.03 for Memorial day and \$30,155.67 turned over to posts. In addition to this the Grand Army of the Republic has received \$140,025 for the Soldiers' Memorial fund.

"I recommend that there be taken from the permanent fund an amount sufficient to make—in addition to the contribution from the national funds the sum of \$1000, to be presented to G. A. R. for such use as it deems advisable. Army Nurse association."

Mrs. Abbie Lynch, national treasurer, reported a balance in the general fund of \$4951.93, and a total in all funds of \$8342.11. The reports of other national officers show the organization to be in an excellent condition.

WEDDED FIFTY YEARS AGO
Attorney and Mrs. George W. Norris Observe Golden Anniversary With Family Reunion at Woburn

WOBURN, Sept. 3.—Fifty years ago George W. Norris and Miss Sarah E. Williams of Chelsea were married in that city, and yesterday the couple observed its golden anniversary at their home, 60 Bow street. It was strictly a family gathering.

Mr. and Mrs. Norris have been residents of Woburn 35 years. Half a century ago, Mr. Norris, who was born in New Hampshire, was admitted to the bar and practiced law continuously since with the exception of 1886 to 1889, when he served as the United States Indian agent with the Nez Perce Tribe in Idaho under an appointment of President Cleveland.

In Woburn, Mr. Norris has served three years as a water commissioner, three years as a school committee and three years as a city solicitor. Seven children have been born to Mr. and Mrs. Norris, all of whom participated in the observance. They are: R. T. Atkins and Mrs. Sidney Cowles of Boston; Mrs. William C. Forsyth of Reading; Mrs. Francis W. Estey of Malden; Miss Grace L. Norris of Woburn and Daniel Norris of Winchester.

DEMOCRATIC TICKET

SUPPORT URGED AT WORCESTER OUTING—PRESIDENT AND WALSH PRAISED—SUCCESS PREDICTED

WORCESTER, Sept. 3.—The annual outing of Worcester County democrats was held at Edgemoor, Lake Quinsigamond, yesterday, with an attendance of 200. Gov. Walsh was expected, but at 5.30 announcement was made that he could not be present.

Thomas L. Walsh, brother of the governor, made apology for the inability of the chief executive to meet the party, and spoke of the policy he said Gov. Walsh has sought to follow in office. State Treas. Frederick W. Mansfield, Asst. Atty. Gen. Arthur E. Seagrave, Michael A. O'Leary, chairman of the democratic state committee; David R. Shaw of Boston, Ex-Congressman John R. Thayer, and Senator Hugh O'Rourke of Worcester, the latter a candidate for congress from the 4th district, were the speakers.

Representative Michael A. Heneberry, chairman of the city committee, was in charge. A dinner preceded the speechmaking. Chairman O'Leary said that President Wilson, in the nation, and Gov. Walsh, in the state, have well vindicated the democratic party and have established records that entitle the party to continuance in office. But the party to continuance in office. But the party to continuance in office. But the party to continuance in office.

LATE WAR BULLETINS

REPORT GERMAN GOVERNOR OF SAMOA HAS SURRENDERED

LONDON, Sept. 3 (10.25 a. m.)—A despatch received here from Wellington, N. Z., says the governor of New Zealand has received a message stating that the German governor of Samoa has surrendered and that he has been sent with other German prisoners to the Fiji Islands.

M. KURZ ARRESTED AS SPY

LONDON, Sept. 3.—A letter received in London by an American woman from a friend in Monte Carlo contains the following passage: "M. Kurz, one of the four directors of the casino and who has been very much trusted here and also has an estate agency at Beaulieu, has been arrested as a spy. All sorts of plans were found on him and with others he is imprisoned in Nice, waiting trial. "The casino is closed."

AUSTRIANS LOST 100,000 AT LEMBERG

ROME, Sept. 3 (8.40 a. m.)—By way of Paris, 2.45 p. m.—The Russian embassy has been notified that the Austrians were overwhelmingly defeated near Lemberg, losing more than 100,000 men and 57 cannon. The occupation of the city of Lemberg was said to be at hand.

GERMAN CAPTURE AMIENS, FRANCE

LONDON, Sept. 3 (2.55 p. m.)—A despatch from Amiens, France, to the Daily Mail dated Tuesday, Sept. 1 declares that the Germans took possession of Amiens after three days fighting.

AUSTRIANS ROUTED BY SERBIANS

ROME, Sept. 3, 8.30 a. m. (via Paris, Sept. 3, 3.15 p. m.)—A telegram from Nish, Serbia, says that in a battle at Adjudar between 200,000 Austrians and 180,000 Serbians the latter put "140,000 Austrians hors de combat."

BATTLE ON WHICH DEPENDS FUTURE OF PARIS STILL RAGING

LONDON, Sept. 3.—The battle whose issue is destined to decide whether history will repeat itself in a second stage of Paris is still raging, according to the latest official announcement here. Future military historians may write hundreds of volumes about the details of this battle but all the British public knows is that the struggle is the most momentous one that British soldiers have fought since Waterloo.

The official announcement was that continuous fighting has been in progress around almost the whole line of battle. To this generally the French official communication adds the fact that the allied forces have fallen back toward the southwest to avoid an action which might have been engaged under unfavorable conditions. How far and to what line the allies have gone is unknown. There is no revelation of British secrets, nothing which a patriotic censorship could object to in stating these facts because the German army which is engaging the allies knows precisely where their first line is drawn and the purpose of the censorship is only to suppress facts which might enlighten the enemy.

The brief official bulletin of last night is the first word the British people have received from their government concerning the present battle. The last previous bulletin was Field Marshal Kitchener's statement issued Sunday night throwing a welcome light on the previous four days' battle which ended Sunday and which reflected the greatest credit on the generalship and discipline of the British army.

GERMANS 30 MILES FROM PARIS

In spite of the fact that the French capital has been removed to Bordeaux and that the German army of the west is within 30 miles out of the outer fortifications of Paris, a strange air of confidence prevails today among the allies. The general feeling seems to be that the German attack is wearing itself out in hammering away at the allied lines, which give but do not break.

President Poincaré has issued a proclamation to his people telling them that military necessity alone has led him to remove his government to Bordeaux. Military experts agree that Paris will soon be the pivot of the hostile forces operating in the area of the west. Even the downfall of the French capital is not expected to end these operations. The feeling of confidence was greatly increased in the news of the great victory of the Russians in Galicia. Reports from Petrograd (St. Petersburg) tell of the capture of Ruzhyn (Lemberg), the capital of Galicia. These appear creditable as news of the defeat of the Austrians in that district has been received from several sources.

Fighting at Lemberg on 7 days

The battle of Lemberg probably was the greatest ever fought. Evidently it resulted in a decisive and perhaps overwhelming defeat of the Austrians. The battle line extended over 200 miles and it is estimated that 1,500,000 soldiers clashed. According to an official despatch received by Emperor Nicholas from Grand Duke Nicholas, commander-in-chief of the Russian forces, the victory was won after seven days of fighting. The climax came when the Austrians were routed in a final desperate assault on the Russian center, which was held by Gen. Ruzsky.

The Austrian army in Galicia was nothing in close co-operation with two German army corps facing Breslau and seeking to envelop the Russian forces in Poland. Their plans, however, met with a series of disasters ending in a complete rout when an attempt was made to pierce the Russian center.

In the west the line now held by the left flank of the allied armies in the valley of the Oise runs diagonally from a point northeast of Paris to Compiègne and thence through Noves, 14 miles northeast by north of Compiègne, to La Fere.

La Fere in Hands of Germans

La Fere, one of the weaker of the French fortresses, evidently is in the hands of the Germans. Further east and north the allied armies apparently hold their own in the neighboring territory of Laon and Reims (24 miles northeast of Rheims). The right of the allies rests on the fortified Franco-German frontier.

The names of the British who fell in the four days' battle last week will not be announced until they have been communicated to relatives. The heavy loss of officers in proportion to the men is the story of South Africa over again. It indicates that the officers refused to take cover, as they insist that the men shall.

The west coast of Belgium and the east coast of northern France are free of Germans. Many Americans are crossing the channel to the continent determined to see something of the war at any risk.

AMERICAN MINISTER SENDS LIST OF ALLEGED ATROCITIES IN BELGIUM

PARIS, Sept. 3, 11.30 a. m.—A despatch to the Havas agency from Amsterdam says that the American minister to the Netherlands, Dr. Henry Van Dyke, has sent to Washington a long report about the alleged atrocities in Belgium.

EMPEROR OF RUSSIA NOTIFIED OF GREAT VICTORY OVER AUSTRIANS

LONDON, Sept. 3.—10.20 a. m.—In a despatch from Petrograd, dated yesterday, the correspondent of the Times quotes the message of Grand Duke Nicholas to the emperor on the Russian victory in Galicia as follows: "It is happy to gladden your majesty with news of the victory won by the army of General Ruzsky. After seven days of uninterrupted fighting, the Austrians are retreating in complete disorder. In some cases they are running away and abandoning their guns, rifles, artillery, packs and baggage trains."

"Prior to this decisive battle General Ruzsky's army captured in the course of the seven days 24 guns, a multitude of firearms and a great number of machine guns."

RUSSIANS CONTINUE THE OFFENSIVE INCREASINGLY, SAYS PETROGRAD

LONDON, Sept. 3.—A despatch to the Reuters Telegram company from Petrograd gives the following official announcement: "Up to the east front in Galicia was participated in by the 12th Austrian corps, which had only been transferred from the Rumanian frontier on Aug. 25. The Austrian army has

been reinforced by numerous bodies of the Landsturm.

"Our troops continue the offensive increasingly and our cavalry division has penetrated far into the interior of east Prussia destroying means of communication. They have also occupied a station in the Koerschen region and Soldau and Seneburg."

"The German forces remain inactive."

GERMAN AMBASSADOR SAYS ALL DESPATCHES GIVEN OUT BY EMBASSY ARE OFFICIAL

WASHINGTON, Sept. 2.—Count Von Bernstorff, the German ambassador, said today he desired to reply to a statement which declared the embassy had originated some of the news it gave out merely by saying that nothing was given out at any time but the official reports from Berlin. This had been proved, he said, by the fact that the reports from Berlin had been borne out by the final announcement of results.

The ambassador said he had heard nothing in regard to Turkey's reported declaration of war against Russia.

WITHDRAWAL OF THE LEFT WING OF THE ALLIES TOWARD PARIS

LONDON, Sept. 3.—Advices of the withdrawal of the left wing of the allies toward Paris and the removal of the French capital to Bordeaux was contained in a private despatch received at the French embassy yesterday from Paris. The cablegram bears yesterday's date.

FRENCH FLEET BOMBARDED THE PORTS OF CATTARO IN ALBANIA

PARIS, Sept. 3.—A Paris despatch to the Central News says that President Poincaré attended a French cabinet meeting Wednesday night in the Elysee palace when both the diplomatic and military situations were considered.

Victor Augagneur, minister of marine reported that the French fleet under Admiral Augustin La Peyrere had bombarded the ports of Cattaro, Austria, inflicting great damage.

DECISION OF FRENCH GOVERNMENT TO WITHDRAW FROM PARIS A WISE MOVE

LONDON, Sept. 3.—1.10 p. m.—The decision of the French government to withdraw from Paris while a momentary shock to the man in the street is regarded both by politicians and strategists here as being as wise as it is painful.

To retain Paris as a center of the government would, it is held, be incompatible with the supreme necessities of France at the present time. These are to keep the government free to act and to keep the army an unbroken force which neither can be captured in detail nor shut up in the fortresses. A proclamation by the French government describes the move as precautionary and sets forth that an attack on Paris in the near future is not considered probable.

No data upon which to base a judgment on the general situation over the wide-rung battle line in France is available. The retirement of the allies without a defeat and fighting every

foot of the way is an expression that has become stereotyped. It is, however, about the only official news that has reached London since Field Marshal Kitchener's story was given out last Sunday.

The Russian occupation of Lemberg, the capital of Austrian Galicia, may have a far reaching effect upon the campaign in eastern Europe apart, altogether from the loss of Austrian prestige through the fall of the city. More than three quarters of the population are Poles and the Russians anticipate that their entry to the city will contribute toward the hoped-for Polish uprising against Germany. This uprising Emperor Nicholas contemplated when he promised autonomy to a united Polish kingdom.

The rush of recruits for the British army is phenomenal. No fewer than 50,000 men have joined Lord Kitchener's second army in the past few days.

EMPEROR OF JAPAN HAS DIRECTED A SPECIAL SESSION OF THE DIET

TOKYO, Sept. 3.—The emperor has personally directed a special session of the diet to convene on Sept. 8. The majority has decided formally not to oppose the government's war measures.

GEN. GALLINI ORDERED TO DEFEND PARIS AGAINST THE INVADERS

PARIS, Sept. 3.—3.05 p. m.—It is officially announced that General Gallini, commander of the army defending the city, today issued the following proclamation to the inhabitants of Paris.

The members of the government of the republic have left Paris in order to give a new impetus to the defense of the nation. I have been ordered to defend Paris against the invader. This order I will fulfill to the end."

WHAT HAS BECOME OF THE GOOD SHIP OF FRIENDSHIP? SAFE, SAYS BRYAN

WASHINGTON, Sept. 3.—Secretary Bryan while discussing the war situation today was asked what had become of the good ship Friendship? "She is safely interned in a neutral harbor," replied the secretary.

STEAMER STOPPED THREE TIMES IN MID-OCEAN AND BOARDED BY NAVAL OFFICERS

BOSTON, Sept. 3.—The steamer Seestad, of the Holland-American line which arrived today from Rotterdam was stopped three times in mid-ocean and boarded by British and French naval officers. The Seestad, although a freighter had 126 passengers aboard, all of whom were compelled to show their passports. Three of the passengers who had been arrested as spies in Europe and later released, were subjected to considerable questioning by the boarding officer, but were allowed to proceed.

DEATHS

GREENE—Amy B. Greene died yesterday at the home of her parents, Mr. and Mrs. Loris Greene, 179 Warwick street, aged 30 years and 1 day. She leaves, besides her parents, two sisters, Esther M. and Laura B.

IT PAYS TO PATRONIZE THEM

DISTINGUISHED VISITORS

FRENCH COUNT, DEPUTY AND INSPECTOR ARE VISITING IN THIS CITY

Three distinguished visitors from France arrived here yesterday as the guests of J. C. Mansueti, the well known clothier. The men were Count Canneguay d'Osmoy, a former French deputy and an officer in the French marine; A. Faucompre, inspector of rivers and forests for the French government, and a knight of the Legion of Honour; Clement Soummeud, officer in the French marine, and Charles Puyot, civil engineer.

The visitors came here from Labrador, Canada, where they had been sent on a special mission by some company from France. They went to Manchester, N. H., where they met an old friend, Oscar Morcan, Esq., and the party then came to Lowell in an automobile as the guests of Mr. Mansueti. The French gentlemen were in the wilderness of Labrador when they were informed that war had been declared between Germany and France. They had left France several weeks previous and were not aware of the conflict. Upon learning of the conditions they went through Canada and came to Manchester, whence they will sail for France tomorrow.

Count d'Osmoy, who is also an officer in the French army, speaking of the European conflict, said he learned through the newspapers the Germans were making great headway toward Paris, but they have not yet captured the French capital and this will not be an easy feat to perform. He said France alone cannot defeat Germany. For the latter country has been preparing for war for years and the armies are well prepared, but France with the assistance of Russia and Great Britain will before this war is over wipe Germany off the map.

The count is to return to his official position in the marine, while his companions, who are here to see him, will offer their services to their country and they feel that the government will accept them.

ELECTRIC CLOCK

Propels Miniature Warship—Toy Vessel Carries Dummy Crew

BOSTON, Sept. 3.—With a trail of smoke coming from her smokestacks, her turret guns firing a broadside, sailors marching along her decks and the band playing the "American flag," the superbly constructed Massachusetts sailed her course on the waters of Spy pond, Arlington, yesterday afternoon.

With her "Jack" snapping in the wind, she moved along at her full speed of about 14 miles an hour.

On the shores of this expansive water a moving picture operator trained his camera, and reporters were in evidence. Wild excitement prevailed among the crowd of youngsters who watched the Massachusetts majestically sail into port.

This good ship was not the U. S. S. Massachusetts, but a model 13 ft. long, the product of the brain of a young Boston jeweler, Samuel Orkin, 24 years old, 273 Washington street.

Propelled by Clock

Propelled by an electric clock attached to seven electric motors, the triple propellers drive the Massachusetts through the water, fire the full complement of guns, march the dummy crew up and down the decks, raise and lower the anchors and flags and play a phonograph. Every part of the American gradina, to the minutest detail has been built in this model.

The inventor has exhibited a smaller similar model to Secretary Josephus Daniels and many other high officials of the government at Washington. Orkin is a graduate of the Washington grammar school and Mechanic Arts high school of this city. He has exhibited mechanical ability since his early childhood. He intends to build in succession a torpedo boat, a destroyer, a submarine and a scout cruiser. The submarine he promises to go down in himself for his trials.

He has asserted that he has valuable inventions that he is to submit to the navy department at Washington for their consideration. He declares that he can build a large battleship along his plans, and the whole operation of navigation, fighting and the use of such a fighting unit can be performed by a few men without any loss of efficiency.

To Be Shown at Exposition

When one stands on the shore and watches the automatic operation of his model, one believes in the inventor's capacity to make good what he promises. It is intended to ship this model in addition to others which will be constructed to the Panama-Pacific exposition at San Francisco, to sail through the miniature Panama canal which the government will construct at that place.

Orkin wanted to join the navy, but his brothers, knowing his natural mechanical ability, dissuaded him from carrying out this plan. Nothing daunted, Orkin determined to build a battleship. In order to carry out this plan successfully it was necessary for him to learn many things. Today he has a knowledge of mechanical engineering which would be unusual in even the graduate of a scientific school.

He is eager to build models to be installed in the museums of the large cities of the country, so that every child in the nations of the United States far removed from the sea may become familiarized with the workings of our sea fighters.

Has Aeroplane Gun

One of the interesting features of the Massachusetts which is in advance of the regular warships is the installation of aeroplane guns which can be fired by the automatic arrangement. The Massachusetts is third in size over all and made entirely of steel. The line of the model are as graceful as those of the speediest boat. She has a wireless outfit and fighting masts, duplicates of those on the American battleships. Orkin has filed eighty claims upon the electric clock propelling system in the United States patent office.

In the shop, when the Massachusetts was nearing completion, an officer of the Argentine dreadnaught Rivadavia became so enraptured with the model that it was almost impossible to get him away from the place. It is needless to say that when the Massachusetts is in commission every youngster within a radius of several miles is on hand. The Massachusetts has a full equipment of electric signal and

WON'T WAR ON POLES

SEC. DANIELS IN MAINE CAMPAIGN
WASHINGTON, Sept. 3.—Secretary Daniels will leave late today for Bar Harbor, Me., where he will speak in the Maine campaign tomorrow night. He will speak in Waterville, Me., Saturday night and then go to Bluff Point, N. Y., to spend the week-end. Monday he will speak at Vergennes, Vt., in connection with a celebration of the centennial of Commodore McDonough's victory on Lake Champlain. Tuesday he will deliver an address at Plattsburg, N. Y., where the victory also is to be commemorated.

CZAR'S AMBASSADOR POINTS OUT ERRORS IN COUNT VON BERNSTORFF'S PLEA FOR GERMANY

NEW YORK, Sept. 3.—George Baklanoff, Russian ambassador to the United States, yesterday, issued the following statement through the Russian consulate here: "Colonel von Bernstorff, military attaché to the Imperial Russian embassy, has called our attention to this statement made by the German ambassador in one of the last daily interviews in which he says that the Poles have already risen in rebellion and Russian telegrams stated that the Poles are to be treated as enemies. This is a decided falsehood," he says. "This news, furthermore, comes from Russia. It was not made in Germany."

"Count von Bernstorff has evidently misunderstood or misquoted the news that did come from Russia on this subject. After his manifesto to all Poles, Russian, Prussian or Austrian, the grand duke, commander-in-chief, issued some days ago an order to the army to treat all Poles especially leniently and to give them, even as prisoners or inhabitants of the region that the Russian army occupies, kind and considerate treatment. This is the attitude of Russia towards the Poles."

But the commander-in-chief declared also that Galician Poles, who, he said, are armed troops of a gymnastic society in Austria-Poland, cannot be considered as regular soldiers but only as franc-tireurs and treated as such. This is an accepted rule of regular warfare, recognized by everybody and especially rigorously enforced by the Germans themselves.

"Count von Bernstorff seems to have generalized this last order and applied it not to the Sokol franc-tireurs but to all Poles. There is no doubt but that both of them were certainly 'made' somewhere else."

"I consider it my duty to give this explanation in the interest of truth, and the press can easily find the text, both of the manifesto and of these orders, as they have been published in American papers."

A SECOND BURGLARY

AT QUARTERS OF STANDARD BOTTLING CO. AT SPALDING PARK
MADE LAST NIGHT

The quarters of the Standard Bottling company at Spaulding Park were broken into last night and a quantity of cigars and candy taken. This is the second break made here

DAY BY DAY—Pouring Water on a Firecracker is Nothing to This

BY CLARE VICTOR DWIGGINS

GEN. PAUL PAU, HERO

FAMOUS ARMY LEADER WHO LOST ARM IN FRANCO-PRUSSIAN WAR AGAIN CONSPICUOUS

General Paul Mary Casimir Gerold Pau, one of the most famous of French army leaders in the war, is popularly known as "the hero of Proseville" on account of his gallantry in that battle in the Franco-Prussian war, when he lost an arm. He is sixty-six years old. He was trained at St. Cyr, the West Point of France, graduating in 1867. Pau was made a division commander in 1904. He retired from active service in 1911. That same year the French people demanded that he be made commander-in-chief of the army, but a change in ministry ended this. He has so far played a conspicuous part in this war.

NO TROUBLE AT BUTTE, MONT.
BUTTE, Mont., Sept. 3.—Butte's first day of martial law with the Montana National Guard occupying the court house and city hall passed without disturbance.

Prison arrests of leaders of the Butte Mine Workers' union were made late yesterday afternoon, one of the men being James Chapman, chairman of the jurisdiction committee.

Provost Marshal Frank Conley searched the city for "Muckie" MacDonald, president of the union, but he could not be found. He is wanted on charges of inciting riots.

For the first time in three days the jurisdiction committee of the union did not appear at the mines and enforce its order that prohibited non-members from working.

Several blocks around the court house, the streets were patrolled by militiamen who prohibited persons from passing through the guarded district. On two sides of the court house gallies were placed in the streets. Two machine guns were placed on the roof of the courthouse. The state troops will sleep in the court house for the present.

INDIANS ATTACKED IN WAR ZONE

LONDON, Sept. 3.—William Arthur of Lander, Wyoming, accompanied by nine Sioux Indians who were attached to a circus which was performing in Trieste when the war broke out, reached London yesterday after many exciting adventures. Arthur said that in crossing Austria he had seen many persons suspected of being spies killed by infuriated mobs. Among them were some women. At Munich, his Indians were arrested and badly mauled by a mob who raised the cry that the Indians were spies.

G. A. R. CONVENTION

DETROIT, Sept. 3.—The Grand Army of the Republic and the several organizations affiliated with it plunged into routine business today. The principal event of the afternoon session was the annual address of the commander-in-chief, Washington Gardner of Albion. The meetings of the Grand Army and the Women's Relief Corps promised to last until late in the afternoon.

AMONG THE TOILERS

Chester Craig of the Northern Waste Co. has returned from a few days visit to friends in Lawrence.

There will be no celebration by labor bodies in this city labor day. Many of the members will undoubtedly journey to Boston and witness the big labor parade which will be held in that city.

Prof. Howland and Richard Tobin of the Lowell Bleachery will be heard to advantage in the latest song hits tomorrow night at the entertainment to be held under the auspices of the Buckhorn club, in South Whipple street.

James Bodin of the Merrimack Manufacturing Co. is spending his vacation at Lynn beach.

Dave Manning will lead the quartet singing at the outing of the Heine Electric Co. employees to Revere beach Saturday.

John Rogers of the Lowell Pelt Co. has been signed by the Hillsdale A. C. and will play with the team for the first time Saturday at Sheff park.

Joseph Lawson of the U. S. Hunting Co. will spend Saturday, Sunday and Labor day with friends in Worcester, Mass.

William Holland of the Saco-Lowell shops is spending his vacation enjoying his camp at Crystal lake. William is of the opinion that Crystal lake cannot be improved upon as a fishing lake.

New Selling House

The Parker Wilder Co. of Boston, has succeeded Wellington Sears & Co. of Boston as selling agents for the Boston mills of Lowell. The reason for the change is not stated.

Carpenters Held Meeting

Carpenters' union local 1610, held its regular weekly session in Carpenters' hall in the Runkel building last evening. The meeting was largely attended. Business of an important nature was transacted, and two members were admitted. Several applications were received and were laid on the table for one week. The business agent made a progressive report. After the business of the local and the secretary's report showed the union to be on a firm financial basis.

Homestead Machinists Met

The Homestead Machinists, affiliated with the I. A. M., held a meeting last evening in Old Fellows hall. Considerable business was transacted. Business of an important nature was transacted, and two members were admitted. Several applications were received and were laid on the table for one week. The business agent made a progressive report. After the business of the local and the secretary's report showed the union to be on a firm financial basis.

Lowell Textile Co.

Word was received yesterday afternoon at the Lowell Textile Co. in North Chelmsford, which manufactures towels of all descriptions, that a boat loaded with linen consigned to the plant had arrived at Boston. This boat has been between 15 and 20 days late in arriving, and has set back the work somewhat, but it is expected that within two weeks, night operations will commence, which will necessitate the employment of several more hands.

Muskeget Mill Busy

The Muskeget mill, which manufactures worsted goods are quite busy regardless of the fact that the past few months are usually the dull months of the year for manufacturing in this line. Superintendant informed the reporter that as far as he could see there will be no let-up. The motor trouble which has caused some difficulties at the plant the past few weeks has been remedied, and a new engine is being installed.

Sanitary Conditions in Factories
The state board of labor and industries has adopted a new plan of putting into execution the labor laws which have been recently put on the statute books.

As an example of the work they are doing, on Wednesday, Aug. 26, they sent notices to 75 of the shoe manufacturers in the district of Massachusetts and called them together for a conference in the board room at 1 Beacon street, Boston, Mass.

The chairman of the board, Alfred Donovan, who is a shoe manufacturer himself, then advised the participants that under chapter 726 of the acts of 1914 that the said state board of labor and industries is obliged to see that suitable, adequate and convenient water closets and washing facilities, separate for each sex, are maintained in all industrial establishments, and he asked for an opinion from the different manufacturers as to whether they thought their present equipment was sufficient to meet the needs of their employees.

There were 15 different representatives who spoke on this question, and they all agreed that there was a great opportunity for improvement in the sanitary conditions, and admitted that there was need of just such a law as this, and, as a result of the conference, a committee of the shoe manufacturers, consisting of Edwin M. Perry, Bliss Perry Co., Newburyport; F. F. Field, Jr., F. F. Field & Co.,

Brookton; Mr. Russ, Russ & Page, Haverhill; J. O. Walker, J. L. Walker & Co., Lynn, and Edwin Binney, commission of labor, Boston, were appointed to submit to the board for consideration such rules and regulations as they thought would be necessary as a standard for the state.

The result of this conference was that all the manufacturers were in a much better frame of mind when leaving, and individually agreed to see that as far as they were concerned every effort would be made to have Massachusetts rank among the leading states, with reference to the conditions under which employees labor.

The board has not adopted any rules, but will wait until the committee submit their report, and will then adopt such rules as in their opinion will be sufficient to meet the necessary needs. This is simply an example of the way that the state board of labor and industries is so ably handling one of the many problems which are under its supervision.

Some of the prominent shoe manufacturers present were: Mr. Perry, Bliss Perry Co., Newburyport; Mr. Reid, F. E. Gregory & Co., Lynn; C. E. Hastings, J. Winchell & Co., Haverhill; E. F. Daniels, L. B. Dudley company, Haverhill; H. E. Chase, W. S. Chase & Sons, Haverhill; W. W. Russ, Russ & Page, Haverhill; C. H. Richardson, Lynn; F. F. Field, Jr., F. F. Field & Co., Brookton; A. H. Grover, J. H. Grover's Sons, Lynn; E. O. Walker, J. L. Walker & Co., Lynn; F. Baker, J. H. Baker & Co., Beverly; Lewis Hartman, Hartman shoe company, Haverhill; Mr. Bray, Bray & Stanley, Beverly; and H. Corbett, A. E. Little company, Lynn—Lynn item.

WHAT AND WHERE CHILE BUYS

The longest way round is not the shortest way home when it comes to transporting merchandise. To get there quickest with the best goods, other things being equal, means commercial success, and that's what the Panama canal will enable the manufacturers and other commercial interests of the United States to do.

Under the above classification, in the line of textiles the United States made a very poor showing. The United Kingdom sold the Chileans over \$1,705,000 worth; Germany, nearly \$8,882,000; France, \$2,560,000; Belgium, over \$1,000,000; and the United States only \$813,000 worth. With the European war engrossing the attention of the four countries enumerated, and with the Panama canal doing business, surely the manufacturers of cotton and wool textiles in the United States will get busy and make a better showing henceforth.

Under mineral products are found such manufactures of steel and iron as wire, granite cooking utensils; pipes, tubing and connections; nails, railway spikes, fishplates, steel rails, car wheels, structural steel, etc., and of the total Germany sold \$3,120,000 worth; the United Kingdom, \$6,145,000 worth; United States, \$4,125,000; Belgium, \$2,500,000.

Under coal, oils, etc., the details of the 1913 imports are not yet available, but we find that the United Kingdom sold Chile over \$7,809,000 worth while the United States came second with about \$6,000,000 worth. In 1912 the United Kingdom sold the Chileans \$7,145,000 worth of coal alone, Aus-

trials sold nearly \$3,000,000 worth, and the United States but \$500,000. Under machinery (which included railway cars, automobiles, hardware, etc.), Germany sold nearly \$5,800,000 worth, the United Kingdom, over \$4,500,000, and the United States, \$2,544,000. From all of which it may be inferred that it is time for the manufacturers of the United States to get in the game in earnest.

RIVERS AND HARBORS BILL
WASHINGTON, Sept. 3.—The senate voted yesterday to begin consideration of the rivers and harbors appropriation bill today and continue until it is disposed of.

Several republican senators proposed to fight the bill, which carries appropriations aggregating \$33,000,000.

SIGN NEW PANAMA TREATY
PANAMA, Sept. 3.—An important treaty by the terms of which the United States gains control of the waters of the harbors of Colon and Ancon, together with certain other valuable rights, was signed yesterday by William Jennings Price, the American minister, and Ernesto Llerenas, Panamanian secretary of foreign relations.

The United States requires absolute control over all the waters of Colon and Ancon harbors and, in addition, two small islands lying in Ancon harbor which are to be used for observation and light stations by the coast artillery. One of these islands will be fortified. The site of Battery Hancock is given to the United States as is also the control of all the piers at the north entrance of the canal costing approximately \$2,500,000.

TO REORGANIZE CLAFLIN CO.
NEW YORK, Sept. 3.—At a meeting of the General Mercantile Creditors committee of the H. B. Claflin Co. yesterday, tentative suggestions were received from the noteholders' committee which embodied the basic principle of which a plan for the reorganization of the company may be worked out.

It was said after the meeting that the general mercantile creditors committee has virtually consented to the plan as proposed by the noteholders. It is understood that the plan provides in a general way for the paying of 15 per cent. in cash and the issuing of bonds of a new corporation.

FARMERS' APPEAL TO CONGRESS
FORT WORTH, Tex., Sept. 3.—An appeal to congress to finance the marketing of the cotton crop of 1914 was authorized today by the Farmers' Educational and Co-operative union of America. Details of the plan to relieve the market stagnation caused by the war in Europe were left to the judgment of a committee which will go to Washington immediately to present the appeal.

WAR SPIRIT IN CANADA
OTTAWA, Ont., Sept. 3.—The war spirit is growing in Canada. The officials are being overwhelmed by men eager to go to the front. The first call was for 25,000 volunteers from

MARTY O'TOOLE, \$22,500 PITCHER BOUGHT BY GIANTS FROM PITTSBURGH

NEW YORK, Sept. 3.—John J. McGraw has bought Marty O'Toole from Pittsburgh. While the price was not made public, the amount is believed to be \$1500, the waiver price. Pittsburgh has asked waivers on O'Toole several times this season, a deal having been arranged for his transfer to an American Association club, but McGraw refused to waive. O'Toole was bought three years ago from the St. Paul club of the American association, where he had made a great record. The price was said to be \$22,500. He won his first game with the pirates and since then has been ineffective. So far this year he is credited with winning one game and losing nine. O'Toole uses the spitball, and his trouble has been lack of control. He has plenty of "stuff" on the ball, but he can't make it go where he wants it to. McGraw has many double headers scheduled for the rest of the season, and he needs another pitcher, and he hopes that a change of location will bring O'Toole back to the form he displayed before he was brought into the big league with an amount of advertising that was a severe handicap.

LEGAL NOTICES
